Yes, There's a Lot of It!
The New York "Times" published the other day an account of an interview with his Excellency John Bonzano, Titular Archbishop of Miltene and Apostolic Delegate to the United States. The interviewer finally asked the apostolic delegate to tell something of his opinion of modern American literature as he had observed it during his stay of four years in this country. The learned father looked carefully down Madison Avenue for a moment and then gave his verdict: "Of modern American literature, I would say that I am convinced that it is plentiful."

It might well be added that one trouble with our present-day writing is that very few of those busied therewith can express themselves with the clearness, restraint, and force of that sentence.—Collier's.

A Great Vocabulary.
It was the office of a great sporting newspaper, and the golf editor was taking a brief holiday. In his absence the inquiries from readers which the golfing man answered through his correspondence column were handed to the racing editor. "Which of the best ter course," wrote an ardent follower of the royal and ancient game, "to fuzzle one's putt or to fetter on the tee?" The turf man tilted back his chair and smoked five cigars before taking his pen in hand. Then, when he had come to a decision on the weighty problem, he wrote as follows: "Should a player snagle his iron, it is permissible for him to fuzzle his putt; but a better plan would be to drop his caddy into the pringle and smooch it out with a niblick."—Toronto Mail.

A Shell Game.
A gentleman who dined regularly at a certain restaurant ordered the dozen clams. One day he counted them and found but 11. Still another day the dozen was one short. He called the waiter and asked him: "Why do you give only 11 clams when I order 12?" "Oh, sir," replied the waiter, "I did not think you'd want to be sitting 13 at table, sir."—Christian Herald.

New Occupation.
"When we went across in 1912," said Mrs. Blunderby, "we didn't know one word of French or German."
"Didn't you find it hard to make them understand what you wanted?" asked her caller.
"Indeed we did," responded the old lady. "Why, my husband had to hire a man to go about with us as interpreter."—Boston Transcript.

Suspended Sentence.
Three-year-old Keith had told his mother a deliberate lie and she had put him to bed as a punishment. Sitting by the bedside, she asked him what he would do if he had a little boy who did such a thing. After a moment's thoughtful silence the child replied, "I fink I'd give him another chance."—Christian Herald.

TWO ZEPPELINS FALL IN RAID ON LONDON

Large Dirigible, Aflame, Brought Down With Shrapnel in Suburbs.

THIRTY BRITONS ARE KILLED

Second Flyer, Disabled, Lands and Crew Made Prisoners—Much Property Loss by Bombs.

London—Of the 12 big Zeppelins which invaded the British Isles Saturday night to deal death and destruction from the skies, two lay Sunday stark and black masses of steel and aluminum in the little village of Mangold, Essex county.

One came down a flaming torch, while the second, disabled by gunfire, effected a landing, which saved the lives of the crew, who are now prisoners in England. The crew of the first raider died in the consuming flames of their own ship.

The death and burning of the first Zeppelin was witnessed by tens of thousands of London residents, but the wounding and descent of the second raider was a matter of doubt until official statements were given out. Few details are available of this second raider's condition, but it is reliably reported that the crew surrendered to special constables.

Many who saw the shrapnel bursting like skyrocket about the invader, which subsequently caught fire, think there must have been several direct hits. Many aeroplanes were aloft and attacked the Zeppelins from all sides.

The raiders took a heavy toll of lives before their destruction, 28 persons being killed and 99 wounded in the metropolitan district of London. Two persons were killed, probably four, and 17 wounded in the provinces.

The property damage, while widely distributed, is confined for the most part to small dwellings and shops, some empty ears being destroyed and part of the tracks torn up.

The roar of dropping bombs was heard in many districts where the raiders were invisible. It is not believed that more than two or three invading Zeppelins which crossed the east coast succeeded in reaching the environs of London, and that two of these paid the death penalty gives the greatest satisfaction to the military authorities.

Seattle Ferryboat Triton Sinks While Crossing Lake Washington

Seattle—The Lake Washington steamer Triton, owned by the Anderson Steamboat company and engaged in ferry service, struck a snag while approaching Byers' Landing on the east shore of Lake Washington and sank just as she was driven on the beach. All the passengers and crew landed safely.

The vessel ran a mile after striking the snag before the crew knew that she was leaking. When the vessel was a short distance from the shore the water began pouring into the engine room, but Captain Hiram Riddle was able to drive her to the beach alongside the wharf at Byers' Landing before the water stopped the engines. There were only 25 passengers aboard and all stepped safely off the upper deck onto the wharf.

Ten minutes after the vessel had been abandoned she turned over and now is lying submerged alongside the pier.

\$1,000,000 Fire at Phoenix, N. Y.

Syracuse, N. Y.—Fire early Sunday destroyed the entire business district and more than half the industrial section of the town of Phoenix, N. Y. 16 miles north of here, causing a loss of more than \$1,000,000. One person is known to have perished. Eighty-two buildings were destroyed. The fire burned without check for 15 hours. Not a store was left standing, and the people are confronted with a serious problem of food supply. Looters invaded the ruins, and scores of deputies were sworn in with orders to shoot.

Animals Are Fed Better.

Berlin—German horses and cattle are now sharing in the improved conditions of sustenance made possible by the more plentiful harvests this year. The rations of oats for horses kept in Germany have been increased from three to four pounds a day and those of bulls have been increased two and a half pounds. Draft oxen are now allowed two and a half pounds of oats daily, and draft cows one and a half pounds, while employed at harvesting. During the last year draft oxen and cows have had no oats.

Kite Travels 120 Miles.

Washington Courthouse, O.—A military kite balloon landed near Saturday after a trip from Akron, O., a distance of about 120 miles. The balloon was piloted by C. H. Roth and C. A. Wollen, of Akron, and made the trip in three hours and 45 minutes. The balloon was of the dirigible type, shaped like a large cigar, but carried no motive power. It was steered by means of planes. The pilots said that it was the first time that such a trip in a balloon so equipped ever had been attempted in this country.

Naval Airmen Accurate.

Norfolk, Va.—Reports from the Atlantic fleet on the Southern drill grounds announced that two airmen with gunners ascended from the North Carolina, carrying 12 bombs, small rapid fire and small arms. Nine of the 12 bombs were dropped successfully on targets. Canvas targets, representing men, were hit by rapid-fire guns and sharpshooters. The tests were declared the best ever recorded and the first for the American navy.

THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not clean the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilblains, rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes migraine, rheumatism, gout or sciatica. This is the time to try "Anuric."

"During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Companies examining doctors always test the water of an applicant before a policy will be issued. Have you ever seen a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of disease, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination—this is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his staff of Consulting Physicians will inform you truthfully.

What a Tourist Heard.
A tourist in Ireland came upon a couple of men "in hoils" rolling on the road. The man on top was pummeling the other within an inch of his life. The traveler looked on for a moment in silence and then intervened.
"I say, it's an infernal shame to strike a man when he's down."
"Faith, if ye knew all the trouble I had gettin' him down ye wouldn't be talkin' like that," came the intermittent reply.—Judge.

HUSBAND OBJECTS TO OPERATION

Wife Cured by Lydia E. Pinkham's Vegetable Compound

Des Moines, Iowa.—"Four years ago I was very sick and my life was nearly spent. The doctors stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got me some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced to get better and am now well, am stout and able to do my own housework. I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave ere this if it had not been for your Vegetable Compound."—Mrs. BLANCHIE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Before submitting to a surgical operation it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound. It has saved many women from surgical operations.

CARRANZA WILLING TO PROMISE ENERGETIC WORK AGAINST VILLA

New London, Conn.—A promise of energetic measures by the Carranza government to destroy Villa and his troops will be made to the United States through the Mexican commission soon.

"This promise will be supported by action, according to the Mexican agents. Greater energy will be displayed in the pursuit of Villa and his bandits, re-enforcements will arrive in the north and measures in addition to those taken by the commander of the Juarez garrison for the protection of the frontier.

The Mexican commissioners and General Carranza himself are impressed with the imperative necessity of action which will wipe out of the American mind the coup d'etat of Villa at Chihuahua City. The facts regarding that even have reached the joint commission. Briefly they are:

New Maine Governor.

This is a snapshot of Carl E. Milliken, the new Republican governor of Maine, who was elected by 13,000 majority.

Agents of Villa tampered with the soldiers guarding the penitentiary and two other public buildings in Chihuahua. Taking advantage of the public holiday, when General Trevino and his officers were feasting, the Villistas attacked the town, and the disaffected troops within promptly joined them. General Trevino and those who remained loyal fled to neighboring hills and opened fire. Villa's men, after looting and seizing government property, including munitions, retreated without pursuit, the disaffected soldiers accompanying them. Thereupon Trevino reoccupied the town.

That Trevino will be permitted to remain in command in view of what happened, is doubted by the Mexicans. From a military point of view, he acted properly when he withdrew with his loyal officers and men to the hills instead of seeking to fight in the streets, but he is criticised for his lack of information as to the state of feeling among the garrisons of the public buildings and for the failure to pursue his retreating foes.

Apples Sell for \$2.10 a Box.

Wenatchee—The Rock Island unit that employed G. M. H. Wagner & Sons as selling agent has received returns on the first two cars of winter bananas shipped. The cars were sold on the Chicago market and netted the unit \$2.10 for extra fancy, \$1.50 for fancy and \$1.20 for C grade on one car and \$2 for extra fancy and \$1.50 for fancy on the second car. The second car was shipped one month ago. The Rock Island district, almost without exception, always ships the first straight car of winter bananas every year and usually receives top prices. Direct from Rochester, the market center of New York apple district, F. E. Thorn, representative of Kimball Brothers of New York, brings the news that the apple crop of the Empire state is of poor quality and will have a large percentage of culls. Virginia presents the opposite situation. It has the largest and best quality crop in its history. The orchards in the Shenandoah valley and Cumberland areas are loaded with fine fruit.

Klamath Wants Grazing Toll.

Klamath Falls, Or.—A movement to secure for Klamath county the taxes said to be due for the grazing of transient livestock within its boundaries has been started here by the Klamath Commercial club. The club is compiling data concerning the amount of such stock grazed in Klamath county during the season of 1916. The state law provides that owners of livestock grazed in counties in which the owners of the stock do not reside are liable for a tax on this stock.

Tacoma Firms Get Contracts.

Olympia—The State Board of Control has issued the contracts for the food and domestic supplies for all the state institutions for the next six months. The Tacoma Grocery company will supply 9600 pounds of laundry soap at 44 cents a pound. Five thousand gallons of syrup will be purchased from the Pacific Coast Syrup company of Seattle. Albers Brothers Milling company, of Tacoma, was given an order for 83,600 pounds of rolled oats. Rogers Bros. was given a contract for dried and canned fruits.

Western Washington Hops Sold.

Several hundred bales of new Western Washington hops were sold this week. The two Miller crops, aggregating 400 bales, were sold at 9 cents, and Carl Kohler sold 100 bales at 8 cents. The Gus Olds' crop of 99 bales was also sold.

Greeks Fight in Church.

Paris—The services in the Greek church in the Rue Georges Bizet were interrupted Sunday by a Greek student, who interposed an objection to the congregation's praying for the king and royal family of Greece. At the end of the ceremony the student rushed into the pulpit and began to harangue the congregation. This led to fistfights inside the edifice, which later were resumed outside the church, where the congregation listened to speeches expressing gratitude to France and then dispersed, cheering.

Walla Walla Growers Sell Wheat in Shaky Market

Walla Walla—In the past few days farmers have sold about 100,000 bushels of wheat at about \$1.20 for club and \$1.28 for Turkey red. The actions of the grain market have alarmed some of the growers, who sold at 10 cents less than they could have obtained a few days ago.

Alex Wray and J. E. Berryman sold 22,000 bushels of choice bluestem at top prices, and G. Schwenk sold 7000 bushels. There were numerous small lots sold.

Winter bluestem, sown in the light land section 12 miles north of Touchet, yielded 25 bushels to the acre, while Turkey red, sown under the same conditions, yielded but 22, according to reports made to County Agriculturist O. V. Patton, who has been experimenting with different grains.

Henry Vincent, one of the big European flat ranchers, has just completed the harvest of 115,000 bushels of wheat.

Mark Nation's Progress.
"Fairs and expositions are the time pieces that mark the progress of nations." is what the late ex-President William McKinley once said.

Surely they uplift, surely they are educators and just as surely they mark—every advancement we make in production—whether it be in products of the soil, of pasture, of school or factory.

"In these times of rapid change and advancement, nearly every state in the union is developing pride in its great annual fairs—and nearly every one is more or less interested in excellent. If possible, at least its nearest neighbors in the quality, variety and magnitude of its products, and in their striking display," says a well-known writer on such subjects.
