JUDGE GALLOWAY

(Paid Advertising)

The office of Justice of the Supreme court is and should be non-partisan. Politics has nothing to do with the duties of the office. The three hold over justices are republicans. There are four additional justices to be elected. Everything else being equal, it would only be fair that some of these should be democrats.

Judge Galloway has had ten years experience on the Circuit bench, and was elected the second time in a district overwhelmingly Republican by two thousand and majority. This fact alone is strong evidence of his ability, integrity and of the satisfactory character of his services as Circuit Judge. However, his strongest claim for this position is his great store of good common sense, and his kindly nature and understanding of men and affairs. The day has come when we want more common sense and humanity and less technicality in our courts.

A. S. BENNETT,  
The Dalles, Oregon.

According to advices from Washington, Oregon's share of the money received by the government from the forest reserves in this state amounts to \$60,509, and this amount will be immediately available for the benefit of the schools or improvement of the roads in the counties in which the forest reserves are located.

**WHY DESTROY THE INDUSTRIAL PROGRESS OF OREGON?**

That's what the so-called "Water Front" bills, Numbers 328 and 330 will do if passed at the November election.

Why make it impossible to build saw mills or any other industrial, labor producing plants on the rivers and bays of Oregon?

That's what the passage of these bills will do.

Why cripple the development of our great timber resources; why cripple the future manufacturing of Oregon?

That's what will take place if the people vote "yes" on numbers 328 and 330.

Why lock up the thousands of acres of overflow lands bordering upon the navigable waters of the States and its miles of water front for the benefit of future generations; why not let the present generation have some of the benefit from the use of these lands.

Industries of all kinds will be driven from Oregon and intending investors will turn their backs upon the State if these so-called "Water Front" bills become laws. That is why every man, woman and child in Oregon will be adversely affected if these bills are passed by the people in November.

Oregon needs outside capital to develop its great natural resources but we will drive it away if we pass Numbers 328 and 330 on the ballot at the November election.

If these so-called "Water Front" bills are passed by the people, a vast amount of property will be withdrawn from taxation in this state and this great burden will be thrown upon the rest of the taxable property, resulting in a heavy increase in everybody's taxes.

These bills are vicious; they are destructive of the very best interests of the state; they ought not to become laws. The way to defeat them is to vote "NO" 329 and 331.
