### Catarthal Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarthal deafness, and that is by a constitutional remedy. Catarthal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarth, which is an inflamed condition of the mucous surface. Hall's Catarth Cure acts thro the blood on the mucous surfaces of the ear. We will give One Hundred Dollars for any case of Catarthal Deafness that cannot be cured by Hall's Catarth Cure. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.
