of all kinds wanted. Write for our CASH OFFER
Pearson-Page Co. PORTLAND OREGON.

SECOND-HAND MACHINERY
Bought, sold and exchanged; engines, boilers, sawmills, etc. Send for Stock List and Prices.
T. E. J. MARTIN CO., 50 So. St., Portland, Or.

DAISY FLY KILLER
Kills all flies, mosquitoes, etc. in a few minutes. Write for free literature.
ROBERT SOMERS, 150 DuSard Ave., Brooklyn, N. Y.

BLACK LEG
Loses are surely prevented by Cutler's Blacking Pills. Low priced, fresh, reliable, preferred by Western stockmen because they prevent the disease before it starts. Write for literature.
THE CUTLER LABORATORY, Berkeley, California.

Wanted a Whole Ball Team.
While his mother was crocheting booties for the one coming they were shown to Clarence, 2 years old, and he was asked:
"If God gave us another baby do you want a little brother or a little sister?"
After many minutes of thought he said: "Well, mother, if it doesn't make any difference to you, I had rather that the first nine were boys."

Handing Her One.
Kitty—Jack told me last night that I was the prettiest girl he'd ever seen.
Ethel—Oh, that's nothing. He said the same to me a year ago.
Kitty—I know that, but as one grows older one's taste improves, you know.

Efficiency.
"I hope," said one wife to another, "that you never nag your husband."
"Only when he is beating the rugs," said the second one. "When he is thoroughly irritated he makes a much better job of it."—Ladies' Home Journal.

Tobacco Habit Easily Conquered
A New Yorker of wide experience, has written a book telling how the tobacco or snuff habit may be easily and completely banished in three days with delightful benefit. The author, Edward J. Woods, 118 D. Station, New York City, will mail his book free on request.
The health improves wonderfully after the nicotine poison is out of the system. Calmness, tranquility, sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency and other symptoms are benefits reported. Get rid of that nervous feeling, no more fits, no more sneezing, sniffing, or chewing tobacco to pacify morbid nerves.

RUPTURE IS CURABLE
By wearing a SHELLEY SPERMATIC SHIELD TRUSS. No worrying or danger of an operation. Rupture is not a tear or breach, as commonly supposed, but is the stretching, or dilation, of a natural opening. The SHELLEY SPERMATIC SHIELD appliance closes this opening in 10 days in most cases. If you can't come, write for measuring blank and literature. Sold only by
LAUE-DAVIS DRUG CO.
Third and Yamhill, Portland, Or.
Who are True Experts and Exclusive State Agents for this appliance.

Blood Troubles Are Often Hard to Locate
Catarrh, for Example May Be the Cause of Very Serious Illness.

A Slight Trouble Often Brings Serious Blood Disorders.
A chronic condition, something wrong constitutionally. Pimples break out, eruptions, rheumatism, nervous, fatty elimination. These and a hundred other symptoms are easily recognized, but where is the trouble? Where is it located? What is wrong with the bodily machinery?
If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of those conditions that cause sickness and disease. But don't let anyone work off that old trick of something "just as good."
S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all surfaces to exchange inflammatory acids and other irritating substances. For arterial ailments that effectively cleanse the system and thus put an end to all pollution. S. S. S. cleans out the stomach of noxious accumu-

Men Die to Save Girls.
Philadelphia—Three young men jumped from a leaking rowboat sinking in the Delaware river late Sunday and were drowned. Their four companions, rescued by a motorboat after their own craft had capsized, said that the trio, none of whom could swim, took to the water, hoping the lightened boat could reach shore. Raymond Tinney was the first to jump. His fiancée, Sarah German, was one of the girls rescued. The others who jumped with Tinney were John Monehoch and John Murphy.

Four Disasters Greater.
Only four marine disasters in the last century have equaled or exceeded in number of lives lost that of the Empress of Ireland. They are:
Loss of Rhone, Wye and other vessels at St. Thomas, in the hurricane of October 29, 1867; 1000 perished.
Burning of excursion boat General Slocum in East river, New York, June 15, 1904; 1031 lost.
Sinking of Titanic, April 14, 1912; 1490.
Loss of Kioke Maru, off Japanese coast, September 28, 1912; 1000.

Ship on High Seas Hunted.
Washington, D. C.—Captain William S. Sims, commanding the torpedo boat, returning north from Vera Cruz, has been ordered by the Navy department to search for the missing steamer F. J. Luckenbach. The nine destroyers and the tenders Birmingham and Dixie will form in an extended line about 70 miles long as they proceed northward to search for the missing ship.

Baited Salute Fired.
Annapolis, Md.—Because he failed to count correctly, or in some other manner missed the number of guns being fired when Secretary Daniels was a visitor at Annapolis on last Saturday, a chief gunner's mate at the Naval Academy is in the "brig" of the station ship Reina Mercedes.
The secretary was here to see the army-navy baseball game. Naval regulations call for 49 guns to comprise the salute to cabinet officers. The salute fired on Saturday was one gun short.

Fish Jump Into Launch.
Newport, Or.—While coming down the Alsea river in a flat-bottomed launch in which they had gone fishing, H. F. Jenkins, Frederick Butterfield and Joseph Patterson, of Newport, and their guides were astonished to see it rain fish, they said. The launch passed through a school of perch in a shallow place, and the water boiling in the wake caused the fish to jump and many landed in the back of the launch.

Volcano Due to Geysers.
Red Bluff, Cal.—Forest Supervisor Rushing has reported that the disturbance at Mount Lassen is of geyser origin and is caused by the rapid melting of snow as it slides down into the fissures of the crater. The large body of snow and the intense heat cause an immense amount of steam. The mountain began to fill and listed rapidly. When he struck me I had stopped my engines. I then rang full speed again, when I saw the danger was so great, with the object of running her ashore."

California Building at 1905 Fair Grounds Burns
Portland—The California State building at the Lewis and Clark fair grounds was burned at 1 o'clock Monday morning in a spectacular fire that threatened for a time to destroy the Forestry building, the Oriental building, and houses in the Willamette Heights district. Sparks from the blazing structure were carried by a west wind over the northern part of the city. Had the wind not been light many other blazes would almost certainly have resulted.
Two patrolmen who were the first to arrive at the fire, think it of incendiary origin. They were a distance of only a few blocks away when it started. When they reached the scene the entire building was burning. The California building was one of the notable landmarks of the Lewis and Clark exposition. It was constructed along mission architectural lines.
Carrying out the mission idea still further, three small belfry towers, each containing a chime bell, were on the front end of the building. As the walls fell, the tumbling chimed tolled as they dropped to the ground.

Portland Fadesless Dyes do not stain the kettle.
A report of the interstate commerce commission gives 1,639,213 as the total number of men and women employed by the steam railways of the United States.
Wooden rails are being displaced by steel receptacles, says the American Machinist. For the paint trade alone one plant turns out every year 4,000,000 steel rails to hold white lead.

No Swimmer.
Edna—Did she sink in the social sea?
Winifred—Yes; she went beyond her depth.—Judge.

Wonders of Electricity.
Here is one that was told by Congressman Claude Weaver of Oklahoma the other night, and is reported in the Philadelphia Telegraph.
Some time ago a young farmer who had joined the army and gone to the Philippines sent a cablegram to his father. The day after the arrival of the message the father was speaking about it to a farmer friend.
"Great thing is that telegram, Josh," remarked the father. "Jes' think o' that message comin' all them thou sand miles!"
"Yes," was the hearty response of Josh. "an' so the wonderin' quick, too." "Thunderin' quick!" exclaimed the father. "Well, I should say so! When I got that message the mail on the envelop wasn't dry yet."

Costly Hangings.
"I hear the duke's American wife is refitting the castle."
"In fine style. It's a case of hang the paintings, hang the tapestries hang the expense."—Louisville Courier-Journal.

Like King Alfred.
Mrs. Comcup—I like our minister because he talks right out in good old Angular Saxon.
Cynicus—That probably accounts for his lack of rounded periods.—Baltimore American.

She—Before we were married you solemnly declared that you never could be happy without me.
He—True; but marriage has made another man of me.—Boston Transcript.

RESINOL EASILY STOPS SKIN TORMENTS
The soothing, healing, comforting medication in resinol ointment and resinol soap sinks right into every tiny pore of the skin, clears it of impurities, and stops itching instantly. Resinol speedily heals eczema, rashes, ringworm and other eruptions and gets rid of disfiguring pimples and blackheads when other treatments prove a waste of time and money.
Resinol is not an experiment, it is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for 19 years. Sold by all druggists, resinol ointment, 50c and \$1, resinol soap, 25c.

The late Canon Fleming's sermon, "Recognition in Eternity," which was preached at Sandringham Church on January 24, 1892, and is sold in pamphlet form, has realized a profit of \$8805, which the queen has divided between the Gordon Boys' Home and the British Home and Hospital for incurables, Streatham.

Allen's Foot-Powder is a certain cure for hot, sweating, chafed, and swollen, itching feet. Sold by all Druggists. Price 25c. Don't accept any substitutes. Trial package FREE. Address: Allen's, Olmsted, Le Roy, N. Y.

This is No Joke.
First Stranger, in Boston—Can you tell me how to reach Washington street?
Second Stranger—That's just where I want to go. Let's work together. You go south and I'll go north, and we'll report progress every time we meet.—Puck.

It Cures What You Walk.
Allen's Foot-Powder is a certain cure for hot, sweating, chafed, and swollen, itching feet. Sold by all Druggists. Price 25c. Don't accept any substitutes. Trial package FREE. Address: Allen's, Olmsted, Le Roy, N. Y.

GOOD SUIT MADE TO ORDER \$650
Lining Guaranteed for Two Years. From any selection of cloth, in any color, style, or pattern, we will make you a suit that will last for years. Our suits are not approached by any other. We use the best materials, and we make them to order. Write for our catalog and we will send you a free sample of our wool. Address: THE CAPTAIN TAILORS, DEPT. 228, CHICAGO, ILL.

COLLIER GAVE PLEA NO HEED

Skipper of Empress Shouted in Vain for Full Speed.

St. Lawrence Disaster Under Investigation—Danish Ship's Captain Blamed.

Rimouski, Quebec—While final tabulations of the casualties in the sinking of the ill-fated steamer Empress of Ireland were being made Monday, showing that 403 of her passengers and crew had been rescued and 964 had perished, Captain Henry George Kendall, of the liner, was telling his story of the disaster at an inquiry conducted by Coroner Pinaud here.

The St. Lawrence in substance declared that he had taken all possible precautions against a collision. His ship had been stopped, he gave the requisite signals when the Danish collier, which dealt the blow which sent down soon after the two vessels sighted each other, and had rammed the Empress of Ireland when the latter vessel was virtually motionless.

Then, despite his plea to the master of the collier that he run his engines full speed ahead to keep the hole in the liner's side plugged with the St. Lawrence's bow, said Captain Kendall, the Danish vessel backed away, the water rushed in and the Empress sank.

"After passing Rock Point gas buoy, I sighted the steamer St. Lawrence, it then being clear," said Captain Kendall.

"The St. Lawrence was then about one point 12 degrees on my starboard bow. At that time I saw a slight fog bank coming gradually from the land and knew it was going to pass between the St. Lawrence and myself. The St. Lawrence was about two miles away at that time. Then the fog came and the St. Lawrence's lights disappeared.

"At the same time I blew three short blasts on the steamer's whistle, meaning, 'I am going full speed astern.' The St. Lawrence answered with the whistle, giving me one prolonged blast.

"I then looked over the side of my ship into the water and I saw my ship was stopped. I stopped my engines and blew two long blasts, meaning, 'My ship was under way, but stopped and has no way on her.' It answered me again with one prolonged blast. The sound was then about four points on my starboard bow.

"I was still fogged, I looked out to where the sound came from. About two minutes afterwards I saw her red and green lights. He would then be about one ship's length away from me. I shouted to him through the megaphone to go full speed astern, as I saw the danger of collision was inevitable. I shouted to the St. Lawrence to keep full speed ahead to fill the hole he had made. He then backed away. The ship began to fill and listed rapidly. When he struck me I had stopped my engines. I then rang full speed again, when I saw the danger was so great, with the object of running her ashore."

Death List in Empress Wreck Much Increased
Quebec—The confusion as to the number of persons who perished in the Empress of Ireland disaster last week has been one of the distressing features of the tragedy and the uncertainty was further emphasized when figures, declared by the Canadian Pacific Railway Steamship company to be official, raised the death list to 1024 from 969 on Sunday night—55 more.

Friday the company said at its Montreal office that the Empress of Ireland carried 1387 persons. It was on that figure that the list of survivors and missing was based. The company has asserted that the Empress carried 1476 passengers, officers and crew, or an addition of 89. As a partial offset, the figures giving the number of rescued were raised by 36—four from the first cabin, three from second cabin and stateroom and 29 officers and crew. A discrepancy of two in these figures was not explained by the company. The total saved from the disaster is not placed at 452.

Of the 1024 who died, the bodies of only a few more than 200 have been recovered and of these only 103 have been identified.

Huerta Paves Way To His Resignation

Niagara Falls, Ont.—General Huerta is preparing to resign. He has authorized his representatives at the mediation conference to announce to the world that "neither mistaken pride nor personal interest" would prevent his withdrawal after Mexico is "politically pacified" and the government succeeding his is so constituted that it can count on the support of public opinion in Mexico.

The Mexican delegates, in a formal statement, revealed that they had been instructed from the first to inform the mediators that General Huerta's personality would not be an obstacle to reaching a peaceful settlement.

They also declared in unequivocal terms that the internal situation in Mexico was "necessarily bound up with the international questions," and that this spirit has actuated them in coming to the mediation conference.

Coincident with the announcement made from the first to inform the mediators that General Huerta's personality would not be an obstacle to reaching a peaceful settlement.

NEWS NOTES OF CURRENT WEEK

Resume of World's Important Events Told in Brief.

A Baltimore doctor says those who would restrict marriages are growing old.
New rulers for Mexico are being considered by the mediators at Niagara Falls.

A Tacoma woman judge gives those who just "drift" into town, 10 days on the rock pile.
Carranza has little faith in success of the "A. B. C." mediators in session at Niagara Falls, Ont.

Huerta seems in high spirits and is loudly cheered when he drives through streets of Mexico City.
President Wilson declares business depression is psychological, and insists that his trust policy goes on.

Washington authorities say the landing of arms at Puerto Mexico for Huerta was a great surprise.
Wholesale execution of Federal officers and women captured in the battle of Paredon, Coahuila, is reported.

A pistol shot fired in a melee at Annapolis military college has proved fatal to William R. Bowles, a student.
Central Labor council in session at Seattle, voted in favor of the admission of Japanese in all unions affiliated with the American Federation.

Fire Friday destroyed the home of J. W. McCormack, a wealthy rancher near Pendleton, Ore. Mrs. McCormack rescued her 7-year-old daughter, who was ill in bed.
Mrs. Joseph R. Knowland, wife of Representative Knowland, of Alameda, Cal., who is a candidate for the United States senate, announces that she will stump the state with her husband.

It is unethical for a lawyer to make a statement for publication in a newspaper concerning a case in which he is engaged or to give out his plan of procedure, according to the view of delegates to the annual meeting of the Illinois State Bar association, who adopted a resolution prohibiting such publication.

The theory of Dr. Samuel Pierpont Langley, who proclaimed to the world that he had solved the problem of the air several years before heavier-than-air machines had been successfully navigated, was vindicated at Hammondport, N. Y., Saturday, when Glenn Curtiss, the aviator, went aloft in "Langley's folly."

Buckingham Palace, London, was invaded by militant suffragettes and many windows were broken.
Two games of baseball were played by the inmates of the Kansas state penitentiary with outside teams for the first time.

Castings were started for a 100-inch reflecting telescope, the largest in the world, to be installed at the Mount Wilson observatory at Pasadena, Cal. The mirror of speculum metal was successfully cast in France after four others had been discarded because of blemishes.

When Squadron B, of the British Columbia Horse, at Vernon, B. C., was called on to parade in camp the men mutinied and refused to leave the breakfast tables until they received a larger allowance of food both for themselves and their horses.

In a letter to Miss Helen J. Sanborn, a trustee of Wellesley college, King Alfonso, of Spain, acknowledged the return by her of a rare old Spanish manuscript believed to have been stolen from a library at Seville founded by a son of the discoverer of America.
