**BIG GRAIN CROP WORTH MILLIONS**

Yield in Pacific Northwest Is  
Estimated 65,000,000.

**Harvesting Returns From Early Sections Point to Excellent Quality of Grain.**

The season is now far enough advanced to make it almost certain that the cereal crops of the Pacific Northwest will be safely gathered. The progress also is sufficient to enable grain men to estimate with a degree of closeness the yields of the leading grains.

That the wheat crop of the three states will break all previous records is conceded by nearly every grain authority in the Northwest. The general estimate now is 65,000,000 bushels for Oregon, Washington and Idaho. The crop in these states last year was almost 56,000,000 bushels. Earlier in the season grain dealers believed the Northwest would produce 70,000,000 bushels of wheat, but it is thought they overestimated the crop, as is frequently done in seasons of great promise.

Close watch has been kept on the growth and maturing of the plant in the leading wheat sections, and the exporters are satisfied that their estimates are nearly correct, and they are preparing to do business on these figures.

Harvesting returns are beginning to come in from the early sections, and not only bear out the estimates of the yield, but for the most part point to an exceedingly good quality of grain.

The barley crop of the Northwest is also excellent and will, it is believed, fully equal the large output of last year. The oats crop is excellent, but in the grain trade the yield is not estimated up to last year's total, as the acreage is some of the important oats districts has been reduced.

Opening prices have not been established definitely in any of the cereal lines. The wheat market has been unsettled by the downward course of values at Chicago and Liverpool. The Eastern and foreign markets were affected adversely by the promise of a 900,000,000 bushels wheat crop in the United States, and in the Northwest, this weakness was reflected in the lower bids put out by dealers for late delivery. More than half a million bushels, however, have been bought for early shipment and prices averaging about 80 cents at tidewater have been paid.

As soon as the world's markets are adjusted to the new crop situation, an active buying movement can be expected in Northwest territory. Figuring roughly on the present and probable prices, the wheat crop of the three states should be worth more than \$42,000,000 to the farmers. The barley and oats crops should bring the total value of Pacific Northwest cereals above \$51,000,000.

**HUERTA AGAIN "ELECTED" PRESIDENT OF MEXICO**

Mexico City—Elections for president, vice president, deputies and senators were held Sunday in that portion of the republic controlled by the Huertista government. Indifference was manifested everywhere.

General Huerta appeared to be the favorite candidate for the presidency and General Blanquet for the vice presidency. President Huerta, it is reported, received a virtually unanimous vote of confidence. The returns indicate the re-election of all present members of the chamber and senate. The highest vote in many years was cast, both in the capital and near-by towns.

**Thirteen Are Drowned in Wrecked Alaska Launch**

Skagway, Alaska—Thirteen persons were drowned July 4 in Lynn canal by the capsizing of the gasoline launch Superb, which, while bound from Skagway for Juneau, with 20 persons aboard, was struck by a heavy southerly gale.

The Superb set out from Skagway Friday night, carrying passengers to attend the Fourth of July celebration at Juneau. At Seduction Point, 15 miles south of Haines, the storm struck the launch full in the face. The little craft managed to turn about and run for Skagway. When the Superb was three miles from Skagway a huge sea overturned the launch. The men clung to the overturned boat.

**Mayor's Assailant Dies.**

Butte, Mont.—Eric Lantala, the Finnish miner who attacked Mayor Duncan with a dirk in the latter's office last Friday and was shot by the mayor, died of the wound. The bullet penetrated the liver. Lantala refused to make any statement. The constitution proposed by the executive committee of the new miners' union was made public and caused friction in the ranks of the insurgent miners. Those who oppose it consider it too radical and allege that it is modeled on principles of the Industrial Workers of the World.

**King May Honor Widow.**

London—It is reported that King George is likely to honor posthumously the late Joseph Chamberlain, who died on Thursday, by conferring a title on his widow, formerly Mary Endicott, daughter of the late William C. Endicott, of Salem, Mass. Mr. Chamberlain himself persistently refused to accept any title. The Dean of Westminster has offered to the family interment in Westminster Abbey for the dead statesman, but his relatives have decided to abide by his wishes and have him buried at Birmingham.

**Archduke Left \$400,000.**  
Vienna—It is said that Emperor Francis Joseph has granted an annual allowance to the late Archduke's children of \$80,000. It is estimated the Archduke's fortune was under \$400,000, insufficient for the up-keep of his castles, which therefore must be sold.

**353 Hindus Give Up Fight to Be Landed in Canada**

Vancouver, B. C.—British Columbia finished with its vexing Hindu problem Wednesday, but it is possible that another one was set up for the Indian empire, when 353 Hindus, on board the steamer Komagata Maru, abandoned their fight for admission to Canada and agreed to go back home. They have been here over a month, and the Komagata Maru was specially chartered to bring them from India by way of Japan. Their stay has been marked by plots to assassinate the local immigration officers, not traceable to anyone on the boat, and by all possible legal proceedings.

They were refused permission to land, because they did not come directly from India, because they did not have \$200 apiece required by the immigration laws and because they were held to be common laborers, liable to become public charges and hence not entitled to admission.

Whether the men on the boat expected to be allowed to land or not cannot be learned definitely. Their coming is said to have been financed by wealthy Hindus unfavorable to English rule on the theory that if they got in it would open the door for others, and if they were excluded, what they would have to say on reaching home would not make the path of the government any smoother. One report was that the men on the boat were picked purposely from districts known for their loyalty to the British in order to disaffirm them.

Gurdit Singh, the wealthy leader, instructed his counsel unconditionally to arrange for the return of the Komagata Maru. The ship's owners ordered her back a week ago, but the captain dared not sail, fearing his passengers would be unruly.

**Banking Laws In Western States Severely Criticized**

Atlantic City, N. J.—Montana, Utah, Washington and other Western states must make radical changes in their banking laws before the new currency system can become generally effective, according to speakers who addressed the National association of Supervisors of State banks at their annual convention here.

It was pointed out that the banking laws of several Western commonwealths forbid the investment of the funds of state chartered banks in stocks of any description. In this there is a conflict between federal and state banking laws.

A feature of the session was an attack on private bankers and the laws which permit their existence by Edward H. Doyle, banking commissioner for Michigan, in which he was supported by several others. Mr. Doyle pleaded for direct co-operation between the comptroller of the currency and the state banking departments to protect the public from worthless investments and banks of dubious credit.

"No one will deny that the days of the private banker are numbered," said Mr. Doyle. "Their number is steadily decreasing and in some states they have been abolished, while in others they are supervised to a greater or less extent."

"I am in favor of the supervision of the private banks only when it is as far-reaching as that required of state or national banks. Such supervision would be tantamount to abolishing the business, which I strongly favor."

**Anarchists and I. W. W's Plan Big Demonstration**

New York—The ashes of three of the victims of last week's dynamite explosion will be the object of public mourning by anarchists, Industrial Workers of the World, and other sympathizers in Union Square Saturday, according to an announcement by Alexander Berkman, anarchist.

The plan to hold public services for the three men who are dead, Arthur Caron, Charles Berg and Carl Hansen, was blocked by the refusal of the health authorities to allow the bodies to remain undisposed of until that day.

Apparently the city authorities have found no way to prevent a demonstration being held. They can forbid the holding of a parade, but cannot, it was pointed out, prevent the agitators from taking the ashes into Union Square. There the friends of the men, according to Berkman, purpose to set up urns containing the ashes and pronounce the men martyrs while the police are being denounced.

**\$75,000 Damages Allowed.**

Chicago—A jury has awarded James B. Wilson, ex-conductor on the Baltimore and Ohio railroad, \$75,000 for injuries received after he had been forced to work 63 hours out of 72, according to testimony. Propped up in a wheel chair, Wilson told the jury he had been made to work three days and nights, from August 19 to 22, 1913, with only nine hours off for rest. He said that while switching a freight car to a sidetrack on the third day, he became exhausted and fell. His arm was crushed and his spine injured.

**Hurricane Hits in East.**

Newport, R. I.—Whether the cup class yachts Defiance, Resolute and Vantile will begin their series of trial races Wednesday with a contest under the auspices of the Eastern Yacht club will depend largely upon the severity of the hurricane which burst over Narragansett bay at sundown. With storm signals displayed along the coast and jets of rain spraying the decks of the yachts as they tugged at their anchor chains, the prospect for yacht racing with boats built only for moderate or fresh airs seemed dubious.

**Wilson Pleads for Maid.**

Trenton, N. J.—Through the personal efforts of President Wilson a woman who was employed in his Princeton home as a domestic ten years will be released from the Mercer county jail, to which she was committed on a charge of habitual drunkenness. Her predicament was discovered by a former Princeton school-teacher, Miss Katharine Welsh, who wrote to the President. Governor Fielder, of New Jersey, was asked by the President to investigate the case.

**ON THE FUNNY SIDE**

**READING THE BIBLE THROUGH**

One May Go Through Holy Book in Sixty Hours at Ordinary Pulpit Rate, Says Dr. Morgan.

Dr. Campbell Morgan, lecturing recently at Sheffield, arrested his audience by the statement that "the whole Bible may be read through at ordinary pulpit rate in 60 hours, or in six weeks, giving an hour and a half each day."

In proof, Doctor Morgan told a good story. When staying in New York his host, the manager of the Manhattan bank, challenged the doctor's statement.

"I asked him to try it," said Dr. Morgan, humorously adding, "for it would at least get my friend through his Bible once."

Some time after the banker met Doctor Morgan, and referring to the challenged statement, said: "You were wrong, you know."

"How far was I out?" asked the doctor.

"Twenty hours," said the manager, "for I have read by Bible through from end to end, and it took me exactly 40 hours."

"But," replied Doctor Morgan, "I said at pulpit rate, not bank manager's rate!"

**Deceived.**  
An accident had occurred. A stager had given away, and two carpenters working on it fell to the ground. One was seriously injured; the other, unhurt, immediately went to his assistance. The usual crowd quickly gathered.

One woman asked in a loud voice: "Where is the other man that was hurt?"

"There he is, holding the injured man," said a voice.

"Oh, yes! See how his cheek is puffed out!"

The uninjured man turned his head toward the excited woman and said: "Madam, for your information, that's a good chew of tobacco."—Judge.

**The Sensitive Fish.**

Mrs. Jones, not having much confidence in the abilities of her servant, went to market herself. Approaching the fish wife's stall, she asked the price of a large carp.

"Sixty cents," was the reply.

The lady examined the fish and exclaimed, "It's not fresh!"

"I tell you it is!" replied the fish wife.

"But it's quite flabby!"

"Oh, go on insulting it!" replied the fish wife bitterly. "It can't answer you!"

And with that kindness of heart which is natural to her, Mrs. Jones bought the fish to make up for the injury to its feelings.—Judge.

**The Precise Man.**

He was painfully exact in his bearing, even in the parting of hair and the arrangement of his tie, and in the way he disposed himself at a small table in a downtown restaurant. After the waiter had taken his order, the manager came along, inquiring:

"Have you been waited on?"

"I am being waited upon," replied the precise man, with emphasis upon "being" and "upon."

Luncheon ended, the manager appeared again, asking cheerfully:

"Is everything satisfactory, sir?"

"Everything was satisfactory," answered the patron.—New York Mail.

**The First Country Theater.**  
The Agricultural College of Fargo, N. D. has opened what is said to be the first little country theater in the United States. The performances are to be given by students, former students and neighbors. Interesting, significant, short plays, American and European, are to be produced in this little theater and the successful pieces have to be taken to the remote and given in other towns and villages in the state.

That this will promote neighborliness, true community life, social intercourse and wholesome recreation, hardly needs emphasizing. Fargo may be proud of its idea, its example. There are few rural communities in which a little enterprise and cooperation, with perhaps a little aid from the extension department of the state university, could not make life pleasanter and give it zest, variety and new meaning.—Chicago Record-Herald.

**Blood Trouble Often A Puzzling Question**

The Searching Power of a Great Remedy Answers the Worst Riddle.

Thousands Have Solved It With S. S. S.

It is now known that the germs of blood disorders are found in the minute spaces of the tissue fibers. They can be seen only through a powerful microscope. And it is in these spaces that S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results.

This famous blood purifier contains medicinal compounds vital and essential to healthy blood.

There is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious secretion of its own essential nutrients. That is why it regenerates the blood supply, why it has such a tremendous influence in overcoming eczema, rash, pimples, all skin affections, rheumatism, sore throat, weak eyes, loss of weight, thin pale cheeks, and that weariness of muscle and nerve that is generally experienced by all sufferers with poisoned blood.

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright and energetic, but you will be the picture of new life.

S. S. S. is prepared only in the laboratory of the Swift Specific Co., 221 Swift Bldg., Atlanta, Ga., who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice.

S. S. S. is sold everywhere by all drug stores. Beware of all attempts to sell you something "Just as good." Insist upon S. S. S.
