River highway with the Sandy river road by way of Barlow pass and Gov-

sage of the measure, known as the Walsh amendment to the good roads bill, by July 1. It is said that work

may be begun on the scenic loop route by the middle of July. Both Representatives Sinnott and McArthur spoke in favor of the bill and were largely instrumental in securing its passage.

Barlow Road Offered

The Barlow toll road leading to Mount Hood and valued at \$100,000 has been offered to the government by George W. Joseph, of Portland, acting in accordance with instructions con-tained in the will of the late E. Henry

Wemme, DOLLARS CTS Acceptance of the offer will mean \$32,510.17 that the government will maintain the None road.

2,307.80 4,100.00 2,300.00 2,300.00 2,300.00 cash in construction and maintenance of this road. Object of this offer is to 30 00 2.653 01 by government on 26 mile loop road 147,290.10 under Shackelford bill.

DOLLARS CTS **Melted Snow Forms Lake**

\$10,000.00 Will Moody, whose ranch is at the edge of the national forest on the base 1,925.00 14.82 edge of the national forest on the base 27.36 of Mt. Hood, brought the message 27.366.46 last Friday that a buge lake was 2,021.88 formed on the Upper East Fork by 7.40 melted snow held back by huge snow 14.82

5.278.28 banks. "The water is four feet deep over 347,200.10 what is known as Hood River Mead-ows, '' says Mr. Moody. ''Elk Mead-ows, on the east side of Hood, where

the snow is usually gone by this time I. L. J. MERAILL, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my of snew." Hood River Meadows are several acres in extent, and it is thought that the breaking of the snowbank dams will cause a flood on Hood river.

Why Water Quenches Thirst. Thirst, a word of Anglo-Saxon origin and akin to the Latin torreo and our torrid or parched, describes a peculiar sensation of dryness and heat located

in the tongue and throat. Artificial thirst may be produced by the passage Tnese same rules apply also to the two and three year old tree. of a current of air over the mucous

River highway with the Sandy river road by way of Barlow pass and Gov-ernment Camp. The Taylor bill provided for an ap-propriation of \$200,000 to be spent on the loop road. Funds will be available by the pas-Funds will be available by the pasmembrane of these parts, but normal desirable tendency, especially when done but once a year. In this connection it is worthy of note that previous pruning advocated by the writer distributes this heavy pruning over two periods. It thus not only secures a well directed wood growth, the advantages of which are obvious, but also indirectly encour-ages the fruiting habit as well a supply of water comes to thirsting lips, replacing what has been lost, cooling the parched palate and rapidly removing the craving which has depressed the system. In short, water quenches thirst just because it supplies

ages the fruiting habit as well. what at the moment is wanting and is The trees have now gone through their formative period and should have good strong trunks and scaffold limbs. most eagerly desired, so that Solomon could properly compare the gift of "cold waters to a thirsty soul" to the From now on summer pruning will come a little later, the essential pur-pose being somewhat different. We should now encourage directly or indi-of water into the blood or body, though

should now encourage directly or indi-rectly the fruiting habit. It is recom-mended that this be done about the time the terimnal bud is forming. Cut the terimnal growth back to that point where it is desirable to secure lateral growth. Cutting, then, appears to cause a thickening of the branches and often leads to direct fruiting the fol-lowing mean. In other cause it is so easy for me to write," said a beginner to one of the great masters of French

lowing year. In other cases it tends to create a proper balance between wood prose "Go home and pray," said the masand fruit production and its effect will be evidenced ever a series of years. Should such pruning fail directly to in-duce fruiting it is worthy of note that

it still has an advantage over the one annual pruning in that the excessive cutting is distributed. Next week will be considered the ing though the end be failure. A goal, to make which one fairly tugs at life and yet misses, is better than a goal, to make which one fairly tugs at life and yet misses, is better than a pruning of older trees. victory softly won.

River Again Raising
