Just So. Business men always bear in mind that the majority of our subscribers have especially agreed to patronize all advertisers in the MAIL. And consequently the larger and more continuous an advertisement is the more trade it draws. We are thus able to tell which of the business houses do the largest business. Watch our columns.

Curry and wife, at the opera house Monday evening, which was attended by a large number of young ladies and gentlemen of this vicinity. Mr. Curry left for his new field Tuesday morning. Vawter, president of the Jackson county bank, of this city, was admitted to practice law in all the courts of Oregon, by the Supreme court at Salem, this week. Mr. Vawter has been studying in the office of S. S. Pentz for some time, and passed the examination with flying colors. We believe this is one of the few instances in the history of this county where a man has been admitted to the bar who studied only in a law office. Matrimonial. Mr. Scott Griffin, the Toledo postmaster, real estate dealer and general rustler, went east some few months ago presumably to enlighten the tender customers as to the superior advantages offered the homeseekers in this valley and particularly in the neighborhood of Tolo. He must have been very successful in a general way for he prevailed upon one at least from among his audiences to return with him and share his lot for better or worse until death. It was in the beautiful little city of St. Omer, Ind., on the 8th day of September, 1892, that Mr. Scott Griffin and Miss Jennie Morrow were made man and wife. They lost no time in hieing themselves hitherward, landing at their home at Tolo one day last week. Last Friday at the fair we had the pleasure of meeting Mrs. Scott Griffin, and found her to be, as was expected, a lady of refinement and beauty. The MAIL wishes them every happiness. Committed Suicide. S. E. Day, the 13 year old son of ex-County Judge Silas J. Day, of Jacksonville, committed suicide by blowing the top of his head off with an old musket Friday morning, Sept. 30th. The boy had been attending school, and Thursday played truant and went to the Central Point fair. His father had promised to allow him to attend the fair Friday with the family, but learning of his running away the day before, thought to punish him by compelling the boy to remain home. The boy then wanted to go hunting, but his mother forbade, and gave him work to do at home. Soon the boy was missed, and search revealed him at the barn near the house dead. He had taken an old-fashioned musket, placed the muzzle near his head and discharging the weapon with his foot, literally shot his head off. Public Notice. Gold Hill Nuggets. There is considerable prospecting being done in this vicinity at present. It is reported that Mrs. L. Irwin, who bought the Dr. Brand mining property, has leased it to some parties from California. Thos. Lawrence and Wm. Eaton have leased the Whitney & Marksberry ledge situated near the Original Gold Hill ledge, and are drilling a tunnel which prospects a vein of coarse gold. J. E. Jenkinson, a mining expert from New Mexico, came up from Grants Pass Tuesday to look after mining property in this vicinity. Mr. Jenkinson represents eastern capital and if he finds anything here that suits him will make some investments. Mr. Thompson, who has been farming the Ragdale ranch near Central Point, has rented the Chavner ranch near Gold Hill and will take charge soon. He is a first-class farmer and will make two blades of grass grow where but one would grow before. Speaking of making two blades of grass grow, reminds us of the paper that was read by a saw-mill farmer at the hayseed convention or institute recently held in Medford. The gentleman went on to tell about what wonderful things could be accomplished by scientific farming—making one acre produce as much as two under present methods, and then followed in a speech in which he told the Hayseed that what was the trouble with the country now was over-production. Oh, common-sense, thou art a jewel. We notice that the leading republican and democratic papers and politicians are beginning to work their old cold-storage (tariff) racket for all that is worth. Well, they may succeed in fooling some people, but the farmer or laboring man who can read and has horse sense, that will be humbugged into voting either of the old party tickets should be compelled to live on tariff. Query: Will some smart-aleck (democrat or republican) tell us which is a democrat—the custom manufacturer and Cleveland gold-bug who is in favor of a high tariff and opposed to free coinage or the western farmer who is in favor of free coinage and opposed to high tariffs? Don't all speak at once. The republicans of this precinct held a pow-wow Tuesday night. The meeting was composed principally of People's party men and democrats who went to take home. The house was called to order by Wm. P. Jacoby and Mr. Shipley was chosen as chairman. The chairman stated that the object of the meeting was to organize a Harrison club, change the county road leading to Sams Valley, develop the Iron mines and revise ways and means to build a government factory at Gold Hill after which the meeting adjourned.
