Yours truly,

F. L. WASHBURN.

It Should Be in Every House.

J. B. Wilson, 371 Clay St., Sharpburg, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs, and colds, that it cured his wife who was threatened with pneumonia after an attack of "la grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cookeport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung trouble. Nothing like it. Free trial bottles at G. H. Haskins' drug store. Eagle Point Items.

The famous calf with such a high sounding name, referred to by the correspondent of the Valley Record, is still shouting to its bovine mother for the nourishment necessary to the development of a full fledged thoroughbred.

Some changes have taken place in property ownership. A. J. Daley has bought the drug store and moon building, for what purpose rumor saith not.

F. M. Burdick, a representative of the wholesale house of the J. V. Farwell company, of Chicago, is here visiting his mother, Mrs. L. K. Burdick, at the home of Mrs. B. H. Hubbard. He is accompanied by his wife. They came by the Northern Pacific and will return by the Denver and Rio Grande and Salt Lake. They are much pleased with the Rogue river valley and contemplate a visit to its coast next year. They were doing business in Medford on Friday.

MICROSCOPE.

To Be or Not to Be.

Is it for the best? That is the question which the city council has wrestled with for the last few days and which will be settled definitely at the regular meeting next Monday evening. Shall the city be lighted with electricity? Parties have been here this week and proposed to the city council to put in a \$12,000 electric plant and furnish the city ten arc lights for \$1,200 per year for ten years. The council are yearly tempted to accept the offer, the particulars of which of course we have not extended into. The property owners and tax-payers are of course to be consulted, they having the most interest at stake. But as the charter limit for city taxes—10 mills—has been reached, this added expense will not be noticed, the only difference is this added expense will delay the payment of the city's indebtedness just so much longer and of course taxes will remain as they are at present until the town is out of debt.

However, as Medford claims to be the hub of the valley is it not time she was taking on somewhat more of a metropolitan air? There is no denying that improvements are at all times beneficial, and especially at this dull season of the year. It would without a doubt be a great feather in the city's cap if she could out inform the world that improvements within her limits are the order of the day even in the dullest season. Streets well lighted take on an attractive air and while serving as a good drawing card for capital, they enhance the value of property. Is it for the best?
