PACKING SCHOOL

We have arranged to hold an apple packing school at our warehouse on Sept. 10, 11 and 12, under the supervision of Mr. J. M. Carroll. Anyone wishing to learn to pack, and especially all growers, should attend. No charge will be made. Mosier Fruit Growers Ass'n.

Word was received by telegraph yesterday morning that Mr. Hale, of Colorado, who had been engaged as principal of the Mosier High School, had resigned and would not come to Mosier. So far as we have been able to learn there was no explanation vouchsafed, and the school board is left in mid-air at the eleventh hour for a teacher. It is true that the board had no signed contract with him, but unless Mr. Hale has some very good reason for his action, it should be made difficult for him to again fool the school boards. We understand that the directors are in communication with State Superintendent Churchill and it is hoped that a good teacher may yet be secured.

On Monday evening the church gave a reception to the new members and converts. A short service was held at the close, at which one more made confession. Twenty of the converts have united with the Christian Church up to the present time.

IMPROVEMENTS AT SCHOOL HOUSE
The Mosier school board is having some needed improvements made in the school house. A storm cover has been built over the front porch, and this week separate modern toilets are being installed in the basement. The improvements, with the new system of steam heating which was put in some time ago will make our school as well equipped as that of any small town in the state. The health, comfort and convenience of the pupil is of paramount importance and the school board had this in mind when they made appropriations for the year.

With a corps of efficient teachers such as we are assured of having this term, there is reason to believe that this will prove to be the most prosperous year in the history of the Mosier school.

WATCH THIS PAPER FOR THE TRUTH ABOUT PROHIBITION

Here is the exact issue that confronts you

The prohibitionists ask you to adopt an amendment to the State Constitution to prohibit the manufacture and sale of alcoholic beverages, except for medical, mechanical and sacramental uses.

The adoption of this amendment means the entire wiping out of the present splendid home rule and local option laws.

Thereafter the regulation and control of the liquor traffic in Oregon would pass from cities and towns and be retained exclusively by the state.

Note carefully there is no mention of prohibiting "distribution," "transportation" or "use" of alcoholic beverages. Only of manufacture and sale. Distribution, transportation and use intentionally were left out by the prohibitionists. Shipment of liquors into the state, or through the state, or drinking of liquors within the state would not be prohibited by the amendment.

Washington, Idaho and California naturally would immediately begin shipping liquors into Oregon and throughout Oregon. The saloon, where it now exists, would merely have given away to the "blind pigger," "bootlegger" and "moonshiner." All cities and towns now either wet or dry would be at the mercy of the state police authorities and state law makers.

Present "dry" cities and towns would realize that they had come nearer to voting themselves "wet" than they now are under the splendid home rule and local option laws.

If the state authorities were derelict or failed to enforce the law, as they are in Kansas and Maine, the cities and towns would realize that they had voted away their present direct control and regulation of the liquor traffic. These articles will show later that Kansas and Maine authorities are derelict and do fail to enforce the law. To undo the mistake Oregon would have to repeat a constitutional amendment and not a mere law—a very difficult undertaking. Deceit and perjury in securing liquor illegally would have been substituted for what today is a steadily improving, healthier public opinion regarding true temperance, and true temperance would have been done an irreparable injury requiring many years to recover from.

Kansas is pointed to by prohibitionists as the model prohibition state. They want Oregon to become a Kansas. Waich these articles with a fair, open mind and learn what thirty-three years of prohibition law has done for Kansas without prohibiting or advancing true temperance.

All figures will be taken from latest United States Government Reports

N. B.—Prohibitionists are spreading the opinion that, if the proposed amendment is defeated, the present dry towns and cities will become wet again. This POSITIVELY IS NOT SO. The present home rule and local option laws would remain just as they now are.
