Economic Determinism.  
An Atlanta man tells of this conversation between two darky bucks of that town:

"Bill, I heahs dat yo' was courtin' dat Botta gal down my way."

"Sho' I was. An' I was in love with dat gal, too; only I heahs dat she ain't got a cent. So I says to myself: 'Bill, 'at a man.' An' I was a man, Henry; an' now I passes her by with silent contempt!"

Very Growsome.  
Col. E. M. House, discussing his peace mission in Europe, said:

"The French soldiers, by the way, are called poilus—whiskers, as we might say. In the trenches, you see, the gray French soldiers all grow beards. To see a slender lad of 23 or 24 with enormous black beard covering his chest—well, it's like the story:—'Willie,' said an etymology teacher, 'give me a sentence with the word 'growsome' in it.'"

"The soldier," Willie answered, "stopped shaving and grew some whiskers."—Philadelphia Bulletin.

# GERMAN ATTACHE TO BE SENT HOME

German Minister at Washington Will Clean House.

WILL ASK SAFE CONDUCT FOR AGENT

Act of Embassy Believed Will Show Genuine Desire of Teutons for Friendship of Uncle Sam.

Washington, D. C. — These highly important developments took place Monday in connection with the events consequent upon the revelations in the Dumba case:

Count von Bernstorff, the German ambassador, will call on Secretary Lansing and will intimate that Captain Franz von Pape, German military attache, will be sent home, if a safe conduct for him can be obtained from the British government.

Ambassador Penfield has cabled his personal impression that Austria-Hungary will comply with the American request for the recall of Dr. Dumba, leaving her interests here in charge of the counselor of the embassy.

Count von Bernstorff will explain the exact connection of Captain von Pape with the Dumba strike matter. There is no question that the ambassador feels that members of his staff should have no connection with strikes or the creation of disorders in industrial factories. He does hold, however, that Germany, as well as Austria-Hungary, has the right to warn her subjects that employment in factories making munitions for the allies is a crime against the laws of their country and that if they should return home they will be punished.

Germany, it is pointed out in German circles, had the right to call home all reservists in the United States. She was unable to exercise this right because of the British command of the sea and they have been forced to remain in this country. The right to tell these men that they must not work for the allies the German ambassador holds to be as sound as the right to tell them to return to fight.

However, it is apparent that the ambassador has no intention to make an issue in respect to Captain von Pape. If this government will obtain a safe conduct for the officer he will be ordered to Berlin. Such action would obviate a demand for his recall. It would do more. It would show conclusively the desire of Germany to remain in friendly relations with this country. It would also mean that the Dumba incident with Austria-Hungary will, in the end, be adjusted satisfactorily to the United States.

## Washington Administration Thought Will Yield to Carranza's Views

Washington, D. C. — General Carranza's counter proposal to the Pan-American diplomats for a conference with him over international phases of the Mexican problem probably will be approved, according to opinion expressed here by officials in touch with the administration.

Although Carranza refused to yield to the appeal of Secretary Lansing and representatives of six Latin-American republics that he join his adversaries in a peace conference, it was pointed out here that military conditions in Mexico had undergone marked changes in the last few weeks, and in some quarters it was contended that Carranza's claims for recognition were entitled to investigation.

Since the Pan-American appeal was issued, Carranza's armies have pressed pacification of territory in Central and Northern Mexico, while some reports to the State department have declared that General Villa's forces are disintegrating. From authoritative sources advices have reached Washington that it would be difficult to conduct a convention to select a provisional government in Mexico without the participation of Carranza and his military commanders, who assert now that they control nearly all Mexican territory.

Chinese to Quit Liner.  
San Francisco — The Chinese crew of the former Pacific Mail liner Korea want to return to China, fearing that if they make a voyage to London they will be killed by submarines. Officials around the mail dock know that no Chinese will sail on the Korea for the Atlantic. It is said that some agitator, working in behalf of a white crew, or for some other reason, has impressed on the Chinese of the Korea that to leave here on the vessel when she starts for Europe will be to go to certain death.

Bernhardt Coming Later.  
Paris — Madame Sarah Bernhardt has postponed for two months her coming tour to the United States. Asked regarding a report that she had canceled her American engagements, Mme. Bernhardt telegraphed the Associated Press from her residence at Andernos, as follows: "I am not abandoning my tour in America. I have asked for two months' time in order to form a new company, as all the actors who were with me on my previous tour are serving in the army, four having been killed. 'Vive la France!'"

Everett, Wash., Runaway's Goal.  
Chicago — Richard Alpine, 15 years old, Pittsburg, an orphan, walked into the detective bureau Monday and asked Lieutenant Benjamin Enright to help him reach Everett, Wash. "I lived with an aunt in Pittsburg," he said, "but she abused me so I ran away. I am going to Everett to live with another aunt. My parents died several years ago." Lieutenant Enright sent the boy to the Juvenile Home and will communicate with his aunt in Everett.

## New Melon on Market.

Tacoma — Another variety of melon arrived on the local produce market and is expected to step into line with the popular cantaloupes and watermelons. This is the casaba from California. In the last several years it has found an instant market here. Wholesale dealers ask 2 cents a pound. Reports from the South say the quality is excellent and the crop large.

Although the stiff advance taken in egg prices last week was expected to keep the market steady here for some time, an added scarcity of this commodity has caused dealers to boost prices to 33 @ 34 cents a dozen for the fresh ranch product.

Huckleberries are getting scarcer and prices are higher, the berries now demanding 5 cents a pound. The demand this season was brisk.

The fish market is well supplied with halibut and salmon and small fish. The demand is good. Butter and cheese are steady. No change was made in meat and poultry prices.

## Crop Report Sept. 8, 1915.

The bureau of crop estimates in cooperation with the weather bureau, United States Department of Agriculture, furnishes the following summary of conditions:

Winter wheat — Preliminary estimate, 14,049,000 bushels; final, 1914, 13,684,000.

Spring wheat — September 1, forecast, 3,690,000 bushels; final, 1914, 2,920,000.

Oats — Forecast, 14,200,000 bushels; final, 1914, 12,740,000.

Barley — September 1, forecast, 4,310,000 bushels; final, 1914, 3,660,000.

Potatoes — September 1, forecast, 6,690,000 bushels; final, 1914, 4,753,000. Hay, all tame — Preliminary estimate, 1,850,000 tons; final, 1914, 1,716,000.

Apples — September 1, forecast, 3,400,000 bushels; final, 1914, 3,600,000.

Record Deal in Apples.  
Portland — The biggest single deal in apples ever made was announced by the North Pacific Fruit Distributors association through C. A. Malboef, its representative here. Every box available of "C" grade apples controlled by the association has been sold at a contract price of 85 cents a box, the highest price obtained for this class of fruit in four years. It is estimated that the apples will make 400 carloads. The amount involved in the deal is \$214,000. Middle Western firms compose the pool of purchasers.

Heavier Hop Bales Suggested.  
Portland — Hop dealers point out the advantage of heavier baling by growers this year. In the matter of export business this is especially important, in view of the limit placed by some of the Atlantic steamer lines on the number of bales they will handle during the season. As steamer space reservations are made by number of bales and not by weight, it follows that a larger foreign business can be done than if they are light. Weights running over 200 pounds to the bale are favored by exporters.

Peaches Are Active and Firm.  
Portland — The peach market was firm and active, with prices holding within the former range. Supplies are large enough for all requirements.

Bartlett pears are becoming scarce and are in stronger demand, with \$1.25 easily obtainable. Other kinds of pears are rather plentiful and offered generally at 90 cents to \$1 a box.

There was a good movement in grapes at the prices quoted. Cantaloupes and melons were steady.

Poultry Receipts Larger.  
Portland — Receipts of poultry are larger than usual this week and it is necessary to shade former prices in order to work off the supply. Hens sold at 14 @ 14 1/2 cents and springs at 16 @ 17 cents. There was a continued easy feeling in the dressed meat market, because of the light demand. The best grades of eggs and butter are firm at prevailing prices.

# The New REO the Fifth

The Incomparable Four

## \$875

HERE ARE THE NEW REO MODELS AND THE NEW REO PRICES

Look at the cars, consider the values, and when your astonishment has somewhat abated, ask for a copy of the "advance catalog," and read the story of how these prices for these quality cars were made possible.

For without that explanation you could not understand, could not accept these values as genuine. It's an interesting story, too—absorbingly interesting and of vital import to you if you contemplate the purchase of a car this year.

It explains why, when it was impossible for the maker to materially reduce the prices of Reos without reducing the quality, Reo dealers found the solution, and by dividing their profit with the buyer, placed these remarkable values within your reach.

It gives you a glimpse into the inner workings of Reo—when you've read it you'll understand and the better appreciate the policy that has made the Reo success the most substantial and in many ways the greatest success in this industry.

As you read you'll feel as if you were talking with the Reo Folk—and when you've finished you'll feel as if you knew them personally.

And, finally, when you learn the facts that, Reo Dealers having learned, made it possible for them to co-operate with the factory to make Reo values the greatest values, you'll conclude that a Reo is the car for you—"Reo the Fifth," the "Incomparable Four" at \$875; or the new Sheer-line Reo Six at \$1250—your purse and your preference must decide which.

## The Power behind the dough

You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, yet you will have a failure if "The Power behind the Dough" is not the right one to leaven it properly and make it light, digestible, wholesome.

Good baking without good baking powder is out of the question. K.C. Baking Powder has wonderful leavening power, and the double action—in the bowl and in the oven—makes good results doubly certain.

Take no chances of failure—use K.C. and have "good luck" every time. At all Grocers.

## Johnny Had the Proof.

In instructing a youthful class in mathematics the teacher turned to John Jones.

"Johnny," she remarked, "can you tell me what an average is?"

"Yes, ma'am," was the prompt response of Johnny. "An average is what a hen lays eggs on."

"What?" exclaimed the amazed teacher. "What on earth are you talking about?"

"That's right, Miss Mary," was the rejoinder of Johnny. "Most every lesson in our arithmetic starts off 'If a hen lays three eggs a week on an average.'"

Eloquent Omission.  
"That second speaker was quite extraordinary."

"I thought his speech was about the dullest I ever heard."

"His speech didn't amount to anything, but he failed, when he got up, to say that the toastmaster's introductory remarks reminded him of a story."—New York Sun.

No Doubt That Resinol Does Heal Sick Skin  
When you know physicians have prescribed Resinol for 20 years in the treatment of eczema and other itching, burning, unsightly skin eruptions, and have written thousands of reports saying: "It is my regular prescription for itching." "The result it gave was marvelous in one of the worst cases of eczema," etc., etc., doesn't it make you feel that "this is the treatment I can rely on for MY skin-trouble?"

The moment Resinol Ointment touches itching skin, the itching stops and healing begins. With the aid of Resinol Soap, it almost always clears away every trace of eczema, ringworm, pimples, or other distressing eruption quickly, leaving the skin clear and healthy. Sold by all druggists.

## He Knew Right Enough.

The famous botanist was pacing slowly along the country road, his eyes, as usual, roaming from side to side for new plants to study.

Suddenly an eager look swept across his features, and he leaned over the low fence enclosing a cottage garden. He had found a plant he did not know.

What could it be? If only he had a specimen of it to study!

At that moment a shock-headed lad stroiled along the road and stopped to gaze open-mouthed at him.

"I say," called the botanist urgently. "See that plant there—that pale pink one in the corner? Do you know it?"

"Uhuh!" said the country boy briefly.

"What's its name? Do you know what family it belongs to?"

The lad jerked a grubby thumb over his shoulder toward the little cottage, as he spoke more briefly still:

"Higginess!"

As hubby was bidding her an affectionate farewell, she said:

"You can expect a little letter from me during my absence."

How hubby's expression of face, which had hitherto been one of extreme gladness, doubtless at the prospect of being left alone for such a long period, took a decided change.

"But, my dear," he remonstrated; "surely I have given you enough money to see you through until you come back."
