OBITUARY

Samuel Ragg Husbands
Samuel Ragg Husbands passed away at his home in Seabright, Santa Cruz, California, Nov. 18, 1916, at the age of 80 years and 3 months. He was always energetic, active in business, Sabright Christian, taking a keen interest in public welfare until the last; in earlier life often devoting more time to the public than to his own affairs. Such men have quietly but firmly striven for the best that American stands for today.
Coming to America from England 47 years ago with his wife, nee Miss Mary Elizabeth Gregory, and who survives him, they built a home first in West Point, Nebraska. In 1877 they moved to Clark county, Washington where they resided for a year, going in the spring of 1878 to the Hood River Valley. Two years later a return was made to England, and after a year and a half they came back to America and located in Hood River town where Mr. Husbands was one of the first to purchase a lot in the new town. For four years they resided there, moving then for Salem, where he had neither gained nor lost in weight, exactly as present weight is the same exactly as when she went there this summer. Mr. Rorden hiked to Hood River on Wednesday night, where he planned to board the early train Thursday morning for Salem to eat Thanksgiving dinner with his wife who had not been apprised of his coming.
David E. Thompson, of Lincoln, Nebraska, millionaire capitalist, arrived in the city Friday from Los Angeles, Calif., where he has been spending the winter. He owns the orchard tract formerly managed by H. R. Richards, of Lincoln, Neb., and owns the big hotel in Lincoln until recently managed by Mr. Richards. Mr. Thompson, who expects to spend a part of the winter at his mansion at Lake Crescent, Wash., was for nine years ambassador to Brazil. He was accompanied to Hood River by C. L. Joy and son, Alvin.
Saturday evening, F. A. Allington suggested to his wife that they go out for a walk. On returning Mrs. Allington was completely surprised to find that she had a house full of guests. They were the members of the Ladies Aid Society, who had come to spend a night in honor of her birthday and the kitchen was filled with many good things to eat. It was also the birthday of Mrs. W. A. Husbands, who, although present with the crowd, was surprised when both herself and Mrs. Allington were presented with fountain pens as gifts from the Ladies Aid Society members.
Spokane Congress Favors Uniformity
At the concluding session of the Pacific Northwest Fruit Growers' conference Saturday, the joint commission appointed by the governors of Oregon, Washington, Idaho and Montana was instructed by the growers to work for uniform laws in the four states concerning apple diseases, grading and packing, and to endeavor to have a system of state aid for marketing enterprises under state control.
The instructions were adopted by a three-fifths vote after a sharp contest between advocates of state and federal action. The government control forces, which were defeated, were headed by E. W. Ross, of North Yakima, Wn., former Washington State Land Commissioner.
Opposition to uniform grading rules applying to all parts of the state was voiced by George Bieh, of North Yakima, who declared that the growers of the Yakima valley objected to the color requirement in the early part of the season, before the apples had taken on full color, were prevented. A. P. Bateham, of Mosier, Ore., and A. C. Allen, of Medford, Ore., protested against relating standards to apples, declaring that a district which could not grow an apple meeting standard requirements should drop that variety.
Mr. Ross asserted that it was ridiculous to speak of uniform fruit laws for four states.
On a standing vote the motion for uniformity in state laws was declared carried, 33 to 21.

ANTI-TUBERCULOSIS AID IS SOUGHT

With its request for cooperation in making the 1916 Red Cross seal the most successful in state history and its announcement of "Tuberculosis Sunday," which will be observed every December 3 or 10, the Oregon Association for the Prevention of Tuberculosis brings a record of accomplishment which justifies the original declaration that "every seal sold is a bullet in the war against the Great White Plague. Efficient organization, low administrative cost and personal service freely given by public spirited citizens have combined to make every dollar contributed toward the work of the Association practically do the work of two.

"Tuberculosis Sunday" furnishes a reason for definitely carrying the now state-wide debate for preventive efforts against the disease and adequate care of the stricken into every pupil and before every church audience of Oregon. It will be made a time, too, for gratitude and thankfulness because of the great organization and humanitarian work of the Association. The Oregon Association for the Prevention of Tuberculosis has commenced a survey of the state, county by county. The surveys in Lane, Clatsop, Jackson, Josephine and Washington counties have been completed. Results will be announced in detail when the work is done.

The survey has already proven that by its means information never before gathered will be tabulated. The facilities or lack of facilities for the care, treatment, and prevention of tuberculosis in each county will be shown. The number of cases will be listed and segregated as to whether they are incipient, moderately advanced or far advanced, and also as to the number of cases reported before the survey and the number reported as a direct result of it. The survey will provide for each county a history of the disease in the past, indicating its increase or decrease, how many of the afflicted contracted the trouble within the county, and the number that had the disease when they moved into the county. Then it will be shown how tuberculosis is distributed as to cities, towns and rural communities. Cities and towns having city hospitals, clinics and dispensaries, school inspection, and open air rooms will be designated. The county's care of tuberculosis patients in such institutions as jails and poor farms will be discussed and whether the county has a relief board, and what assistance is granted in tuberculosis cases.

The survey is definite and thorough and its value to all health and public officials will be so great that the work has the hearty approval and full cooperation of the Oregon State Board of Health.
The proceeds of this year's sale of Red Cross Seals will be used to carry on the survey and to maintain the preventive work organized by the Association.

To Discuss Moving Pictures

The next meeting of the Parent-Teacher Association will be postponed until the first week in January on account of the holiday season. The program committee, Mrs. F. A. Shogren, Mrs. L. M. Myers and Miss Bennett, have decided upon a discussion under the following caption: "Shall the Parent-Teacher Association of Mosier purchase a moving picture machine and give a show twice a month or offer, charging a nominal admittance fee to adults to pay for the machine, and making the show free to every body when the machine is paid for?" Prof. E. A. Berry will lead the discussion and a survey table is urged to come and have a say.
