ULTIMATUM IS SENT BY JAPAN

Germans Warned to Withdraw Forces From Kiau Chau.

Tokio Government Sends Notice by Six Different Channels, Including United States.

Tokio—Japan sent an ultimatum to Germany Saturday night at 8 o'clock, demanding the withdrawal of German warships from the Orient and the evacuation of Kiau Chau and giving Germany until Sunday, August 23, to comply with the demand. Otherwise, the ultimatum states, Japan will take action.

The general expectation here is that the ultimatum will be followed by war. Takaaki Kato, the Japanese foreign minister, simultaneously with the dispatch of the ultimatum, conferred with George W. Guthrie, the American ambassador, and made to him a broad statement calculated to assure the United States that American interests in the Far East would be safeguarded and the integrity of China upheld.

Owing to doubts whether communications with Berlin were assured, Japan, in order to insure the arrival of the ultimatum, forwarded it to Berlin by six channels, including Washington, London and Stockholm. The government ambassador to Germany, von Rex, German ambassador to Japan, and likewise retarded the time limit for a reply until August 23.

The ultimatum follows: "We consider it highly important and necessary in the present situation to take measures to remove the causes of all disturbances of the peace in the Far East and to safeguard the general interests as contemplated by the agreement of alliance between Japan and Great Britain.

In order to secure a firm and enduring peace in Eastern Asia, the establishment of which is the aim of the said agreement, the Imperial Japanese government sincerely believes it to be its duty to give the advice to the Imperial German government to carry out the following two propositions:

"First—To withdraw immediately from Japanese and Chinese waters German men-of-war and armed vessels of all kinds and to disarm at once those which cannot be withdrawn.

"Second—To deliver on a date not later than September 15 to the Japanese authorities without condition of compensation the entire leased territory of Kiau Chau with a view to the eventual restoration of the same to China.

"The Imperial Japanese government announces at the same time that in the event of its not receiving by noon on August 23, 1914, an answer from the Imperial German government, signifying its unconditional acceptance of the above advice offered by the Imperial Japanese government, Japan will be compelled to take such action as she may deem necessary to meet the situation."

Mexican Constitutionalists Take Reins of Government

Mejico City—The national capital is in the hands of the constitutionalists. In accordance with a prearranged plan, General Obregon marched in with his army and took peaceful possession of the city. The citizens greeted him and his soldiers with cheers. The evacuation by the federalists was completed and constitutional troops are now quartered in the barracks which the government soldiers recently occupied.

Eight special trains will leave for the front carrying a reception committee, which will formally welcome General Carranza, first chief of the constitutionalists, who will assume the presidency as soon as he enters the capital.

For the first time in months American flags flew beside the Mexican colors. General Obregon caused to be posted throughout the city a decree threatening the immediate execution of an officer or an enlisted man who distributed public order.

The sidewalks were crowded densely from Chapultepec Castle to the national palace, a distance of three miles. General Obregon reviewed the troops from the balcony of the national palace, after which the soldiers were sent to the barracks.

Steamers Almost Empty.

New York—With the exception of the Rochambeau and the Patria, of the French and Fabre lines, respectively, which sailed with approximately 1300 reservists for Havre and Marseilles, cabins and stowage of nine liners sailing from New York Monday were practically deserted. The Cedric carried fewer than 200 persons, the Minnetonka 12, the Kroonland 40, the Saxonia fewer than 100, the America and the Potsdam correspondingly small numbers. Sailing of the Anchor line announced for Monday, was postponed.

General Is Shot in Neck.

London—A dispatch to the Central News Agency from Paris correspondent says that General Deimling, commander of the German Fifteenth Army corps, is in a hospital at the front on account of a bullet which passed through his neck. The Brussels correspondent of the Star says a Belgian officer, who escaped from Liege, brought details of the death of General Von Emmich. The officer declared that Von Emmich committed suicide. It is said that his unlimited confidence in the German army was shattered.

America Pleases France.

London—A dispatch to the Chronicle from Paris tells of the reply of the French foreign minister, Premier, Viviani, to the American offer of mediation. He remarked that France had been attacked, despite her steady refusal to take the aggressive, and said, in thanking President Wilson: "You may be assured that the French government and people will recognize in your idea new evidence of your interest in the destinies of France."

Russians Repulse Austrian Forces Along Frontier

London—Apparently reliable and authentic information comes from St. Petersburg that Russian arms have been successful both along the border with Austrian infantry and in East Prussia, at a point occupied at the very beginning of hostilities by a force of the Czar's troops.

The Austrians have suffered a check on the Danube River. Four regiments of the points to which Russian troops were dispatched early in the war, has failed. The Germans, consisting of a detachment of infantry, with artillery, were repulsed with loss.

It is announced officially at St. Petersburg that German aeroplanes have been carrying out extensive maneuvers along the Russian frontier, but have done no damage.

A Berlin dispatch to the Daily Telegraph says the German staff admits heavy losses. The German troops near Mulhouse captured 10 French officers, 500 men, four guns, 10 wagons and many rifles.

According to the report, German territory has been cleared of French. It is said that Lazard, the German troops took more than 1000 prisoners, about one-sixth of the two defeated French regiments.

The Austrian troops on the Russian frontier have been placed under the command of German general.

England Severs All Diplomatic Ties With Austria

London—Great Britain has severed diplomatic relations with Austria, as did her ally, France, without a declaration of war. It has been expected that a declaration of war would be proclaimed, but there was none.

Count A. Mensdorff-Pouilly, Austrian minister, received his passports and has left. He is an intimate personal friend of the British royal family and feels his dismissal keenly. He has been in London for 18 years—first as first secretary to the embassy and then as ambassador.

One of the first results of the practical state of war which the severance of diplomatic negotiations brings is likely to be seen in the Mediterranean. An Austrian fleet has been bombarding the Montenegrin coast and a larger fleet has been reported near the Straits of Otranto. It may be presumed that the British Mediterranean fleet, co-operating with the French fleet, will put an end to the attack on Montenegro from the sea and that a bombardment of Austrian ports may follow.

The break in the diplomatic negotiations between the two countries came as a result of Austria's sending troops to the French border to assist her ally, Germany, against Great Britain's ally, France.

Belgians Whip Germans in Open Field Action

Brussels, via London.—The first battle in open field is reported as the following official communication: "After having passed the night (Tuesday) in the position they had reached after their retreat, the Germans advanced in force toward a point in our position, which they thought was not held."

"Our staff, however, was alert, and, informed by cavalry reconnoissances, was able to give the necessary orders, with the result that the enemy found his advance checked and his attack place, in which our troops were victorious. Ten thousand men took part in the fight."

"This was the first action of our troops in open country and their conduct is a good augury for the future. Apart from this, the situation to all appearance has undergone no change."

"As regards our allies, the plan arranged beforehand is being followed out exactly according to program."

Belgian and German troops effected junction south of Brussels. The German advance in the Belgian provinces of Limburg and Brabant has been checked. The Germans are bringing up heavy artillery against Liege.

Captured Germans Are Sulky.

Paris.—Several hundred German prisoners passed through the Champigny station, near Paris, on their way to Poitiers, where they will be interned. The soldiers seemed quite untroubled as to their fate. The German officers in the party, however, were sulky.

The untiring activity of General Joseph Joffre, commander-in-chief of the French and his brilliant administration of his troops. Since the first day of mobilization he has traveled thousands of miles in his motor car and appears to be everywhere at one time. His chauffeur is the famous racing motorist, George Boillot, who three times won the French grand prix.

Belgium Is Asked to Quit.

London.—The Daily Mail says it learns that on Monday, after the fruitless assault by the Germans on the Liege forts, the German government again approached Belgium, through Holland as intermediary, pointing out that Germany had no quarrel with Belgium and no desire to be at war with her, and asked the Belgian government to reconsider its refusal to allow the German army to traverse Belgium to save useless bloodshed.

French Deny Heavy Loss.

Paris.—The French minister of war explains that the engagements on the Franco-German frontier are no more than outpost skirmishes. "The best denial that can be given to the report that the French lost 20,000 men at Altkirch," says the ministry, "is that the total effective French troops did not reach that number."

Germans Hit Own Mine.

London.—It is understood that the German torpedo-boat destroyer reported to have been sunk by the explosion of one of her boilers off South Gedge on August 5, really was destroyed by a mine laid by a German warship. The Danish and Swedish lines, it is reported, ceased running as a result of information that the Germans had laid contact mines in the North Sea.

With importations from Italy to the Atlantic Coast market cut off, the Northwest crop is in demand, and prices are high as a result.

The butter and egg market witnessed a stiffening, which is expected to result in a rise of prices this week. Most of the commission men are hard pressed on the fresh local commodities and the anticipated rise will not be difficult to understand.

A Different Boy.
An interesting event occurred in the household of a scientific gentleman who is a member of one of Uncle Sam's chemical bureaus in Washington.
The gentleman himself was hard at work in his home laboratory when the news was brought to him.
"It's a boy," quietly announced the physician, as he stopped on the threshold.
"All right, all right," muttered the absent-minded chemist as he bent over his work. "I must thank him what he wants, won't you?"—Lippincott's Magazine.

"Oh, no, John, it must be something real good and out of the ordinary. I tell you what. Let us kill the fattest pig and give a banquet."
