It Stumps the Devil.

The devil was reading the war news o'er. At each fresh item he gave a roar. "It sickens me even to think of that gore," said the creature in red.

"The kings who plan out such misery, the horrible torture and butchery, to call them 'devils' is flattery," and he shook his head.

"I've never been called fastidious, but when Sherman said 'War is hell,' the cuss was altogether unjust to us," Beelzebub said.—Boston Advertiser.

The Dumdum Bullets.

As was expected the charge that dumdum bullets are being used in the war has appeared. There has not been a war since the dumdum was frowned upon at the second Hague conference because it shatters bones and tears great holes in the flesh. This time it is the French who claim that German soldiers are using it.

The dumdum is so called because it was first made by the British at Dumdum, India, the scene of the first outbreak in the mutiny of 1857. The British soldiers found that the small size bullet they were using would not stop their fanatical enemies. In civilized warfare it was customary for a man shot through the body to think he had enough fighting for awhile, but the Sepoys were different, so the British soldiers made a bullet that would flatten out when it struck a bone, making a terrible wound.

There has since been a dispute as to whether the dumdum should be outlawed. On the one hand it is argued that its use greatly increases the percentage of killed, and on the other that it should not be outlawed while artillery is permitted to throw shells that tear dozens of men limb from limb. Most of the powers now fighting have agreed that it should not be used.—Savannah News.

FARMER'S WIFE TOO ILL TO WORK

A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kasota, Minn. — "I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do." — Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

58 PERISH WHEN STEAMER SINKS

Only Two of Leggett Rescued Off Oregon Coast.

Lifeboats Containing 38, Including Women and Children, Are Swamped by Heavy Sea.

Astoria, Or.—Fifty-eight persons, at least, and probably more, perished when the steam schooner Francis H. Leggett sank in a 90-mile gale 60 miles south of the Columbia river and 30 miles northwest by north of Yaquina light, off the Oregon coast shortly after 3 o'clock Friday afternoon. Other estimates place the number of dead at 70. Five women, a boy and a girl are among the missing.

Two persons are known to have been rescued, after clinging several hours to wreckage tossed by a vicious sea, and an unconfirmed report says a third person has been picked up.

The known passenger list, furnished by the owners at San Francisco, totaled 35. Besides Captain Maro, the Leggett carried a crew of 24 men.

Two lifeboats are reported to have been filled and lowered. One contained 30 persons and the other eight. All the women and children were included. Heavy seas swamped the lifeboats immediately upon their striking the water.

The known survivors are Alexander Farrell, of Sacramento, Cal., and George Pullman, or Pollman, of Winnipeg, Man. Both were rescued by the oil tanker Frank H. Buck, which is lying off the mouth of the Columbia river awaiting a quiet sea to enter this harbor. Farrell was transferred to the steamer Beaver and taken to Portland. He told a thrilling story of his experience and gave pathetic accounts of drownings of persons attempting to cling to wreckage.

The Leggett was en route to San Francisco from Grays Harbor ports, having left Portland a few days ago for Washington towns to load lumber.

German Shells Set Noted Rheims Cathrdral Afire

Berlin.—An official statement issued Monday says:

"Rheims was in the battle line of the French and the Germans were obliged to bombard it. We regret the necessity, but the fire of the French came from that direction. Orders have been issued to save the cathedral.

"The attacks on the French are progressing at several points."

Bordeaux.—The Minister of the Interior, Louis J. Malvy, announced that the famous Cathedral of Rheims had been destroyed, and all other historic and public buildings either laid in ruins or seriously damaged during the bombardment of Rheims by the general artillery.

Coupled with this announcement was a statement that the government had decided to address to all the powers a note of indignation against "this act of odious vandalism."

Germany Questions British Sincerity

Berlin.—Nobody in Grmany is willing to admit the sincerity of Great Britain's basing its declaration of war on Germany's violation of the territory of Belgium and Luxemburg and much alleged evidence is produced in newspapers and magazines to prove that Great Britain had already made up its mind to join France and Russia previous to Germany's advance on Belgium territory.

In the highest circles of the German government it is asserted that the foreign office has evidence that Great Britain was negotiating with Russia several months before the war broke out to furnish ships for a descent of Russian troops on the coast of Pomerenia, which lies on the Baltic north of Berlin, but it appears that nothing came of these negotiations.

Another curious and timely piece of evidence is presented in the shape of an item purporting to be from the Paris Gil Blas of February 25, 1913. That paper is said to have published the following:

"A newspaper of Eastern France has revealed a highly interesting piece of news. In military circles there it is related that large stocks of British ammunition have for several weeks been brought into Maubeuge, near the northeastern frontier of France, on the railway line from Paris to Cologne. The city of Maubeuge is of great military importance. It is designated in the French general staff's plan of campaign as the concentration point for the allied troops which will be commanded in case of a war by the English field marshal, Sir John French, under General Joffre as commander-in-chief."

Japanese Gain Reported.

Tokio.—Lieutenant-General Kamio, commander-in-chief of the Japanese armies that are moving on Kiau-Chau, the German leased possession in China, reports that he met and repulsed a German detachment on September 18. The official announcement of the skirmish says that the troops, after landing moved southward at Wang-Ko-Huang, 13 miles east of Tsimo. The Germans used machine guns, abandoned their position in disorder, leaving supplies, equipment and personal apparel. The Japanese suffered no casualties.

Belgians Make Sortie.

London.—A dispatch from Maestrict has been received here saying: "A Belgian force made a daring sortie in the direction of Liege. Reaching a point within 22 miles of that town, the Belgians pulled down the German flag at Laneken and hoisted the Belgian pennant. In the engagement with the Germans at Laneken the German force suffered some losses. No Belgians were injured. Another sign of disturbance in this region is the interruption of passenger service over the Liege-Maestrict Canal."

Army Wins on Apple Diet.

London.—The Petrograd correspondent of the Times says that General Ruzsky's army while in pursuit of the Austrians toward Lemberg, left all transports behind them and for six days lived on apples. This is cited by the correspondent as showing the great energy of the Russian soldiers, who are able to endure forced marches and continuous fighting on such a diet.

Germany's New Gun Is Big Surprise to World

Berlin.—It still is too early to base general predictions concerning war in the future on the engagements of the present great European struggle.

One prediction, however, does seem fairly justified already. It is that the day of fortresses has passed. The new 42-centimeter (16.8-inch) siege gun of the German forces appears to have demonstrated its ability to demolish the strongest fortifications ever made. Pictures of the demolition at Liege bear striking testimony to the power of this new arm. A single projectile demolished utterly walls of reinforced cement and steel, ripped open steel towers and piled the mass on the forts' defenders.

This new siege gun has been the surprise of the war. It has been repeatedly asserted that no nation has any military secrets that are not in possession of all other important nations, but events have proved not only that the existence of this terrible weapon was not known to foreign nations, but that only a limited number of high German army officials themselves had so much as heard of it. A member of the Reichstag, whose name is not given, is quoted as follows in a German paper:

"The fact that the German army possessed such a gun was as much of a surprise to the Germans as to foreigners, for its construction and nature were kept secret, as the situation demanded, so that even in the empire only a limited number knew about it."

German Prisoners Say Kaiser's Losses Heavy

Bordeaux.—There was given out officially information concerning incidents of the fighting and personal experiences which had been furnished by German prisoners or obtained from documents seized by French troops. It relates particularly to the fighting around Rheims between September 11 and 16.

A German artillery officer wrote:

"Modern war is the greatest of follies. Companies of 250 men in the Tenth Army Corps have been reduced to 70 men and there are companies of the guard commanded by volunteers of a year, all the officers having disappeared."

The following is taken from a letter written by a German Captain of infantry:

"We were surprised by the French and I lost my company. Searching for it in a village, I was made a prisoner. Now my fate is in the hands of God."

Another German officer captured at Rheims said:

"For tactical reasons, the guard had to retreat. We had many killed and 800 wounded. The first battalion of the first regiment of the guard has not another officer. The French artillery defiled so well that we could not discover its sight. General Von Schack and the colonel of the second regiment of artillery of the guard are among the killed."

English Labor Unions Said to Be Backing King

London.—The parliamentary committee of the trades union congress, after a two days' conference, issued a manifesto to trade unionists of the country on the war. The committee was especially gratified at the manner in which the labor party in the house of commons responded to the appeal made to all political parties to help in the defense of the country.

The manifesto proceeds: "The committee is convinced that one important factor in the present struggle is, that in event the voluntary system of military service fail, the demand for a national system of compulsory military service will not only be made with redoubled vigor, but may prove to be so persistent and strong as to become irresistible. The prospect of having to face conscription, with its permanent and heavy burden upon the financial resources of the country, and its equally burdensome effect upon nearly the whole of its industries, should in itself stimulate the manhood of the nation to come forward in its defense, and thereby demonstrate to the world that a free people can rise to the supreme heights of a great sacrifice without the whip of conscription.

"Another factor to be remembered is that upon the result of the struggle in which this country is now engaged rests the preservation and maintenance of free and unfettered democratic government, which in its international relationships has in the past been recognized and must unquestionably prove to be the best guarantee for preservation of the peace of the world.

"The mere contemplation of the overbearing and brutal methods to which people have to submit under a government controlled by a military autocracy living, as it were, continuously under the threat and shadow of war, should be sufficient to arouse the enthusiasm of the nation in resisting any attempt to impose similar conditions upon countries at present free from military despotism.

"But if men have a duty to perform in the common interest of the state, equally the state owes a duty to those of its citizens who are prepared and readily prepared to make sacrifices in its defense and for the maintenance of its honor."

34 on Lost Submarine.

Melbourne, Aus.—Rear-Admiral Sir George Patey, commander of the Australian navy, in a wireless dispatch to the government says that submarine Ae-1, which was reported lost, disappeared with all hands, numbering 34 men, on board. Other vessels of the fleet made a search but failed to discover any wreckage. The loss is attributed to accident, as there was no enemy within 100 miles and the weather was fine at the time. This is the first disaster in the history of the Australian navy. The Ae-1 was under command of Thomas F. Besant.

Austria Arrests Italians.

Vienna.—The position of the Italian inhabitants of Trieste is exceedingly uncomfortable. Hundreds have been arrested and many houses belonging to Italians have been searched by the police. A large number of Italians are leaving Trieste, especially the younger men, many of whom are enlisting in the Italian army.

The few British subjects remaining in Trieste, many of whom are women and elderly men, have been advised by the police to leave Austria in order to avoid unpleasant consequences.

Wounded Briton Praises Germans.

Berlin.—By wireless to Sayville, L. I.—Hon. Aubrey Herbert, member of Parliament, who was among the wounded in a German hospital and taken back by the British, expresses his thanks for the courtesy shown him in the German hospital and praises the humanity of the German soldiers.

PRINCE OF WALES TO FRONT

NORTHWEST MARKET REPORTS.

Portland—The scarcity of potatoes, the firm prices asked by growers and the poor quality of a good many of the recent arrivals have led to the shipping in of outside stock. Two cars reached here one day this week, one coming from Yakima and the other from California. A quantity of Idaho potatoes is also on the market. The jobbers are getting $1.50 for these potates, whereas, $1.35 is all that retailers will pay for the ordinary run of home-grown stock.

The early Oregon crop suffered severely from the dry summer, and the potatoes were small in size and for the most part inferior. The late crop, which has not yet come on, has been materially benefitted by the recent rains. The vines are green and growing and potato authorities now estimate that the crop, if an early frost does not get it, will be fully two-thirds of normal. Before the rain came they did not look for over half a crop.

There is much complaint of the refusal of farmers to sort over their stock properly. There are enough good potatoes on the farms to supply all local needs, and if they were graded there would be no necessity of bringing in outside stock.

There is a fair run of stock at the stock yards and trade was quite active. The cattle market continued to exhibit strength, as did sheep, but hop prices were lower and the undertone of the market was heavy.

The feature of trading in the cattle division was the sale of two loads of prime steers, averaging 1055 pounds, at $7.37. A few head were disposed of at $7.25, and other sales were closed at $6.25 to $6.70.

The hog market was under the same strain that has borne prices down of late, liberal receipts and more or less of poor quality material. The best price obtainable was $8.55, which lacks 20 cents of the price paid for standard hogs.

Steady prices were realized in the few transactions in the sheephouse. Choice ewes sold at $4.50, and others at $3.50 and $4, while lambs were taken at $5.75.

Cattle—Prime steers, $6.75@7.10; choice, $6.50@6.75; medium, $6.25@6.50; choice cows, $5.75@6.50; medium, $5.25@5.75; heifers, $5.50@6.25; calves, $6@8.50; bulls, $3@4.75; stags, $4.50@6.

ON THE FUNNY SIDE

TRADE SECRETS.

"Why did you take out the mirrors you had around your soda fountain?"

"They hurt the business. Whenever a woman saw how she looked inhaling a drink through a straw she'd never come back to do it again."

Speaking of Suffragettes.

A lady of great beauty and attractiveness, who was an ardent admirer of Ireland, once crowned her praise of it at a party by saying:

"I think I was meant for an Irishwoman."

"Madam," rejoined a witty son of Erin, who happened to be present, "thousands would back me in saying that you were meant for an Irishman."

Explained.

"I hear that you have a college graduate for a cook. Isn't that rather expensive?"

"Not very. She works for her board and clothes."

"Why, how does she come to do that?"

"She's my wife."—Rehoboth Sunday Herald.

A Stay-at-Home.

"Of course, I'd like to vote," said Mrs. McGudley. "But I dunno's I'd ever get a chance to exercise my right to vote even if I had it."

"Couldn't you go to the polls and cast your ballot, like anybody else?"

"No. If everybody voted all the help in the house would be sure to want the day off every time there was an election."

Fatal Disease.

A young painter who had just finished a picture insisted upon a friend calling to see it.

"There, now," enthused the artist, "you see my new picture. What's the matter with that?"

"I don't know," replied the bored friend, "but I should say it was a case of art failure."—National Monthly.

Saving Labor.

"The automobile is a great boon to the poor, overworked horse," said the sympathetic woman.

"Yes," replied Mr. Chuggins; "but while it is making life easy for the horse, it has three or four human beings busy day and night keeping the machine in repair."

Nothing Softens Him.

"Tompkins seems to have an incurable grouch."

"I agree with you. I've known him to eat a meal that would delight an epicure, toss off a glass of cordial, light a 25-cent cigar and start right in knocking humanity."

Not a Rash Promise.

"Do you think you will be able to provide for my daughter's wants and necessities?" asked the proud parent

"I don't know about her wants," answered the prudent young man, "but I will be able to provide for her necessities."

Philosophers and Optimists.

"What is the difference between a philosopher and an optimist?"

"Well, a philosopher takes things as they come, while an optimist, if they come with the dark side uppermost, turns them over."

His Record.

"We want plenty of energy in our business. Has this fellow you're recommending any go in him?"

"Any go! There isn't a speed law in ten adjacent states that he hasn't fractured."

More to the Point.

Anxious Chum—I assure you, my dear sir, my young friend will make your daughter a handsome husband

Stern Parent—Yes, but will he make her a handsome living?

Sweet Innocent.

Alice—Why are you taking up bot any?

Kitty—Because my fiance is interested in a plant of some kind and I want to be able to converse intelligently with him about his business.

A Distinguished Affliction.

"The doctor says I have incipient malaria."

"Dear me! what kind of malaria is that?"

"My good woman, it's the worst kind going."

War Leaders Are Old Men.

The European war seems to disprove the old saying, "Young men for war, old men for counsel." The leaders in all nations are men no longer young. Some of them are really old. Here are a few of them.

England's war chief, Horatio Herbert Kitchener, general and viscount, was born in Bally Longford, County Kerry, Ireland, June 24, 1850, the son of a lieutenant colonel in the British army. He entered the army in 1868.

Field Marshal Sir John French, commander-in-chief of British forces in the field, was born in England in 1852, the son of a naval officer. He served with distinction in the army in India and in South Africa.

General Joffre, commander-in-chief of the French army, is 62 years old. He entered the French army when he was 18 years old and served through the Franco-Prussian war. He is a noted disciplinarian.

General Helmuth von Moltke, chief of Kaiser William's general staff, was born May 23, 1848, in Gersdorf, Mecklenburg. He is a veteran of the Franco-Prussian war and a field marshal.

Premier Stephen Tisza, of Hungary, called "the dual monarchy's man of the hour," was born in April, 1861. He has been prominent since 1886 in Hungarian political life.

Emperor Francis Josef of Austria was born August 18, 1830, and has reigned since 1848.

King Albert I of Belgium was born April 8, 1875.

Emperor William II of Germany was born January 27, 1859, and has reigned since June 15, 1888.

Emperor Nicholas II of Russia was born May 18, 1868, and has been on the throne since November 1, 1894.

King Peter I of Servia was born in 1846 in Belgrade, and was proclaimed king June 11, 1903.

King George V of England was born June 3, 1865, and succeeded his father May 6, 1910.—Detroit Free Press.

Putnam Fadeless Dyes make no muss.

Good Time to Bite.

A farmer met a man at a railroad depot who asked him for a chew of tobacco. The farmer pulled out a plug and said:

"Have you got a knife?"

"No," replied the man. "Have you any particular place where you want me to bite it?"

"Nope," said the farmer.

The man jumped aboard the moving train and yelled back:

"All right, then, I'll bite it in the next town."—National Monthly.

The Lesser Evil.

The little boy was evidently a firm believer in the old adage, "Of two evils choose the least." Turning a corner at full speed he collided with the minister.

"Where are you running to, by little man?" asked the minister, when he had regained his breath.

"Home!" panted the boy. "Ma's going to spank me."

"What!" gasped the astonished minister. "Are you eager to have your mother spank you that you run home so fast?"

"No," shouted the boy over his shoulder as he resumed his homeward flight, "but if I don't get there before pa he'll do it!"—Minneapolis Journal.

Wild Pitch.

"I thought you had thrown Arthur over."

"I did, but you know how a girl throws."—Philadelphia Public Ledger.

A motorman was arrested for running over a hose. Being a fire hose, the M. M. failed to notice it.

Quick Relief When Utterly Worn Out

Getting the Blood in Order Is Required By Most People.

If you think you have gone to smash and fit only for the discard, try S. S. S. for the blood. It will surprise you to know what can be done for health once the blood is released of the excess of body wastes that keep it from exercising its full measure of bodily repair.

If you feel played out, go to any drug store and ask for a bottle of S. S. S. Here is a remedy that gets at work in a twinkling; it just naturally rushes right into your blood, scatters germs right and left, up and down and sideways.

You feel better at once, not from a stimulant, not from the action of drugs, but from the rational effect of a natural medicine.

The ingredients in S. S. S. serve the active purpose of so stimulating the cellular tissues of the body that they pick out from the blood their own essential nutriment and thus repair work begins at once. The relief is general all over the system.

Do not neglect to get a bottle of S. S. S. today. It will make you feel better in just a few minutes. It is prepared only in the laboratory of The Swift Specific Co., 530 Swift Bldg., Atlanta, Ga.
