TRADING IN MAY WHEAT STOPPED

Chicago Board of Trade Calls Halt in Futures.

PATRIOTISM PROMPTS

Several Members Previously Called by Federal District Attorney—Speculators Freed from Blame.

Chicago—Trading in May wheat was ordered discontinued at a meeting of the board of directors of the Chicago Board of Trade Saturday night. The directors also decided that existing contracts should be adjudicated either by delivery of the property or at a selling price to be fixed by a committee appointed for the purpose.

It was rumored that action by the Federal authorities in the last few days—and particularly earlier in the day—had hastened the action of the board of directors. None of those at the meeting would confirm or deny that it had been intimated some action to curb soaring prices of wheat should be taken or government officials would close the board.

"The board of directors were prompted in reaching their conclusions by what they deemed to be their patriotic duty to the country in this hour of national stress," said Joseph P. Griffin, president of the board of trade. "True, this action is without precedent in the history of this exchange, although other exchanges in this country have taken similar action. It should be understood that the board of trade is neither a buyer nor a seller—it is merely a market place where meet daily the millions of producers and consumers throughout the country.

"I should like to emphasize that speculation has nothing whatever to do with the action of the directors in deciding to abandon trading in May wheat, nor is speculation in any sense responsible for the high prices prevailing for May wheat or the cash article. Generally speaking, the speculator is not interested in May wheat, his operations being confined to the future. Practically the entire interest in May wheat is restricted to farmers, grain dealers, millers and foreign governments.

"The recent hysteria over the food situation has caused a stampede of consumers in every direction, and while it is regrettable it is nevertheless a fact that even the leading governments of Europe seem to have become fearful as to their future requirements. The largest buyers of wheat for present and future delivery at this time in the market are the governments of Europe, not speculators.

"We are but a market place and so long as there are no restrictions such as we have just adopted, there is no limit to the amount of wheat those governments might purchase. Therefore the action of the directors does not interfere with the freedom of contract on the part of either the individuals or governments, but compels those requiring wheat for immediate consumption to make purchases from farmers and grain dealers rather than through the medium of a contract for future delivery on the floor of our exchange."

Farmers Plow at Night.

Ione, Or.—A. Lieber and Arch Cogswell each unloaded a caterpillar engine this week. This makes six of these engines that have been brought here this spring. Laxton McMurray, Smith & Smouse, Davidson & Blake and Louis Padburg are the other purchasers. These six, as well as one from near Condon, are all plowing near Ione. The engines have electric lights and are run day and night. The high cost of feed and the scarcity and high price of horses and mules has had much to do with the purchase of so many engines.

Washington, D. C. — Senator Harding and Representative Gardner, leading advocates in the senate and house of Colonel Roosevelt's plan to raise a volunteer division, received a telegram from the Colonel saying he hoped none of his friends in congress would carry their fight for authorization of the plan to the point of seriously delaying enactment of the army draft bill. The authorization is omitted from the bill as agreed on in conference and there will be an effort to put it in as an amendment.

Takes a Strong Wind, Too.

Dr. George T. MacCoy of Columbus recalls that when the Spanish-American war broke out, in April, 1898, two Irishmen were at work on a new asphalt pavement being laid in Washington street. He was watching them when one stopped handling his pick and glanced up at the courthouse tower, where a flag was waving.

"What's the use of putting a flag up there?" the man questioned. "The wind will whip it to pieces."

"Yes, but the wind's the only thing that can whip it," was the other's quick reply.—Indianapolis News.

His Needs.

"My brother bought a motor here last week," said an angry man to the salesman that stepped up to greet him, "and he said if anything broke you would supply him with new parts."

A PROMINENT WOMAN ENDORSES OUR STATEMENT.

Portland, Oregon.—"I was troubled for years with female trouble and tried a great many remedies without any benefit until I was advised to use Dr. Pierce's Favorite Prescription. I took several bottles of it and received great benefit therefrom. I can heartily recommend this medicine to all women who are expecting to become mothers, as I do not think there is anything to equal it. It is also good during the period of middle life."—MRS. C. A. ANDERSON, 1451 Macadam Street.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal condition, bearing down sensation, mental depression, dizziness, fainting spells, lassitude and exhaustion, women should never fail to take this tried and true woman's medicine.

For girls about to enter womanhood, women about to become mothers, and for the changing days of middle age, Doctor Pierce's Favorite Prescription should always be on hand.

It's a temperance remedy that is extracted from roots with pure glycerine and its ingredients are published on wrapper.

Any medicine dealer can supply it in either liquid or tablet form. The cost is modest, the restorative benefits truly remarkable.

Write Doctor Pierce, Invalids' Hotel, Buffalo N. Y., for free 136 page book on woman's diseases. Every woman should have one. You can also have confidential medical advice without cost.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.

The Broader Meaning of Thrift.

Too many people think of thrift as a matter of hoarding money; while, in reality, thrift is only the best way of doing things and leads to mastering the art of simple living. The constant practice of self-denial develops habits of temperance in all things and becomes a great moral force. The consciousness of having something in reserve gives poise, and does away with the anxiety and nerve-strain so detrimental to the American people. The sense of power and of worthwhileness that follows brings rich returns in service to others and in happiness to self. The training, now being given in the public schools, to develop habits of using without waste, and of storing away for future use, is real thrift; and the inculcating of its principles by instruction, by practice, and by example, is the great forward movement in the education of today.—From "Public School Thrift: A Practical Development," by Teresa M. Lenney, in the American Review of Reviews for May, 1917.

Danger.

The other Sunday evening, when church service was over, a young curate started on his journey home, accompanied by two young women of the choir, when they began a conversation about hymns.

"What is your favorite hymn?" asked the curate, turning to one of his fair companions.

"Draw me nearer," she replied.

At that moment her companion, who was walking on the other side of the curate, to make matters worse, said innocently:

"That is only the chorus; the commencement of the verse is, I am thine."

Then the curate sought safety in flight.—Exchange.

Don't Let Skin Trouble Spoil Your Good Time

"I can't have any fun! I am such a sight with this eczema that people avoid me wherever I go. And the itching torments me so that I don't get any peace, anyhow."

Don't be discouraged! Even in severe, well-established cases of eczema, or similar skin-troubles, Resinol Ointment, aided by Resinol Soap, usually relieves the itching at once and quickly clears the eruption away. All druggists sell Resinol Ointment and Resinol Soap. Try them.

SEE WHEAT SHORTAGE

Country Normally Would Need Every Bushel Now in Prospect, Leaving None for Allies' Use.

Washington, D. C. — Official wheat crop estimates announced Thursday show that with the world facing a bread shortage, the United States, unless it cuts its present consumption, probably will produce only enough wheat this year to supply its own population.

The forecast, compiled by the department of Agriculture on conditions May 1, put this country's winter wheat yield at 366,000,000 bushels, the smallest in 13 years. There will be no estimate of spring wheat acreage until July, but with a crop of 250,000,000 bushels, which is higher than the average, this country would grow this year a total of only 616,000,000 bushels. The normal American consumption with seed requirements is put at slightly more than 600,000,000.

The estimated production this year of 366,000,000 bushels of winter wheat falls 116,000,000 bushels short of last year's poor crop. It is 129,000,000 bushels less than the average for the preceding five years.

Reserve stocks are said to be lower than at any previous time at this season. The visible supply is put now at 30,000,000 bushels, with a somewhat larger invisible supply. The lowest visible stock ever reported in the United States was 6,000,000 bushels on July 1 two years ago. When harvesting of the new crop begins July 1 it is estimated that the reserve will be even lower than that.

The allies' wheat requirements for the coming year are put at 500,000,000 bushels as a minimum. The United States will be asked to supply more than half of that amount. Wheat crops in other parts of the world are poor. The Argentine crop failed, and home consumption will require the entire yield.

In a statement accompanying its report, the Agricultural department declared that although the winter wheat crop condition is the poorest on record, crop conditions otherwise are favorable.

Herbert C. Hoover, chairman of the food committee of the Council of National Defense, who is strongly in favor of a more limited use of wheat in this country, appeared before the senate agriculture committee and urged a separte department of the government to deal with the food question.

Steamer Line is Sold.

San Francisco—Three steamers, the George W. Elder, F. A. Kilburn and Breakwater, comprising the fleet of the North Pacific Steamship company, were bought Thursday by Thomas Crowley, head of the Crowley Tugboat company, and Andrew Mahony, at a price said to be $450,000. The purchasers are to operate the three vessels under the name of the Emerald Line, according to gossip along California street. It is understood that their present routes will not be changed.

Oregon Man is on Board.

New York—At the annual meeting of the American Jersey Cattle club held here last week, M. D. Munn, of Minnesota, was re-elected president, and Edward Cary, of Oregon, F. J. Bannister, of Missouri, George Batten, of New Jersey, and William Gettys, of Tennessee, were elected members of the board of directors for terms of three years. Mr. Cary owns and operates a large Jersey establishment near Lafayette, Yamhill county, Or., and Eastern Jersey breeders regard his herd as one of the best in America.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.

Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur it Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possible tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Considerate.

"Is Gladys considerate of her mother?"

"I think so. Whenever Gladys' mother asks her to do anything, Gladys doesn't do it, thereby avoiding mussing up the housekeeping."—Washington Star.

Strictly Scientific.

The Club Bore—I married my stenographer, gave her every luxury that money could buy—and hanged if she didn't insist on going back to work in the office within the month.

The Club Wit—Sort of reversion to typewriter, what?—Exchange.

His Pet.

"Biggins attaches a great deal of importance to his opinions." "You can't blame him," replied Miss Cayenne. "An opinion costs him so much intellectual effort that he feels like making a pet of it."—Washington Star.

Uses of the Inaccurate.

"I'm for the man who gets where he started for."

"But the man who doesn't has had his uses. If Columbus had figured his route correctly he would never have discovered America."—Washington Star.

Women of Middle Age

Many distressing Ailments experienced by them are Alleviated by Lydia E. Pinkham's Vegetable Compound.

Here is Proof by Women who Know.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache or pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take."—Mrs. MARGARET QUINN, Rear 259 Worthen St., Lowell, Mass.

She Tells Her Friends to Take Lydia E. Pinkham's Remedies.

North Haven, Conn.—"When I was 45 I had the Change of Life which is a trouble all women have. At first it didn't bother me but after a while I got bearing down pains. I called in doctors who told me to try different things but they did not cure my pains. One day my husband came home and said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound and Sanative Wash?' Well, I got them and took about 10 bottles of Vegetable Compound and could feel myself regaining my health. I also used Lydia E. Pinkham's Sanative Wash and it has done me a great deal of good. Any one coming to my house who suffers from female troubles or Change of Life, I tell them to take the Pinkham remedies. There are about 20 of us here who think the world of them."—Mrs. FLORENCE ISELLA, Box 197, North Haven, Conn.
