Knew Their Man.
 A traveling salesman tells of a unique correspondence between a Chicago house and its representative in South Dakota, says the Buffalo Times. It appears that the drummer had sent the following message to his employers:
 "Snowing hard in Deadwood. Snow piles stalled. Good here for a week. Wire funds and instructions."
 To this the manager of the Chicago establishment wired as follows:
 "Telegram received. Hundred telegraphed you. Lose no time. Play poker, and remit winnings to house."

Forest Notes.
 According to the latest figures, the highest prices paid per 31 feet for raw material by any industry in the State of Oregon was by the manufacturers of vehicles and vehicle parts. Only small quantities and highest grades are used. This covers not only the manufacture but the repair of wagons, carriages and automobiles, and includes the local demand only.

The Florida National Forest is one of the self-supporting forests, due to the system which the Government has inaugurated there in the leasing of the turpentine in such a way that the perpetuity of forest is assured.

About 5 1/2 million pounds of artificial silk made directly from wood pulp are used annually in the United States. It is manufactured into such articles as linings, tapestries, neckties, ribbons and sweaters.

A plan of cooperation between forest officers and postoffice employees has been put into action, whereby all rural mail carriers and postmasters in or near national forests are to report the discovery of forest fires to the nearest forest officer.

Nearly fifty per cent of the pairs and tubs sent in the State of Washington are sent to the middle west for wounds.

Very Difficult.
 Mrs. Crump looked at her friend, Mrs. Hinks, and signed as her husband went out of the room.
 "Ah, my dear, it's a sad thing to see my old man losing his hair that way—as some know better what it is than yourself, Mrs. Hinks!"
 "You speak truly, Mrs. Crump; and it is. After Mrs. George had his illness in the spring, his hair fairly moulted off of him, and now his head's as smooth as smooth!"
 "It must be so uncomfortable, what with flies and things, not to speak of the cold. It's having to wear his hat in the bed room when he washes himself, as you'll find out with your good man. You see, not having any hair to go by now, he can't tell when he's finished washing his face unless he keeps his hat on. That's the bother of it."—Toronto Mail.

 Dauber is a big, healthy, bearded man, who looks as though he could lift half hundredweights in each hand as easily as he picks up his palette.
 An elderly rustic, who had been standing watching him painting by the roadside, he approached him.
 "No offense, sir," he began, "but is anything the matter w' yer?"
 "No," answered Dauber, "what makes you ask?"
 "Yer hair's lame, ar ye yer?"
 "Lame? Good gracious, no!"
 "Yer hairn't had a misfortune in any way? The sciatator or lombager, that's kind o' laid yer by?"
 "No; I'm as well as I have always been."
 The rustic drew himself up and gazed scornfully at the artist.
 "An' yer call yerself a man, an' can't sit ther a'doing o' that," he said. "Well, I'm blest!"

 If a Maori wishes to speak words of insult to another Maori he calls his adversary some kind of food. Any kind may be, living or dead. One Maori chief once told another that he was a roast veal. Then he fled to the bush, hid in a cave, was tracked, captured and beheaded.

The cave is still shown to visitors, and when Lord Kitchener was in New Zealand he was taken to it by a Maori girl acting as guide. She told him the whole story, and at the conclusion the stern soldier's face softened into a smile as he said:
 "Ah, ha, I suppose it would be highly dangerous to call a Maori lady a little duck!"—London TH-Bits.

RAILROAD STRIKE ISSUE TO WILSON

Employees Refuse Arbitration of Differences in Any Form.

CONFERENCE IN WASHINGTON

"Unless President Can Find Road, it Means Strike," Says Head of Labor Forces, Garretson.

New York—A general strike on the railroads of the nation, paralyzing commerce and throwing out of employment 2,000,000, could be averted only through the good offices of President Wilson, as a result of Sunday's developments in the dispute over the men's demands for an eight-hour day and time and a half for overtime.

The controversy was laid before the President, at his invitation, after the workers had flatly rejected any form of arbitration. They refused mediation Saturday.

"Unless the President can find a road, it means a strike," said A. B. Garretson, head of the labor forces. Representatives of the railroads and employees have gone to Washington, where a conference with President Wilson is arranged.

The final break came Sunday after the men had been in secret session nearly six hours. Reports differ as to the reason for the failure of the negotiations. The men assert they refused to arbitrate because the railroads insisted on arbitrating their contingent proposition. The board of mediation, in a statement, declared, however, the men rejected their proposition, contending that they would not arbitrate even if the railroads waived the contingent propositions.

Russians Capture Whole Stripa Line; Austrians Retreat to Avoid Defeat

London—The whole line of the River Stripa in Galicia was seized by the Russians Sunday. The army of General von Bothmer, after having the strongly fortified position ever since last winter, was compelled by the powerful pressure of the Russians north and south to fall back hastily toward the west. The Austrians are probably entrenched behind the Ziota Lipa river, prepared to make a last stand before they retreat to positions beyond Lemberg.

It was the menace to his flanks and rear, rather than any frontal movement, which caused Von Bothmer to surrender the line along the Stripa, which for seven weeks had been subjected to the most violent Russian attacks.

Generals Sakharoff on the north and Letchitsky on the south had gradually closed in upon the Austrian wings.

Infantile Paralysis Claims Ambassador Page's Daughter-in-Law

New York—Mrs. Frank Copeland Page, daughter-in-law of Walter Hines Page, United States ambassador to Great Britain, died of infantile paralysis late Saturday at her summer home in South Garden City, Long Island. She was 25 years old and had been ill only since Friday.

Mrs. Page, who was Katherine Sefton, daughter of Dr. and Mrs. Frederick Sefton, of Auburn, N. Y., was married to the son of the American ambassador June 3 last.

Surgeon Gives Own Body.
 Chicago—The last contribution to science of Dr. John B. Murphy, the eminent surgeon who died at Mackinac Island, the gift of his body was made Sunday. In obedience to Dr. Murphy's last wish that science be established the cause of the death which was coming, an autopsy was performed here as soon as the body was brought from the Northern summer resort. It established that death was due to heart disease aggravated by throat trouble. This confirmed the diagnosis that Dr. Murphy had made on his own condition.

Big Motorship in Port.
 San Francisco—The Danish ship Chile, said to be the largest motor ship afloat, arrived here Sunday 49 days from Copenhagen and 37 days from Christiania. Actual running time, according to the captain, was 31 days. This, he said, was a record for a freighter. The Chile brought 1000 tons of cargo for this port and 8500 tons for the Orient. She is one of 21 new vessels ordered by the East Asiatic company for trading trade. The Chile is 450 feet long and, with 10,000 tons of cargo on board, draws 27 feet.

Berg Sinks Cannery Boat.
 Juneau, Alaska—The cannery tender Agnes W., belonging to the Hoonah Packing company, was sunk by an iceberg off the south end of Douglas Island Monday, Captain H. J. Alexander, master of the vessel, reported upon his arrival here Monday night. The crew of four men escaped in a small boat.

Vessels arriving here report many icebergs in the channels near Taku inlet, the bergs having been carried from the Aku glacier by recent East winds.

Big Dam is Washed Away.
 Asheville, N. C.—The Southern railway agent at Lake Toxaway reported Sunday that the big dam there had broken and that a flood of water was racing down the valley. Messages have been sent from Asheville warning Greensville, Anderson, Seneca and other Southern Carolina points of the danger. Later the Lake Toxaway Inp at Lake Toxaway reported that the whole dam had been washed away, and that the lake was practically drained.

A Tall Yarn.
 He was describing the privations of a voyage from which he had just returned.

"Then," he said, "I went down to the cabin to lunch."
 "Lunch!" exclaimed one of his hearers. "But you told us there was nothing to eat left on board. What did you have for lunch?"

"Oh," was the reply, "it was a very modest affair—beef, wine and an egg."
 "Beef? Where did you get the beef from?"

"Oh," was the reply, "that came from the butchers."
 "And the wine, how about that?"
 "Oh, that came from the port hotel!"
 "Oh, oh!" laughed the listener. "Good, very good! But tell me where did you get the eggs?"

"Oh, that was the simplest of all," came the reply. "The captain gave orders for the ship to lay to, and he gave me one."—Pearson's Weekly.

 Little John is a confirmed sleepy-head. One morning when he was more than usually averse to getting up, his mother reasoned with him by calling his attention to the flowers.

"Why, the little flowers have been awake for hours," she told him, "and here you are at 8 o'clock still in bed."
 "Oh, well," was the reply, "look what dirty beds they have, and how nice and clean mine is!"

Human Nature.
 "But you will at least admit that there are two sides to every question, and—"
 "I admit nothing of the kind!" interrupted a young fellow. "As far as I am concerned, there is only one side and a lot of confounded foolishness."
 —Judge.

Where Emulation Stopped.
 A woman said to a little boy with his hair bobbed on his neck, "Frank, why are you going to have your hair cut like papa's?"
 "I don't want my hair cut like papa's," he replied, "with a hole in the top."

Quartz Claims Are Opened.
 Holland, Ore.—The Holland group of gold mining claims located near this place in Josephine county, and owned by V. C. McKinney and Wade W. Lewis, of Portland, has been recently leased to the Kerby Mining & Development company. A stamp mill with a capacity of 20 tons has already been installed on the property and is now ready for continuous operation, a considerable body of milling ore having already been blocked out. Heretofore this section of Southern Oregon had been considered wholly a placer region, but in recent years many gold quartz properties have been opened.

Klickitat Tax Goes Up.
 Goldendale, Wash.—The Klickitat county commissioners convened Thursday as a board of equalization, as required by law, to review the 1918 real estate assessment and hear complaints of taxpayers who object to values placed on their property by the assessor. They will probably be in session about two weeks. The assessed value of real property in Klickitat county this year was raised from 25 per cent of the cash value, as determined by the assessor, to 50 per cent, the latter being the full rate required by the law.

Pear Crop 3 Weeks Late.
 Hood River, Or.—The Hood River valley pear crop, estimated at probably 80 carloads, will be more than three weeks later than usual. The Apple Growers' association is expecting to make shipments of Bartlett's about August 15. Shipments of D'Anjou's, most of which are exported to South America, will not begin before the middle of September.

Local Fruit agencies are expecting good prices for the year's crop. Inquiries from all parts of the country are being received.

Ranchers Holding Wheat.
 Wilbur, Wash.—The majority of farmers will not contract their new wheat at \$1 the bushel, and some farmers are holding their last year's crop. Saturday 20,000 bushels were contracted for at \$1 a bushel. Wheat harvest will begin about August 14. The weather has been favorable for ripening the grain. The acreage is smaller than last year. So far the supply of labor has been equal to the demand.

Pays \$40,000 for Wheat Crop.
 Starbuck, Wash.—C. W. Pearson, a rancher 12 miles west of here, sold to C. F. Actor, grain buyer, 40,000 bushels of wheat for \$1 per bushel net. The varieties were divided as follows: Turkey red, 14,000 bushels; sixty-three, 12,000 bushels; bluestem, 9,500 bushels; one hundred twenty-three, 500 bushels. The grain is to be delivered at the Pleasant View warehouse on Eureka flat.

North Yakims Bring \$11,000.
 39 Holstein cows worth thirty-nine Holstein cows from the Tyson-McKee ranch in the Coxe were sold and shipped Thursday to the Bitter Root Holstein company at Corvallis, Mont. The price was \$11,000. All were registered. Several cows with high records were included.

Harvest on at Gaston.
 Gaston, Ore.—The weather the past week has been delightfully cool and breezy, with nights quite cool and fog in early mornings. Threshing has just begun. Baling started last week.

A Good Joke.
 "I got off a button-buster on my wife 'luther day,'" admitted Gap Johnson, of Rumpus Ridge, Ark. "She recited nothing that she'd read in a book she got hold of somewhere about 'Man's work extends from sun to sun, and it woman's work is never done,' and it seemed to give her considerable satisfaction. And I says, 'Good reason why,' said I, 'she never gets started!'—Just like that. Yaw-haw! haw!"—Judge.
