An Attempt to Burn a Bridge.

C. H. Eckenbrack of Central Point was driving across the county bridge which spans Rogue River at Gold Hill, Saturday, when he discovered that the railroad bridge was on fire. At the same time he saw a man running a distance of seventy-five yards on the ties from where the fire was burning. The man stopped, swung himself off from the end of one of the piers, and dropped down a distance of ten or twelve feet. He ran rapidly down the river and disappeared in the brush. Mr. Eckenbrack extinguished the fire and found the ties had been saturated with coal oil. The miscreant has not yet been captured.

The dialogue was well acted and caused a great deal of laughter. course, of its own accord, falls to the bottom again into another basket, thus of its own weight, shaking out every particle of dust and dirt. Strawberries.

For early fruit the Rogue River Valley takes the lead, generally speaking; but to be more definite Medford's vicinity is a little ahead of the rest of the valley and to come down to the point of the matter, Mr. S. A. Sutter, of Medford, caps the climax for early and luscious fruit, especially strawberries. About two weeks ago he exhibited some fine ripe ones which were as early as California; but Monday morning Mr. Sutter brought to our table a generous box of the finest strawberries we have seen in the market this year. They were culled from plants set out late last fall. The fruit from the older plants will be in the market in a few days. The late frosts did no damage to strawberries or cherries.

A Story.

Tom Carr, of Footh Creek, journeyed to the county seat last Friday as a delegate to the republican convention. That was all right. But he missed the train, so he says, to return to Medford in the evening. At about dusk he started to foot it along the railroad to this city and when about a mile out, he met a couple of men, so he says, whom he saluted and for response one of them fired a rock at him which landed just above his left eye, leaving an ugly gash. This felled him, so he says, but he recovered sufficiently to hurl a rock at his assailants, which he thinks took effect. At this juncture he was again struck, this time on the ear, by one of the tramp's fists, which completely knocked him out. When he came to he discovered that he had been robbed of 75 cents in cash and two cigars. However, he had \$15.00 in his inside pocket which was not touched; good of the robbers, wasn't it? Mr. Carr managed to reach this city and reported the case to the marshal and they with Tom Harris' help scoured the country but nary high-payman was to be found. Marshal Youngs and Nightwatch Hart walked from here to Jacksonville Saturday morning searching for the spot where the scuffle occurred, but it was invisible. T. Harris drove to Central Point and Jacksonville, thinking he might sight the "robbers" but it was useless.

We gathered these facts from Marshal Youngs, but he impressed upon us he wouldn't vouch for Carr's authenticity; he rather inclined to think that the delegate had suffered from the effects of the convention or from a severe shock of sun-stroke; but by that as it may we know that tramps are too numerous in this vicinity and although the marshal is ever on the alert and makes them move on from here. They should be dealt with more severely when found lurking about private premises.
