Mother Wouldn't Take Any.
Col. J. Slocum Ridgely, in answering the toast "To Mother" at a banquet in Charlottesville, said:
"God bless Anna Jarvis, the Philadelphia woman who put Mothers' day on the map! That holy day is better for us than 10 new South American rivers."
"Let me tell you a 'mother' story."
"In my youth, when I was teaching school in Silem, I said one morning to a bright little fellow:
"Tommy, my boy, if a family consisting of father, mother and six children should have a cherry pie for dinner how much would each receive?"
"A seventh," the little fellow answered.
"Carefully," said I. "Remember, there are eight people."
"Yes, sir," I know," said Tommy, "but mother wouldn't take any for fear the others wouldn't have enough."—New Orleans States.

A Wartime Fable.
Once upon a time a Big Boy walked up to a Little Boy and asked him for a piece of pie. The Little Boy refused, whereupon the Big Boy started to trounce him. The Little Boy, however, inflicted a mighty beating upon the Big Boy. Rubbing his bruises, the Big Boy smiled and said: "Little Boy, give me your pie now and I won't fight you any more." But the Little Boy held the pie and the Big Boy had to go somewhere else for something else but pie.
Moral—Sometimes you can get by diplomacy what you can't by fighting—and then again, sometimes you can't, if you do the fighting first.

Not an Omission.
Mrs. Benton tasted the savory morsel she had carefully compounded in the chafing dish and looked at her husband somewhat apprehensively. Then she said:
"Somehow it don't taste just as Mrs. Mink's did the other night. Yet I thought I remembered the recipe all right. I suppose I must have left something out."
Mr. Benton tasted reflectively.
"I don't think so," he remarked.
Mrs. Benton's face brightened visibly. Then her husband continued:
"There's nothing you could leave out," he said, "that would make it taste like this. It's something you've put in!"—New York Globe.

In the Realm of Credit.
"When I left home as a lad," said Mr. Dustin Stax, "I had \$10 in my pocket."
"You'll never forget that day," said Mrs. Stax.
"No, sir. It's the only time I have felt that I could settle up on a moment's notice and be absolutely sure my assets would cash in for more than my liabilities."—Washington Star.

Waiting.
"Is anybody waiting on you, madam?" inquired the shopwalker.
"Yes, sir," returned the middle-aged matron, fiercely. "I reckon they're waitin' to see if I won't go away without stayin' for the three-pence-halfpenny in change that's owing to me."—Tit-Bits.

May Migration.
"Shakespeare speaks of moving accidents by fire and flood."
"Well, I suppose like most poets he had to move frequently and probably had a good many accidents to what little furniture he owned."

The Saturation Point.
"How are you fixed financially, old man?"
"I'm at the saturation point."
"What do you mean?"
"At the point where I've got to soak something."—Boston Transcript.

PARIS TO RAZE OWN SUBURBS

Residences in Way of Forts to Be Destroyed.

Invading German Army Hopeful of Penetrating Lines Before Russians Reach Berlin.

Paris—It is officially announced that the military governor has ordered all residents of the zone within action of the city's defending forts to evacuate and destroy their houses within four days from August 31.

As far as can be learned, the French troops appear to be intact, except for those losses which were inevitable in a week's heavy fighting over a vast front.

If the British and French retire on the western flank it is explained that they do so in order to choose their ground for fiercer resistance. Every new day has seen reinforcements moving up to aid the French troops engaged on the Belgian frontier.

The French operating along the interior lines are able to shift an army corps from one part of the frontier to another swiftly, and it is said that the allies probably are in stronger position than last Sunday.

The Germans, apparently owing to the increasing pressure of Russia, seem to be throwing themselves against entrenched positions and are suffering severely. They are gaining ground and seemingly are hopeful of being able to break through before Berlin is invested.

French wounded are arriving at the provincial towns.

RICHARD HARDING DAVIS, WRITER, ARRESTED AS SPY

London—Only by exceptionally good fortune was the life of Richard Harding Davis, special war correspondent, spared by the Germans, who suspected him of being a spy, according to the story told by James R. Evans, an American engineer, who arrived from Brussels which place he left Thursday night.

For hours the Germans debated whether to shoot Mr. Davis, who had followed in the wake of the German advance. He was some distance south of the Belgian capital when taken into custody by the German officers.

Germany's Naval Loss Off Heligoland Is 670

London—Twenty-nine killed and 38 wounded was the price in men paid by the British for the naval action against the Germans in Heligoland waters Friday.

An official statement issued here says that of 1000 men composing the crews of the warships sunk off Heligoland, only 330 were saved.

The British losses are described as follows:

"The light cruiser Arethusa lost Lieutenant Eric Westmacott and nine men killed, four seriously wounded, and Lieutenant Robinson and 11 men wounded, but not seriously.

"The torpedo-boat destroyer Liberty lost commander Bertellot and six men killed, one man has since died from wounds, one dangerously wounded, five seriously wounded and five slightly wounded.

"The destroyer Laurel suffered ten men killed, one has since died of his wounds, two men dangerously wounded, seven seriously wounded and two slightly wounded."

London Paper Holds Up America as Good Example

London—The Daily News, in an editorial denouncing secret diplomacy says:

"Can Europe ever again tolerate the appalling peril of secret diplomacy? Can we ever again play about on the deck with sails and compasses, making our little laws and managing that we are self-governing, while down in the hold of our ship of state there is a powder magazine, the existence of which we are not permitted to know?"

"Secret diplomacy belongs to the traditions of autocratic and personal government. It has no place in a democratic world, and the example of the United States must become the model of the civilized world on this vital matter, if Europe is to be free from menace in the future."

Czar Lauds Scots Greys.

London—The official press bureau has issued the following notice:

"His Majesty the Emperor of Russia, who is colonel in chief of the Scots Greys, has sent the following gracious message to his regiment: 'I am happy to think that my gallant regiment, the Royal Scots Greys, is fighting with Russia against the common enemy. Convinced that they will uphold the glorious traditions of the past, I send them my warm greetings and wish them victory in the battle.'"

Brussels Force Reduced.

London—One hundred and sixty railway trains loaded with German troops have passed through Belgium from the southwest toward the northeast, according to an Antwerp dispatch to the Reuter Telegram company. This, it is added, indicates that the Germans are sending troops back on account of the advance of the Russians. The German force at Brussels has been reduced to a minimum. These 160 trains, which passed through, the dispatch continues, are transporting one army corps with full equipment.

King Mingles With Troops.

London—According to the Antwerp correspondent of the Daily News, King Albert constantly mingles with his troops, and was in the trenches in the fighting around Malines. He was always at the points of the greatest danger, assisting the encouraging the men. He went among them attired simply as a soldier, and his sympathetic conduct had a remarkable effect.

NORTHWEST MARKET REPORTS.

Portland.—All cereals are advancing in price, with wheat leading the procession. At the Merchants' Exchange sessions bids of \$1.12, an advance of 2 cents, were made for bluestem, with sellers asking \$1.13 and \$1.14. Club was bid up to 93 1/2 cents, red Russian was half a cent higher at 93 cents and red life a cent higher at 93 1/2 cents. Buyers and sellers could not get together, and no business was transacted at the session.

The interior wheat markets were very strong, with country millers competing sharply against coast buyers and farmers, as a rule, holding for still higher prices. For two days farmers in the Big Bend section have been receiving \$1 net for their bluestem, while at Walla Walla a sale was made at \$1.07. Club wheat sold on the Sound at 95 1/2 cents.

California is in the market for wheat of all kinds and full prices are being offered. During the past month shipments south have been large, amounting to 471,305 bushels from Portland. Flour shipments from here to California in August were 40,171 barrels, and the Sound sent 76,955 barrels down.

Barley prices were quoted unchanged on call at \$24.50 for feed and \$25 for brewing. The San Francisco barley market advanced sharply, December closing at \$1.25 1/2, against \$1.22 on Saturday, and the May option at \$1.32 1/2, as compared with \$1.28 Saturday.

Eastern demand for Oregon and Washington barley is reported here. A \$6 rate on barley is announced from Portland to New York via the Canal. Millfeed—Spot prices: Bran, \$25 1/2; 25.50 per ton; shorts, \$28.50; rolled barley, \$23.50@24.50.

Corn—Whole, \$37 per ton; cracked, \$38.
Hay—Old timothy, Eastern Oregon, \$15 1/2@16; new crop timothy, alfalfa, \$12.50@13; grain hay, \$8@10; alfalfa, \$11@12.

Vegetables—Cucumbers, 50c per box; eggplant, 8c per pound; peppers, 6@7c per pound; artichokes, \$1 per dozen; tomatoes, 25@50c per crate; cabbage, 1 1/2c per pound; peas, 5@6c; beans, 4@6c; corn, \$1.15@1.25 per sack; celery, 50@85c per dozen.

Onions—Yellow, \$1.25 per sack.
Green Fruits—Apples, new, 75c@1.75 per box; cantaloupes, 25c@1.25 per crate; peaches, 20@75c per box; plums, 50c@1; watermelons, 80c@90c per cwt.; casabas, \$1.50@2 per dozen; pears, 50c@1 per box; grapes, 75c@1.50 per crate.

Potatoes—Oregon, \$1.35 per sack. Receipts at the Portland Union Stockyards in August were unusually heavy, the total run being 4855 head greater than in the same month last year.

The largest gain, as has been the case every month this year, was in the hog division, where the increase was 403 head.

Cattle—Prime steers, \$6.75@7; choice, \$6.50@6.75; medium, \$6.25@6.50; choice cows, \$5.75@6; medium, \$5.25@5.75; heifers, \$5.50@6.50; calves, \$6.50@7; bulls, \$3@4; stags, \$4.50@5.75.

Hogs—Light, 9@9.25; heavy, \$8@8.25.
Sheep—Wethers, \$4@5.25; ewes, \$3.50@4.35; lambs, \$5@6.

Seattle.

Seattle—Predicting that Elberta peaches will sell down to 25c per box next week, the street is preparing to meet the heaviest volume of this fruit since the opening of the season. Notwithstanding that the stock has been pouring in all week, jobbers have battled to get the best price possible for the grower, but to little purpose.

Domestic canning operations, which sank to a minimum since sugar began to mount upward, has paralyzed profits to the growers. With the main avenues of consumption closed, the surplus has been thrown back into the local trade, and demoralization was inevitable.

Should there be another season like this, many growers declare they will cut down their trees.

Eggs—Select ranch, 35@36c per dozen.

WOMEN WHO ARE ALWAYS TIRED

May Find Help in This Letter.

Swan Creek, Mich.—"I cannot speak too highly of your medicine. When through neglect or overwork I get run down and my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a great blessing to women, and I cannot speak too highly of it. I take pleasure in recommending it to others."—Mrs. ANNIE CAMERON, R.F.D., No. 1, Swan Creek, Michigan.

Another Sufferer Relieved.
Hebron, Me.—"Before taking your remedies I was all run down, discouraged and had female weakness. I took Lydia E. Pinkham's Vegetable Compound and used the Sensitive Wash, and find today that I am an entirely new woman, ready and willing to do my household work, where before I was unable to do so. I try to impress upon the minds of all ailing women I meet the benefits they can derive from your medicines."—Mrs. CHARLES ROWE, R.F.D., No. 1, Hebron, Maine.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

His Needs.
A bachelor wanted a man servant, so he inserted an advertisement in a local weekly. One of the applicants who answered was an Irishman.

"What I want," explained the bachelor, "is a useful man—one who can cook, drive a motorcar, look after a garden, clean shoes and wash windows, feed poultry, milk the cow and do a little painting and paper hanging."

"Excuse me, sir," said Murphy, "but what kind of soil have you here?"
"Soft!" snapped the bachelor.

"What's that got to do with it?"
"Well, I thought if it was clay I might make bricks in my spare time."—Philadelphia Record.

Helping Kidneys
By Clearing Blood
A Function Greatly Assisted
By a Well-Known
Remedy.

Most readers will be interested to more deeply understand why analysis of urine is so important. In the case of S. S. & S. to purify the blood, its action is a stimulant to the organs of the blood vessels that make up the constructive tissues of the kidneys. All the blood from all over the body must pass through the kidneys. They act as filters and excretors. They get rid of the waste products of the body, both as to quantity and quality. The health of the kidneys and the quality of the blood is determined. The catalytic energy forced by S. S. & S. is shown in the urine. It is also demonstrated in the skin. And in the blood circulation, it sweeps through the kidneys the dominating nature of the excretory system, showing a marked decrease of disease manifestations as demonstrated by the analysis of the urine. S. S. & S. is a great relief to the kidneys. The body wastes are more evenly distributed to the excretory organs. It is the only remedy by the tonic action afforded the kidneys, which is the only way to cure cases of rheumatism, cystitis, chronic uritis, backaches, of voice, bronchitis, asthma and the myriad of other renal indications of weak kidney action. First purify your blood with S. S. & S., so it will enable the kidneys to rebuild the cellular structure and regain the normal health.

Tires at Before-War Prices

Goodyear Prices
It is Folly Today to Pay More

30 x 3 Plain Tread	\$11.70
30 x 3 1/2 " "	15.75
34 x 4 " "	24.35
36 x 4 1/2 " "	35.00
37 x 5 " "	41.95

There exists now a new, compelling reason for buying Goodyear tires. It results from War conditions.

These leading tires—built of extra-fine rubber, in the same way as always—are selling today at June prices.

You will find today a very wide difference between most tire prices and Goodyears.

Due to Quick Action
Early in August—when war began—the world's rubber markets seemed closed to us. Rubber prices doubled almost overnight.

Men could see no way to pay for rubber abroad, and no way to bring it in. We, like others—in that panic—were forced to higher prices. But we have since gone back to prices we charged before the war, and this is how we did it:

We had men in London and Singapore when the war broke out. The larger part of the world's rubber supply comes through there. We cabled them to buy up the pick of the rubber. They bought—before the advance—1,500,000 pounds of the finest rubber there.

Nearly all this is now on the way to us. And it means practically all of the extra-grade rubber obtainable abroad.

Today we have our own men in Colombo, Singapore and Para. Those are the world's chief sources of rubber. So we are pretty well assured of a constant supply, and our pick of the best that's produced.

We were first on the ground. We were quickest in action. As a result, we shall

soon have in storage an almost record supply of this extra grade of rubber. And we paid about June prices.

Now Inferior Grades Cost Double
About the only crude rubber available now for many makers is inferior. In ordinary times, the best tire makers refuse it. Much of it had been rejected. But that "off rubber" now sells for much more than we paid for the best.

The results are these:
Tire prices in general are far in advance of Goodyears. And many tire makers, short of supplies, will be forced to use second-grade rubber.

Be Careful Now
In Goodyears we pledge you the same-grade tire as always. And that grade won't for Goodyears the top place in Tiredom—the largest sale in the world.

And, for the time being, our prices are the same as before the war. We shall try to keep them there.

We accept no excessive orders, but dealers will be kept supplied. And we charge them, until further notice, only ante-bellum prices.

That means that Goodyears—the best tires built—are selling way below other tires.

Remembers Flora Temple.
Spectators at the United shoe machinery trial yesterday in the United States district court enjoyed the repartee between Judge Putnam and Frederic P. Fish of counsel for the defense, says a Philadelphia paper. Attorney Fish was arguing on the patent question involved in the anti-trust suit against the United company, and as a means of illustrating a point remarked: "You can put a race horse in a plow and you can put a plow horse in a race."

Here Judge Putnam interrupted to say: "Flora Temple was a plow horse."
"Yes," responded Attorney Fish, "but she soon got out of it. I remember seeing her in a box car at Taunton."

"Why, I didn't think you were that old," replied Judge Putnam.
"Oh, Lord," replied Attorney Fish, "you don't know what an old fellow I am. I remember Flora Temple well, and I know what her time was, too. It was 2:27."

By this time the whole courtroom full of lawyers and spectators was in roars of laughter, and Judges Dodge and Brown, sitting with Judge Putnam, joined in the merriment.

Cat Trees Peanut-Thief Squirrel.
Policemen are reputed to have a penchant for fruit-stand peanuts, but the Judiciary square squirrels cause the Greek who conducts the store opposite City Hall the most anguish, as they are a thieving lot. Hourly they cross the street on foraging expeditions, but one nearly came to grief, says an exchange.

The squirrels became so bold in preying on the peanuts that the Greek recently installed a large cat as guardian of the stand. While the cat apparently was snoozing on the shady side of the stand an unsuspecting squirrel slipped up. The feline leaped and so did the little thief, the latter up a small tree.

For nearly two hours the terrified squirrel hung on a limb with Thomas keeping a sharp vigil below. A fox terrier came along about noon and drove puss into the store. The squirrel snatched a peanut and ran back to the park in triumph.

It is said that a hair from the tail of the horse is the strongest single animal thread known.

Getting Him Located.
"Did you ever play poker in Crim son Gulch before?" asked Three Finger Sam.
"Only once," replied the stranger, "and then I played only for fun."

"I recollect you, You're one of those fellows who can't have any fun unless they win everything in sight."

She Was On.
He had left her between the acts, saying he had to "see a man."
"Well, and how is John?" she asked when he returned.
"John? John who?"
"John Barleycorn, of course," she replied.—Boston Evening Transcript.

"Yes," replied Miss Cayenne. "A family tree is like the ordinary tree. The twig that is farthest from the main root does the most fluttering."

Athletic Vocalization.
"Is a ventriloquist a person who throws his voice?" asked Mr. Lobrow, "So to speak."
"Well, we've got one next door. She hasn't thrown it yet, but she is giving it a terrible struggle."

Floater.
Church—I see that Philadelphia's harbor policemen all weigh 200 pounds or more, and none of them can swim.
Gotham—Oh, well, if they weigh that much they ought to be able to float, all right.

Would Have Made Good Picture.
Judging from accounts in the Los Angeles papers, Marguerite Loveridge is not exactly lacking in pluck. When she and her sister discovered a burglar in the house Marguerite seized a revolver and, crawling to the door of the room where the crook was prowling about, took a pot shot at him. Of course, she didn't score a bull's-eye, but nevertheless the thief tumbled backward out of the window with an alacrity calculated to fill the best of "heavies" with envy. Too bad there was no picture taken of the incident.

Stevenson's Novel for Films.
London was startled the other day by the appearance in Fleet street and the Strand of an eccentrically attired young man who distributed souvenirs on his journey. Although the public has nearly begun to regard every little street sensation as arranged intentionally for the pictures, it took the bystanders some time to discover that the youth was only impersonating a member of the "Suicide Club." This novel by Robert Louis Stevenson is being filmed.

Inductive and Deductive.
Deductive reasoning is from the theory to facts, while inductive reasoning is from facts to theory. Deduction is sometimes more dreaming, oftentimes very foolish dreaming (as in the case of medieval scholasticism), while induction is the sane reaching out for particular facts to general laws (as in the case of modern science). Most of the things that have cursed mankind have come as the result of deductive reasoning; while pretty nearly all that has helped men has been the result of the inductive process.
