

ALL SORTS.

Cyrus W. Field's life was insured for \$250,000. S. Sherman and wife are out in Klamath county. Sheriff Pelton has moved his family to Jacksonville. Ex-governor Chadwick was in Jacksonville a few days since. When a train is telegraphed the passengers are apt to see stars. What a fortunate thing it is to be married that the farmer never strikes. George M. Love has sold his livery stable to George Eines, of Applegate. Preliminary steps are being made to organize a camp of Sons of Veterans in Ashland. Col. Mason, of Indiana, is paying his sister, Mrs. Jane McCully, a visit at the county seat. Mr. Blair succeeds in his effort to break into congress in his next congress about right. Ex-Sheriff Birdsey and family are now located in their new home in Willow Springs precinct. Hugh Elliott has purchased James Crowther's interest in the blacksmith shop at Jacksonville. It is said that George M. Love has the inside track for the appointment of postmaster at Jacksonville. James Willis, of Mount Sterling, Ky., has been struck by lightning for the fourth time, and still lives. Joe O'Connell, of Central Point, has gone to San Francisco to take a course in Heald's business college. Dr. Everett Mings has recently been appointed to the chair of history in the Multnomah medical college at Portland. Extremes meet. The salmon keepers of Chicago, to a man, are fair to a bottle on Sunday. The president has signed the bill limiting the hours of laborers and mechanics employed upon public buildings to eight hours per day. A. Alfred, of Talent, will go to Klamath county again this season with his threshing, after doing the threshing he has on hand in this valley. The household of Secretary Rusk, of the national department of agriculture, is managed by his daughter. The wool clip of Eastern Oregon is about all marketed, most of it going directly East. The yield was the heaviest ever known in that section. The president has vetoed the senate bill amending the act of March 2, 1887, conferring on the court of claims jurisdiction in contested land patent cases. J. F. Johnson, formerly bar-tender for J. A. Hanley, was married in Douglas county July 22d, at the residence of Ben Wiseman, to Mrs. Mary C. Kennedy. A baboon is the latest article of import seized by the New York custom house authorities. Our infant baboon industry must be protected. Earl & Vincent, of Gold Hill, disposed of 500 pounds of salmon from Rogue river in Ashland and have taken out a month's license to sell salmon in the city limits. Messrs. McKinney & Slorv have completed their wing dam in Rogue river below the mouth of Sams creek and are doing quite well in fact they got an extraordinary prospect. James W. Davis was nominated by the republican state convention for governor of West Virginia. Secretary Ekins could have had the nomination by acclamation, but declined it. Ex-Chief Justice R. S. Straub has formed a partnership in the law business with Judge Whitley, of Portland, and they will open an office for business in that city about September 1st. Ward McAllister has come out for Harrison and Reid. Close out that comes the announcement that Mr. McAllister has softened of the brain. Is there any connection between the two incidents? Since the present tariff law went into effect 503 strikes in protected industries have occurred. The statement of that significant fact is answered by the high-tariff press by calling it calamity hour. From all over the country come ringing denunciations of the ignominious treatment of Private Iams at Homestead. Officers of the regular army declare no such procedure would be permitted among them. An eminent surgeon says that with four cuts and a few stitches he can alter a man's face so that his own mother would not know him. That's nothing. Any news paper can do that much with only one cut. Everywhere throughout the country the republican press has been forced into showing its color more or less clear and wherever it has done so it is for plutocracy and capital, and against labor and equal rights. Three young Ashland hoodlums were arrested last Friday for robbing one of the Chinese houses near the railroad crossing of Oak street. They were fined \$10 by Recorder Harry and allowed to pay it in work on the streets. The state convention of sheriffs met at Eugene last week. The following officers were elected for the ensuing year: President, Penumbra Kelly, of Multnomah; vice-president, S. C. Miller, of Douglas; secretary, J. T. Nolan, of Lane. Hon. J. R. Nell will go out for his summer outing to recuperate from his arduous labors in repealing the coyote bounty law in a few days, and will remain for some weeks. Owen Keegan will accompany him to the Dead Indian section.—Times. Gen. E. L. Applegate will take the stump for Weaver and Field this fall. While Lish has been an old line republican he broke the party lines and went off with the Greenback party in their time. His ideas on the finance question are sound. Alexander Bergman, anarchist, who attempted to assassinate Frick, was given a hearing last week and held for trial in the September session in \$24,000 bail. Bergman said it was not true that he tried to shoot Leisner. "I did not want to touch anyone but Frick. I meant to kill him." The informant who recognized one of the liners who committed murder, etc., at Waldport, and who was asked to pick him out of a crowd, selected a soldier confined in a guard-house for drunkenness, is but a mild sample of the liars and perjurers who will swear to anything against the union men at Boise City. The Huntington mill on Wagner creek has been running steadily on time now. J. B. Carlisle having the night run and Israel Patton the day run. The lessees do not say much about the results of the mill, but it is reliably reported that they are well satisfied with the returns.—Tidings.

Chicago is to have a monster labor day demonstration with 90,000 men in line. Wm. Chastain and son are engaged in hauling lumber from Norah mill to Medford. Gen. Van Wyck was nominated by the People's party for governor of Nebraska. Raim has not gone yet. He is determined to take Harrison with him next spring. H. C. Frick has so far recovered from his wounds as to be able to resume his duties. The New York Tribune is a Union office pro tem. The "rats" will be in it after the election. A worm will squirm when trod on. Labor is nearing the point when it will squirm but fight, too. Wichita has a man who stole a suit of clothes from a printer. The printer must have been taking a bath. The "Generals" seem to be in it this year, but none are wielding a more potent influence than General Discontent. An election-at-large of Mississippi, on the democratic ticket, Frank Burnett, has resigned to join the People's party. A. H. Phelps, an Albany printer, will in a couple of weeks start a new weekly paper in Albany, called the Review. The farmers in Texas are going into the People's party in droves. The strongholds of the old parties are in the towns. Of the four territories remaining in the United States three of them extended from Missouri to the Gulf of California. After September 1 next, persons over 45 years of age will not be admitted as members of the A. O. U. W. in this jurisdiction. Forty years ago farmers owned five-eighths of the nation's wealth. Thanks to the "protective" tariff they now own less than one-fifth. A few days since the daily papers reported Jay Gould, at the Hot Springs in Arkansas. He appears to be gradually nearing his destination. The nurse wheels the baby cart each day to the postoffice at Buzzard Bay, to give Baby Ruth an outing, and to ask if there is any letter from Senator Hill. It is said that the remnant of that brand of Scotch whiskey is going fast, as Benny's nerves need a great deal of steadying over that. Homestead affair. R. R. Dunn, formerly manager of Staver & Walker's business in this city, is now acting as special traveling agent for the Singer sewing machine company. Golden Rule lodge No. 78, I. O. O. F., of Grants Pass, last week purchased from J. T. Puffs the building on lots 5 and 6, block 89, formerly occupied by the lodge, and will have no rents to pay in the future. Heavy forest fires are raging in the hills west of Jacksonville. A large amount of woodwork and several miles of fencing belonging to John Stevenson, a vineyardist there, burned last Friday night. The fellow who shoots a man instead of a deer has not gone hunting at all yet this summer, but his cousin in Idaho aimed at a bird and shot a companion hunter in Spokane the other day. As usual, he was sorry. The so-called "Sullivan", of Portland, are to be investigated, which will investigate the Pinkertons will investigate the Thell agency at Portland, and other organizations on the coast. It is reported that while showing a visitor through the only private art gallery in Omaha the intelligent owner pointed out a bust of the Venus de Medici, saying, "I paid \$10 for her, and there's nothing on her, neither!" Judge Shiras, the newly appointed justice of the United States supreme court, is the first native of Pennsylvania to occupy that position. There have been five residents of Pennsylvania appointed to the same position, but none of them were natives of the state. Carnegie's iron works are a sample of "infant industry." When an infant becomes large enough to dictate to an government it becomes dangerous. Yet they must be protected, says the republican party. How long, O Lord, how long. A young Italian and his wife, in returning from the West, were stranded at the Hoquiam flats in Washington, remaining there till morning, when it was discovered that a third member of the party had arrived during the night. Secretary Noble has appointed Ruben P. Boise and William H. O'Neil, of Salem, Or., and H. H. Harding, of Carthage, Mo., a commission to negotiate with the Indians of the Siletz Indian reservation in Oregon for cession to the United States of lands not needed for allotments. The two-thirds Democratic House has at last done something. They have authorized the publication of 10,000 copies of the "force bill" for the use of the Democratic Committee in the south at an expense to the taxpayers of \$294 when no such bill is in this country, pending in the present session. General J. B. Weaver did more for the benefit of the American people while in Congress than both Harrison and Cleveland has done during their administrations. Weaver saved from being cremated \$240,000,000 of currency and Harrison and Cleveland have mugged away their time for the salary which they received. In Elmira, Chamung county, New York, are seven widows of the same name and as those who write to them do not know enough to give the street address, they have more fun reading each other's letters than a little dog has chasing its tail. But lordy, lordy, how hot it makes them to have their letters read. There are \$5000 offered by the Jackson county agricultural association in purses and premiums at the first annual fair, which will be held at the fair grounds near Central Point, beginning Wednesday, September 23. Jackson and Josephine counties are included in the fair, and a general interest promises to make it a success. There is no future welcome or respect for any man or corporation in this country that will squeeze its laboring men down to a dollar or so a day, and then pay five dollars per day to each of an armed body of three hundred hired assassins to put on uniforms and kill those who dare to kick against the inhumanity of money to man.

WEAVER AND FIELD. TUNE—MARCHING THROUGH GEORGIA. Sing the song of freedom, boys, and let the echoes ring. Coming with our banners like eagles on the wing. Get all your ballots ready, boys, which victory will bring. Voting for Weaver and Field. CHORUS: Hurrah! hurrah! the boys that wore the blue; Come on, come on, the boys that wore the gray; Thus we stand united, boys, together here to-day. Voting for Weaver and Field. When the votes are counted, boys, you'll hear a joyful sound, That the people voted from workshops all around. Republicans have lost the day and freedom has been found. Voting for Weaver and Field. Let the freemen's voices, boys, reverberate the news, And give to Ben and Grover the everlasting blues; Then the money rule is ended and labor has its dues. Voting for Weaver and Field. Hence the rule shall always be for liberty and right. We'll then forever pass beyond the plutocratic sight, And our ballots will decide for honor and for right. Voting for Weaver and Field. In due time congress will sit to say that we have won, and that the bill that declares it as our ballot box, have done. That republicans shall rule no more, and democrats are done. Voting for Weaver and Field. Then the fourth of March will come inauguration day, And Weaver in as president, while Harrison goes away. Sailing up Salt river, as the people's ballots say. Voting for Weaver and Field. —J. F. WISNER. JOSEPHINE COUNTY NEWS. Prof. Farley came over from the Illinois valley Monday. Editor Kertson and wife passed by to Portland Tuesday evening. C. T. Havens has been appointed city surveyor; wages, \$5 a day. J. E. Tipton has fitted up a new butcher shop in the Commercial hotel. George Wimer will move from Coos county to the Wimer mine in September. The People's party held a meeting opposite Howard's on Wednesday evening. Misses Jessie Jackson and Eva Dean returned from their visit to Jackson county Thursday last. Six divorce cases at one term of court is a large number for a county the size and population of Josephine. Messrs. Newell and Cundy have been engaged in building an addition to W. E. Dean's dwelling house on H street. Sheriff Shattuck had the court house, jail and grounds cleaned up for inspection by the grand jury, and made things pretty neat around there. Judge Hanna thinks the counter set up in the circuit court room is a nuisance. He cannot see a witness unless he gets up and sits on the counter, and he can't hear him because the great, bulky pieces of furniture absorb all the sound. R. R. Moore has discovered a mammoth quartz ledge near the line of Josephine and Jackson counties, which is proving to be a regular bonanza. Top rock assayed \$14, and the ore gets richer as the vein is followed up. Each pan prospectus a yellow ring around the bottom. Judge Hale was written to come to Grants Pass and try several cases here which Judge Hanna was disqualified in hearing on account of being counsel in the suits in former courts, but the Klamath county judges did not show up. He opens court in Lakeview on the 8th. Several cases have been postponed here to the 19th of September in consequence of Judge Hale's non-arrival.—Grants Pass Courier. Council Proceedings. The town board of trustees met in the town hall in regular session on August 1, with the following members present: J. A. Whiteside, mayor; Dr. E. B. Pickett and Wm. P. Wood, trustees; D. S. Youngs, marshal. Absent, W. B. Roberts and E. J. Montague, trustees. Minutes of July 4, 5 and 27 read and approved. E. J. Montague presented his resignation as a member of the board of trustees of the town council, and asked that it be accepted at once. On motion said resignation of E. J. Montague was accepted and a vacancy declared by the mayor. A petition was presented to the board from the taxpayers, asking that John W. Short be appointed to fill the vacancy caused by the resignation of E. J. Montague, and on motion John W. Short was duly appointed as trustee to fill the vacancy. John W. Short then appeared before the board and took the oath of office and entered upon his duties. A petition from Wm. Angle and others, asking that ordinance No. 89 be changed or amended as to exclude from said fire limits lots 1, 2, 3, 4, 5, 6, 7, 8 and 9, in block No. 3, and lots 1, 2, 3 and 4, in block No. 13, of the town of Medford, Jackson county, Oregon. The petition was granted, and the recorder was ordered to draw an ordinance to amend section 1, of ordinance No. 89, so as to exclude the lots above noted. Thomas Morine appeared before the board and asked that the license issued to Minnie Morine June 7, and running three months, be transferred to T. M. Howard and W. H. Hosler. Petition granted. Said T. M. Howard and W. H. Hosler then presented their bond, signed by said Howard and Hoster, with S. Higgins and Wm. Ulrich as sureties, which was approved, and the recorder was ordered to issue liquor license to Howard & Hoster for the term of one month and six days, that being the unexpired time on said license of said Minnie Morine. The Revs. Thompson and Edmunds, with E. J. Cardor appeared before the

board and asked that the board take steps toward the closing of stores and saloons on Sunday. The board, after due consideration of the matter, declined to take action in the matter, as they considered the now existing state law sufficient authority in the matter. On motion J. D. Whitman was granted one inch of water running along the Medford water ditch above the Vandyle property from the surplus water running in said water ditch. In the matter of placing a hydrant near the Medford water works and the Medford school building, the matter was referred to the town board as a committee of the whole to act with the school board of district No. 49, of said town of Medford. On motion the salary of E. G. Hurt, city engineer, was raised to \$50 per month for the month of August, September and October, 1922, on account of extra work during said months. After said three months to revert to \$50 per month as heretofore. On motion the matter of purchasing a lubricator for the fire engine was referred to the fire committee, with power to act and purchase the same if they see best. The following bills presented, recommended by the finance committee, passed upon by the board, and the recorder was ordered to draw warrants in payment of the same: Sugar Pine Door and Lumber Co., Wood, \$83 62; Adkins & Webb, rent for hose cart, 12 00; E. E. Gore, gravel, 2 00; F. G. Kertson, printing, 2 00; J. H. Faris, recorder's fees, 10 00; John Morley, labor, 5 00; A. Z. Sears, labor, 4 00; E. G. Hurt, engineer, 50 00; J. Darnell, labor, 2 00; Vawter & Howard, insurance, 26 00; D. S. Youngs, marshal, fees, 12 00; Adkins & Webb, rent of hall, 16 25; J. Brandenburg, labor, 10 00; T. W. Johnson, night watch, 29 40; J. R. Wilson, labor, 8 25. Nothing further appearing, on motion the board adjourned. J. H. FARIS, Recorder. MEDFORD BUSINESS COLLEGE. To the Public. As our school closes for this, the first term, I wish to say to the public that I appreciate to the fullest extent the evidences of the public esteem and confidence. It would indeed be selfish and unjust for me to state otherwise than the success and prosperity of the school is due not only to the strong faithful efforts of myself, and those connected with the school, but to our patient students who have worked so faithfully and persistently. And to the business men of our town and county, and to the public in general who have with their good will, trust, confidence and approval encouraged us. We take this means to thank you for your support. It has been our aim to give satisfaction in every line, and as I move among our students and patrons and hear words of praise from all, I realize that our efforts have not been in vain. And we are encouraged to continue in Medford and make our school all that a Business college can be, (a thorough business training institute.) In the past ten months we have enrolled fifty-seven students with seven graduates, five of these having secured paying positions. In the coming year we will try to enroll 100 students. There will be a special teacher for each department. The rooms will be newly furnished and every effort will be put forth to make our school pleasant, homelike and give satisfaction in every line. The fall term of our college opens Monday, September 5. Let us all work for the success of our home school. Very Respectfully, M. E. RIGBY. Wimer Jottings. Weather warm. George Scott is engaged in work at the springs for Mr. Bybee. Most of the people in this vicinity are through harvesting their grain. Charles Williams is erecting a new hay barn on his place on Pleasant creek. Chester, the little son of A. J. Sherrill, is very sick with spinal meningitis. Louis, the little son of L. Brownworth, who has been very sick, is convalescing. Prof. Rigby, of the Medford business college, was up on the creek in the interest of the college last week. There has been a great many campers at the Bybee springs lately. This place is becoming quite a health resort. Miss Maggie Witt (Kuesland) departed last week for her home at Dunsmuir, Cal. May happiness, peace and prosperity be the new couple's lot in life. James McDougall, the bridge carpenter, reports, is building a bridge across Evans creek just above the Wimer store. That's right, commissioners; bridges and good roads will not come amiss in any county. —VALE. An Acrostic. Beware, sons of toil, of your hands Enslaved you are, if you have forged the bands. Now like Galley slaves of toil, Joined together, give up the spoil. As time rolls on, you'll rue the day; Meet the demands you have to pay. Into the Coffers, Money kings Now toss the gold; hear how it rings. Heaven will surely be on hand, And cleave untwine those mighty bands. Reach down this arm, Almighty King! Revenge and break this mighty ring. In widens ways let rulers go; See that thou oppress not the poor; Oh, take the warning that is given, Neglect it not; there's law in heaven. California fruit infested with San Jose scale is being shipped to the markets in Oregon. It is unwise to sell such fruit here. Infested fruit can be known by the red spots over it or the little scales attached. Several lots of infested fruit have been sent back.

State Central Committee. Ten delegates gathered in Portland August 6, pursuant to the call issued by the three national committees for Oregon. The meeting was called to order at 10 a. m. by Chairman Galvani, and on opening the meeting he stated that the call of the national committees was irregular and null and void, and such being the case, he proposed, as chairman of the state executive committee, to call the meeting to order for the purpose of electing two additional members to the already existing state executive committee, and not for the purpose of electing an entire new executive committee of five as proposed by the call issued by the three national committees. Chairman Galvani stated that the existing state executive committee were willing to step down and out, but they would not do so at the instigation of one or two enemies of a personal nature. It was plain that Chairman Galvani's stand was sanctioned by a good majority of the delegates; in fact the only two who made any pretense to oppose him were McGill, of the Journal, and National Committeeman Joe Waldrop, who it seems have personal grievances against Chairman Galvani. It being settled that the state central committee was in session for the election of only two new members of the state executive committee, who would be added to the executive committee, nominations were next in order. J. C. Luce was elected on the first ballot, but it took three more ballots to decide between Ira Wakefield, of Jackson county, and W. H. Spangh, of Lane county, W. H. Spangh being finally elected by two majority. It was decided that the state central committee should dispose of any other business brought before it. The next thing that came up was the matter of forming a stock company and purchasing the Reform Journal or starting a state official organ. Every proposition was knocked in the head, and from the start it was plain that the Reform Journal was not in it. The Journal has made many enemies by the queer stand it has taken to dispose of the plant to the People's party. After the matter had been sifted to the bottom the whole business about starting or buying a state paper was relegated to the rear and placed in the same position as at the start, when a state paper was not thought of. A resolution was adopted which did away with fusion with the old parties under any circumstances. The report of the state executive committee as to finances, expenditures, etc., was read and adopted. Other resolutions were read and adopted, pertaining to burying old strifes of a personal nature and otherwise, and also in reference to the coming of Gen. Weaver and Mrs. Lase. It was requested that a large attendance be necessary. No other business coming up the committee adjourned sine die. A Vote. I wonder how long it will be ere monopoly must be crucified, with the two old parties on either side. The sun of monopoly is in its evening's orbit, and me thinks I hear thousands of voices borne on the breeze of its eve saying, 'not long! not long!' Soon it will have set to shine no more. Many such events of injustice as that at Homestead will awaken sleeping and unconscious humanity to a sense of duty, will decide the indifferent and undecided, break the chains of neutrality and warm up the blood of those who demand equal rights to all, but special favors to none, until it reaches the boiling point, 212 degrees. VERITAS PREVALEBIT. Secretary Rusk is in Chicago in connection with an experiment which he is preparing to make on a large scale in the treatment of the disease known as "lumpy jaw." It has recently been treated successfully by the administration internally of iodine of potassium. One of the inspectors of the bureau of animal industry recently made a successful experiment and the secretary expects to have the treatment tested on 200 head of cattle affected with "lumpy jaw" to settle the question as to the value of the remedy. It is given in doses from one to three drams, dissolved in a pint of water. It is best administered before feeding and the dose should vary according to the size and weight of the cattle. The treatment can be applied without danger by any farmer. Congressman Craig of Pennsylvania is dead. Palo Alto Stock Farm. Home of Sams, 2005; Palo Alto, 2006; Avion, 2100; East Hill, 2200. Chas. Marvin writes under date of January 9th, 1921, he found by feeding the Red Ball Brand Manhattan Food to the horses under his charge, that they proved to be as represented. Also Mr. Wm. Corbett of the San Mateo Stock Farm, San Gabriel, J. A. Goldsmith, B. C. Holly and others speak in the highest terms of it. This food is just the thing to prepare colts for circuit; they mature more rapidly and it keeps them in splendid spirits. For a horse off his feed, or one run down, it is highly beneficial. This is the only stock food which ever received medals at Sacramento State Fair 1891, Stockton Fair 1891, San Francisco 1890. The foremost veterinary surgeons of California feed and recommend it; viz: C. Masoero, E. J. Creely, P. Harris, W. P. Egan. This food contains no antimony or any other mineral or poisonous herbs. The Red Ball Brand Manhattan Poultry Food is likewise reliable; the largest poultry raisers on the coast prefer it to all others. CHARLES STRANG, Drugist, Agent, Medford, Ore.

H. F. WOOD, MEDFORD, OR. Contractor and Builder. Jobbing of all kinds. Plans and estimates furnished on application. Jackscrews to let. J. C. Elder, MEDFORD, OREGON. Dealer in GROCERIES, DRY GOODS, BOOTS, SHOES, GLOVES AND NOTIONS FOREIGN AND DOMESTIC—REAL MERIT. PILLS? NO!! S. B. Headache and Liver Cure. THE SINGER SEWING MACHINE. L. E. Hoover, Agent, Medford Ore. Salary \$25 to \$50 a Week. DR. SANDEN'S ELECTRIC BELT. EAST AND SOUTH BY THE Southern Pacific Route. PORTLAND Employment Bureau. Farmers Save Money.

J. W. MILLER, Repairs Buggies and Wagons. MAKES -- BEE -- HIVES. CALIFORNIA ELECTRIC LINIMENT CURES CATARRH. ROOFING. One Dollar Weekly. The Road to Wealth. DR. HENLEY'S English Balm. MISTERS BALM OF WILD CHERRY. PORTLAND Employment Bureau. Farmers Save Money.
