To the Voters of Wasco County:

After several weeks of due consideration, I have accepted the petitions which have been presented me, and filed same with the County Clerk, and have thus again become a candidate for re-election to the office of County Assessor of Wasco County.

I have filled this very important office for the past 4 years, and have endeavored during that time, to familiarize myself with the laws governing said office and to make the assessments according to said law.

In the year 1913, (the year I became assessor), the assessment laws of our State were so changed as to require that all properties be assessed at their full cash value; this I have endeavored to attain, and in so doing have raised the assessable value of Wasco County approximately Five Million Dollars.

In support of this increase in value which is strictly according to the laws, I wish to quote some figures and facts from the State Tax Commissioner's reports for the several years mentioned; said reports being on file in County Clerk Fox's office in The Dalles, Oregon, and are open to the inspection of any and all who care to look them over. Below I give a table of years, values, and percentages as taken from said reports.

Table with columns: Year, Assessed Value, Full Value, Full Value per cent of State Tax, and Wasco Co's per cent. Rows for years 1911, 1912, 1913, 1914, 1915.

From the above table it will readily be seen that Wasco's portion of the entire State Tax paid has decreased rather than increased as some would seem to think. This decrease is due to the increased percentages of value in our County over those of former years, and a careful perusal of the several reports on file will show that the smallest proportion of the State Tax ever paid by Wasco County, was in the year 1915.

You will also see that the largest value of assessment was for the same year, thus entirely vindicating a high value through the entire County for assessment purposes.

I have introduced in our County, the individual assessment system made in triplicate at one operation, thus doing away with the very cumbersome system of Tax Rolls in vogue when I became assessor; my mode of Tax Rolls does away with the necessity of long waits for tax receipts when taxes are paid; it also saves a great amount of unnecessary work that was heretofore done in the sheriff's office during Tax Collecting time.

Study these figures and facts, investigate their correctness, and then I ask you to lend me your aid on November 7th to continue this work.

My motto is "WASCO COUNTY SECOND TO NONE IN THE STATE OF OREGON".
