**CHILDREN SLAIN AND BURNED**

**Father Arrested When Evidence Indicates Murder of Offsprings.**  
 Tacoma, Wash.—Four small children were brutally murdered at Auburn Sunday as they lay in their beds. The room and beds had been saturated with kerosene and then the house set on fire.  
 Their father, S. A. Hewett, a Northern Pacific brakeman in the railroad yards at Auburn, was placed under arrest by the King county sheriff and taken to Seattle following the gathering of a crowd of nearly 1000 persons, among whom there was considerable talk of lynching.

Hewett's story is that the four children retired as usual to their beds Saturday night, but during the night one was taken ill. He went to attend the little one, taking a kerosene lamp, which he left burning on a chair between their two beds. Being restless, he said he took a walk, returned later

**Counsel for "Leak" Inquiry.**  
 Sherman L. Whipple, just chosen counsel for the committee of the house of representatives in the "leak" investigation, is a leading New England lawyer who has had many important cases. He is distinctly a trial lawyer. Mr. Whipple was born in 1862. He is a graduate of Yale.

and fell into a sound sleep, from which he was awakened by flames crackling all about him. Unable to reach the children, he said he rushed to a neighbor's to give a fire alarm and then returned, and with a garden hose tried to quench the flames.  
 Examination of the children's charred bodies, the coroner said, revealed the fact that their skulls had been crushed in, while the mattresses on which they lay were saturated with blood.

Behind a little trundle bed on which slept the only girl of four, Myrtle, aged 6, was found a blood-stained hammer, and in the room an empty bottle labeled chloroform.

Under the bed in which the three boys lay was found a blood-stained pillow slip.

The other three children, Ephraim, aged 10; Arthur, aged 8, and Clarence, aged 5, were found in one big bed.  
 After the fire the father handed to a neighbor, Frank McGilvray, an envelope containing the insurance policies which it is said he had taken out recently for his children and which had been saved from the fire.

**High Rumanians Die in Wreck.**  
 Berlin—More than 100 Rumanians of high rank lost their lives in a train wreck near the Rumanian station of Tshura, according to a dispatch said by the Overseas News agency to have been printed in the Russki Slovo. The locomotive of a train carrying the Rumanians to Russia jumped the track and the cars took fire.

It is reported from the same source that 45,000 Rumanian refugees have already settled in the Russian province of Poltava and that a large number of others continue to arrive.

**Mexicans' Refuge Closed.**  
 San Antonio, Tex.—Guatemala has declared her intention of strictly enforcing the neutrality laws, and as the first act toward this end President Estrada Cabrera ordered the arrest of General Luis Medina Barron, said to be one of the leading generals supporting Felix Diaz in operations against the de facto government of Mexico, according to information here.

President Cabrera also declared his intention of permitting the extradition of all former Huerta followers now living in Guatemala.

**Oregon Troops Ordered Home.**  
 Portland—"All Oregon troops on the border ordered home."  
 This telegram received Sunday afternoon from Senator George E. Chamberlain, by Major W. W. **Radio Covers Wide Span.**  
 San Diego, Cal.—The new naval radio station at Chollas Heights, which was recently opened gave a demonstration of its power Monday when the operators on duty talked with Arlington, Va., station, Darien, Panama, Nome, Alaska, and Honolulu, and overboard French operators at work on the island of Papete, in the South Pacific. They concluded by exchanging the time of day with operators at a radio station near Melbourne, Australia.

**Villa is Militant.**  
 Washington, D. C.—No official information is at hand as to whether Villa or Carranza troops are to occupy the territory left vacant by the Americans, but the belief is strong here that Villa, who is credited with having a force of at least 8000 well-armed men and who is now said to be at least four times as strong as when the American troops crossed the border, will make a desperate effort to take the territory.

**With the Fingers! Says Corns Lift Out Without Any Pain**

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.  
 Freezezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezezone he can get it at any wholesale drug house for you.

**IF BACK HURTS BEGIN ON SALTS**

Flush your kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

**Where Are They?**  
 The man who had made a huge fortune was speaking a few words to a number of students at a business class. Of course, the main theme of his address was himself.  
 "All my success in life, all my tremendous financial prestige," he said proudly, "I owe to one thing alone—pluck, pluck, pluck."  
 He made an impressive pause here, but the effect was ruined by one student, who asked impressively:

**The Arch.**

Just where the street of the village ends,  
 Over the road an oak tree tall,  
 Curving in more than a crescent,  
 bends  
 With an arch like the gate of a Moorish wall.

Over across the river there,  
 Looking under the arch, one sees  
 The sunshine slant through the distant air,  
 And burn on the cliff and the tufted trees.

Each day, hurrying through the town,  
 I stop an instant, early or late,  
 As I cross the street, and glancing down  
 I catch a glimpse through the Moorish gate.

Only a moment there I stand,  
 But I look through that loop in the dusty air,  
 Into a far-off fairyland,  
 Where all seems calm, and kind, and fair.

So sometimes at the end of a thought,  
 Where with a vexing doubt we've striven,  
 A sudden, sunny glimpse is caught  
 Of an open arch, and a peaceful heaven.

**Marine News**

**Portland Yard Closes Contract for Two Big Wooden Ships**  
 Portland—Gaston, Williams & Wigmore Steamship corporation, of New York, one of the best known Eastern maritime firms, has contracted with Joseph Supple for the construction of two wooden vessels that will be built on the East Side, on property under lease to Mr. Supple from the Spokane, Portland & Seattle railroad, north of the Hawthorne bridge approach and handy to his present plant at the foot of Belmont street.

News of closing of contracts was received Wednesday, though it has been known for weeks that negotiations were under way, and Mr. Supple, with Fred A. Ballin, associated with him as designer of the ships, left for New York two weeks ago. Mr. Ballin is the designer of a special type of a composite vessel, wood and steel being used, while Mr. Supple has a strong leaning toward a wooden vessel with a double planked hull, the first planking next to the frames being laid diagonally to afford strength. Both have been submitted to prospective purchasers, but the builders had declined to close except at figures that would insure the new yard a profit. In this case it is believed by their friends that the move means the plant will be extensive, as well as permanent, for considerable business is looked for.

**Olympia is to Build Ships.**  
 Olympia, Wash.—Phillip D. Sloan, president of the Sloan Shipyards company, of Seattle, has announced the completion of negotiations by which work is to begin at once on the construction of a shipyard in Olympia that will cover 12 acres. The site is furnished by Olympia business men on a lease for \$3000 a year. President Sloan said that the new yards will employ 600 men at maximum capacity and add \$350,000 annually to the local payroll. He also said the company has contracts for four motor ships.

**Armed Vessels Through Canal.**  
 Washington, D. C.—Armed merchant ships seeking passage through the Panama canal will be accorded the same treatment as other merchantmen, if the governor of the canal zone is satisfied the armament is solely for defense. The question having been raised recently by the application of a Japanese vessel, the War department, on the advice of the State department, Wednesday instructed the governor to be guided by the President's circular to customs collectors at the beginning of the European war.

**Steel Yard Humming Now.**  
 Portland—Since the dove of peace has spread wings over the plant of the Northwest Steel company, following the strike early this month, reorganization is being rapidly worked out and it is estimated that all but about 100 men who went out are again on the payroll.

Those remaining idle are mostly helpers and places are to be made for some when the force is increased or others resign.

**Balfour Fleet Augmented.**  
 Portland—Lumber to make up the next cargo of the schooner Camano, now on the way to San Francisco from Gilbert Island, has been purchased by Balfour, Guthrie & Co. from the Eastern and Western mill. The schooner is one of those bought last year by Balfour, Guthrie & Co., and she will be dispatched for the West Coast.

**Backache Just Like a Toothache!**

Dear Mr. Editor—Sometime ago I had backache very bad; it would ache just like a toothache. I tried a new discovery of Doctor Pierce's, called "Anuric." This is for kidneys and backache. I soon felt relieved of all backache and had no more pain, and I hope others troubled in the same way will try this wonderful new remedy.  
 Yours sincerely,  
 MRS. LINCOLN STEARNS.

**Note:** It is now asserted with confidence that those painful effects due to uric acid in the system are entirely eradicated by a new remedy, called "Anuric," has been discovered by Dr. Pierce, and is the cause of a drainage outward of the uric acid with which it comes in contact within the body. It will ward off backache, headache and the darting rheumatic aches of articular or muscular rheumatism—of those diseases which are caused by too much uric acid, such as gout, asthma, sciatica, neuralgia, etc. "Anuric" prolongs life because old people usually suffer from hardening and thickening of the walls of the arteries, due to the excess of uric acid in the blood and tissues. Dr. Pierce, who is director and chief physician at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has been testing this wonderful medicine for the relief of over-worked and weakened kidneys. The relief obtained by sufferers has been so satisfactory that he has determined to place "Anuric" with the principal druggists in town where people could get it readily-to-use medicine. "Anuric" is not harmful or poisonous, but aids nature in throwing off those poisons within the body which cause so much suffering, pain and misery. Scientists assert this remedy is 37 times more potent than lithia.

For Diabetes and Bright's Disease this remedy is building up a reputation as good as Dr. Pierce's other well-known medicines which have been proven reliable during nearly fifty years, such as Doctor Pierce's Favorite Prescription for the ills of women, Doctor Pierce's Pleasant Pellets, the liver regulator, and Doctor Pierce's Golden Medical Discovery for the blood.

**One Kind Of Cleverness.**  
 "How does Bliggins get the reputation of being such a clever man? He's always getting into some new kind of trouble."  
 "Yes. Where he shows his cleverness is by getting out again."—Washington Star.

**Ask The Kid's Mother.**  
 Willis—That new baby of mine is the smartest kid in the world.  
 Gillis—That's what they all say. You can't prove it.  
 Willis—I sure can. If you don't believe me, just ask the kid's mother and grandmothers.—Puck.

**Prohibition Sentiment.**  
 "However it may be disposed of, prohibition in the broader sense is coming to the front. The Senate Committee on Judiciary has had before it many suggestions for a form of resolution to amend the Constitution of the United States so as to provide nation-wide prohibition. They decided finally to adopt
