Simplified Belgian Names. I spent the night—sleeping better than at home—on straw in a water-surrounded post looking across to Dixmude, which our own soldiers aptly speak of as "Thickmud." It is true that our men are rather strange in this way. They have their hands full over at Ypres, which they call, as a matter of course, "Wipers." There is, if you remember, a Ypres tower on the old walls of Yve, at home in Sussex, which has been given the same pronunciation. The British Tommy does not commonly carry maps, and consequently the peculiar, half-humorous twists he gives to place names have a tendency to become permanent. There is, for example, a place near Poperinghe called Matou, which has quite easily become "What-O!" just as Wyt-schaete has changed with celebrity to "Whitesheet," and Fleurbux to "Flow-er Box," a little tongue-to-circumvent for a British tourist to circumvent—has become "Crossboys."—London Outlook.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When prevailing conditions don't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

The War's Surprise. At the beginning of the war it was said that every one of the nations had surprises in store for their enemies and the world. There were wonderful military and naval inventions that had been kept inviolably secret and that were to be sprung on the foe when least expected. Five months of war have now passed and the one "creme surprise" for the world is that highly civilized nations do not seem to have realized the awful loss of men that would be involved. The 42-centimeter gun that reduces forts thought almost impregnable in a few days is as nothing compared to the loss of more than 3,000,000 of men in killed, wounded and missing, which, according to apparently conservative estimates, the Germans and Austrians have suffered up to this time.—New York Herald.

As a Souvenir. Simeon Ford, at a dinner of hotel men in New York, spoke on souvenir hunters.

"The souvenir hunter is the hotel man's pest," he said. "These people walk off with spoons, towels, cream jugs—anything. Why, a Chinese hotel keeper once told me that a souvenir hunter in Peking snipped off six inches of his pig tail for a souvenir while he was paying his bill."

"Worse than that, though, was the case of a New York hotel keeper. He said one day that a notorious souvenir hunter had stopped a month at his hotel."

"Miss anything after he left?" said I. "Yes—my wife," said the hotel keeper."

Splendid Medicine Stomach Trouble

I Suffered for Several Years Peruna Restored My Health

Mrs. Elizabeth Reuther, No. 508 Twelfth St., N. W., Washington, D. C., writes: "I am pleased to endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered for several years. I took it for several months and at the end of that time found my health was restored and have felt splendidly ever since. I now take it when I contract a cold and it soon ridens the system of any catarrhal tendencies."

Over Ten Years Ago. "I would not be without Peruna. Although it was over ten years ago that I first gave you my testimonial, I am of the same opinion as when I wrote it, and give you the privilege to use it as you see fit. I still use Peruna when I think it necessary. I am recommending it to my neighbors whenever a chance occurs."

NORTHWEST MARKET REPORTS

Portland—The continued advance in freights is keeping wheat prices down here, or at least preventing them from moving upward in accord with the higher foreign markets, whence comes the principal demand for grain.

Bids on the local exchange were higher this week in some instances, but declines were in the majority and the market on the whole was about a cent lower last week.

Livestock markets are quiet, with a limited supply available. The sheep market was easily the feature, with sales at the best figures of the season. The transactions involved choice yearlings at \$6.65 and ewes at \$5.75, which are advances of 15 to 25 cents over former prices. Two bunches of lambs were sold at \$7.

The hog market maintained its former steady level, the best light-weights bringing \$6.75 and \$6.80. The only deal of importance in the cattle division was the sale of a load of fine bulls at \$6.

The egg market is firm with small receipts. Former prices were quoted, but there are indications of a higher range soon.

The poultry market continued overstocked and weak. Hens are quoted at 11¢@12¢ cents. Dressed veal was steady and pork was weaker.

No changes were reported in dairy produce lines.

Tacoma—There is an unusual demand for rutabagas and local commission men say they are unable to get enough receipts to supply the trade. This vegetable is now being received from North Yakima and only a few farmers of that section of the state are growing them. Farmers in the Puyallup valley and other farming districts of Puget Sound have been unable to grow rutabagas because of worms. It is said the young plants in the fall are attacked by the pests and destroyed. Farmers have attempted repeatedly to combat the worms but have been unsuccessful in this section. Produce merchants say a few years ago no better rutabagas were grown than those sent out from this part of the country.

Butter is firmer and is soon due for an advance. Dealers attribute this to the reopening of some condensed milk factories that take a good part of the surplus butter fat. Eggs are firm. President Wilson Announces Neutral Policy

Washington, D. C.—The United States government issued Monday a lengthy defense of its interpretation of the rights and duties of a neutral in the European war.

The document, prepared by President Wilson, Secretary Bryan and Counselor Robert Lansing, of the State department, after several days of consultation, was made public in the form of a letter from the secretary of state to Senator Stone, of Missouri, chairman of the senate committee on foreign relations.

While the letter is a reply to an inquiry from Senator Stone for information

LADY SYBIL GREY

Lady Sybil Grey, daughter of Earl Grey, who is commandant of a corps of trained nurses caring for wounded soldiers at Howick Hall, the country seat of her father in Northumberland.

tion as a result of complaints made in the press and in letters from various parts of the country, charging the Washington government with unfairness to Germany and Austria, it also is intended as a pronouncement of policy on some questions of neutrality previously unexplained.

After answering 19 specific charges and calling attention to the fact that the United States has promptly taken to task Great Britain as well as Germany and every government which in any way has infringed upon the rights of this country, the letter concludes with the following declaration on the much-discussed questions of exportation of war munitions.

"If any American citizens, partisans of Germany and Austria-Hungary, feel that this administration is acting in a way injurious to the cause of those countries, this feeling results from the fact that on the high seas the German and Austro-Hungarian naval power is thus far inferior to the British. It is the business of a belligerent operating on the high seas, not the duty of a neutral, to prevent contraband from reaching an enemy."

Movie Men Are Indicted. Chico, Cal.—George Sontag, member of the once-notorious Sontag and Evans gang which terrorized California 20 years ago, and George E. Duke, a former reality operator of Oakland, Richmond and Santa Rosa, were indicted by the Butte county grand jury on charges of obtaining money under false pretenses. The indictments are the result of their operations in connection with the United States Feature Film company, which was organized by them last summer to produce a picture which was said to depict some of the operations of the Evans and Sontag gang. The principal charge against them is that they sold stock in Chico and Oroville with the understanding that they were to receive no promotion stock, and that Duke had put \$15,000 of his own money into the company. Both these statements were declared misrepresentations.

Von der Goltz Is Shot. London—A dispatch to the Daily News from Cairo says that an attempt has been made on the life of Field Marshal Baron Kolmar von der Goltz, of the German army, who it was said recently left Constantinople to take command of the Turks on the Caucasian frontiers. The report emanated from the German consulate at Jaffa, Syria. It said that the Field Marshal had been fired at and that it was believed he had been hit. Other officers were attacked at the same time.

Race to Die in 300 Years. "The Caucasian race is destroying and contaminating life forces faster than it is creating them, and unless a radical change is made it will destroy itself within a comparatively short time," Professor Alvin Heckethorn declared in his address on the "Psychology of Marriage" at the Scandinavian hall in Portland. "It will be a matter of perhaps only 300 years until it will destroy itself if the present pace is continued." Professor Heckethorn attributed this alleged decadence to abuse of the marriage relation.

Girls Must Go Down Rope. Cambridge, Mass.—Kadellife girls living in the college dormitories are much disturbed over a rope posted by the college fire chief, Marjorie Bridgman that "all hall girls are absolutely required to practice sliding down the rope escape in the gymnasiums."

Not Only Miss Bridgman but the college authorities insist that every girl must learn how to use the rope fire escapes, which the law requires placed in every room above the first floor.

WORMS

"Wormy" that's what the matter of 'em. Stomach and bowels. Nearly as bad as dyspepsia. Cost you too much to feed 'em. Look bad—sore—bad—Don't physic 'em to death. 10 CENT "CASCARETS" IF BILIOUS OR COSTIVE For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a still barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascart tonight will give you comfortable bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

Marriage a Vocation. Marriage should be looked upon as a vocation and not a mere avocation, argues one who signs herself "Feminist" in an open letter to one of the Daily Wapers. The writer, who has been a teacher, but who is now a mother, has been surprised that being a wife and mother is a "profession, the successful performance of whose duties requires all my effort and all my time." "Feminist" thinks that women generally do not realize this or refuse to face it, that young women contemplating matrimony should be made to realize that they are choosing a profession quite as important as medicine, law or business, and that, if possible, a preparatory course should be required before granting the certificate to practice the profession of wife and mother. This sounds very well and would be admirable if it could be carried through. But as there are two parties in marriage it would be very one-sided if the woman received all the training. A good, stiff preparatory course for the young man contemplating the profession of husband and father would be quite as much in order. If we have one let us have the other.—Frances Frear in Leslie's.

Logical. "In Washington William Collier was once conversing with a man of much scientific attainment. The scientist narrated in detail a series of experiments he was conducting with the microphone.

"The microphone," said he, "magnifies sounds to the ear as the microscope magnifies objects to the eye. The footfalls of a spider heard through the microphone sound like the tramping of marching infantry."

"That's amazing," politely commented Mr. Collier.

"This afternoon," continued the man of science, "I heard a fly walking across the pane. The noise resembled the hoofbeats of a cavalryman's mount."

"Perhaps it was a horse fly," suggested the actor.—St. Louis Post-Dispatch.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take.

Not Neatly Enough. "The drunkenness prevalent among the wives of English volunteers has caused consternation all over the country," said Patriarch Alfred Noyon, of the Sons of Temperance, in an interview in Boston.

"These women, with their various allowances from the government and private funds, have more cash than they ever had in their lives before. There's no man in the house, no meals to cook, hence out go the women with their babies after breakfast to the nearest pub, and by 10 or 11 o'clock they're drunk for the day."

"English beer is as much to blame as anything else for English drunkenness. Beer they call it over there, but we call it stout or porter or ale. It is almost as strong as whiskey."

"I heard an Englishman once compare the native beer with the lager of Germany and America.

"Why, after our good old beer," he said, "them foreign brews tastes like kissin' your own sister."

Sure! Charles Ogle was leaving the Imp studio the other day when a pretty young girl approached him.

"I beg pardon," she said, timid like, "but would you care to help the Newsboys' Home?"

"Charley looked at her kindly. "Sure," he answered, "where are they?"

Rheumatic Throat Is Common Trouble Should Be Treated in Blood To Prevent Recurrence.

There are successful gargles that stop soreness in the throat, but to prevent their recurrence, the blood must be put in order. The best remedy is S. S. S., as it influences all the functions of the body to neutralize the irritants or waste products and to stimulate their excretion through the proper channels.

Rheumatic sore throat is a dangerous indication, as it means that the blood is loaded with more uric acid than the kidneys can excrete, and may thus lead to serious general disturbances.

The action of S. S. S. stimulates cellular activity. It prevents the accumulation of irritants in local spots. It enables the arteries to supply quickly the new red blood to replace worn-out tissue.

For this reason, uric acid that finds the throat an easy prey to its breaking-down influence, is neutralized and eliminated. In other words, S. S. S. prevents chronic conditions by enabling all the mucous linings of the body to secrete healthy mucus. Its influence is shown in marked improvement of the bronchial tubes, whereby the business of voice with thick, scratchy secretions is overcome. S. S. S. well diluted with water, means a blood bath, since it is welcome to any stomach and at once gets into the blood.

S. S. S. is free of all minerals and contains no drugs. It is wonderfully conducive to well-balanced health.

You can get it at any drug store, but do not accept anything else.
