

The Price of Good Clothes.

You may have an idea that because they're all-wool and so good in quality and style, that Hart, Schaffner & Marx clothes are expensive; but if you'll think about it a little, you'll see that such clothes are really economical. It's an old saying that a thing is cheap or dear according to what you get, rather than what you pay for it.

HART, SCHAFFNER & MARX FINE CLOTHES FOR \$18, \$20, \$22 and \$25.

Such clothes as these have the quality you'd pay a good custom tailor double for; you couldn't surpass the style at any price. The fit is guaranteed.

We also have some lower priced suits if you wish, bought on the lower market that we are selling at the old price. You should not miss this opportunity; the chances are that it will be some time before you will be able to again buy clothes like these for the very low price we are offering them for. Suits for men for \$5.50, \$6.50, \$7.00, \$8.00, and up.

Catarhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by the use of the Catarrhal Deafness Cure, which is an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when cured, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hair's Catarrh Cure acts thru the blood on the mucous surface of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hair's Catarrh Cure. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O.

Opportunities For Farmers!

Are you aware, Mr. Farmer, that the greatest opportunities to make money from the soil are now in Western Canada? Do you know that there are millions of acres of fertile level prairie land lying idle in Western Canada, waiting for farmers to cultivate it? Are you also aware that this land can be purchased at from \$8 to \$30 per acre and on 20 years time?

Canadian Pacific Railroad Has Vast Number of Acres for Sale

The Canadian Pacific Railroad Co. has several millions of acres in Alberta, Manitoba and Saskatchewan which they are selling to settlers on the most favorable terms imaginable. The land is lying idle, bringing them no income whatever, and they are anxious to get it settled up so that the road will derive an income from it in the form of hauling the crops grown and stock raised.

Prices of the Land and Terms of Payment

They are offering this land for sale at from \$8 to \$30 per acre for the unimproved land, depending more on its distance from market than on the quality of the soil. The Soil is all good, there being but very little difference in the quality of it. One tenth of the purchase price is paid at the time of purchase, and 6 per cent interest is charged on deferred payments. But if the purchaser settles on the land within one year and begins to improve it, the interest rate for the first two years will be cut to 2 per cent and no further payments will be required until the end of the fourth year. At that time the remaining unpaid balance is divided into sixteen equal parts and one part, with accrued interest on unpaid balance, is paid each year until payments are completed. Could any terms be more fair?

The Climate of Western Canada

Almost any kind of climate desired can be found in Western Canada. The northern part is cold, of course, and there is a great deal of snow fall. In Southern Alberta the climate is very much the same as in Eastern Oregon and Eastern Washington, and the snow fall is light. In fact the climate of this section is so mild that cattle and other stock are seldom housed through the Winter, but subsist on the native wild grasses.

If you are interested in these lands, drop us a card and descriptive literature will be sent, or if you prefer, address L. P. THORNTON, District Colonization Agent, 208 Railway Exchange Building, Portland, Oregon. Please mention this paper when writing.
