Lord Kitchener was harshly criticized the last two years of his life, but he could not complain, for he was always a harsh critic himself.

"Reorganize it," said Kitchener.

**Jane Settled Him.**  
"Jane," said her mistress, "you really will have to put a stop to the visits of your follower."  
"Yes, I must, ma'am," replied Jane. "But you've said that before," expostulated her mistress, "and there it's ended."  
"I'm sure I've done my best, ma'am," said Jane; "it isn't easy. But I'll try and settle him on my next Thursday out."  
Her next Thursday out came and went. Her follower also came and went (with Jane), and Jane eventually returned in a radiant mood.  
"I've settled him this time, ma'am!" she exclaimed, breathlessly.  
"Stand on him!" cried Jane's mistress. "No ma'am that I wasn't. I've just married him and I leave at the end of the month!"—Pittsburgh Chronicle-Telegraph.

**Forest Notes.**  
The annual value of the farm wood products of the United States is over \$195,000,000.

More people are spending their vacations on national forests this summer than have ever done so before, many persons traveling long distances by automobile in order to camp in these public playgrounds.

At a recent meeting of the Concomly Stock Association at which there were twenty members present, it was decided not to allow any bulls on the range after 1916 except those of beef grades and having registered papers.

Tourists' registers are in use on many of the national forests. By registering their names and destination, persons going into the mountains can arrange to have telegrams and other important messages forwarded by the forest rangers.

Experiments at the Forest Products Laboratory at Madison, Wisconsin, have resulted in the discovery of a method whereby the yields of alcohol and acetate of lime from the destructive distillation of hardwoods have been increased fifteen per cent.

**Deficiency Bill Passes.**  
Washington, D. C. — Saturday the senate passed the general deficiency bill, carrying approximately \$15,000,000, the last of the big supply measures, and cleared the way for passage of the revenue bill early next week and for adjournment of congress Thursday.

The bill appropriates \$3,000,000 for payment to Nicaragua of the money authorized in the canal treaty and contains various deficiency items for the army and navy, and \$100,000 for the farm loan board.

**RAILROAD STRIKE ORDER CANCELED**

Senate Quickly Passes Adamson Eight-Hour Day Measure.

**DANGER OF TIE-UP IS AVERTED**  
Bill Embraces Virtually All of President's Proposals—Measure to Take Effect Jan. 1, 1917.

Washington, D. C.—The threat of a general railroad strike, which has been hanging like a pall over the country for a month, was lifted Saturday night.

Three hours after the senate had passed without amendment the Adamson eight-hour-day bill, passed by the house Friday, the heads of the four great railroad employes' brotherhoods telegraphed 600-odd code messages to their general chairmen in all parts of the country cancelling the strike order issued a week ago, to take effect September 4.

The legislative expedient to avert the strike was passed in the senate by a vote of 43 to 28—almost a strict party vote—amid stirring scenes, after many senators, Democrats and Republicans, had fought desperately to amend the measure by provisions designed to prevent industrial disasters in the future. Some senators, though roughly aroused, declared congress was being coerced into enactment of legislation that it did not desire and that it knew would return to plague it in the future.

In both houses the measure was signed within a few minutes after the final vote in the senate and it was sent at once to the White House, where the President signed it Sunday.

The bill that stopped the strike provides that after January 1, 1917, eight hours shall be regarded as a basis of reckoning for a day's pay of men engaged in the operation of railroad trains in interstate commerce, excepting roads less than 100 miles long and electric lines, that they shall receive pro-rata pay for work in excess of eight hours, and that the rate of compensation shall not be changed, pending an investigation for six to nine months of the effect of the eight-hour day upon the railroads by a commission to be appointed by the President.

Efforts to amend the bill in the senate were futile, the supreme effort to alter it having been led by Senator Underwood, who sought to provide that the Interstate Commerce commission should have power to fix railroad wages and hours of service in the future. This amendment was defeated.

Railroad officials have declared that the action of congress will cost them \$60,000,000 a year in increased wages to the trainmen. Brotherhood officials say the enactment will mean not more than an annual increase of \$20,000,000. In congress and among the railroad officials there existed doubt as to the constitutionality of the law, but what steps, if any, may be taken to test this have not been indicated.

Quick action by the brotherhood heads followed the action in the senate. The measure embraces virtually all of the President's original proposals to the employes and the railroad heads, although it is only a part of the legislative program he took to congress last Tuesday when his negotiations had failed.

**Shackleton Rescues 22 Castaways From Elephant Island**

Puntas Arenas, Chile—Lieutenant Shackleton returned here Sunday with the members of his Antarctic expedition whom he rescued and who had been marooned on Elephant Island. The men are all in good condition. It was April 24 that Shackleton set out from Elephant Island in a 22-foot boat, fitted with sledge runners, leaving 22 men of his expedition behind him. The men he left behind had five weeks provisions, their only shelter was an ice cave; night and day gales swept the bleak shores, so that any one leaving the shelter had to crawl on hand and knees.

**Insurance Agents Strike.**  
Boise, Idaho—An insurance war has broken out in Boise. The Pacific Board of Underwriters has notified local fire insurance companies representing that the proposed advance in fire insurance rates for Boise will go into effect, the matter having been carefully considered and the increase believed to be justified. The company agents here do not take the same view as to the justice of the increase and have decided not to sell insurance under the new rates but to insist on the old schedule. They expect to secure concessions.

**En Famille.**  
Willie, a little country boy, 6 years of age, was taken one Sunday night to a large city church, where he saw for the first time a vested choir. To his mother's surprise and gratification he not only kept wide awake, but seemed greatly interested in every part of the service. At the close he turned to her and said, "I like this church, it is so nice to watch the preacher when he comes out with all his wives in their nightgowns."—London Saturday Journal.

Sheridan, Or.—Some hop picking in this vicinity will begin the first of next week, while the big run will start between September 8 and 11. A bumper yield is predicted by the growers this year. Estimates place the yield in this vicinity at 500 tons dried and baled. This means a 500 to 600 acreage of hops. Some of the larger yards have contracted their labor to Japanese pickers, but many of the growers are complaining of an early season lack of pickers. The prevailing wage to pickers is 80 cents a box.

**Bumper Crops Forecast.**  
Sheridan, Or.—Some hop picking in this vicinity will begin the first of next week, while the big run will start between September 8 and 11. A bumper yield is predicted by the growers this year. Estimates place the yield in this vicinity at 500 tons dried and baled. This means a 500 to 600 acreage of hops. Some of the larger yards have contracted their labor to Japanese pickers, but many of the growers are complaining of an early season lack of pickers. The prevailing wage to pickers is 80 cents a box.
