Head Catarrh Cured by Peruna. Tried Other Remedies Which Failed. Having for years been afflicted with Catarrh of the Head I was finally induced to try Peruna. It effected a cure. I think Peruna the best tonic ever put on sale.

A Draft—You Catch Cold—Then Follows Coughs, Cold Stiff Neck Neuralgia Especially in the piercing pain of neuralgia or the dull throbbing headache is Sloan's Liniment wonderfully relieving. Laid lightly on the part where the pain is felt, it gives at once a feeling of comfort and ease that is most welcome to the overwrought sufferer.

Hear What Others Say: "There are no ailments that equal Sloan's. My husband has neuralgia very often. He rubs Sloan's on his face and that is the last of it."—Mrs. F. J. Brown, Route 1, Box 181, Halls, Tenn. "I have used Sloan's Liniment for family use for years and would not be without it. We have raised a family of ten children and have used it for every ailment. Sloan's Liniment is a sure relief for neuralgia, headache, rheumatism, sprains, and bruises. It is a most valuable remedy for all these ailments. I have used it several times for sprains and rheumatism."—John Newcomb, R. R. No. 2, Knoxville, Tenn.

CO-OPERATION is your only real safeguard against loss of appetite, poor digestion, and general weakness. You must help Nature to maintain strength and vigor. With the aid of HOSTETTER'S STOMACH BITTERS you have a combination that is sure to result to your benefit.

Only Worse. A Philadelphia schoolteacher has lately been instructing her pupils in Grecian mythology. It is the plan to have the children read the tales aloud and the next day recount them in their own language. One lad, to whom was given the assignment to render in his own language the story of the Gorgons, did so in these terms: "The Gorgons were three sisters that lived in the Islands of Hesperides, somewhere in the Indian ocean. They had long snakes for hair, tusks for teeth and claws for nails, and they looked like women, only more horrible."—Pittsburg Chronicle Telegraph.

Where the Trouble Lies. Wife—I wish you would realize, John, that there is something in the world besides money. Husband—I do, the trouble is that when I want anything done I can't get the other fellow to realize it.—Boston Transcript.

WOMAN WOULD NOT GIVE UP Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED Look Mother! If tongue is coated, cleans little bowels with "California Syrup of Figs."

Mother can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

Diplomatically Speaking. "I want to answer Gwendolyn's letter and say something that means nothing." "Tell her you love her."—Philadelphia Ledger.

The political depoters are seeing things. Some are in the White House, some in the governor's chair, and elsewhere.

London says Germans are getting wool, and the worst of it is they are pulling it over the eyes of the allies occasionally.

General Carranza Is-sues Defiant Demand Washington, D. C.—General Venustiano Carranza, as first chief of the constitutional army, notified the world Tuesday that all communications to his government from outside sources must pass through him.

Carranza's decree reached Washington through Rafael Zubaran Capmany, his minister of the interior, who telegraphed it to Elisea Arredondo, Carranza's local representative. The order apparently will make it impossible for diplomatic representatives of foreign governments to deal with the Carranza government except by going to Vera Cruz, which they been unwilling to do lest such action be construed as formal recognition.

Already most of the diplomats at Mexico City have asked their governments for permission to leave when the situation becomes intolerable, and some of them have been advised to use their own discretion.

The order may also affect the activities of American consular representatives, who heretofore have dealt with the de facto government, whatever it happened to be.

Accused Aide of McNamara Bros. Found New York — Matthew A. Schmidt, 34 years old, was arrested here Monday as a fugitive from justice on an indictment found in Los Angeles in October, 1912, charging him with having been implicated in dynamiting the Los Angeles Times building. The arrest was made on Upper Broadway, where detectives had traced him after a search of four years.

Detective William J. Burns, who accompanied the officer making the arrest, said the indictment charged that Schmidt was one of the two men who went with J. B. McNamara to the works of the Giant Powder company in California and purchased, 1000 pounds of dynamite.

Schmidt was held in Magistrate's court, on short affidavit, with bail until February 24 to await extradition.

When arranged before Magistrate McQuade the prisoner said he was a mechanic, 34 years old, but refused to answer the other customary questions. After the arraignment, however, the magistrate said the man had confessed to him in his chambers that he was Matthew A. Schmidt, as alleged in the Los Angeles indictment.

Britain to Divert Food. London — The foreign office announced definitely that if the cargo of the American steamship Wilhelmina should be diverted for the relief of the distressed in Belgium, the decision to send her cargo to a British prize court would be reconsidered. Otherwise her cargo must be submitted to the decision of the court.

The Wilhelmina, which sailed from New York with a cargo of food products for Germany, is at present at Falmouth. A. G. Hays, an attorney representing the Green company, the consignors of the cargo of the Wilhelmina, called at the American embassy, and went to Falmouth later. He said he had not yet received his instructions concerning the case, but in the meantime was endeavoring to learn all he could about the status of the vessel and her cargo.

Los Angeles Children Thrifty. Los Angeles—A census of the banks here shows that 40,000 children under sixteen years of age have almost \$1,000,000 in savings deposits, an average of \$25 each. One bank has 15,000 deposits between the ages of two and fourteen years. The largest account is that of a twelve-year old boy who has \$1,572. He began seven years ago with 50 cents. He began a leading financier on this showing that Los Angeles children are the thriftest in the world, which he ascribes largely to business instruction in the schools.

Fist Flies for Lincoln. Portland, Or.—To defend the memory of Abraham Lincoln, Corporal M. J. Pareels, of Vancouver Barracks, pulled an I. W. W. from his soapbox, pummeled him severely and knocked down several sympathizers who started a riot. The speaker is said to have made remarks derogatory to the martyred President. The soldier, who sustained several cuts and bruises, was treated at the police hospital and released with congratulations. Two members of the crowd were arrested on a charge of disorderly conduct.

Tiniest Exhibit Arrives. San Francisco — The smallest and most valuable exhibit at the Panama-Pacific International Exposition will be the fraction of a grain of mesothorium, a derivative of radium, valued at nearly \$300,000 which will be placed in the German section of the Palace of Liberal Arts. The exhibit is now on its way from Hamburg in a lead box, carried by a personal representative of the discoverer, D. Hugo Lieber.

British Strike Averted. London — The threatened strike of several thousand railroad men throughout Great Britain, demanding an increase of wages, seems to have been averted. Announcement was made following a conference between railroad managers and representatives of the union that an agreement had been reached, the terms of which will be announced later.

Eight Slain in Panama Fight. Panama—A fight between soldiers and native partisans here resulted, according to first reports of the conflict, in the deaths of five policemen and three soldiers and the wounding of many of the combatants. A carnival was in progress and many of the soldiers were on leave to attend the festivity.

Catching Up With China. Gradually, very gradually, civilization is catching up with the Chinese. The University of California has established a new profession—that of keeping people well. Those who adopt this calling will go into the world and earn fat fees by not letting folk fall ill. Sickness will mean starvation to the practitioners; a healthy populace will make them rich.

In China the doctors have never looked to the sick for business. Only while their patients were well could they receive charges for services rendered. When a patron fell ill the doctor's income shrunk; when recovered the convalescent resumed being his medical adviser.

It is a good scheme, evidently, or we of the wisest world would not have taken up with it after having so many thousands of years to investigate its workings. In time perhaps all the wisdom of the Celestials will become ours by adoption.—St. Joseph Gazette.

The Love of Hazard. "How do you account for the fact that so many of the political boys out our way are so strongly in favor of prohibition? Not one of them ever took the pledge on his own account." "It's the eternal spirit of self-confidence that stimulates speculation," replies Senator Sorghum. "Every one of 'em thinks that he can find a way to beat the game."—Washington Star.

Resolute for Optimism. "What are the qualifications for membership in your international optimist club?" asked the philanthropist's friend. "Well, in the first place, you've got to speak English with an American accent."—Washington Star.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take. Do not gripe.

How Poetry is Written. "This is a pretty poem of yours. Something tossed off to gratify a whimsical fancy?" "No; something ground out to pay a wash bill."—Louisville Courier-Journal.

The Color Scheme. "I thought you said that this color was fast?" "Well, isn't it?" "No; it's also ran."—Philadelphia Ledger.

Limited Engagements. "Do you keep servants?" asked the inquisitive neighbor across the fence. "Not long," responded the truthful woman next door.—Philadelphia Ledger.

DON'T ITCH! USE RESINOL. Just put on a little of that soothing, antiseptic resinol ointment and the itching and burning stop at once. Soon all trace of eczema, ringworm, rash, or other tormenting skin trouble is gone. Every druggist sells resinol ointment and resinol soap. Prescribed by doctors for 20 years.—Adv.

A New Anecdote. Quer requests are often received for prescriptions, which might puzzle either doctor or chemist, far more skilled than the proprietor of the ordinary drug store. Here is one recently reported by Morris Wade. It is a note from an excitable mother, whose nerves were apparently as much in need of treatment as the digestion of her infant.

"My little baby has to up its father's parish plaster. Please send an anecdote by the inclosed little girl."—Youth's Companion.

No Interior Place. "Did you select your son's college for its curriculum, Mrs. Compuer?" "Of course we did. The boy's always been accustomed to the best kind of a one at home."—Baltimore American.
