# FALL OF LIEGE IS CONFIRMED

## Brussels Announces Victory for German Invaders.

### Emperor William to Join General Staff in Alsace—Japan Gets Active in Far East.

Brussels—It was admitted here late Sunday that the town of Liege had been occupied by the Germans.

London—The occupation of Liege by the Germans is confirmed in a dispatch received here from Brussels early Monday morning.

Confirmation of the reports that Liege had been taken by the Germans apparently was given by dispatches received from Berlin, although advices coming from Belgian, French and British sources maintained that the forts there still were in the hands of King Albert's men.

It was asserted in these dispatches that, although the city was invested, "there has been no serious occupation of the town by the Germans."

An official dispatch issued by the Belgian general staff said the advanced German troops were being pushed back and that the German offensive movement had ceased.

A junction of Belgian, British and French troops in Belgium is reported to have been effected, and a clash between German and French cavalry south of Namur is said to have taken place.

Athens dispatches say large Turkish forces are being concentrated on Bulgarian territory by agreement with Bulgaria.

Emperor William is reported to have left for the Alsatian frontier to join the German general staff.

The British admiralty announces that German submarines attacked a British cruiser squadron, but that the British ships escaped undamaged, while one German submarine was sunk.

France has requested the Austrian ambassador to explain Austria's intentions in an alleged movement across Germany to the French frontier.

Cholera is said to have broken out among the Austrian and Serbian troops.

A telegram from Tokio says serious conversations are proceeding between the Tokio and London governments concerning whether Japan will take part in an attack on the German colony of Tsing Tau.

The French and Belgian governments have directed that the resources of the two countries shall be the common property of France and Belgium.

**Great Enthusiasm Is Awakened in All France**  
Paris—The invasion of Lower Alsace by a French army under the command of General Joseph Joffre, the French commander in chief, has awakened great enthusiasm throughout France.

French military authorities, while recognizing that the occupation of Altkirch and Mulhausen by the French troops is of high strategic importance, believe that the successful advance of the French army far across the German frontier will have considerable moral effect.

It is also unofficially reported that Kolmar, to the north, has fallen into the hands of the French.

# Chinese Republic Appeals to Powers, But In Vain

## Washington, D. C.—China has appealed in vain to the powers of the world to enter into an agreement to respect her neutrality.

Apprehensive that she may become involved in the war and that her territory will be seized by Japan and other powers, President Yuan Shi Kai and his cabinet are seriously considering the advisability of mobilizing and making other preparations to defend the neutrality of their country.

It has been borne in on the Chinese officials that they can expect no military support from the American government. Diplomatically they are willing to aid them. But so far as sending ships or troops to oppose a nation which may take action is something the Wilson administration will not do.

As a matter of fact, plans have been adopted for withdrawing all our big ships from Chinese waters and assembling them at a strategic point in the Philippines for the protection of that archipelago.

The refusal of the belligerent powers to enter into an agreement "at this time" to respect Chinese neutrality grows largely out of their preoccupation in the existing theater of war and their ignorance of developments that may take place.

If Germany should be victorious, unquestionably she would take the British dependencies of Hongkong and Wei Hai Wei and would lay claim to the British sphere of influence in the region watered by the Yangtze Kiang. In addition, she would seize French Tonquin China and Cambodia and seek to control the French sphere of influence extending over the three southern-most provinces of China.

In addition, she would acquire the Portuguese city of Macao. Of course, to do all this, she would have to destroy the Japanese navy, a superhuman task, in view of the fact that first she must vanquish the British fleet.

# United States Is Forced to Levy New War Tax

Washington, D. C.—Administration leaders have concluded that additional revenue legislation eventually will be needed to fill the gap in the government coffers caused by the loss of revenue on imports cut off by the European war.

Majority Leader Underwood, of the house, said that he would confer with Secretary of the Treasury McAdoo when the latter returns to Washington, concerning plans and the amounts to be raised.

The ways and means committee, which has charge of all revenue legislation, already has called on the treasury department for a detailed statement of the condition of the treasury and the situation as to reduced import taxes.

It was estimated that legislation would be framed which would contemplate a "war tax" of approximately \$100,000,000.

While no definite plans have been determined, it is expected that the tax will take the shape of a stamp impost on malt and spirituous liquors, although an increased duty on leather and coffee may be considered.

In order that revenue legislation might have the right of way whenever it becomes necessary, the house is expected to give conservation legislation precedence a clause exempting revenue legislation.

The Republicans in the house have notified Mr. Underwood that while they reserve the right to criticize any revenue legislation offered, they will not resort to obstructive tactics to prevent its passage in an emergency.

# GERMAN ARMY CROSSES INTO FRENCH TERRITORY

London—The Daily Chronicle military expert attaches the highest importance to the British press bureau's announcement that German troops are reported to be entrenched along the line of the River Aisne. He comments as follows:

"This means that the Germans in force have penetrated for a considerable distance into French territory from the Belgian frontier. This invasion is of far greater importance from a military point of view than the French incursion into Alsace."

"The Germans must have penetrated in the rear of the French lines along the upper reaches of the River Aisne. The mere fact of entrenching suggests the presence of a strong body of infantry."

# NORTHWEST MARKET REPORTS.

**Portland.**  
Portland—There was no material situation at the opening of the week. The exporters are still unwilling to enter the market, and domestic business is of small volume. Speculators would no doubt show more activity if the financial situation were favorable. Prices are more or less nominal, with 86 cents believed to be about the right price for club. Farmers are very strong in their views.

Wheat—Track prices: Club, 86c per bushel; red Russian, 84c; bluestem, 82c; forty-fold, 87c.  
Millfeed—Bran, \$23.50 per ton; shorts, \$27; middlings, \$31.  
Oats—No. 1 white, \$22 per ton; feed, \$22.

Barley—No. 1 feed, \$20 per ton; brewing, \$20.50; rolled, \$22.50.  
Hay—Old timothy, \$16.17 per ton; new crop, timothy, \$13.15; grain hay, \$8.10; alfalfa, \$11.12.  
Corn—Whole, \$35 per ton; cracked, \$36.

Hop dealers are steadily reducing their estimates of the coming Oregon crop. Some of them now figure the yield as low as 110,000 or 115,000 bales. It is likely that the Pacific Coast will be 50,000 bales short of last year's production.

The market has gained materially in strength, and a strong demand for contracts has developed. Growers are not ready sellers and business is being put through with difficulty. About 60,000 pounds are known to have been signed up in this state and in Washington at 14 1/2 and 15 cents. Dealers were offering these prices in several sections and many orders are known to be unfilled at 14 cents.

Hops—1913 crop, nominal; 1914 contracts, 14@15c.  
Pelts—Dry, 13c; dry short wool, 9c; dry shearings, 10c; green shearings, 15c@30c; salted sheep, \$1.25@1.50; spring lambs, 25c@35c; green pelts, short wool, 30c@60c; lambs, August take-off, 60c@70c.

Peaches were the firmest article in the fruit list. The supply was not large and there was a great demand. The best peaches readily brought 75c cents.

There was a good demand for good cantaloupes, standards and jumbos sold anywhere from 50 cents up. Melons were in oversupply and difficult. About 60,000 pounds are known to have been signed up in this state and in Washington at 1.35 and Rose of Peru at 75 cents.

Lemons were strong at the advance, fancy now selling at \$9.50.  
The first straight crop of new potatoes was received, and they sold well at 4 cents. Tomatoes were weak at 50c@65 cents.

Vegetables—Cucumbers, 50c per box; eggplant, 10c per pound; peppers, 7c@10c; head lettuce, \$1.70 per crate; artichokes, \$1 per dozen; tomatoes, 50c@65c per crate; cabbage, 14c@2c per pound; peas, 50c@6c; beans, 4c@6c; corn, \$1 per sack; celery, 35c@75c per dozen.

Onions—Yellow, \$1.35 per sack.  
Green Fruits—Apples, new, 75c@82c per box; cantaloupes, 50c@81.40 per crate; peaches, 50c@75c per box; plums, 60c@81c; watermelons, 50c@75c per hundred; casabas, \$2.50 per dozen; pears, \$1.25 per box; grapes, 75c@82c per crate.

Potatoes—Oregon, 1c@1 1/2c per pound; sweet potatoes, 4c.  
Eggs—Fresh Oregon ranch, case count, 23c@24c; candled, 26c@27c.  
Poultry—Hens, 14c@14 1/2c per pound; springs, 15c@16c; turkeys, 20c; dressed, choice, 22c; ducks, 10c@11c; geese, 10c.

Butter—Creamery prints, extras, 32c per pound; cubes, 28c.  
Pork—Block, 12c per pound.  
Veal—Fancy, 14c@14 1/2c per pound.  
Cattle—Prime steers, \$7.25@7.50; choice, \$7.00; medium, \$6.75@7.00; heavy, \$6.50@6.75; heifers, \$6.25@6.50; calves, \$6.00@6.25; bulls, \$3.00@4.75; stags, 4.50@6.00.

Hogs—Light, \$8.00@9.25; heavy, 7c@8.25.  
Sheep—Wethers, \$4@4.75.

**Seattle.**  
Seattle—Wheat—Bluestem, 92c per bushel; forty-fold, 87c; club, 86c; Pife, 84c; red Russian, 83c.  
With a small amount of cream coming to the local creameries, the price of the city-churned product has been forced up to 30c and dealers prophesy a slight upward rise above this price within the next week unless the situation changes. Most of the houses are carrying large storage stocks, which will more than carry them over until the cream supply becomes stronger.

Eggs remain at 33c, with little prospect of immediate change. Fresh local ranch eggs are still rather scarce. Cheese is firm.  
Dealers are on the lookout for any consignments of large poultry, as the market remains filled to the brim with small hens. There is a decided demand for 4 and 5-pound chickens.

Chickens—Select ranch, 32c@33c per dozen; Chinese, 18c; Eastern Aprils, 26c@28c; local Aprils, 28c@29c.  
Butter—Washington creamery firsts, cubes, 28c per pound; do. bricks, 30c; city creamery, bricks, 30c; Oregon, 28c; jobbing, basis, 25c@26c.  
Poultry—Hens, 16c@17c per pound; squabs, \$2.50@3 per dozen; 1914 broilers, live, 18c@19c per pound; ducklings, 14c@15c; old ducks, live, 13c@14c; geese, live, 15c@16c.

**Tacoma.**  
Tacoma—Wheat—Red Russian, 89c per bushel; milling, bluestem, 86c; club, 85c; forty-fold, 86c; red Pife, 82c.  
Butter—Washington creamery, 29c@30c; Oregon, 27c@28c.  
Fresh Meats—Steers 12c@12 1/2c; cows, 11c; heifers, 12c; wethers, 17c; dressed hogs, 12c@13c; trimmed sides, 17c; combinations, 16c; lambs, 11c@12c; Diamond T. C., 14c; yearlings, 11c; ewes, 9c.  
Poultry—Ducks, live, 16c@17c; hens, dressed, 16c@18c; live, 12c@15c; springs, dressed, 16c@18c; live, 14c@15c; squabs, live, \$2.50 per dozen; dressed, 8c; turkeys, live, 20c; dressed, 24c@25c.  
Cabbage—Homegrown, 1 1/2c per pound.  
Potatoes—Local, new, \$1.25 a sack.  
Onions—Green, 20c per dozen; Walla Walla yellow, \$1.50 a sack.

# THE PROGRESSIVE BUSINESS COLLEGE

PORTLAND, OREGON.  
There is a completeness and finish about our students' education that is bringing praise from many of the leading business men of the Northwest. The supreme test of a business college is to satisfy the hard-headed men of the business world. We do. Write for literature which will truthfully tell you all you want to know.

**Mutual Secrets.**  
"I didn't want to come here in the first place," confided the first guest at the expensive hotel at a well known winter holiday resort on the south coast.  
"No more did I," replied the second, "but my wife insisted on my coming."  
"So did mine," said the first. "She said we had to come, just because Munseys were coming, although I told her we simply could not afford the expense."  
"And that's what I said," explained the second, "but my wife said we had to come because the Browns were coming."  
"Why," look here, my name is Brown."  
"And mine is Munsey."  
Then the two men shook one another warmly by the hand.

# SUCCESS—

**His Wife His Business.**  
The hungry tramp told his tale. It touched the kind heart of the lady of the house. He ate the food she gave him and started wearily on his way.  
"And how," said she, sympathetically, "did the hand laundry you were managing come to fall on you?"  
He glanced round, it might be as if he suspected the dog were within call. Then passing out and closing the gate, he said, "She quit and went home to her mother."—Kansas City Star.

**At the Movies.**  
He (his arm around her)—What a dainty wrist you have, my dear!  
She—That hand may write honey. That's the ankle of the man beside me you are holding.—Puck.

**Deep Doings.**  
"What's ailing Mr. Trout?"  
"He suffers from sunstroke."  
"Go on! Whoever heard of a fish with a sunstroke?"  
"Well, you see, a sunfish bumped into him."

Boston is said to have had the first telephone exchange in the world.

**Wise Precaution.**  
A tourist in Scotland came to a wide ferry. It was stormy, and the Scotch ferryman agreed to take the tourist across, but told him to wait until he had first taken a cow across.  
When he had returned and started across with the traveler the latter became curious.  
"Will you tell me why you took the cow over and made me wait?" he asked.  
"Well, now," explained the ferryman, "you see, the cow was valuable, and I feared the wind would increase so the boat might upset on the second trip."—Youth's Companion.

**Secrets of the Wardrobe.**  
When Winston Churchill was running for the governorship of New Hampshire his opponents became notoriously active, making speeches, writing letters and distributing campaign buttons. One morning a friend sent this telegram to Churchill: "Have you no buttons for your supporters?"  
The candidate was out of town and did not get the telegram, but a pretty girl stenographer did.  
She sent this answering wire: "No. We use 'Winston Churchill'."—Popular Magazine.

It has been estimated that during the present year 1,245,000 factory hands in Russia have already participated in strikes, in addition to 215,000 others who are employed in establishments not under the factory act.

# Easy to Misjudge Remedy You Need

In Overcoming Blood Trouble Do Not Be Fooled By Mere Claims.

**Study the Game and You Will Understand Why Some Things Are Deceptive.**  
In treating a blood disorder the usual medical fact as I have observed that the usual object of the medicine used is to purify a hit, a home run and a sure, safe hit every time.  
Now the prophetic effect of S. S. S. is to regulate the blood formation, to assist in development of tissue and to have a decided bearing upon the lymphatic influence, all of which is in the promotion of blood health. And this prophetic effect will be similar to the straight ball pitched to insure a safe hit and not the deceptive variations designed to fool the batter. S. S. S. is a plain, straight blood purifier. It is not a fanciful mixture to move the bowels and thus falsely play upon susceptible minds. It is not a mere mineral exhalate for the moment and then die away. It contains none of those mineral drugs which dry up the tissues. In other words, it does not play to the bleachers nor to the "fans." It is just a wholesome, powerful, searching blood remedy, one ingredient of which serves the active purpose of arousing each cellular part of the tissues to select from the blood the nutrient or materials required for renewal of health.  
S. S. S. is prepared from nature's own materials, not an ounce of drugs being used. And yet it is more powerful than any other active searching and more productive of restorative results than from the most active of all the minerals employed in medicine.  
Its action by elimination of the irritating poisons that infect the blood, is one of the very important things to know.  
You can get S. S. S. at any drug store, but take no other so-called blood purifier unless it is prepared by The Swift Specific Co., 600 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice. It will be worth your while to do so.

P. N. U. No. 33, 1914
