The Real Labor Problem is on the Farm.

The great dairies with flaming headlines deplore the lot of women who toil in the cities, the city pulpit chatters with sympathy for her, and the legislators cringe in her behalf, but not a line is written, a word said or a speech delivered in the interest of the million women who labor on the farm. Where one woman works in the cities in this state, there are a hundred mothers toiling in the field, and no mention is made of it. Is the woman in the city entitled to any more consideration than the woman on the farm? I contend that she is not. The city woman may be more easily restrained by legislation, and she may have a more attentive audience when she cries aloud, but the real labor problem, in so far as it relates to women and children, is on the farm—where mother and child, wielding the hoe and gathering the harvest, toil day in and day out without hope of reward.

The City Life Puny.

The farm women work from sun until sun. They do their housework and pull a half-million babies to sleep after the chickens go to roost, and they get breakfast and milk the cows before the lark sings. The city woman frequently chafes under hardships that the farm woman would consider a blessing. The city people are great talkers and oftentimes great by mouth, they roushies and organize their associations, etc. This charitable permanent organized society as well as enters into the individual life of cities. There are orphan asylums which are doing commendable work and should be encouraged, but I have seen widows in the country make a crop, drink branch water and eat corn-bread and molasses and raise more children and better children than many of these city orphan asylums. The cities need to get back to the soil with their ideas. They are hysterical, puny and feeble in their conception of life, its requirements and its opportunities.

Believed Himself Invisible.

The first Lord Lytton was certainly daft. One morning while he was entertaining a large company at his country seat the guests were assembled at breakfast in the great hall when their host came in in an old dressing gown, poured out a cup of tea and disappeared without uttering a word to any one. Arthur Russell expressed his surprise to his next neighbor, who said: "He believes himself to be invisible."

And, sure enough, in a little time he appeared in his usual dress and saluted his friends as if he had not seen them since the previous night.
