Mortgaged Thoughts.
The assumption that Mr. Wilson stated the other day that his "thoughts were mortgaged beyond recall" he was referring to critical international affairs was doubtless correct. But it appears that there was a second mortgage on his thoughts.—St. Louis Post-Dispatch.

What a Bosche is.
Until the war broke out few Americans had heard the word bosche or boche, the French soldiers' nickname for a German. It doesn't appear in the Academy's dictionary or in such editions of Littré as most of us can get hold of. In Delvaux's slang dictionary its definition is "Matras subject, dans l'argot des nettes dames, qui le préfèrent au mûche"; which last word Delvaux defines as "jeune homme poli, doux, amable, réservé." A letter from Thomas Ogilvy to the Spectator supplies some additional information. He says M. Theodore Jorgens in his Washington file for saying that Littré does define bosche, and defines it as ulcer or pestilential tumor. M. Joran thinks it related to the Latin bosca, which means first the cheek, regarded as a puffed thing, and then, according to Harper's Latin dictionary, "one who fills his cheeks in speaking, a declaimer, bawler," and also "one who stuffs out his cheeks in eating, a parasite."—The New Republic.

NEW YORK POLICE TAKE GERMAN SPY

Scheme to Hamper Shipment of Ammunition Confessed.

STOCK OF EXPLOSIVES FOUND IN ROOM

Bribe Offered to Arresting Officer—Chart of New York Harbor and Official Papers Are Taken.

New York.—In the arrest of Albert Fay, a lieutenant in the German army, and Walter Scholz, his brother-in-law, police and federal secret service agents believe they have detained leaders in a plot to wreck American munition plants and ships carrying munitions.

According to Captain Tunney, of the New York anarchists squad, Fay confessed that he came here to work out a plan for stopping the shipment of munitions. He said, Tenney avers, that he was supplied with \$2000 for carrying out his operations. Papers found in his room showed he was a German secret service agent.

A vast quantity of high explosives were found in the prisoners' room in Weehawken, N. J.

Both men are held on technical charges of disorderly conduct. An additional charge of attempted bribery may be made against Fay. He is said to have offered \$1000 to a police officer for his release. He is said to have offered an advance payment of \$60 when the officer agreed to his stipulations.

Police who have been watching outgoing vessels for explosives caused the arrests.

Explosives and survey charts of New York harbor are said to have been found in his possession.

The men are declared to have been testing a mine in a small grove when they were arrested.

Five steel bombs, said by the police to belong to the prisoners, later were found in a West Hoboken storehouse.

Each was packed in a separate wood case, and fitted with an attachment which might be fastened to the stern of a ship by a wire. Contact with the propeller of the ship, it is said, would explode the mine.

Two cases found in the men's room in Weehawken were filled with explosives, letters written in German and official-looking documents. Among the explosives were small sticks of dynamite and various kinds of acid used in the manufacture of explosives. One of the papers, it is asserted by the police, showed Fay to be a lieutenant in the German army and connected with the German foreign office on the Wilhelmstrasse.

The police assert that the prisoner had admitted the ownership of a high-powered automobile and a speedy motorboat, both of which are in Weehawken.

MEXICAN BANDITS WRECK TRAIN, BURN TRESTLE AND KILL TWO

Brownsville, Tex.—Mexican bandits early Wednesday held up and robbed a St. Louis to San Francisco passenger train, killing two persons and wounding three others, near Omitte, seven miles north of here.

The dead: H. H. Kendall, engineer. United States cavalryman, name unknown.

The injured: Dr. E. S. McCahn, Cameron county physician, probably fatally shot. Harry Wallis, seriously wounded in abdomen. Conductor P. E. Morgan, slightly wounded.

Trestle is Burned.
A long trestle half a mile south of the wreck was set afire half an hour after the train was held up and almost destroyed.

This hindered the progress of the first detachment of troops which was sent in pursuit so that the bandits had ample time to flee into the brush.

Passengers who reached here on a relief train said that the train was derailed under the plan of San Diego, which last year contemplated the seizure of border stations and returning them to Mexican rule.

A negro reached his home four miles from Brownsville and gave the first report of the wreck and killings.

Four companies of United States Infantry were rushed to the scene by special trains, followed by two troops of cavalry.

The bandits were passengers and set fire to the train. The Mexicans severed the telephone lines between Brownsville and Villa Nueva, five miles from the wreck, which resulted not only in delaying information reaching Brownsville, but also interfered with communication with troop B, of the Thirtieth Cavalry, on duty near the scene of the holdup.

1000 Bulgars Killed in Bombardment.

London.—The bombardment of De-deagach caused the death of ten civilians and more than a thousand soldiers, and a large number of soldiers were wounded, says a dispatch to the Exchange Telegraph company from Athens.

A large proportion of the military casualties, the correspondent adds, were in the barracks which housed the Fourth Bulgarian regiment. The barracks were crowded with soldiers, who were preparing for their meal, when the bombardment was opened at 1 o'clock with accurately aimed shells, which demolished the barracks, burying the occupants in the ruins.

Troops engaged in digging trenches around the town also sustained heavy losses.

Fires caused by the exploding shells destroyed the railway station and surrounding buildings, doing enormous damage. It is said that the entire loss from the bombardment, which lasted four hours, will be several million pounds.

The correspondent says the bombardment was directed by aeroplanes.

Patriotic Appeal is Made.

Los Angeles.—Going further than merely serving notice that an embargo has been declared, E. M. Blanford, a special agent of the federal government, directed an appeal to arms and munitions dealers in the west to help President Wilson stop further bloodshed in Mexico.

"The Mexicans can manufacture munitions at an amicable price," said Mr. Blanford, "and with the assistance of American dealers, further fighting in Mexico can be promptly stopped."

Hanging Called Decorous.

Springfield, Ill.—Mayor Davis, of Springfield, Ill., said Thursday that he would preside at an indignation meeting as a protest because Governor Dunne granted a 30-day reprieve to Elton Scott, who was to have hanged Friday. The governor reprieved Scott because of reports that a recent hanging had been a spectacle. "The governor was misled. Everything at the hanging of Joe Deberry was conducted with the utmost decorum," said the mayor.

Seven of Family Killed.

Detroit.—Seven members of one family were instantly killed and an eighth was probably fatally injured by a truck trunk passenger train which struck their automobile, near Detroit. The dead are Mrs. Rachael Stoldt, her five daughters, Pearl, Hazel, Mabel, Esther and Martha, and Miss Minnie Engel, a sister. Mrs. Stoldt, William Stoldt of Troy, Mich., her husband and father, was badly mangled.

Germans Oust Belgians.

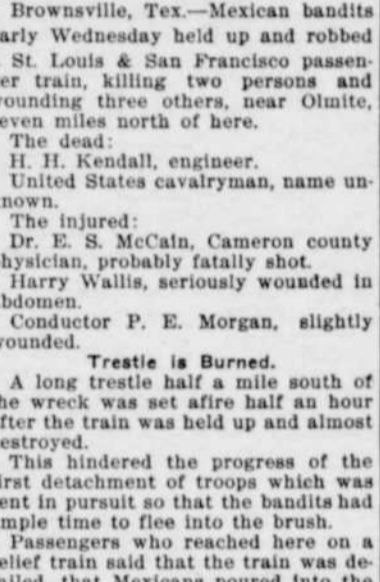

London.—A telegram from Amsterdam to the Exchange Telegraph company says: "Messages from the Belgian frontier say that Belgian subjects between the ages of 17 and 35, liable for military service, had been notified by the German authorities at Brussels to report themselves to the German commander, with the result that 7500 so far have been deported to Germany."

U. S. WILL SUPPLY TOWN MUNITIONS

Federal Yards Will Compete to Stop Excessive Profits.

NO INTENTION TO MONOPOLIZE WORK

Secretary States Auxiliaries Manned and Supplied by Americans Are Necessary to Good Navy.

Raleigh, N. C.—Secretary Daniels in a speech at the North Carolina State fair said that the administration proposed to equip its shipyards and arsenals so they could compete with private plants under the national defense program. No monopoly was intended, he said, but this measure would be adopted as a check against excessive profits for private manufacturers.

The government has invested many millions of dollars in navy-yards, said the secretary, "and unless this investment is utilized for new construction, much of it is wasted. If the government is prepared to construct naval craft, private shipbuilding companies in making contracts must compete with government yards."
