

GERMAN SUBMARINE IN AMERICAN PORT

U-Liner Crosses Atlantic With Cargo of Valuable Dyestuffs.

KAISER WRITES TO PRESIDENT

Vessel Successfully Breaks Blockade of British Warships—Will Take Home Needed Supplies.

Baltimore—The world's first submarine merchant vessel, the German underliner *Deutschland*, anchored below Baltimore Sunday night, after voyaging safely across the Atlantic, passing the allied blockading squadrons and eluding enemy cruisers watching for her off the American coast.

She carried a message from Emperor William to President Wilson, a quantity of mail estimated at 150 tons and a cargo of 750 tons of costly chemicals and dyestuffs, and is to carry back home a similar amount of nickel and crude rubber sorely needed by the German army.

Sixteen days out from Bremerhaven to Baltimore, the submarine reached safety between the Virginia capes at 1:45 o'clock Sunday morning, by a heavy pall of darkness which settled over the entrance of the bay, with the setting of a tall-tale moon.

Once inside the harbor, the submarine's crew had landed and the agents of her owners had received only meager reports. Such information as was available came directly from the pilot and from Captain Hans F. Hinech, of the North German Lloyd Liner *Neckar*, laid up here since the beginning of the war.

J. F. Gillies, Washington State Fund Looter, Escapes From Jail

Olympia, Wash.—J. F. Gillies, twice convicted of embezzling \$20,000 from state industrial insurance funds while employed as claim agent for the state, Sunday night pried off two flimsy locks with a bolt as a jimmy and escaped from the Thurston county jail. With him went Henry Roberts, awaiting transfer to the reformatory for a statutory offense.

Prosecuting Attorney Yantis ordered the arrest of Mrs. Gillies on a warrant charging her with aiding the escape of the prisoners. Mrs. Gillies was not locked up, but was taken to the home of a policeman and placed in the care of the officer's wife.

It is believed the prisoners boarded a train bound for Portland.

An automobile is known to have left town about midnight, and it is believed to have taken the two men toward Canada. At a late hour no trace had been reported of either.

Shortly after dark Gillies and Roberts locked an old man held on a minor charge in his cell and pried their way out.

Sheriff McCorkle was at Centralia and James Fennell, county game warden, who occasionally slept at the jail, was out of town.

By sawing off the riveted end of the bolt by which their cell would have been locked, had that precaution been taken, Gillies and Roberts slipped out the bolt and then sawed the end of it off on the bias to make a chisel point, by which they pried their way out. Gillies evidently let himself from the window to the ground 15 feet below with a blanket.

Yellow Press is Target.

Washington, D. C.—A bill introduced Monday by Representative Campbell, of Kansas, would make it unlawful for any person, company, corporation, press association or newspaper publication to publish or transmit any false report or rumor bearing on the international relations of the United States and tending to injuriously affect peaceful relations with the government or people of any other country.

It was referred to the judiciary committee.

Curry to Offer Scouts.

Bandon, Or.—Preliminary arrangements for the organization of a company of 100 scouts, whose services will be tendered to the government, are being made in Curry county, with District Attorney J. C. Johnson and F. B. Tichenor, of Port Orford, at the head of the movement. Both Mr. Johnson and Mr. Tichenor are veterans of the Spanish-American war, and the former has seen 18 years of service in the army. Unless the threatened trouble with Mexico clears away shortly, recruiting offices will be opened.

Alaska Sends in Bullion.

Seattle, Wash.—Seven hundred and fifty thousand dollars in gold bullion, the largest shipment received from Alaska this year, was brought here Sunday by the steamer *Humboldt*, which arrived from Skagway. The gold, the first of the Spring cleanup in interior Alaska, was shipped from Fairbanks by the first steamer up the Yukon and transported to Skagway over White Pass from White Horse, the head of river navigation.

OREGON TO FORESTALL POSSIBLE INFANTILE PARALYSIS EPIDEMIC

Portland—The entire state of Oregon will be protected by strict preventative measures against the possible introduction of infantile paralysis infection, through orders issued Sunday by the State Board of Health, and forwarded by State Health Officer David N. Roberg to all local health officers, and county judges, throughout the state.

To further insure the observance of these precautions against the plague that is terrorizing New York, Governor Withcombe has been requested by the State Board of Health to issue a proclamation to the county judges of Oregon, instructing them to establish the quarantine at every railroad station within their jurisdiction.

The plan is simple, though necessarily involving a great deal of close observation and employment of a regiment of medical inspectors and assistants.

Incoming passengers, under 15 years of age, from all Eastern points, will be met at each station by authorized inspectors. Their temperatures will be taken. If the temperature be above normal, or if any other indication of the dread malady is observed, the child will be placed under strict quarantine.

Epidemic is Subsiding.

New York—Nineteen more deaths from infantile paralysis in New York City for the 24 hours ended at 10 o'clock Sunday morning were reported by the department of health, making the total fatalities 224 since the epidemic started. There was a drop in the number of new cases, 88 being reported Sunday against 95 Saturday. The total number of cases now has reached 980. The mortality rate is still about 23 per cent. Brooklyn continued to lead with new cases.

Life of President of Argentine Republic Sought by Anarchist

Buenos Aires—An attempt to assassinate President de la Plaza was made Sunday by a self-styled anarchist. The President was standing on a balcony of a government building reviewing some troops when a man in the crowd of spectators suddenly drew a revolver and fired at him. The shot went wild and the would-be assassin was arrested.

The great crowd of spectators surged forward in an effort to take the assassin from his guards and lynch him, but this was prevented by the soldiers. The man gave his name as Jean Mandrini. He said he was born in Argentina and was 24 years old.

United States Has 21,000,000 Men Eligible to Military Service

Washington, D. C.—The census bureau, while unable to answer specifically the question how many able-bodied citizens of military age there are in the United States, estimates that the total number of male citizens and those who have declared their intention to become citizens, who are 18 to 45 years old inclusive, is not far from 21,000,000.

This estimate is based on the assumption that there has been an increase of approximately 10 per cent in the population of the country since the census of 1910. When that census was taken the total number of male citizens and prospective citizens 18 years old and over but under 46 was 19,183,000. Of this number, 14,857,000 were foreign-born whites who had become naturalized or had declared their intention of doing so, 2,052,000 were negroes and 50,000 were Indians.

Socialists Insist Food Supply is Short.

The Hague—During a debate on the food situation at the Thursday evening session of the Berlin city council, the Socialists complained of the inequality and inadequacy of the distribution of food under the mass-feeding scheme. Councilor Mommsen declared that no resident of Berlin was yet starving. This elicited a sharp contradiction. Municipal Physician Weber maintained there was no question of under-feeding yet, whereupon cries of strong dissent arose from the Socialists.

The Socialist councillor, Hoffman, said that he himself had been a patient at the Rudolph Virchow hospital for months, and knew how seriously the dietary had been reduced.

Explosion Follows Raid.

Seattle—A few minutes after the police had wrecked the stock and fixtures of the Puget Drug company at 1525 First avenue during a liquor raid Sunday night, fire caused by an explosion, completed the destruction of the interior of the store. No one was in the store at the time of the explosion, but it is believed that acid leaking from a bottle came into contact with the contents of a barrel of alcohol which the police had broken open. One hundred bottles and several demijohns of whisky also were destroyed.

Bandits Guests of Honor.

Laredo, Tex.—Herberto Pezzio, alleged bandit on trial here in connection with the raid on Webb, Tex., testified that he and other Mexicans involved in the raid previously were guests of honor at a banquet given to Nuevo Laredo by General Muniz, leader of the Carranza forces. Pezzio, Cuevas and Solis were sentenced to five years' imprisonment. Pezzio addressed a letter to Gen. Alvaro Obregon, minister of war at Mexico City, asking that some steps be taken to prevent imposition of the sentence.

British Statesmen Shifted.

London—Following the appointment last week of David Lloyd-George as secretary for war, official announcement was made of several other changes in the government. Edwin Samuel Montagu, financial secretary to the treasury, takes Lloyd-George's place as minister of munitions. Thomas McKinnon Wood, secretary of state for Scotland, becomes chancellor of the Duchy of Lancaster and financial secretary to the treasury.

RED CROSS TO AID IN N. Y. EPIDEMIC

Health Authorities Send Out Appeal for More Trained Nurses.

CAUSE OF DISEASE MYSTERIOUS

Frantic Mothers Interne Children in Tenement Homes—45 Cases Found Outside Gotham.

New York—An appeal to the American Red Cross for nurses to aid in stamping out the scourge of infantile paralysis here, which since June 1, has caused the 196 deaths among children, was made Saturday by Health Commissioner Emerson. There are not enough trained nurses available in New York to handle the work, he said, and it had been found necessary to ask aid of the chief of the Red Cross bureau of nursing at Washington. It was intimated that several hundred workers were needed.

The call for help was sent out after a day devoted by health authorities and the most prominent physicians of the Greater City to a discussion of means by which the spread of the disease can be checked. Some encouragement was found in the fact that fewer new cases were reported Friday than on Thursday or Wednesday.

All the medical men agreed, however, that only by unremitting vigilance and the strict enforcement of every known sanitary precaution could the epidemic be kept within bounds.

Another serious phase of the situation was reported by the Association for Improving the Condition of the Poor, which has found that in the congested districts of the city frightened mothers have interned their children in their tenement homes, in many instances with windows closed. Such action, it was pointed out, is likely to have serious effects, not only on the children, but on adults as well.

Children's reading rooms in the public libraries have been ordered closed as a precautionary measure, and the order barring children from moving picture theaters will not be modified until conditions improve. Playgrounds in various parts of the city were ordered closed earlier in the day.

Japan and Russia Agree on China; Open Door Policy Not Endangered

Tokio—The Japanese foreign office Saturday announced as the substance of the Russo-Japanese convention signed at Petrograd on July 3, the following: First—Japan will take part in no arrangement or political combination directed against Russia. Russia will take part in no arrangement or political combination directed against Japan.

Second—In case the territorial rights or special interests in the Far East of one of the contracting parties which are recognized by the other contracting party are menaced, Japan and Russia will consult each other on measures to adopt with a view to supporting or extending assistance for the safeguarding and defense of these rights and interests.

To a question from the Associated Press representative as to what effect the alliance would have upon the open door and the integrity of China, the foreign office replied:

"The convention is effectually an emphasis upon and an extension of the Anglo-Japanese alliance based upon the territorial integrity of China, whose open door and integrity are not endangered. American trade and interests are in no wise affected."

Road Appeals to Its Men.

San Francisco—The Southern Pacific company ordered posted its depot and engine houses throughout its system an appeal to its 52,500 employees to use their influence to avert a threatened strike of engineers, firemen, conductors, trainmen and switchmen. The poster says that strike ballots have been sent out to the members of the unions threatening to strike, who constitute 13 1/2 per cent of its employees. The company asks the men who receive the ballots to vote against the strike.

Crops Are Above Average.

Washington, D. C.—Crops this year, better than the average for the five years from 1910 to 1914 but in most cases smaller than last year's harvest, were predicted by the department of agriculture, basing its estimates on conditions July 1. Compared with conditions as reported on June 1, crops showed moderate improvement. A feature of the department's report was the announcement of a heavy quantity of wheat held on farms July 1, the latter being more than double the amount usually so held.

King Congratulates Men.

London—The following message was sent by King George to General Sir Douglas Haig, commanding the British troops on the Franco-Belgian front: "Please convey to the army under your command my sincere congratulations on the results achieved in the recent fighting. I am proud of my troops. None could have fought more bravely." General Haig, in reply, said: "All ranks will do their utmost to deserve Your Majesty's confidence and praise."

Carranza Troops Pursuing Bandits.

Chihuahua City—Large Carranza forces, better organized and more completely equipped than any other units of the de facto government troops, Saturday were closing in on the bandits of Southern Chihuahua and Northern Durango, intent on wiping them out. Jimenez, who the Villistas captured after defeating an inferior force and killing General Ignacio Ramos, has been occupied again by government troops.

As Wheat Season Advances More Grain Bags Are Needed

Portland—There is more inquiry for grain bags now than at any time this season. Sales are not much larger but buyers are showing decidedly more interest in bags, and sellers believe an active market is not far off. It is the improvement in crop conditions in the Northwest that is causing the inquiries to increase. The rains of the past fortnight have led all grain men to raise their estimate of the wheat crop and they are now figuring on a yield of 10,000,000 to 15,000,000 bushels larger than they expected early in June. This condition naturally has produced a firmer bag market. Local quotations are still around the 12-cent mark, but there is not the probability of a decline that dealers faced a short time ago.

The entire coast crop is growing in size and there are no more bags in sight than there were. As a California authority expresses it, for every bag in sight two will be needed. In California, as here, there has not been much buying by farmers in anticipation of crop needs, but this is a condition that cannot last much longer. Much was heard earlier in the season of bulk handling of grain, but it is evident now that there will be but little relief for the situation on this score.

Road Increases Capital to a Million.

Chehalis, Wash.—The Cowitz, Chehalis & Cascade railway company in supplemental articles of incorporation has increased its capital stock from \$100,000 to \$1,000,000. The name of the company has been changed to read as above, instead of the Chehalis, Cowitz & Cascade. The company has a large crew at work all along its 22 miles of projected line rushing its work and expects to have the road completed to the southeast of Onalaska, near Salkum, by fall. The Chehalis Mill company has its plans all completed now to rush work on its new 75,000 sawmill in South Chehalis at once.

Sales Plan is Successful.

Kennewick, Wash.—Encouraged by the success of the Kennewick-Richland Marketing union, which shipped and sold this year 95 per cent of the strawberries grown in this region at an average price to the grower of nearly \$3 per crate of 24 pints, the growers at a public meeting here last Saturday perfected plans for a similar permanent organization to handle the raspberry crop, asparagus, gooseberries, cherries, early potatoes, and, possibly, the peach, pear and apple crops. New by-laws and constitution were approved.

Horse Market is Active.

Klamath Falls, Ore.—There is much activity in the local horse market again following the call of the United States for more animals for military purposes, and the recent placing of orders for more horses and mules for the French government. The E. Clemens Horse company, of Sacramento, operating many large ranches in California, has a call for a large number of horses for military purposes. Last week 200 head of horses purchased by this company in Lake county, Oregon, were shipped from this city.

Some Grant Crops Damaged.

Canyon City, Ore.—Unsettled weather conditions have prevailed throughout Grant county for the past two weeks. Considerable rain has fallen and has caused damage to some crops and much inconvenience to sheepmen, who are in the midst of shearing operations. The first crop of alfalfa is ready, but owing to the weather conditions, the farmers are delaying the cutting until good curing weather.

Kitchener's Work for the Empire.

Kitchener will be remembered for four great constructive works of South Africa, India and England. In each case his work was creative and revolutionary in conception, and carried out with the utmost precision in every least detail. No man touched the world-extended British Empire at more points, or touched it with such decisive, fateful effect. It may be said, indeed, that the integrity of the Empire, in the twentieth century, is the work of Kitchener. Four dangers arose, in regions separated by vast continental spaces; in each region, Kitchener met the danger, piercingly diagnosed the cause, patiently and courageously overcame it. Every honor within the power of his countrymen to give him was offered to Kitchener; yet all honors fall short of his immense attainment.—From "Kitchener of Khartoum," by Charles Johnston, in the American Review of Reviews for July, 1916.

Guardians to Be Aided.

District Forester George H. Cecil, Portland, Ore., has received the following telegram from the Chief Forester, Henry S. Graves, Washington, D. C., in reference to employees of the National Guard: "Forester desires to aid employees who are members of the National Guard to fulfill their military obligations. For this purpose he will approve applications for leave and will act as far as possible consistent with civil service rules and future appropriations, assure their restoration to present positions after completion of service in the army. Please report immediately approximate number of employees in district who are members of Guard and will probably request leave in response to the President's call."

Mr. Stretcher—Yes, it's cold, but nothing like what it was at Christmas three years ago when the steam from the engines froze hard and fell on the line in sheets.

Mr. Cuffer—And yet that wasn't so cold as in '87, when it froze the electricity in the telephone wires, and when the thaw came all the machines were talking an hard as they could for upwards of five hours.

"Well, gentlemen," said Mr. Longbeow, "the coldest year that I can remember was in the Christmas week in '84, when the policemen had to run to keep themselves warm."

But that was too much, and with slight looks of indignation the other two left to his own reflections, the man who treated the truth so lightly.

Better.

Two suitors had striven for the hand of Mary Murphy. One was Doan, a prosperous grocer, and he was backed up by Pa and Ma Murphy; the other was a handsome young clerk, and he was backed up by Mary.

The clerk won.

On the morning of her first birthday after the wedding day Mary called to see her parents, and proudly showed them a pretty little gold watch which her husband had given her.

But Mrs. Murphy sniffed contemptuously.

"That's very nice," she said disapprovingly; "but if y'd only taken the advice of yer father and me, 'tis not a gold watch y'd be havin' in yer pocket, but a good eight day clock!"

He Meant Business.

Mrs. Bennett arrived at the conclusion that the attachment of Teddy Nolan, the policeman, for her cook must be investigated lest it prove disastrous to domestic discipline.

One morning she took Annie, the cook, to task regarding the matter. Annie admitted his attentions.

"Do you think he means business, Annie?" asked Mrs. Bennett.

"Yis, mum, O! think so," replied Annie. "Anyway, he's begun to complain about my cookin', mum."—San Francisco Chronicle.

A popular London clergyman was once staying a few days at a country house with some friends. On the Monday morning he was playing tennis with a young man he could usually beat, but for some reason or other the clergyman was not in form, and was faring badly.

Between games he remarked to his opponent, "I simply can't stand your service today!"

"Then we're quits!" was the cheery reply; "I couldn't stand yours yesterday!"

Rubbing for a Kiss.

"Did you come back for another kiss, dear?" inquired the bride.

"Well, I'll take another kiss, but what I came back for was my rubbers."—Brooklyn Citizen.
