Basket Ball Tonight

A game of basket ball will be played tonight in Chown's hall between the regular team and the Mosier Unknowns. The boys have been put to considerable expence lately and are hoping that the sport-lovers of Mosier and vicinity will patronize this game well and help them out of the hole. The price of admission will be only 10 and 15 cents, and everyone should come across with the coin, see a good game and help along the boys.

The Mosier school will give a Washington's Day program on Monday afternoon, beginning at 2 o'clock, to which all the patrons and friends of the school are invited. The grammar grade and High School will give a combined program in the High School room. Miss Mahady will have a program in her room, as will Miss Bennett in the primary room, at the same hour.

PAYROLL OF CIVILIZATION MET BY FARMER

WANTS NO "DEADHEADS" ON LIST OF EMPLOYES.

A CALL UPON THE LAW MAKERS TO PREVENT USELESS TAX UPON AGRICULTURE.

By Peter Radford
Lecturer National Farmers' Union

The farmer is the paymaster of industry and as such he must meet the nation's payroll. When industry pays its bill it must make a sight draft upon agriculture for the amount, which the farmer is compelled to honor without protest. This check drawn upon agriculture may travel to and fro over the highways of commerce; may build cities; girdle the globe with bands of steel; may search hidden treasures in the earth or traverse the skies, but in the end it will rest upon the soil. No dollar will remain suspended in midair; it is as certain to seek the earth's surface as an apple that falls from a tree.

When a farmer buys a plow he pays the man who mined the metal, the woodman who felled the tree, the manufacturer who assembled the raw material and shaped it into an article of usefulness, the railroad that transported it and the dealer who sold him the goods. He pays the wages of labor and capital employed in the transaction as well as pays for the tools, machinery, buildings, etc., used in the construction of the commodity and the same applies to all articles of use and diet of himself and those engaged in the subsidiary lines of industry.

There is no payroll in civilization that does not rest upon the back of the farmer. He must pay the bills—all of them.

The total value of the nation's annual agricultural products is around $12,000,000,000, and it is safe to estimate that 95 cents on every dollar goes to meeting the expenses of subsidiary industries. The farmer does not work more than thirty minutes per day for himself; the remaining thirteen hours of the day's toil he devotes to meeting the payroll of the hired hands of agriculture, such as the manufacturer, railroad, commercial and other servants.

The Farmer's Payroll and How He Meets It.

The annual payroll of agriculture approximates $12,000,000,000. A portion of the amount is shifted to foreign countries in exports, but the total payroll of industries working for the farmer divides substantially as follows: Railroads, $1,252,000,000; manufacturers, $4,365,000,000; mining, $655,000,000; banks, $200,000,000; mercantile $3,500,000,000, and a heavy miscellaneous payroll constitutes the remainder.

It takes the corn crop, the most valuable in agriculture, which sold last year for $1,692,000,000, to pay off the employes of the railroads; the money derived from our annual sales of livestock of approximately $2,000,000,000, the yearly cotton crop, valued at $920,000,000; the wheat crop, which is worth $610,000,000, and the oat crop, that is worth $440,000,000, are required to meet the annual payroll of the manufacturers. The money derived from the remaining staple crops is used in meeting the payroll of the bankers, merchants etc. After these obligations are paid, the farmer has only a few bunches of vegetables, some fruit and poultry which he can sell and call the proceeds his own.

When the farmer pays off his help he has very little left and to meet these tremendous payrolls he has been forced to mortgage homes, work women in the field and increase the hours of his labor. We are, therefore, compelled to call upon all industries dependent upon the farmers for subsistence to retrench in their expenditures and to cut off all unnecessary expenses. This course is absolutely necessary in order to avoid a reduction in wages, and we want, if possible, to retain the present wage scale paid railroad and all other industrial employes

We will devote this article to a discussion of unnecessary expenses and whether required by law or permitted by the managements of the concerns, is wholly immaterial. We want all waste labor and extravagance, of whatever character, cut out. We will mention the full crew bill as

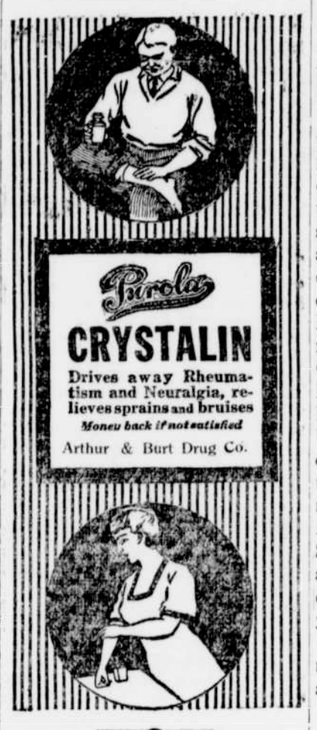
The Parent-Teacher's Association met on Saturday last with a good attendance for their first session. Working committes were appointed to report at the next meeting. This meeting will be held Saturday, 2. P. M., Feb. 27, at the Emanuel Church. A membership roll will be formed at this time. All interested are urged to attend.



SCHOOL TO HAVE TENNIS COURT

Thru the efforts of the Parent-Teachers' association, a move is on foot to secure a tennis court for the exclusive use of the Mosier school children. J. N. Mosier has generously offered the use of ground adjoining the court of the tennis club, and work on the school court will begin tomorrow. The boys of the High School will do their part of the work. Arrangements will be made to serve them and others who assist, with a lunch at noon.

The parents and friends of the school are invited to turn out and give all the help they can. In this way the work can be accomplished without a great outlay of cash.

COMMERCIAL CLUB SOCIAL

The monthly Commercial Club social, held last Monday night in Chown's Hall, was a complete success and was attended by nearly every one in town and many from the country. The entertainment committe had prepared a short but interesting program, consisting of violin duets by Master Alex Carlson and Miss Elsie Carlson, a violin solo by Robert Scearce, vocal solos by Mrs. H. E. Birkner, and recitations by the Misses Marvel, and Mr. Thos. Lelliott.

Card playing was the order of the evening.

Refreshments of coffee, doughnuts and cider were served.

This proved to be the most successful social meeting yet held, because more people availed themselves of the personal invitations extended, and there appeared to be a feeling of general good will and sociability toward everybody. It is the belief of the members of the club that by holding these social events the people of the community will acquire the habit of looking forward expectantly to them and attend regularly, thus bringing us all into closer touch in our social and business life; in other words, that we will be more ready to work in harmony and as a unit for the advancement of our mutual interests.

Messrs. W. C. Stone, O. S. Oswald, W. G. Gloyd and P. L. Arthur spent Wednesday on Hood River in search of the festive salmon trout.

In Memorium

Lydia Vanlow Williams was born in Chesterfield, Ohio, on January 8th, 1846. She was the daughter of Thomas Jefferson Williams and Lucinda Vanlow.

At the age of nineteen, she was married to George R. Wood, this year marking the fiftieth anniversary of their marriage.

They lived for some time in Chester Hill, Ohio, and from there they moved westward, first to New Lexington, Ohio, then to Kansas City, Mo. thence to Lincoln, Nebraska, and from there in 1875 to Oakland, California, where they lived twenty-one years. In 1896 they came to Mosier and settled on a homestead among the Mosier Hills, and then coming to the village of Mosier spent the remainder of the time until her death on February, 8th, 1915. Two children, Mrs. Decker of Oakland, Cal., and Edwin B. Wood of Portland, survive her. Before leaving Oakland, Mr. and Mrs. Wood adopted a daughter, Marion Wood, who has now grown to young womanhood, and remains with Mr. Wood. In 1883, Mrs. Wood united with the Seventh Day Adventist Church and was a deaconess in their church in Oakland for thirteen years.

Such in a few words is the record of a woman about whom a large volume might be written.

The many changes that time brought, the trials of what was usually a pioneer life, the fulness of service to her family, to her church she loved, and to those with whom she came in contact, made her life prominent, standing above and beyond the majority for faithfulness, integrity, fearlessness and uprightness.

To relate some of the thrilling incidents of her life which in her early days she passed thru among the border ruffians and Crow Indians would take up more than the allotted space in this memorial, but it is more to her life among the people of Mosier that we would refer.

She was known by all as a sincere friend, her love for mankind was wonderful, her hospitality was always in evidence, and her house was the centre of attraction to which the neighbors and friends naturally came.

The lively stir of children did not annoy her and even in the last years of her life she loved to sit near a window where she could watch them play. She loved flowers, and her home was made beautiful by the great quantities given by friends.

Her love of books and literature made her an interesting talker, and she had met and known some writers of national fame. Above all, her genuine godliness completed the charm of her character. As the form of belief she espoused emphasized the visions of the seers, so in her life was wrought the influence of the young man in the court of the king, who saw the coming of the Messiah, and the fate of great kings and empires, and of the seer of Patmos who saw the coming of the Son of Man and under him a new Heaven and a New Earth. And so at length the Voice said, Write: Blessed are the dead who die in the Lord. Yea, saith the Spirit, for they do rest from their labors and their works follow them.

A FRIEND.
