The superiority of Cutter's pills is
proved in the following testimonial:
THE CUTLER LABORATORY, Berkeley, California.

BLACK LEG
His Mission in Buffalo.
In the smoking room of an east-
bound Pullman the other evening there
were two men—one of them grumpy,
the other receptive. After smoking
two indifferent cigars, the latter said
to the former:
"How far are you going?"
"Buffalo," acknowledged the other
one, taken off his guard.
"Is that so? Well, Buffalo is a great
town. I have a cousin living there
and I've been there myself several
times. The last time was during the
Pan-American exposition, 12 years ago
and over. How—what are you going to
do in Buffalo?"
"Change cars."—Philadelphia Times.

Not many years ago Russia was a
strong rival of the United States in
the production of petroleum. Now
the Russian empire yields only about
58 per cent as much oil as California
alone, and not much more than Okla-
homa.

Two carpenters and a plumber from
England have recently been traveling
in Belgium. Vocational scholarships
were awarded to them, by means of
which they are investigating old and
new methods of house construction.

State Agents for this appliance.

Wonderful Blood Remedy
That Works in the Tissues
The Very Latest Theory About How and Why the
Blood is Disordered.

S. S. S. Means Pure Blood Which Insures Long Life and Health.
The great experts in Chemistry and
Physiology now declare what has all
along been contended by the Swift Lab-
oratory that the germs of blood disorders
find lodgment in the interstices of the
tissues.
And herein is where S. S. S. goes to
work rapidly, effectively and with won-
derful noticeable results.
This famous blood purifier contains
medicinal components just as vital and
essential to healthy blood as the nutritive
elements of wheat, roast beef, and fats
and the sugars that make up our daily
ration.
As a matter of fact there is one ingre-
dient in S. S. S. which serves the active
purpose of stimulating each cellular part
of the body to the healthy and judicious
selection of its own essential nutriment.
That is why it regenerates the blood sup-
ply, why it has such a tremendous influ-
ence in curing rheumatism, skin disor-
ders, and all skin afflictions.

203 KILLED IN GAS EXPLOSION

Fire Follows and Ruins West Virginia Mine.

Flames Stop Rescue Work—Fifty-Nine Escape With Lives—Many Badly Burned.

Eccles, W. Va.—All hope for the rescue alive of the 203 miners entombed by an explosion Wednesday in mines No. 5 and 6 of the New River collieries here has been abandoned. Rescuers were unable to force their way into the burning shafts. Fifty-nine men, all burned severely, were rescued alive from No. 6. Four bodies were recovered from the same shaft. The disaster, the second largest in the mining history of West Virginia, was caused by a gas explosion in the 600-foot level of mine No. 5. It was followed five minutes later by a second explosion, which wrecked its mine and partially demolished No. 6, a connecting property.

One hundred and ninety men were at work in No. 5 and not one of them reached the surface. The mine immediately caught fire and attempts at rescue work were futile. Rescue parties, driven back by the intense heat and deadly gases, were forced to halt their efforts to reach the entombed men.

The dead and injured were taken from No. 6 through one of the four mine shafts not injured by the explosion. Thirteen men are still in No. 6. The fans in No. 6 mine are working and the entry to No. 5 from this mine has been bratticed to prevent fire from extending from one mine to the other.

Rescue work is practically at a standstill because of the fire and gases. Governor Hatfield, of West Virginia, and high officials of the company, together with government and state mine experts, are at the mines rendering all possible assistance.

Government, state and volunteer rescuers desperately worked to subdue the flames in the mines. The depth of the mines are connected underground. There are two other shafts into the mines, but the explosion totally wrecked three of the four.

HUERTA HAS NO NOTION OF QUITTING PRESIDENCY

Paris—A dispatch to the Matin from Mexico City says:

"President Huerta says he has no idea of retiring from the presidency and also that he never thought of treating with Rear Admiral Fletcher. 'Papata, with 18,000 adherents, offers to join in a fight against the Americans. The city is calm. Nothing seems to indicate a state of war, but enlistments continue.'

Warships Leave Tampico to Alay Misapprehension

Washington, D. C.—"The reasons for withdrawing naval forces under Admiral Mayo from Tampico," said an official statement by the Navy department Wednesday, "was that Admiral Mayo was informed by persons intimately in touch with the situation that it was necessary for the safety of all foreigners that the United States naval vessels should not be near town."

"He was informed that the Mexicans apparently considered war on that the federal and constitutionalist forces were exchanging overtures to unite their forces against Americans and that the presence of the United States ships near Tampico would almost surely cause the two forces to combine."

"The British naval captain volunteered to send out all Americans, and therefore Admiral Mayo decided it was best that his forces should not be at Tampico."

"Admiral Badger agreed entirely with Admiral Mayo and the department endorsed his action. 'Results have justified the action.'"

Mediation Becomes Chief Point in Mexican Crisis

Washington, D. C.—The Mexican crisis is now centering on the mediation between those who are seeking through the good offices and intermediation of Latin-America to find middle ground for pacific adjustment and those who regard a resort to arms as an inevitable consequence of what has occurred.

Two distinct branches of activity are manifest here—that of the envoys of Argentina, Brazil and Chile in formulating a plan to be submitted to the United States and the Huerta regime, and that of the military and naval forces of the United States, which continue to go forward steadily in preparation for any eventuality.

British Force Huerta.

Vera Cruz—Commander Tweedle, of the British cruiser Essex, who went to the capital to see President Huerta on behalf of Rear Admiral Crockett, of the Royal Navy, to induce Huerta to consent to let all persons desiring to do so, leave the capital, has arrived here. Commander Tweedle reported that President Huerta agreed to the request. The train on which Commander Tweedle returned to Vera Cruz picked up 100 American refugees assembled at Soledad, consisting mostly of women and children.

New Offer Made Ulster.

London—Much interest has been created by a new offer to Sir Edward Carson, the Ulster leader, made by Winston Spencer Churchill, first lord of the admiralty, in a speech in the house of commons Wednesday night. The minister invited Sir Edward Carson to attempt to compromise the home rule question. Mr. Churchill is reported to have spoken entirely for himself and without the authority of the cabinet. Many of the liberals are indignant at him for taking this course.

Seven Killed In Fight With Colorado Strikers

Denver—An unknown number of strikers late Tuesday attacked the towns of Louisville, Lafayette and Marshall, in the Northern Colorado coal fields. Machine guns were used. The 40 mine guards returned the fire with machine guns. Bullets were so thick that all telegraph and telephone communication was destroyed for a time.

Harold Martin, of Lafayette, has organized a posse of 200, and is speeding to the scene.

The Hecla mine, the center of the attack, is 22 miles north of Denver and is surrounded by a stockade. The mine guards' ammunition is rapidly being exhausted. Aid is imperative. The Vulcan mine at Lafayette was also attacked.

Walsenburg, Colo.—Sheriff Jeff Farr reported Wednesday morning that firing continued, spasmodically, at the Walsenburg mine, near here, and that seven men had already been killed. Four of these were said to have been killed before dark and the remainder during the night. All of the reported dead, he said, were mine guards. Troops arrived just before midnight and set out for the mine.

Much uneasiness is felt here as to the safety of the troops. There were 50 men and the force of strikers is estimated at considerably more than 300. The defenders still hold the property.

Food Commissioners Score Baking Powder Peddlers

Salt Lake City.—Food commissioners of the Northwest, in conference in this city, went deep into the question of adulterated baking powders, scoring especially those powders containing albumen, or white of egg, in dried and powdered form. This ingredient, it is claimed, enables agents and demonstrators to make a brilliant and to the uninitiated, highly effective "test" of the various powders by dissolving them in water.

The following ruling was promulgated by the conference: "The essential elements of baking powder are the leavening agents and the necessary filler to prevent accumulation of moisture and consequent deterioration. Albumen or white of egg has no leavening power in the quantity used, and it performs no legitimate function in the consumption of the baking powder. It is added simply for the purpose of deception, to make the product appear better and of greater value than it really is, and constitutes an inert ingredient substituted in part for the proper ingredients of a baking powder. The powder, therefore, which contains egg albumen is deemed to be adulterated under the law."

James H. Wallis, State Dairy, Food and Sanitary Inspector of Idaho, W. F. Cogswell, Secretary of State Board of Health of Montana, in charge of the enforcement of the Food and Drug act. Heber C. Smith, Acting State Dairy and Food Commissioner of Utah. J. D. Mickle, State Food and Dairy Commissioner of Oregon.

"We agree with the ruling promulgated by the commissioners of Idaho, Montana, Utah and Oregon prohibiting the sale of baking powders containing egg albumen, for the reasons stated by them, and would join them in the prohibition if such action could be taken under our state laws. We regret the adulteration clause of our laws does not afford the same protection to our consumers against such fraudulent products, and trust that the Federal law will be amended to forbid the interstate shipment of such baking powders."

Maurice Groshon, State Dairy, Food and Oil Commissioner of Wyoming. Sanford C. Dinsmore, State Food and Drug Commissioner of Nevada.

West Coast Being Cleared.

Nogales, Ariz.—The west coast of Mexico is rapidly being cleared of Americans. One hundred and fifty American refugees arrived Wednesday from points south of Hermosillo. Many of the refugees, which included women and children, are railroad officials and mining men who had taken up permanent residence in Mexico.

Another train bringing Americans from Culiacan and from the Yaqui River valley, southeast of Guaymas, was expected later.

Rebels Control Sonora.

Douglas, Ariz.—Constitutionalist representatives here received a telegram from Colonel P. Elias Calles, in command of the garrisons in Sonora, stating that good order is being maintained in all portions of Sonora and that the constitutionalists have the situation well in hand.

J. T. Paxton, British vice consul here, has been assured by telegram by Acting Secretary of Foreign Affairs Fabela, of Carranza's cabinet, that the lives and property of British subjects in Sonora will be protected.

Aviators Seek Mexicans.

Washington, D. C.—No trace of Mexican soldiers in the country surrounding Vera Cruz was observed by Navy aviators who engaged in scout work over the city and environs Wednesday, according to dispatches from Admiral Badger to the Navy department. "Aviators Bellingier and Sauffley," the message said, "made a scout flight of one hour and 40 minutes at an altitude of 3000 feet. They covered the territory reaching 10 miles west, 15 miles north and 12 miles south of the port."

Central America Is Refuge.

New Orleans—Many Americans are getting out of Mexico into Central America, according to W. C. Albers, who arrived from Tegucigalpa, Honduras. Mr. Albers is a consulting engineer in the employ of a New York firm. He said Americans had told him that foreigners in Southern Mexico were in great danger, and that many were leaving as quickly as they could.

TROUBLE LOOMS IN STRIKE WAR

Colorado Coal Miners Violate Truce With Militia.

Strike Breakers in Pueblo Mills Fired On—"Mother" Jones Addresses Denver Meeting.

Denver—State officials Monday declared the truce which had existed for two days between the strikers in the Southern coal fields and the state militia had been broken by the strikers and that the militia now is under no obligation whatever to refrain from aggressive acts to restore peace.

Concerning the violation of the truce agreement, Governor Ammons said:

"Of course the truce has been broken by the strikers. They broke it Sunday night in Trinidad, Sunday in Chandler and again Monday in Chandler. 'They say they could not get word to the strikers in Fremont county, but that is absurd. They are getting word to them there now, and they could have done it then."

"No one is under further obligations so far as the truce is concerned, and the state troops will do their utmost to enforce peace throughout the region until the situation is taken in hand by the federal troops, as I understand it will be at once."

"General Chase has been ordered to push aggressively his campaign against disorder in the zone, irrespective of future promises from the strikers."

Governor Ammons and others quoted Horace Hawkins, attorney for the mine workers, as "expressing deep chagrin that the truce, which he had gone to much trouble to arrange, had been violated."

Pueblo, Colo.—Three men, employees of the steel mill in this city, were shot Sunday by strikers. They were members of a party of 20 men on their way to Williamsburg in an automobile. The automobile brought the wounded men, Gilbert Murray, J. Schmidt and J. Leithead, to a hospital here.

Denver—Colorado strikers, various sympathizers and radicals of various types swarmed on the capital grounds and the corridors an hour before the mass meeting of the Workers' Defense League began at 3 o'clock Sunday.

"Mother" Mary Jones created a sensation when she appeared, unannounced, in her exhortation, sprinkled with reminiscences of West Virginia and Washington, she reiterated advice that they "keep cool," "do nothing unlawful," and in the fall elections, elect representatives and an executive who would "be glad to serve the honor of the state and not the Standard Oil."

Just before the arrival of "Mother" Jones, a resolution was passed denouncing absentee landlordism, alleging that 2000 miners died because "dividends could not be lessened by the expense of the improvements" within the last 20 years; that the state, county and municipal officials "had been purchased and the election machinery seized, desperadoes hired and militia used as a constant threat."

The resolution pledged the lives and liberties of the audience to the relief of "12,000 men speaking 36 tongues" in the strike district, who were in revolt, demanded the withdrawal of troops; the seizure of mines by the state, pending adjustment by the strikers and operators; and the cancelling of leases to 13,000 acres of school lands and the development of the state's coal land acreage; a constitutional amendment repealing the Moyer decision; denouncing Governor Ammons and Lieutenant Governor Fitzgerald as "traitors to the people and accessories to the murder of babies," and called on the special session of the legislature to impeach them.

Guns Closely Guarded On California Border

Calexico, Cal.—Possibility of a sudden shot from the machine guns at the military encampment here caused Captain James G. Harbord, ranking officer of the United States forces, to issue an order for civilians to keep away from the spot where two field pieces are pointed toward Mexico.

The bank of the canal, which forms a natural breastwork for the forces east of Calexico, was reinforced with sacks of sand.

For the benefit of American ranchers south of the line some citizens have planned a system of signals from the flagpole at the top of the water tower.

Spaniards Are Neutral.

Washington, D. C.—Spanish diplomatic officials in Washington say emphatically that Spanish residents in Mexico are maintaining the most scrupulous neutrality in the present situation. They declare that published reports purporting to quote General Carranza in a dispatch to Madrid as saying that many of the 17,000 Spaniards in Mexico are ready to fight by the side of Mexicans against the invaders were groundless in view of the strictly neutral attitude of Spaniards in Mexico.

Army School Is Closed.

Leavenworth, Kan.—A flurry was caused at Fort Leavenworth Monday night, when orders were received by Lieutenant Colonel W. P. Burnham, the commandant, from the War department directing that the army service schools be closed and that the student officers be graduated Tuesday.

Aviators Sight Fires.

Washington, D. C.—Naval aviators flying over Vera Cruz saw railroad bridges at Boca Del Rio, south of the port, burning and reported trestles at Rio Moreno ablaze. These trestles are not on the line to Mexico City.

W.L. DOUGLAS SHOES

Men's \$2.00 to \$3.00
Women's \$1.50 to \$2.50
Misses' \$1.00 to \$2.00
Boys' \$1.00 to \$2.00

COLD IN HEAD CATARRH

INSTANTLY RELIEVED BY THE OLD
DR. MARSHALL'S
CATARRH SNUFF
25¢ ALL DRUG STORES OR SENT BY MAIL FOR 50¢

Too Ostentatious. The Tall Blonde—Absence makes the heart grow fonder.
The Short Brunette—But the Lima (O.) man who shot off fireworks when his wife went away on a vacation made a vulgar display of his affection.—Judge.

HOW TO CLEAR AWAY THOSE UGLY PIMPLES

It is so easy to get rid of pimples and blackheads with Resinol, and it costs so little, too, that anyone whose face is disfigured by these pests is foolish to keep on with useless cosmetics, or complicated "beauty treatments." See how simply it is done: Bathe your face for several minutes with Resinol Soap and hot water, then apply a little Resinol Ointment very gently. Let this stay on ten minutes and wash off with Resinol Soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, leaving the complexion clear and velvety. Sold by all druggists, Resinol Ointment, 50 cents and \$1, Resinol Soap, 25 cents.—Adv.

Flowers on Lamp Posts. A unique work is being carried on successfully in Minneapolis, for example, where window boxes and hanging gardens have been introduced in the business thoroughfares. Last year more than 15,000 feet of hanging garlands were maintained in the busiest streets. The business houses are regularly canvassed for the purpose, and agreements are made for installing boxes of flowers or shrubbery. A private subscription was started further more to install hanging gardens upon the ornamental lamp posts of the city. More than 500 of these attractive miniature gardens have been installed by an association which regularly waters the plants and replaces the flowers when they wither. As the result of this public-spirited work and at very trifling expense Minneapolis has won the enviable title of the "City of Flowers and Hanging Gardens."

All at Sea. "Congressman Wallaby looks worried since women got the ballot."
"Yes; he says he's all at sea. He's an expert at kissing babies, but he doesn't know just how to campaign among grown girls."

Palms live under favorable conditions for 250 years.

WOMAN COULD NOT SIT UP
Now Does Her Own Work.
Lydia E. Pinkham's Vegetable Compound Helped Her.

Ironton, Ohio.—"I am enjoying better health now than I have for twelve years. When I began to take Lydia E. Pinkham's Vegetable Compound I could not sit up. I had female troubles and was very nervous. I used the remedies a year and I can do my work and for the last eight months I have worked for other women, too. I cannot praise Lydia E. Pinkham's Vegetable Compound enough for I know I never would have been as well if I had not taken it and I recommend it to suffering women."

Daughter Helped Also. "I gave it to my daughter when she was thirteen years old. She was in school and was a nervous wreck, and could not sleep nights. Now she looks so healthy that even the doctor speaks of it. You can publish this letter if you like."—Mrs. RENA BOWMAN, 161 S. 10th Street, Ironton, Ohio.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Cruel. "Men are inconsiderate things," observed the bride of a few months. "You are not growing pessimistic already?" smiled her friend. "Well, they are selfish. Yesterday Harry had the cook broil for him the nice lamb chops I had ordered for my dog."—Judge.

A Mere Man's Opinion. Woman wants the ballot, and she would get it instantly if she didn't want so many other things that tend to divert her attention.

A CLERGYMAN'S TESTIMONY. The Rev. Edmund Hestop of Wighton, Pa., suffered from Dropsy for a year. His limbs and feet were swollen and puffed. He had heart fluttering, insomnia, and was exhausted at the least exertion. Hands and feet were cold and he had such a dragging sensation across the loins that it was difficult to move. After using 5 boxes of DODD'S KIDNEY PILLS the swelling disappeared and he felt himself again. He says he has been benefited and blessed by the use of DODD'S KIDNEY PILLS. Several months later he wrote: "I have not changed my faith in your remedy since the above statement was authorized. Correspond with Rev. E. Hestop about this wonderful remedy. DODD'S KIDNEY PILLS, 50c per box at your dealer or DODD'S MEDICINE CO., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

Advancement. "Are you sure those Indians are civilized?" "Not quite. They have given up ghost dancing. But they are not yet quite sure of themselves in the tango."

Schemes for the construction of a 3000 mile railway through Central Africa, at a cost roughly estimated at \$50,000,000, have been revived by the termination of the war between Italy and Turkey.

The queen bee lays 200 eggs a day. Who would a queen be?

Sprains, Bruises Stiff Muscles

are quickly relieved by Sloan's Liniment. Lay it on—no rubbing. Try it.

Ankle Sprain and Dislocated Hip. "I sprained my ankle and dislocated my hip by falling out of a third story window. Went on crutches for four months. Then I started to use your Liniment, according to the directions. I must say it is helping me wonderfully. We will never be without Sloan's Liniment anymore."—Charles Johnson, Leavenworth Station, N. Y.

SLOAN'S LINIMENT

Kills Pain
Splendid for Sprains. "I fell and sprained my arm a week ago and was in terrible pain. I could not use my hand or arm until I applied your Liniment. I shall never be without a bottle of Sloan's Liniment."—Mrs. H. E. Springer, Leavenworth, N. Y.

Fine for Stiffness. "Sloan's Liniment has done more good than anything I have ever tried for stiff joints. I got my hand hurt so badly that I had to have work right in the longest time of the year. I thought that if I would only have had your hand tincture, but I got a bottle of Sloan's Liniment and cured my hand."—Mrs. J. H. Hester, Morris, Ala.
