### Dignities of Office.

This story—which is perhaps true and perhaps not—is being told in many Italian mess rooms. On one of his royal tours King Victor Emmanuel spent the night in a small country town, where the people showed themselves unusually eager in caring for his comfort. So when he had gone to bed he was surprised to be awakened by a servant who wanted to put clean sheets on his bed. However, he waited good-naturedly while it was done, and wished the servant good night. He had done off to sleep when he was roused for the second time by a rap on the door and the servant reappeared, asking to change the sheets again.

### More Apples Are in Storage.

The United States department of Agriculture, through its Office of Markets and Rural Organization, has issued a detailed report of cold storage apple holdings on May 1, 1916, as follows: The information received indicates that there were 92 per cent more apples in cold storage on May 1 this year than were held on May 1, 1915. The barreled apple holdings show an excess of 127.7 per cent and the boxed holdings an excess of 31.1 per cent over those of a year ago. During April 16.7 per cent of the December 1 holdings moved from storage, as compared with 20 per cent during March.

### Strawberry Prices Jump.

Tacoma—Strawberry prices jumped to high points this week on account of the scarcity of the fruit and the high-priced Kennebec berries were snapped up by dealers who had placed only light orders. California berries jumped from \$1.75 a crate to \$2.15 and \$2.25. This is due to the fact that the California berries are nearly all gone, say dealers. The California shippers are turning down orders because the demand is greater than the supply.

### Cherry Men Defer Action.

Wenatchee, Wash.—Cherry growers who met at the Commercial club to unite in a cash selling plan will hold their plans in abeyance until the season develops and a more definite estimate can be obtained on the local and foreign crops and the possible market value. At present there is a decidedly bullish feeling, not only on the part of growers, but also of shippers and sellers, who believe that the entire crop can be disposed of at good cash prices. Under these circumstances it appeared that it would be advisable to wait.

### Four Hundred Tons Oats Sold.

Portland—Four hundred tons of June oats were sold at the Merchants Exchange Thursday at \$26.75, a quarter under the price of the last board sale. It is reported from Washington, D. C., that the government will soon be in the market for 10,000 tons of oats. The local wheat market was dull and bid prices were unchanged. The country wheat markets were also quiet.

### Gold Imports From Canada.

New York—Additional imports of gold from Canada were received by J. P. Morgan & Co. Saturday, making a total thus far this week of more than \$3,000,000. The gold, which is more or less equally divided into sovereigns and bars, came from Ottawa in connection, it is believed, with recent purchases of supplies by the Dominion of Canada.

### Clarke County Prune Buyers Out.

Vancouver—Prune buyers are active in this country and it is reported that as high as 64 cents a pound has been offered for prunes of this year's. Some buyers, however, it is known, are attempting to close contracts for 54 cents for prunes that run 30-35 cents a pound.

### Big Sugar Crop in Porto Rico.

San Juan, Porto Rico—The revised estimate of the sugar production of the island for the season now ending shows that the production will exceed all previous estimates and is expected to be in excess of 463,000 tons, as compared with 345,000 tons last year.

## FERNS ARE GOOD TO EAT. SAY UNIVERSITY JAPANESE

Considered Great Delicacy by Nipponese, Who Eat Puget Sound Plant Like Asparagus.  
University of Washington.—The common fern or brake that grows in the Puget Sound country is good to eat, according to University of Washington Japanese students. Several Japanese families have been gathering the stems of the plant on the campus recently. They are boiled and eaten like "fuki," the Nipponese rhubarb, or the American asparagus.  
To take out the acid taste of the fern, the stems are boiled in water, to which ashes are added. When nearly cooked the water and ashes are poured off. Clean boiling water is then poured on and the cooking is called "warabi" and is considered a great delicacy. Warabi may be eaten at once or it may be dried and stored away for winter use. When mixed with oysters it is called "sho-yu," which means oyster sauce. The food can be mixed with most meats, shellfish and vegetables.

A Fatal Mistake.

## YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose picture is herewith," was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound.

She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it.—Mrs. MARGARET KURTZWEIG, 629 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs help, full advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

## MOTHER GUILTY OF CONTRIBUTING TO DELINQUENCY OF HER CHILD

Portland—After deliberating but 30 minutes a jury in Judge Morrow's court late Tuesday found Mrs. Hodges, 114 East Twenty-sixth street, guilty of contributing to the delinquency of her 15-year-old daughter, Frances, in that she permitted her to frequent public dances and all-night restaurants, associating with men of doubtful character.  
The jury returned two ballots to come to a verdict. The first stood 11 for conviction and one for acquittal and the second was unanimous.

The case is said to be the first ever tried in Oregon in which an attempt was made to fix the responsibility of a parent for a child's downfall. The decision is, in the opinion of attorneys, an important one, in that it will affect the status of all parents with regard to their children's actions.

Deputy District Attorney Robison, who handled the case for the state, declared that the effect of the decision would be far-reaching, in that it would no doubt act as a preventive in a large percentage of the cases customarily ending in the Juvenile court's hands.

Fury of Extensive Austrian Attack Increases on Italian Battle Front

Rome, via Paris—Austrian artillery of all sizes and all ranges, with the monster 305-millimeter gun predominating, has transformed the battle front between the Adige and Brenta rivers into an inferno.

Notwithstanding the snow-capped mountain barriers, the Austrian infantry is being launched in waves which military observers say break against the formidable resistance of the Italians.

The Italian troops have now formed their lines of offense and are holding firmly all the passes and peaks, from which Italian officers say the forward movement of the Austrians has not only been successfully arrested, but the Austrians have been dislodged from several strategic positions taken in the first rush of the offensive.

There are several indications to confirm the statement that the design of the present strenuous campaign of the Austrians on the Trentino front is to prevent Italy participating with her troops in the struggle on the French front and also to paralyze any action aiming at the joining of the Avlona and Saloniki forces for a simultaneous effort.

## Congress Gets No Information to Aid in Settling Land Grant Case

Washington, D. C.—Congress will be compelled to legislate for the dispositions of the Oregon & California land grant without knowing more than it knows now as to the meaning of the decision of the United States Supreme court in the case.

Tuesday the Supreme court received from the United States Circuit court at San Francisco a certificate of seven questions on which that court wishes enlightenment before passing on the railroad company's appeal from Judge Wolverton's last decree. The case has not yet been docketed, but in any event cannot be heard by the Supreme court this term, and no answer to the questions propounded will be made before the October term. This means not only that congress will get from the Supreme court no interpretation of its decision of last June, but that the appeal of the railroad company is halted.

## Convention To Be Noisy.

Chicago—Indications are that the Republican National convention of 1916 will be one of the noisiest and most exciting of the party. With 16 candidates for President in the field and with the result in doubt until the last ballot has been taken, there is likely to be an unusual amount of noise and enthusiasm every day the convention is in session. The committee on arrangements says that plans have been made to bring more than 100 bands and 50 glee and marching clubs to Chicago during convention week.

## What to Do for Your Itching Skin

Eczema, ringworm and similar itching eruptions are so easily made worse by improper treatment, that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful, that thousands of other physicians have prescribed it constantly for over 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any drug store, and are not at all expensive.

The object is to discuss peace terms, the dispatch adds.

## 570 Fishing Craft Sunk.

London—The number of British fishing vessels destroyed since the beginning of the war by Great Britain's enemies was given as 570 by Francis D. Acland, financial secretary of the treasury in the house of commons Tuesday. The number of lives lost on these vessels was 500. Fishing has gone on as usual, within necessary restrictions.

## And He Lives.

This story tells how a printer got two news stories mixed in his line, having a wedding notice and a public sale notice to handle at the same time: "William Smith, the only son of Mr. and Mrs. Joseph Smith, and Miss Lucy Anderson were disposed of at public auction at my farm one mile east, in the presence of 70 guests, including two males and 12 head of cattle.

"Rev. Jackson tied the nuptial knot for the parties, average 1250 pounds on hoof. The beautiful home of the bride was decorated with one sulky rake, one feed grinder and two sets of work harness, nearly new, and just before the ceremony was pronounced the Mendel and Sons wedding march was rendered by one milch cow, 5 years old, one Jersey cow and one sheep, who, carrying a bunch of bride's roses in her hand, was beautiful.

"She wore one light spring wagon, two crates of apples, three racks of hay, one grind stone of mouselline de soie and trimmings, with about 100 bushels of spuds. The bride and groom left yesterday on an extended trip. Terms, spot cash."

## HOT WATER AND "ANURIC" BEFORE MEALS—AND HEALTH

All people in America and especially those who eat meat meals are prone to eat too much meat and in consequence deposit lime salts in their arteries, veins and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air or drink enough pure water in order to sweat freely and excrete impurities thru the skin. Dr. Pierce has conducted experiments and thoroughly tested a uric acid solvent at his Invalids' Hotel and Surgical Institute which he is convinced is many times more potent than lithia—this he named "Anuric." It can be had at almost all drug stores by simply asking for Dr. Pierce's Anuric for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalping and burning urticaria and sleeplessness due to constant need of getting out of bed at night.

Our grandmothers have told our mothers and our mothers have in turn instructed us that in case of sickness, resort to Dr. Pierce's dependable household prescriptions. These medicines as put up for sale by druggists have never been recommended as "cure-alls," but only as superior remedies for certain common and easily recognized diseases. Had these medicines been adapted to all classes and forms of chronic diseases there would have been no necessity for organizing a competent staff of expert physicians and surgeons, to act in the treatment of difficult, obscure and complicated cases of chronic diseases, as Dr. Pierce maintains in his Invalids' Hotel and Surgical Institute. Of his home remedies the most widely known is his "Favorite Prescription" for womanly troubles and run-down conditions peculiar to the womanly sex; his "Golden Medical Discovery," the great of all herbal system tonics and vitalizers, for stomach, liver and blood disorders, as well as his "Pleasant Pellets," the tiny, tonic laxatives, overcoming constipation and cleansing the system of poisons and accumulations in the bowels.
