The Last Act.

Into the jeweler's shop came a simple-looking old chap, with a quaint, old-fashioned kitchen clock under one arm.
 "I want you to look at it," he said, as he laid the timepiece on the counter. "and tell me what's wrong."
 The jeweler removed the dial of the clock, screwed his magnifying glass into his eyes and poked about in the clock's interior.
 "Nothing wrong with it now," he announced presently. "It's sufferings are over."
 "Well, what do I owe you?" asked the customer, thinking he had repaired the clock.
 "Nothing," replied the shopman. "You're mistaken. This isn't professional treatment. It's a coroner's inquest."—Philadelphia Public Ledger.

Who Recommended it.

"Did I understand you to say that a change of climate had been recommended for you?" asked the bank president.
 "Yes, sir," replied the cashier. "That is why I desire an earlier vacation than usual."
 "Um—yes," mused B. P. "By the way, who recommended the change, your physician or your attorney?"

When the Doctor is Praised.

"The Browns seem to think most highly of you, doctor. They were praising you to the skies the other day."
 "Yes," said the doctor, quietly. "You see, I've never lost a patient in that family—yet."—Detroit Free Press.

Worse Luck!

Men who are too lazy to work and too proud to beg are usually too indifferent to die.—Judge.

Mother's Way Best.

Little Willie felt indispensed, and the family doctor ordered him to take a powder.
 "Come on, dear," said mother coaxingly when the powder arrived, "take this. It will make you quite well at once."
 "Don't want to!" wailed Willie, backing away from the teaspoon. "Don't want any medicine!"
 "Oh, Willie," his mother said reproachfully, as she drew the small boy near to her, "you've never heard me complain about a little powder, have you?"
 "No, and neither would I," was young Willie's stalling reply. "If I could just put it on my face as you do, but I have to swallow it!"—Philadelphia Public Ledger.

Dairy Paragraphs.

Have a name for each cow, and speak it when approaching her at milking time. An occasional friendly pat on a cow at such time will cause her to give her milk down freely. Let the milking hours be a pleasant event for the cow and her milker.
 Oats and Canada peas cut green make a fine substitute for silage in mid-summer. Cut when the oat heads are just beginning to form.
 An experienced dairy farmer gives this remedy for the cure of scours in calves: "Take common soap beans, put them like coffee (being careful they do not burn), grind them and give to calf. He says he has had good results with this treatment."
 Had a Proposal.
 "Had a proposal from any of the fair sex this year?" inquired Fitz noodle.
 "I have. I had a proposal from the young lady at my lodgings."
 "Philippus, but you are in luck! How did you muster courage to make it, and what did she say?"
 "Well, you see, she keeps the books for her mother, so she came to me and proposed."
 "Yes, yes, lucky dog! Go on."
 "She proposed that I pay up my arrears or vacate."—Chicago News.

It advertises itself—Hanford's Balm.

Old Peterby is rich and stingy. In the event of his death, his nephew is to inherit his property. A friend of the family said to the old gentleman: "I hear that your nephew is going to marry. On that occasion you ought to do something to make him happy."
 "I will," said Mr. Peterby. "I'll pretend that I am dangerously ill."

Kill All Flies!

Send 10c to Dr. Pierce Invalids' Hotel, Buffalo, for large trial package of "Anuric" for kidneys, cures backache.
Others Like Him.
 "There goes a man who boasts that he has never bought a gold brick."
 "Reminds me of the fellow who says he has never told a lie."
 "Yes. He reminds me of the chap who says the upkeep of his automobile is next to nothing."
 "And he's in the same category with the man who says he never was sick a day in his life."—Brooklyn Citizen.

THE VALVELESS PUMP

More Water—Less Horsepower, Less Cost. In addition to irrigation, street cleaning, fire protection and domestic use. Small, Light, Powerful. No Cylinders, No Pistons, No Valves, No Packing, No Leaking, No Stopping. Water and Air Simultaneously. Will Pump boiling water. Harvested for vertical section by the inventor. Delivers more water, with far less horsepower, than any pump known. No Friction. Invented at New York. Reasonable Section.
 Write for Catalog, Prices and Testimonials before you buy.
THE VALVELESS PUMP CO., 37th Floor Title & Trust Bldg., Portland, Ore.

Better Ways.

Progress is no monopoly of the canon makers. In the latter part of the "Electrical Engineer" we note that the Columbus (Ohio) Railway Power and Light company has set out to make its buildings safer. Fire escapes, standard doors, and other improvements have been added along with a rigid system of inspection to prevent the accumulation of waste and grease, so that in three years fire risks and insurance rates have been cut nearly in half. In Johnston, S. C., F. M. Boyd, manager for the Carolina Public Service company, has devised a new type of twenty-five foot pole with a twelve-foot mast arm sticking out on the side, so that the poles kept the wires away from the beautiful old elms and water oaks that are the glory of Johnston's highways. Anyone who has seen the ruin and mutilation left by fanatic tree trimmers will appreciate Mr. Boyd's device. The Ohio Electric Light association reports that its members have saved from three to five cents per ton on all coal handled at certain of their power houses by putting in an eight-hour day for firemen. This ought to interest the old-timers who think twelve hours' toil an insupportable right for engine-room workers. Those three items cover vital subjects and are only part of the gist in one issue of a live technical journal. That's how our United States goes along.—Colliers.

His Duty.

Jones—I suppose, merely as a matter of parental duty, I shall have to take that boy to the circus.
 Mrs. Jones—But I don't want him to go this year.
 Jones—Then I shall have to go alone.—Boston Transcript.

Fatted Calves.

Rounder—I wonder why we see so many more artificial humps nowadays than we did when we were boys.
 Rounder—Oh, I suppose it's because we were not permitted to attend burlesque shows as often as we do now.—Indianapolis Star.

Arrival of First Watermelons

Proves That Summer is Near
 Spokane—If the weather had not brightened and warmed as it has the appearance of the first watermelons of the season would have made known the nearness of summer. They retail at 4 and 5 cents a pound.
 The first blackberries or dewberries of this year's crop are also in evidence at 15 cents a basket.
 Plums, apricots, Hood River strawberries, though not superabundant, are arriving in greater quantities and the wholesome if homely gooseberry is somewhat increasing in size, though its price still remains at the popular nickel the basket.
 Asparagus is more plentiful and the green cabbage, though still arriving from the South, is of appetizing freshness.
 New potatoes are increasing in size and decreasing in price.
 With the arrival of the carload of cantaloupes due on Thursday there will be a more ample supply in the stores.
 No more naval oranges will arrive this season, but Valencia's will take their place with increasing abundance.

Increasing Cost of Gasoline

Is Blamed On Standard Oil
 Washington, D. C.—The Federal Trade commission concluded Wednesday its investigation of the rise of gasoline prices, ending a two days' hearing after representatives of Standard Oil and various independent companies had given divergent explanations of the present situation in the industry. A report, based on the hearings and on the results of weeks of investigation by the commission's agents, will be made public soon and will be transmitted to congress in response to a resolution asking for an inquiry.
 The independent jobbers and refiners who appeared before the commission were virtually unanimous in placing responsibility for the increases on the Standard Oil companies, who, they charged, had refused to compete and fixed prices. Standard Oil representatives replied to the charges but did not enter into an explanation of the elements behind the soaring cost of gasoline to consumers.

Rust and Bugs Play Havoc.

Washington, D. C.—W. R. Stevenson, of Kansas City, Kan., is a patron at the Raleigh hotel. In touching on the wheat situation in his state he said that rust and bugs are playing havoc with what promised to be a bumper crop a few weeks ago.
 "In many sections farmers are breaking up the land they had sowed to wheat and are putting it in other crops," continued Mr. Stevenson. "The present conditions indicate a marked shortage in the greatest wheat-producing area of the world."
 Sand Said To Be Rich.
 Marshall, Or.—The black sand ledges, extending for several miles on South Inlet, are being examined by experts from various sections of the United States. Recent assays and expert opinions obtained in Europe and from chemists in the East resulted in an influx of mining engineers and chemists, and at present there are half a dozen different firms with investigators on the ground. The black sand ledges contain gold, platinum and iron, besides iridium and another newly-discovered valuable mineral.

GENERAL CARRANZA'S DEMANDS STERNLY REFUSED BY WILSON

Washington, D. C.—Upon General Carranza's reception of a stern refusal to heed his demands for recall of American troops from Mexico hinges the question of a Mexican war, in the opinion of President Wilson's close advisers. They were prepared Tuesday after the note which was sent forward to Carranza.
 No indication has come that the first chief's attitude of implacable hostility would be shaken by the reiterated declaration of the latest communication that the United States has no aggressive or warlike purpose toward Mexico, but is firmly resolved to protect her borders and end brigandage in the border states.
 Indications that the militia now being mobilized is intended as well for invasion of Mexico as for guard duty on the border appeared in administration circles when steps were taken to have the new army reorganization law, which becomes effective July 1, become in force at once.
 While the diplomatic steps were in progress the nation was stirred throughout its length and breadth with the movement of National Guardsmen mobilizing to guard the border. At least 100,000 and possibly a far larger number were preparing for active service under President Wilson's call. For the present their mission will be purely one of defense, but, should war come, they will be ready also for that. They will not be assigned for border duty until mustered into the federal service.
 Official reports from many quarters show that a flame of popular feeling against the United States is being kindled throughout Mexico. Apparently it is being done with the sanction of General Carranza, for the acts in many cases are those of his authorized military or civil agents.
 Neither State department officials nor members of the diplomatic corps here have been able to satisfy themselves as to Carranza's motives. There are some, however, who believe he hopes to ride into popularity by a diplomatic triumph over his powerful northern neighbor or upon a war wave which might re-establish his tottering government in popular estimation. Once the war was on and the certain defeat of his armies foreshadowed, the observers say, General Carranza might sue for peace, trusting to the magnanimity of the Washington government to leave him in power.

IS YOUR STOMACH IN A BAD CONDITION?

TRY HOSTETTER'S STOMACH BITTERS
 IT IS FOR INDIGESTION, BILIOUSNESS, MALARIA, FEVER AND AGUE.
 An Effective Mask.
 "Such a lot of things happened this afternoon, dear, said Mrs. Young bride to her husband. "I complained to Nora about the stove not being blackened and she put on her things and left. Then I decided to black the stove myself, and right in the midst of it who should call but Mrs. E. Style."
 "What in the world did you do?"
 "Just put some more blacking on my face, went to the door and told her I wasn't in. And off she went, saying she would call again."—Boston Transcript.

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.
 Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sensitive Wash I am fully cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

Warships Go South.

San Diego, Cal.—The cruiser San Diego, flagship of the Pacific fleet, with Admiral Cameron McR. Winslow on board, left here at midnight Monday for Guaymas or Mazatlan. The cruiser Chattanooga, left Monday afternoon for Acapulco and the cruiser Denver followed later for Salina Cruz. The warships are under orders to proceed to the west coast of Mexico at top speed. Something like war-time scenes were witnessed in the harbor prior to the departure of the vessels. The ship's bunkers were filled.
 Yucatan Declares War.
 Galveston, Tex.—The Mexican government in Yucatan has issued a proclamation ordering all Americans out of Mexico and declaring a state of war existing between the two countries, Tuesday morning on the Norwegian steamer Nils, from Progress.

San Diego, Cal.—The cruiser San Diego, flagship of the Pacific fleet, with Admiral Cameron McR. Winslow on board, left here at midnight Monday for Guaymas or Mazatlan. The cruiser Chattanooga, left Monday afternoon for Acapulco and the cruiser Denver followed later for Salina Cruz. The warships are under orders to proceed to the west coast of Mexico at top speed. Something like war-time scenes were witnessed in the harbor prior to the departure of the vessels. The ship's bunkers were filled
