The street car conductors at Cincinnati learned the combination that enabled them to open their punches and extract the bits of paper and move back the hands of the dial that registered the fares, and formed a secret society, with \$100 initiation fee for a defense fund. The Sargent prize of \$100 for the best metrical translation of an Ode of Horace, open for competition to the students of Harvard college or of the Harvard annex, has been awarded to Miss Margaret Foster Herrick of the annex.

The award aroused considerable comment as this is the second successive year the prize has been won by one of the young women students.

The situation in the alluvial district of Louisiana is truly deplorable. Never in the history of high waters have so many crevasses occurred during one flood. While some of the breaks are small and not necessarily dangerous to life and property, there are enough large breaks to spread ruin and disaster throughout the levee protected parishes of the state.

Dr. Charles A. Bringers of the Union Theological seminary delivered an address at a banquet of the Presbyterian Social Union of Central New York. His theme was "Presbyterian Unity." He said: "Let it be distinctly understood there can be no unity without diversity. A great many people confound unity with uniformity, and in attempting to force uniformity really create division.

Unity demands diversity, and in maintaining there can be none; therefore there is no unity. If we consolidate the different kinds of churches, I have estimated we could spare 50,000 ministers, and save annually \$50,000,000."

The bridge being constructed over the Licking river between Covington and Newport, Ky., fell, carrying the workmen along with it. Forty-one lives are known to have been lost, seven will die from their hurts and very few escaped without severe bruises. The accident was an appalling one. The crash came from a warning, hurling 100 tons of iron a distance of fifty feet into the river below. About sixty-three men were on the false work sitting in iron braces for the floor, when suddenly the entire structure gave way. Not a stick of the false work from pier to pier remained and the river was filled with timber and ironwork and men struggling for life.

A storm of wind and rain which in some sections developed into a veritable cyclone laid waste the southern and central portion of Minnesota. It will be some days before the full extent of the disaster is known. That there has been loss of life is beyond question, but time alone can tell how many were killed. Jackson, Martin, Faribault, Free Born and Blue Earth counties were the scene of the storm. The cyclone forced near Jackson and after sweeping across Martin and Faribault counties it scattered near Wells and took a northeasterly course, suddenly swept to the south and disappeared below Wells. The loss of life is very large, some estimates running as high as 100. Everything in the path of the storm was swept from the earth, houses and barns splintered, and trees and telegraph poles being snapped off like pipe stems.

A Washington dispatch says: The conference on the river and harbor appropriation bill, after being in conference several days, failed to reach an agreement and decided to report the fact to the two houses and ask for instructions. The conferees are able to agree on nearly all the points of difference, including the 25 per cent cut in the first year's appropriations for contract projects, to which the house conferees are willing to accede, but they disagreed hopelessly upon two new Oregon and Washington projects. Both are senate amendments, one appropriating \$187,500 for improvement of the Columbia at Three Mile Rapids, including the construction of a boat railway around the falls, and the other a contract for the completion of the work at a total cost of \$2,672,856, and the other an amendment appropriating \$300,000 for the construction of a ship canal connecting lakes Union and Washington with Puget sound.

Dr. Berlin, a well known medical man of Berlin, attended a séance given by Dr. Pinkert, who is one of the leading mediums of Germany, and adopted a novel method of testing the genuineness of the spirit manifestations. He had confided on his person a syringe filled with a chemical solution, and when the spirit forms appeared he squirted a caustic liquid in snappers upon the shadowy forms. Instantly there were shrieks of alarm, the spirits scattered with indignant haste and the seance came to an abrupt close. Pinkert was arrested.
