"That Mrs. Wilbur is so angry she won't speak to me," confided Mabel to Ethel.
"Really?" exclaimed Ethel. "And what is she angry about?"
"I haven't the slightest idea," said Mabel. "We met a couple of days ago and we were talking as friendly as possible when suddenly she flared up and she hasn't noticed me since."
"What were you talking about?" inquired Ethel.
"Why, nothing in particular," explained Mabel. "Just the ordinary small talk. I remember she said, 'I always kiss my husband three or four times every day.'"
"And what did you say?" asked Ethel in an effort to get at the root of the trouble.
"Why, I said," replied the other. "I know at least a dozen girls who do the same, and then she nearly had a fit."—Philadelphia Public Ledger.

Rheumatic Throat Is Common Trouble
Should Be Treated in London To Prevent Recurrence.

There are successful germs that stop soreness in the throat, but to prevent their incessant return, the blood must be put in order. The best remedy is S. S. S., as it influences all the functions of the body to neutralize the irritants of waste products and to stimulate their excretion through the proper channels.
Rheumatic sore throat is a dangerous indication, as it means that the blood is loaded with more uric acid than the kidneys can excrete, and may thus lead to serious general disturbance.
The action of S. S. S. stimulates cellular activity. It purifies the blood, and enables the kidneys to supply quick relief. The new red blood is replaced with-out smarting.
For this reason write and find the throat that is its breaking-down influence. It is scattered and eliminated. In other words, S. S. S. prevents chronic conditions by enabling all the functions of the body to excrete harmful mucus. Its influence is shown in a marked improvement of the bronchial tubes, whereas the hoarseness of voice with thick, grayish expectorations is overcome. S. S. S. will dilute with water, means a bath, since it is welcome to any stomach and it acts gently on the bowels.
S. S. S. is free of all minerals and contains ingredients wonderfully conducive to well-balanced health.
You can get it at any drug store, but do not accept anything else. There is danger in substitutes. S. S. S. is prepared only by The Swift Specific Co., 52 Swift Bldg., Atlanta, Ga. Our Medical Bureau will give you free instructions by mail on any subject of blood disorders. Write today.

BRITAIN MOVES TO GUARD EGYPT

German Consuls Expelled From All English Territory.

Spreading of Hostile Propaganda Among Moslems Feared—Romania to Stand by Italy.

Washington, D. C.—German and Austrian consular officers have been ordered by British authorities to leave Egypt at once.
Rumania has announced officially that if she abandons her position of neutrality, it will be to follow the course taken by Italy.

Great Britain has informed the United States that she would look with favor on the sending of American warships to Turkish ports to care for Christians in case there was a Mohammedan uprising against them.
These developments in the highly critical situation brought about by the feeling of the Triple Entente that Turkey is certain to join the conflict on the side of Germany and Austria were conveyed in official dispatches to the United States government.
Great Britain's expulsion of German and Austrian consular officers was taken here to mean that she had determined to put an end to the pro-German propaganda which she says the consular officers have been circulating since the outbreak of hostilities. The affairs of Egypt, a semi-sovereign state, under the sovereignty of the Sultan, practically have been administered by Great Britain ever since the bombardment of Alexandria and the suppression of the Arabic insurrection 32 years ago.
The natives have never entirely lost their aversion, however, for the intruders, and Britain believes Germany has for a decade been busy fomenting anti-English feeling. Word of the Sultan's friendliness of late to Germany and Austria is believed by British officials to have been spread to Egypt, an appeal being made not only to the Nationalist sentiment of the natives, but their religious feelings.

France openly has charged in her communications with the American government that the German propaganda is a stir inciting Mohammedan uprisings, not only in Egypt, but in India and Turkey.
The British government from Great Britain that she would be pleased to see American warships in Turkish ports is in line with what France informed the United States two weeks ago. Various nations have declared in view of the appeal that has been made to the Mohammedans they feared a general uprising against Christian.

Austrian Attack Fails; Russians Get Rich Booty
Petrograd, via London.—"Desperate fighting continues along the front from Lublin to Kholm, where the Tenth Austrian army corps made an attempt to break through the Russian lines," says an official statement issued here Monday.
"The Austrians were heavily repulsed and 5000 were made prisoners. The Russians secured various documents in which the Austrian generals made urgent appeals for help from Germany."
"In Galicia 30 locomotives and an enormous amount of rolling stock were captured."
"The Russians entered the railway station at Lemberg and found it crowded with trains loaded with ammunition, dynamite, benzine and medical stores. The Russians captured the station so suddenly that three motor cars which were on the point of leaving fell into their hands."
"In the neighborhood of Svolen a German motor car was brought down and the aviator captured."
"At Viotslavsk a German armored train coming from Alexandrovo was tempted to shell the town, but was beaten off."

Russian Troops Swarm to Attack German Rear
New York.—Russian troops to the number of 150,000 have passed through England and are now at the rear of the German army in France, according to Vance Thompson, an American writer who arrived here on the Red Star liner Kronland, which sailed from Liverpool August 28.
On that day, Mr. Thompson said, he saw detachments of Cossacks on their way to the Channel ports, and learned that the British government had suspended the regular train service in order to give the Russians the right of way. He added that he could say from reliable authorities that 150,000 Russians had already crossed the Channel and were now probably attacking the German rear, while it was understood that thousands more were on their way from Archangel by the Arctic route to England.

Peace Is Rebel Promise.
London.—A Reuter dispatch from Rome says an agreement has been reached between the people of Valona, Albania, and the insurgents whereby the latter will enter the town peacefully. The deposition of the government of Prince William of Weid has been recognized, the notables of Valona have taken possession of the town with great enthusiasm. A Havas agency dispatch from Venice, coming by way of Paris, says the Prince and his family have left Venice for Switzerland.

France Calls Its Youth.
Bordeaux.—The following official notice was issued Monday:
"The official list of young men of France due to join the army in 1915 will be published not later than September 20. The usual period of months between the publication and the presentation of the recruits is by decree shortened to 19 days."
As a consequence about 250,000 men will be added to the French forces by September 20. It is expected they will take the field in a few months against the German invaders.

Route of Austrians Reported.
Rome, via London.—A dispatch from Cetinje to the Messagero says Montenegrin troops, under the command of General Vukotich, the war minister, have defeated the Austrians at Boljanitz, in Herzegovina, capturing all their munitions of war and the commissariat.

NORTHWEST MARKET REPORTS.

Portland.
The strong demand for Northwest flour to be shipped to the eastern seaboard is the feature of the grain market. Figures as to the quantity sold in the past few days are not available, but grain men estimate that between 150,000 and 200,000 barrels have been sold to go from Portland alone. It is not known how much business of this character has been put through on the coast, but the volume is believed to be large.
It is conceded that the extent of the business at present is limited only by the transportation facilities from this port. Several of the interior mills are trying to get space on the Portland-New York steamers, but have learned that all the space is sold ahead.
It is also the general belief that the Pacific Coast flour, when it reaches the east, will be transhipped to Europe without delay. The English government for a week past has been buying American flour through agents in this country, and the progress of the war, as shown by the press dispatches, bears out the assumption that the need for breadstuffs on the other side is urgent.
Among the trades was a sale of club at Walla Walla at a price equal to 98 1/2 cents here.
Enough hops have been picked to date in a number of the sections to give some indication of the size of the crop. In the Ballston, Sherwood, Dalas, Wodburn, St. Paul, Mt. Angel, Silverton, Monitor, Marquam and Newberg districts the returns show the crop will be from 20 to 50 per cent short of last year. The fuggler crop in the valley is decidedly shy of last year's quantity.
The rain was general throughout the hop belt and temporarily checked harvesting. As there is an abundance of pickers this year, growers have no fear of the weather.

Seattle.
Not yet has the peach trade reached a level which shows better profits the grower or a scarcity, although the past two or three days would give this indication. The market at 40c for best Elbertas was firm, and predictions for the coming week include both higher and lower levels, but the fact remains that Wenatchee has not begun to ship its orange, lemon and Italian clings and Simmons seedlings or Muirs, and Cashmere has just started its Elbertas into market. The canyon districts of eastern Washington have scarcely commenced to market their product. Much of this stock is due to show next week. The Simmons seedlings have always been rated at a higher quality and price level than the Elbertas. There is a large amount of excellent canning fruit in these coming shipments, and any rapid recovery from the extremely low prices in peaches is doubtful at this time.
Good shipping pear stock is scarce, and the market hardened to \$1@1.50. It is now regarded as probable that this fruit will reach a high level for the finish, not to be weakened until the coming of the Idaho canning stock in October.
The egg market looks steady. It was reported on the street that some of the jobs had been price cutting and were selling fresh ranch stock at 38c. This report could not be verified. Ordinarily, however, such a price would be impossible. All dealers have enough eggs to reach without embarrassment and the general undertone is far from firm.

BRITISH DEFEAT GERMAN CORPS

Imperial Guard, Led by Crown Prince, Claimed Annihilated.

General Pau Announces Victory Over Germans in North—Million in Battle.

London.—A Boulogne dispatch to the Evening News says a telegram has been received from General Pau announcing a victory by the allied forces at Prey Sur Oise.
The Imperial Guard, under Crown Prince Frederick William, is reported to have been annihilated by the British force which opposed them.
The Evening News dispatch says: "A telegram has been received from General Pau announcing a victory by the allied forces under Field Marshal Sir John French, commanding the British, and General d'Amade at Prey Sur Oise, about 25 miles north of Paris."
"The allies were drawn across the northern line with the center at Prey. The English troops were on the left and the French on the right. The former had in front of them the Imperial Guard under Crown Prince Frederick William. The latter were on the right. The German left was held by the French and retired to the north."
"The allied forces, who were ordered to surrender, were annihilated by the British. It is reported that the Crown Prince was in their midst."
"The British official bureau has received no confirmation of this message."
An earlier official statement given out in Paris said that a general action had started on the line from Nanteuil-Hardouin to Verdun, a distance of 120 miles. It was then said that, thanks to the vigorous action of the French troops, supported by the British, the Germans had "started retreating."

A Plea of Guilty.
"What!" exclaimed the teacher, "does no one know? What animal has bristly hair, is dirty all the time and loves getting into the mud?"
A small boy raised a timid hand and said he heard a report and saw the Runo rise in the water, then settle by the head until the fore part of the ship was awash. She remained in this position long enough to enable her small boats and the trawlers to pick up the survivors, 200 of whom were later landed at Hull.
The fishing trawler Prince Victor picked up 22 persons who were clinging to a cupizize. The trawler's crew saw three others drowned. The mate of the Prince Victor was lowered over the side of the fisherman by lines and thus helped in the work of rescue.
The American consul, John Hay, bound for Odessa, was among the rescued, but was injured.

England Raises Anglo-American Army Corps
London.—An Anglo-American contingent to aid Great Britain in the war is now in process of formation, under the direction of a committee consisting of leaders of Anglo-American society here. Lord Lyveden is the honorary commander, and also commander of the corps.
Speaking at the headquarters of the corps, Lord Lyveden said: "We are accepting Anglo-American contingents, but only those not eligible for the British special army. I have been in communication with the war office officials, and several members of the House of Lords, and have outlined the proposed organization. Every one has been much impressed and believes we shall be able to produce a really useful force to support the British army."
"I have been asked by the authorities to keep my committee at work on its organization until the end of the war, four months' time. We have already had a most generous response in both volunteers and donations. We must equip the corps ourselves."
"The regiment will be composed of one and a half battalions of infantry, three troops of mounted infantry, or rough riders, and maxim, ambulance, and transport detachments. If enough volunteers we may have to form additional regiments."
"The cost of equipping a single company is \$3500. Our horses will have to come from America, as the remount department here may need all the suitable horses in Great Britain."

Russians Capture Zeppelin.
Petrograd, via London.—The Russians fired on and captured, near Zelza, a Zeppelin airship with its 20 occupants, including two staff officers and two gunners, together with explosives, plans and photographs. The Russians also brought down an aeroplane, in which was an Austrian colonel.
During the last two days 130 Austrian officers and 7000 men, prisoners of war, have passed through Minsk en route for Smolensk.
General Benckampff's troops are taking with them to the field the colors carried by Scobell in 1875.

London Belgians Haven.
London.—Homeless Belgians are arriving in London by the thousands daily. Mothers with tears on their faces find children and old people are found on each train arriving at Charing Cross from Folkestone and are met by Red Cross nurses and volunteer committees of Boy Scouts and carried in motors to institutions provided. Few of them have even hand baggage, almost all are without money and they wonder whether they will ever see their homes again. It is estimated that 2000 war sufferers arrived this week.

Bomb-Dropping Airmen Wounded.
London.—A Reuter dispatch from Antwerp says a German aeroplane which flew over Ghent, dropping two bombs, landed descended at Oordergem. Its two officers had been wounded and they were brought to Antwerp.

Prince Leopold's Nephew Killed.
London.—German papers received here show that Prince Ernest of Lippe, a nephew of Prince Leopold IV, has been killed. This is the third casualty in Prince Leopold's family circle.

Militia Guards Butte; Winter Clothing Issued

Butte, Mont.—Two additional arrests were made Monday by the National Guard of Montana, which is keeping peace in Butte by maintaining martial law. The men arrested are Herbert Cary and William O'Brien, both charged with kidnaping. They were members of the depot loss committee of the Mineworkers' Union.
O'Brien was temporary chairman of the Mineworkers' Union when it was first formed and in the election for permanent officers he was a candidate for president in opposition to "Muckie" McDonald. No riot calls were turned in and the bulk of the state guards rested within military lines. Catholic and Protestant services were held in the courtroom for the men. Two hundred members of the National Guard who have failed to report in Butte are to be brought here under guard. Officers with warrants were dispatched to the men's homes.
Every indication points to a prolonged stay of the militia here. Their winter overcoats will arrive soon, and the camp is being fitted up for a long stay.

TOTAL COST OF EUROPEAN WAR NOW \$1,870,000,000
The European war to date has cost the countries involved the vast total of \$1,870,000,000. This total is based on the figures of \$55,000,000 loss a day estimated by the most eminent French and English statisticians.
The daily estimate of \$55,000,000 includes lost earning power, economic loss, loss by destruction of warships, destruction of ammunitions, loss by normal bombardment of towns, economic loss through casualties, loss in animals and industrial and commercial loss.
It does not include such abnormal losses as the destruction of Louvain, which was approximately \$100,000,000.

Liner Strikes Submarine
Mine; Twenty Drowned
London.—The Wilson passenger liner Runo, with 600 passengers on board, struck a mine in the North Sea and was sunk Monday. All of the crew and passengers, with the exception of about 20 Russian refugees, were saved.
The Runo sailed from Hull for Archangel and fouled the mine when about 40 miles off Shields at 4:35 o'clock. The rescues were made by a fishing trawler, a member of the crew of which said he heard a report and saw the Runo rise in the water, then settle by the head until the fore part of the ship was awash. She remained in this position long enough to enable her small boats and the trawlers to pick up the survivors, 200 of whom were later landed at Hull.

General Benckampff's troops are taking with them to the field the colors carried by Scobell in 1875.

London Belgians Haven.
London.—Homeless Belgians are arriving in London by the thousands daily. Mothers with tears on their faces find children and old people are found on each train arriving at Charing Cross from Folkestone and are met by Red Cross nurses and volunteer committees of Boy Scouts and carried in motors to institutions provided. Few of them have even hand baggage, almost all are without money and they wonder whether they will ever see their homes again. It is estimated that 2000 war sufferers arrived this week.

Bomb-Dropping Airmen Wounded.
London.—A Reuter dispatch from Antwerp says a German aeroplane which flew over Ghent, dropping two bombs, landed descended at Oordergem. Its two officers had been wounded and they were brought to Antwerp.
