ARMY FOR FRANCE IS ORDERED SENT

President Wilson to Send Gen. Pershing With Division.

ROOSEVELT NOT TO GO

Upon Advice from Experts, Executive Declines Offer of Volunteers—Other Service is Possible.

Washington, D. C.—President Wilson Friday night ordered that a division of regular troops, commanded by Major General John J. Pershing, be sent to France at the earliest practicable date.

This is the answer of America to France's plea that the Stars and Stripes be carried to the fighting front without delay to hearten the soldiers battling there with concrete evidence that a powerful ally has come to their support againt German aggression.

Announcement of the order followed signing of the selective draft war army bill by the President and the issuing of a statement that under advice of military experts on both sides of the water, the President said he could not employ volunteers nor avail himself of the "fine vigor and enthusiasm" of ex-President Roosevelt for the expedition.

The army law provided for an ultimate forces of approximately 2,000,000 men to back up the first troops to go to the front. When the bill had been signed the Preisdent affixed his name to a proclamation calling upon all men in the country between the ages of 21 nad 30, inclusive, to register themselves for military service on June 5, next.

The proclamation sets in motion immediately machinery that will enroll and sift 10,000,000 men and pave the way for the selection of the first 500,000 young, efficient soldiers without crippling the industries or commerce of the Nation or bringing hardship on those at home.

Washington, D. C.—Colonel Roosevelt will not be permitted to raise his volunteer expedition to carry the American flag against the Germans in France.

On signing the war army bill, President Wilson issued a statement saying that, acting under expert advice from both sides of the water, he would be unable to avail himself at the present stage of the war of the authorization to organize volunteer divisions.

There was talk in army circles of the possibility that a way will be found to use the ex-President's services in another way, but official comment on the subject was lacking.

TAX ON BIG INCOMES RAISED

House Levies 45 Per Cent on Sums of $1,000,000 and Over.

Washington, D. C.—Further drastic increases were written into the income surtax schedules of the war revenue bill by the house in the committee of the whole after announcement by Democratic Leader Kitchin that Secretary McAdoo's latest estimate of one-half of the cost of the first year of the war, which the bill is intended to cover, would be about $2,245,000,000.

The increases, 25 per cent on all the proposed surtaxes on incomes between $40,000 and $1,000,000 as reported by the committee and a 45 per cent surtax on incomes in excess of $1,000,000 as proposed by Representative Lenroot, of Wisconsin were included by a vote of 146 to 107.

No attempt will be made in the house, Mr. Kitchin announces, to raise the total of the bill to $2,245,000,000. It is probable, however, he added, that the total will be larger than the $1,800,000,000 contemplated in the original measure and if it is found that more money is needed another bill will be drafted at the next session.

Gerard Blames Women.

New York—The American woman, in a large measure, is responsible for the high price and scarcity of food, James W. Gerard, ex-ambassador to Germany, asserted Saturday night in an address before the New York Academy of Medicine at a meeting called to discuss the food supply in war.

"We should make it fashionable for women to go to market and buy for the family," said Mr. Gerard. "The credit system and the use of the telephone is responsible for the ever-increasing cost of food to the consumer."

Teutons Torpedo British Cruiser.

London—The British admiralty announces that 14 drifters have been sunk in a raid by Austrian light cruisers in the Adriatic, and the British light cruiser Dartmouth was torpedoed by the Austrians. The Dartmouth, the admiralty reports, returned to port with three men dead and one officer and four men missing and believed to be dead, and seven wounded. The British warships Dartmouth and Bristol pursued the Austrian vessels to a point near Camaro, when battleships compelled them to withdraw.

Naval Officials Explain.

Washington, D. C.—Naval officials resent the report from Queenstown that the American destroyer crews were not properly outfitted for cold weather duty. They did not have some of the extra heavy clothing, officials say, because of their hurried departure, but they did have sufficient clothing for this time of year. More supplies are going with the destroyers being sent, and these are supplemented by heavy clothing.

Honduras Cuts Relations.

Washington, D. C.—Honduras has severed diplomatic relations with Germany, following the lead of Guatemala.

ALL ARMS MAY FIGHT

Marine Regiment Added to Pershing's Army for France—Total Force to Be About 40,000 at Start.

Washington, D. C.—All three arms of America's fighting forces — the army, navy and marine corps — soon will be represented in the war zone.

With American destroyers already in European waters and army regulars concentrating to carry the flag to the battle line in Belgium and France, a regiment of marines was designated Monday to join the expeditionary force and round out the nation's representation in the field.

The marines will be attached to the army division under General Pershing, which is under orders to proceed abroad as soon as practicable.

Although details are not being made public, it was calculated here that with the marine regiment the total American force now designated for land service in Europe is close to 40,000.

An army division at war strength comprises about 25,000 men, and upwards of 12,000 are expected to be in the nine volunteer regiments of engineers now being recruited. The forestry regiment and the marine regiments each will number more than 1000. The strength of the naval force in European waters has not been revealed.

General Pershing and his staff will sail for Europe ahead of the troops to pave the way for final training of the huge army the United States is preparing to pour across the seas as rapidly as men can be trained and equipped.

For obvious reasons no information as to the time of the American commander's departure or his destination will be made public.

AIRCRAFT FLEET PROPOSED

Thirty-five Hundred Aeroplanes Being Built and 6000 Men Are Wanted.

Washington, D. C. — Formal announcement of the government's policy as to all types of aircraft except Zeppelins was made Monday by the Council of National Defense through Howard E. Coffin, member of the council's advisory commission and head of the Aircraft Production Board, recently created.

The object aimed at for the first year, according to Mr. Coffin, is the production of a minimum of 3500 training and battle aeroplanes; the education of from 5000 to 6000 aviators, and the doubling or more of the producing capacity during the second year.

The board will co-operate with the joint army and navy board on designs and specifications of aircraft which will pass on all questions of design and military character.

Other plans include the establishment of nine aviation training fields, three of which already have been selected by the War department and construction work on which will begin at once. Each will provide for two aerosquadrons of 150 men each and have hangars and shop equipment for 72 machines. It will cost approximately $1,000,000 to equip each field.

Six American colleges are to give cadet courses to classes of 600 student aviators each, making 3600 men who will be under instruction in these preliminary courses by July 1. The first classes opened May 10. The cadets are entering the classes at the rate of 25 a week.

SPAIN'S NOTE CUTS GERMANY

Relations Suspended Until Submarine Protests Are Answered by Kaiser.

Madrid—The Spanish government's note to Germany concerning the attack by German submarines on the Spanish steamer Patricio says that a number of notes of protests previously address to the German government remain unanswered.

It declares that the transaction of all diplomatic business with Germany will be suspended until replies are received to these, according to the newspapers.

It also demands the fulfillment of conditions agreed upon by the German government to prevent unwarned attacks by submarines on Spanish ships in safety zones and asks for an indemnity for the Patricio.

Spy Suspect Run Down.

New York—After his motorboat had been chased several miles by the Cuban gunboat Yara in Nipe bay, an alleged German spy was captured Friday and later imprisoned in Cabanas fortress, according to advices received from Havana Monday by the Republic of Cuba News bureau, in this city. The prisoner, the report said, had papers and plans which indicated he was plotting to etsablish a submarine base off the eastern coast of the island of Cuba. It is believed he was formerly a German army officer.

Waite to Die Thursday.

Ossining, N. Y.—Dr. Arthur Warren Waite, who was convicted in New York of poisoning to death his wealthy father-in-law, will be executed here Thursday. The condemned man is spending most of his time reading and writing letters. Dr. Waite is said to have told his lawyer, Walter R. Deuel, that he did not wish to see him or anyone else again.

"I want to pay the penalty that society expects me to pay as soon as possible," was his final communication to the attorney.

Four Die in Explosion.

Youngstown, O.—A mysterious explosion in the power plant of the Republic Iron & Steel company at noon Monday brought instant death to four men and injuries to 11 others. Five of the latter were seriously hurt. The roof was blown off the building. Heavy pieces of iron were hurled a quarter of a mile.

An investigation of a suspicion that the explosion may have been the work of war plotters is being made.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

In The Bill.

"I'm afraid," said the junior member of the law firm, "that we are causing our client unnecessary trouble."

"Oh, that's all right," rejoined the senior member; "we'll charge him for it."—Boston Transcript.

Hard Prescription.

Doctor—My dear sir, you must give your wife some considerable change at once.

Husband—Can't do it, doctor; you've got it all.—Baltimore American.

Higher Joy.

Being hampered by strict parents, Herbert's chief joy, up to the age of 8, had been the weekly prayer meeting. When he arrived at the age of discretion a wordly minded relative smuggled him off to a circus. Herbert came home bursting with enthusiasm.

"Oh, mother," he cried, "if you once went to a circus you'd never go to a prayer meeting again in all your life."—Exchange.

He—Didn't I hear that your son expects to be a veterinary?

She—Why, no—he hasn't even enlisted, yet.—Judge.

Seldom Dry.

"Them air cleaning establishments I see advertised must have been having a hard time lately."

"Why so, Peleg?"

"Look at all the rain we've had."—Louisville Courier-Journal.

Proof.

Hokus—Flubdub is as stubborn as a mule.

Pokus—Yes, he always puts his best foot backward.—New York Times.

Just Like That.

If a fireman antagonizes you tell him to go to blazes.—Exchange.

Send 10c to Dr. Pierce Invalids' Hotel, Buffalo, for large trial package of "Anuric" for kidneys, cures backache.

In New York.

Hotel Clerk—Do you want a room with a bath?

Uncle Hiram—Waal, no-o, I don't calculate I'll be here Saturday night.—Princeton Tiger.

NERVOUSNESS AND BLUES

Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBT. STOPIEL, Sage Avenue, Washington Park, Illinois.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

ICE CREAM MAKERS RAP LAW

Protest Against Provision Requiring 14 Per Cent Butterfat.

Ice cream makers of the Northwest at a conference at Spokane with E. F. Benson, commissioner of agriculture, entered a vigorous protest against enforcing the law passed by the last legislature regarding butter fat content for ice cream.

The law provides that the commissioner shall enforce a standard not below that of the Federal department of Agriculture's regulations regarding foods. It was contended that the state law reads that the state authorities shall follow the Federal standard.

The Federal standard calls for 14 per cent butter fat. The ice cream men contend that the government never has enforced the 14 per cent standard, because it was found unwise to do so. It was said by several speakers that 8 to 10 per cent butter fat gave a better quality of ice cream than the higher standard.

Farmer Operates Tractor He Invented.

Winlock—A tractor designed especially for use on the Pacific Coast, where the excessive rains make all other types useless except in dry weather and dry ground, has just been completed and a patent obtained for it by Henry Korevaar. Mr. Korevaar, who is a prominent farmer living on Cowlitz Prairie, has a full sized working model in operation on his farm. The motive power is supplied by an eight-horsepower gasoline engine. It has a harrow attachment behind, which cuts out the necessity of a second operation for harrowing, and will plow a 17-inch furrow eight to nine inches deep. The tractor can be manufactured in normal times for about $350 and weighs about 1400 pounds.

Potato Shipments Will Be Inspected.

Olympia—T. O. Morrison, assistant commissioner of agriculture, announces that the department will send F. N. Rhodes, of Seattle, inspector-at-large for the department, to Los Angeles for the purpose of inspecting all shipments of California potatoes which are sent to Northern markets. The inspection will be conducted in an effort to keep tuber moth out of this state. Last year the same plan was followed and the results were singularly pleasing, as it resulted in eradicating all trace of the tuber disease from potatoes.

Baker Farms Need Labor.

Baker, Or.—That many farmers are seeking laborers for the fields and that the demand will be greater as the season advances is shown by the reports received by J. E. Larson, in charge of the Agricultural Council of Defense Work in Baker county. Mr. Larson reports that 100 farm survey banks, showing the crop and labor situation of as many Baker county ranches, have been returned to his office up to date. In the reports, Mr. Larson says he has found six urgent requests for labor that he will endeavor to supply.

Hog Cholera Found On Tieton.

North Yakima—A case of hog cholera was discovered on the Tieton recently and steps are being taken by R. P. Bean, agriculturist for the project, to check the spread of the disease. The stock belongs to M. U. Brady, who is a tenant on the Thomas Fear place on the north end of the project. Two shoats out of a herd of 20 have died. There was cholera on the same place two years ago. Vaccine has been ordered and will be administered as soon as it arrives.

With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

Both Good.

Landlord (to Pat, who has just paid his rent)—I hear you are a good judge of whisky Pat. Now, here are two different bottles and I want you to tell which is the better.

Pat takes a glass of each, smacks his lips and looks wise.

Landlord—Well, Pat, which is the best?

Pat—Begorra, yer honor, they are both good, but would you mind filling me another glass of the first. I have forgotten the taste of it.—Exchange.

Not That Bill.

"I can't tell a canvasback duck from a barnyard specimen."

"Experts say you can tell by the bill."

"How so? The bill for one is always as high as the bill for the other. That's what I'm kicking about."—Louisville Courier-Journal.

The First Quarrel.

He—Oh, dear! I wish I could get hold of some good biscuits like mother used to make for me.

She—And I wish I could get hold of some good clothes like father used to buy for me.—Exchange.

Hopeful.

"Well, old man, how are you getting along with your poultry raising? Making expenses?" "Not yet, but my hens have taken to eating their own eggs, so I hope that they will soon become self-supporting."—Boston Transcript.

Why She Remained.

"Our last cook stayed with us six months."

"What! Really?"

"Yes—she broke her leg in three places an hour after she arrived and the doctor wouldn't let her be moved."—Buffalo Express.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

A Surprise.

"The doctor has just told me," said the friendly neighbor, "that your husband cannot recover."

"Oh!" shrieked the troubled wife.

"Now, my dear, the question is: shall we break the news to him or let death come as a surprise to him?"—Detroit Free Press.

YOU MAY TRY CUTICURA FREE

Highly Insulted.

"I tried to explain to my grocer what is meant by calories in food."

"Yes?"

"But he cut me short by becoming indignant and saying that he had made it a lifelong pratice never to sell anything that was not in perfect condition."—Birmingham Age-Herald.

Supplies Cut Off.

"How did you come out with your garden last year?"

"It got us into trouble," replied Mr. Crosslots. "I bragged so much about our sweet corn and tomatoes we were raising that our vegetable man took offense and didn't come around for nearly two weeks."—Washington Star.

Exactly.

Cholly—I am in great demand among the girls at Alantic City to take them out in the breakers. They say they feel so safe with me.

Polly—Your head floats so nicely, you know.—Baltimore American.

Their Tendency.

"Pawnbrokers are the most temperate of men."

"How can you prove it?"

"Because everybody knows they take the pledge to a man and generally keep it."—Baltimore American.

Keep Kids Kleen

The most practical, healthful, playtime garments ever invented for children 1 to 8 years of age. Made in one piece with drop back. Easily slipped on or off. Easily washed. No tight elastic bands to stop circulation. Made in blue denim, and genuine blue and white hickory stripes. Also lighter weight, fast-color material in dark blue, cadet blue, tan or dark red, all appropriately trimmed with fast-color galatea. All garments made in Dutch neck with elbow sleeves for high neck and long sleeves.

Made by Levi Strauss & Co., San Francisco

Awarded GRAND PRIZE at the P.P.I.E.

SUDDEN DEATH

Caused by Disease of the Kidneys.

The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked. When the kidneys no longer pour forth waste, uremic poisoning occurs and the person dies, and the cause is often given as heart disease, or disease of brain or lungs.

It is a good insurance against such a risk to send 10 cents for a sample package of "Anuric"—the latest discovery of Dr. Pierce. Also send a sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion without charge—absolutely free. This "Anuric" of Doctor Pierce's is found to be 37 times more active than lithia, for it dissolves uric acid in the system as hot water does sugar.

Simply ask for Dr. Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Golden Medical Discovery for blood and stomach.

WORRY, DESPONDENCY.

Kidney Disease is suspected by medical men when patients complain of backache or suffer with irregular urination, disturbed, too frequent, scanty or painful passage. The general symptoms are rheumatic pains or neuralgia, headaches, dizzy spells, irritability, despondency, weakness and general misery. Worry is a frequent cause and sometimes a symptom of kidney disease. Thousands have testified to immediate relief from these symptoms after using Dr. Pierce's Anuric Tablets.
