A Cartoon Jab From India.
Many nations have expressed their bitterness against Uncle Sam for "making money out of the war." We have been held up to ridicule impartially by England, Germany, Greece, France, Italy and Japan. Now India may be added to the list. In a cartoon from Hindi Punch, of Bombay, reproduced by Cartoons Magazine, Uncle Sam and Japan are seen, each with large money bags under his arms. The caption reads "Make Hay While the Sun Shines," and underneath we read: "I'm filling my bag with Indian silver while the Austrians and Germans are busy with the war. And you?"
Yankee: "Ditto, ditto. And something more. I'm filling mine with the gold of the allies, besides."
Welsh Proverb.
E. G. Grace, president of the Bethlehem Steel company, said in Washington: "Though we can get any price we ask for our munition products from Europe, we haven't increased our price to the American government one cent."
"Yet there are people who, in the face of this, accuse us of overcharging Uncle Sam. These people are as ludicrously ignorant as the schoolboy who was asked:
"What do we get from Wales?"
"Jonahs," the schoolboy answered.

A Fireside Grouch.
"Charley, dear," said young Mrs. Torkins, "you can never complain that I am a frivolous society woman."
"No. Your idea of a pleasant evening is sit down and ask me to explain all about preparedness, the balance of trade, orders in council, and the submarine controversy all in two hours and a half."—Washington Star.

Taking No Chances.
"Jack is a foxy individual. He proposed to Miss Peaches by wireless."
"What was his idea in that?"
"It leaves the record up in the air, where it can't be read in court in case he should happen to change his mind."
Plenty of Color.
"You often see a red roof in foreign lands. A bit of color helps an artist."
"Is it color you want? Come over to my neighborhood. We've got a fine lot of red gas tanks."—Louisville Courier-Journal.

He Knew.
"Did you ever know that there is a lot of symbolism connected with a deck of cards? Hearts, for instance, signify love."
"Yes, I know. Last night I held a spade flush against four aces and I had to dig."
Never Mixes 'Em.
"Have you studied political economy?"
"No, sir. Economy is all right in its place. I'm one of those who believe keeping business out of politics."
—Washington Star.

Feminine.
"There is one good thing about buying a really handsome and expensive dress," said Mrs. Bunting to Mrs. Larkin.
"What is that?"
"Why, you feel as though you really ought to buy another not quite so good to save your best one."—Puck.

Even the Children.
"An embassy in French, a slacker in English, means a man who shirks the dangerous duties of war, and among the warring nations the pursuit of embassies and slackers goes on relentlessly."
The speaker was Edna Wallace Hopper, who has just returned from France. She continued:
"Even the little children take their small part in this relentless pursuit. They tell a story about a little girl in Paris whose mother said to her in the Bois:
"Look—in that big automobile—that is Gen. Joffre."
"The little girl looked at the venerable commander-in-chief and frowned.
"Mamma, she said severely, 'why isn't he in the trenches?'"

Ice Is Used in Orchards to Retard Budding.
Near Lulling, Texas, a number of orchardists are trying out a rather interesting plan of retarding the budding of their fruit trees until late in the season. The experiment consists of burying about fifty pounds of ice around the base of a tree when the weather becomes mild early in the season. The supply is replenished at intervals of two weeks until it is safe to allow the trees to burgeon. Ice is being supplied to several growers by a local producer to encourage the test with a few trees. Although a considerable expenditure would be represented were the scheme carried out on a really large scale, it might not prove excessive if successful in preventing crop losses. Late frosts are a source of much anxiety to growers of early fruits, not alone in the South, but elsewhere as well.—From the April Popular Mechanics Magazine.

Hopeless Remedies.
J. P. Morgan said at a dinner in New York:
"The German financial position is desperate. The remedies proposed for it reminds me of the horse-thief."
"Two men were sentenced by a vigilance committee to be hanged for horse stealing, and the rope was swung from a bridge over a river.
"But the first horse-thief got off. The noose slipped, he fell into the water and swam down stream to safety."
"When they came to deal with the second horse-thief, he said anxiously, as they tied the rope 'round his neck:
"Make sure of that noose this time, won't you, gents? I can't swim."

"Look here, Hiram," said SI, "when you go in to pay me the \$8 for putting your heater? I've had her now for about 10 weeks."
"Why, SI, her critter ain't worth more'n \$10."
"Well, s'posin' I keep her fer what you owe me?"
"Not by a jugful! Tell you what I'll do: keep her two weeks more and you can have her."

Von Jagow as a Cartoonist.
"Like his distinguished superior Emperor Wilhelm," says Cartoons Magazine, "Herr Gottlieb von Jagow, German secretary for foreign affairs, is a cartoonist and designer. When not engaged in writing notes to Secretary Lansing he is busy with his pencil. As you enter his office you will observe a large clean blotter on his desk, and this, as he talks, he gradually covers with sketches. His servant brings him a new blotter for every visitor."
Willing to Change.
"There is a very excellent reason why a girl shouldn't smoke."
"What?" she demanded.
"Make her less agreeable to kiss."
"Well, I'll wait till somebody wants to kiss me," she said, "when they do I'll give up cigarettes—and take a pipe."

ALLIES DECLINE TO DISARM VESSELS

Secretary Lansing's Proposal to Dismantle Guns Refused.

ENTENTE POWERS POLITE BUT FIRM

Alleged Disregard of Germany for Treaties Basis of Rejection—Case of Belgium Is Cited.

Washington, D. C.—All of the entente powers through their embassies here have handed to Secretary Lansing formal responses rejecting the proposal made by the State department in its circular memorandum that they enter into a modus vivendi and disarm all of their merchant ships with the understanding that the United States government would endeavor to secure from the central powers a pledge not to attack such unarmed ships without warning and without providing for the safety of the passengers and crew.

Soon after the proposition was broached, through interviews in the press and otherwise, responsible officials of the entente powers indicated their decided opposition to such a plan. It was generally believed here that the unanimous expression of disapproval inspired the German government to promulgate the new order which now is in force for attacks without warning by submarine commanders on any armed belligerent merchantman.

While Secretary Lansing said he had not had any opportunity as yet to consider the formal replies, it is known that, though based on different lines of reasoning, each of the entente powers has with polite expressions of regret declined to accept the proposal. The nature of their objections was indicated in the unofficial statements of various officials when the American memorandum was submitted, and it is understood that they have simply been elaborated in the communications before the State department.

Protocol Is Accepted.
Washington, D. C.—President Wilson and his cabinet Tuesday decided to accept a proposal for a protocol between the United States and the de facto government of Mexico for cooperation in the pursuit of General Villa and his henchmen.

Three Americans Killed on Border.
Douglas, Ariz.—Three Americans, two women and one man, were killed near Gibson's line ranch on the New Mexico-Mexico boundary, eight miles west of Columbus, N. M., between 4 and 5 o'clock Wednesday, presumably by Mexicans, according to the story brought here by a party of five Douglas people, who said they arrived on the scene shortly after the bodies had been removed by soldiers.

German Loan Is Success.
Berlin (Via wireless to Sayville)—Dr. Karl Helfferich, secretary of the imperial treasury, told the reichstag Saturday that the fourth German war loan had been a brilliant success, the subscriptions having reached more than 10,000,000 marks, not including the 10,000,000 marks at the front. It was pointed out that the German war loans have now reached a total of 36,000,000 marks, while the British loans have only totalled 19,000,000 marks, and those of France 11,944,000,000 marks.

Army Short of Airmen.
San Diego, Cal.—There are no qualified military aviators available here for duty with the expeditionary forces in Mexico, according to Captain Cowan, commandant at the North Island training institution, commenting on the request of General Pershing for eight fliers.
"We have not got them to send," said Captain Cowan. "There are four student aviators at North Island who are ready to take their junior military aviators' tests, but thus far none of them have had experience in cross-country flights."

GENERAL FUNSTON ASKS WAR DEPARTMENT FOR "ADEQUATE FORCE"

San Antonio, Tex.—General Frederick Funston asked the War department Tuesday for more troops to send into Mexico, after long consideration of the advisability of continuing the operations against Francisco Villa with his forces now commanded by General Pershing. General Pershing suggested that another regiment be sent to him, and General Funston asked the department for what he characterized as an "adequate force."

COL. H. J. SLOCUM

his field of operations had become so extended that his main line of communication and the subsidiary lines were much weaker than they should be.

Senate Passes \$11,000,000 Armor Plate Factory Bill
Washington, D. C.—The Tillman bill to provide for the erection of an armor-plate factory by the government at a cost not to exceed \$11,000,000 was passed by the senate late Tuesday by a vote of 58 to 23.

Black Cat in Four Wrecks.
North Yakima, Wash.—One closed Northern Pacific freight car, in which a black cat was locked at Auburn, was responsible a few days ago for four accidents. The train had two derailments on the west side of the mountain, the same car figuring in both. The ill-omened car jumped the rails in the Roza canyon and spilled a shipment of flour and automobiles. After passing this city it caused another wreck in the lower valley. When the car was opened at Pasco the cat disappeared, and no more trouble was encountered.

Potash Plant in Favor.
Washington, D. C.—The senate committee on agriculture Tuesday virtually agreed to report a bill appropriating \$150,000 for the establishment of a government plant on the Pacific Coast to experiment with processes for extracting potash from kelp.

Million Dollar Oil Fire Rages.
Tulsa, Okla.—Damage estimated at not less than \$1,000,000 was done in the oil fields near Drumwright Tuesday night, when a fire starting in a pile of refuse spread to the wells. At midnight 12 wells were burning, 24 derricks had been destroyed and many thousands barrels of oil in tanks consumed by the flames. Without means of checking the fire, oilmen feared that the loss would extend into many millions of dollars.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help other women you are welcome to use it."
—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Acute Hearing.
A number of candidates for the police force were being questioned by a doctor the other day, and a pretty stiff examination it was, too. At length it came to testing the men's sense of hearing, and said the examiner:
"Do you see this watch?"
"Yes."
"Do you hear it tick?"
"Certainly, quite plainly."
"Stand further back."
Candidate retreats three paces.
"Do you hear it now?"
"Yes."
"Well, you must be smart, for the watch has not been going for a week."

HOW WONDERFULLY RESINOL SOOTHES ITCHING SKINS!
If you have eczema, ringworm or other itching, burning, sleep-destroying skin eruption, try Resinol Ointment and Resinol Soap and see how quickly the itching stops and the trouble disappears. Resinol Ointment is also an excellent household remedy for dandruff, sores, burns, wounds, chafings and for a score of other uses where a soothing, healing application is needed.

Proof in Leanness.
There was once an old Garrabost crofter who, when giving evidence before the crofters' commission, admitted that while he was the owner of three horses, his beasts were as thin as Pharaoh's lean kine.

Mind-Reading.
"Do you think there is any such thing as mind-reading?" asked the eminent diplomat.
"Oh, yes," replied Miss Cayenne. "If I pay very close attention to what you say and analyze it carefully, I often fancy I get a glimmer of what you are thinking about."
—Washington Star.

Paradoxical Result.
"How did prohibition work out in Crimmon Gulch?"
"Fine," said Bronco Bob. "The boys have saved up so much money that mebbe we'll have to let a few saloons open so's they can celebrate their prosperity."
—Washington Star.

The Higher Education.
Hi—What course is Sarah studying in that boarding school?
Si—I can't remember, but I think it's cosmetics.—Stanford Chaparral.

Similarity.
"Have you any references?"
"Yes, mum, but I left them at home. Like me photographs they don't do me justice."

Steady Egg Market Looked For.
Portland—The egg market has settled at the 18-cent basis, where it will probably remain during the rest of the storage season. It is expected, with warmer weather at hand, that receipts will increase fast, but this is not likely to cause any difference in the market, as speculators are prepared to take all that come in at this price.

They were watching the boys coasting down the snow-covered streets on their sleds.
"Ah," said the elder of the two men, "that's the sport! Doesn't it make you think of your happy childhood days?"
"No," replied the other, "it makes me think how slippery that street is going to be after awhile and how easy it would be for you or me to fall and break an arm or a leg while trying to cross it."
"You're right," said the first, "but against such contingencies by carrying an accident policy, I happen to have an application blank in my pocket. You'd better sign it now before it's too late."
