THE DALLES FAIR
We call our readers' attention this week to the announcement of The Dalles Rodeo and County Fair, which promises to be bigger and better than ever, with one continuous round of pleasure and excitement—something doing all the time.
We received this week a letter from E. R. Hill, secretary of the Business Men's Association—a most interesting letter, too. It gives a good idea of what the visitor to the Fair may expect to see and anyone reading it would certainly want to go. Unfortunately we lack the space to reproduce it and can only say that by all means the people of Mosier should attend the Fair and take some product along to exhibit. Show that much interest in your county's progress and represent your own district.

What's the matter with having a "Mosier Day" at the Fair? It would do us all good and the Dalles people would welcome us.

COUNTRY CHILDREN TO GIVE PLAY
To Teachers and School Officers:
The rural school children of Wasco County will give a play at the Vogt Theatre on Monday and Tuesday evenings, September 28th and 29th.
The play is entitled "A School of Long Ago." This an old play rewritten for the occasion. We promise you ninety laughs in ninety minutes and are certain that your interest in the country children is so great that you will allow nothing to prevent you from seeing this play. Come and see what the country children are doing and can do.
This same play will be given in the auditorium at the State Fair on Wednesday evening, September 30th. The money derived from the entertainment will be used to pay the necessary expenses of the children to the State Fair and any balance will be used for promoting the industrial work in the rural schools.
The general admission will be 25c; reserved seats will be 35c and 50c.
Thanking you in anticipation of the support which I am sure you will give, I am,
Very sincerely yours,
CLYDE T. BONNEY,
County School Supt.

Bleeding Kansas Still Bleeds!

A steady stream of money—the life-blood of a state—pours from "model prohibition" Kansas into License states!

The Topeka State Journal, a supporter of Prohibition, on July 8, 1913, published the statement that approximately **1,500,000 QUARTS OF LIQUOR** were legally shipped into the state of Kansas each year.
Kansas got no revenue—other states got the money!

Should we place Oregon near the bottom with Kansas?

Prohibitionists like to talk about Kansas. They say it has been dry for 34 years and has made a record.
Has it? Kansas Prohibition is what Carrie Nation on the warpath with her hatchet. It was in Topeka, Kansas, that Mrs. Nation opened her home for the wives of men who got drunk on Kansas Prohibition liquor.
Yet Prohibitionists tell us that as the capital city of dry Kansas, Topeka is a model.
Rev. Robert Gordon, pastor of the First Baptist Church, Topeka, who has been a Prohibitionist all his life, said from his pulpit: "There are 130 joints in Topeka where intoxicating liquor is sold."
To prove it, he went out and bought a keg of beer, two cases of bottled beer, a suitcase full of whiskey, and all the gin and wine he could carry.
That is what the Prohibitionists themselves tell us about Kansas.

Dry Kansas ranks 32nd in per capita bank resources.
Dry Kansas ranks 43rd in per capita savings bank deposits.
Dry Kansas has more inmates in her prisons in proportion to population than 21 other states.
Dry Kansas has a greater proportion of juvenile delinquents than 26 other states.
Dry Kansas has a greater proportion of feeble-minded than 31 other states.
Dry Kansas has a greater proportion of homicides annually than 22 other states.

Government statistics show that Dry Kansas has the lowest church enrollment of the North Central States. Only 28.4 per cent of her population is enrolled in church membership.
Wisconsin, a wet state in the North Central group, has a church roll of 4.3 per cent.
Dry Kansas buys great quantities of Elixirs and Home Remedies. Government reports show these nostrums contain an average of 55 to 40 per cent alcohol.
Analysis of a favorite "nerve tonic" showed two grains of opium and 75 per cent of grain alcohol to each fluid ounce.
Patent medicines are always popular in dry states; above is the reason.
Do you, as a loyal Oregonian, want to see your state held up like this to the nation's scorn?

Records of County Clerks, Express Companies and Railroads in Kansas show that Kansas consumes just as much liquor under Prohibition as it did when it had legally licensed saloons. The state now gets no public revenue from this liquor. The "blind-pig" and the "boot-legger" have taken the place of the regulated saloon and ply their illicit trade in alleys and under cover of darkness.
Defeat of Prohibition will not change the present Home Rule or Local Option Law
