

BACHELORS WRITE TO LEARN OF THE EAGLE POINT GIRLS

Ren H. Rice of National Apple Show Feels Like Matrimonial Bureau.

SPOKANE, Wash., Nov. 1.—Since the publication of an item that a number of young women of Eagle Point, Or., are putting their address cards with requests for correspondents in every box of red apples packed there for display at the National apple show in Spokane November 15 to 20, Ren H. Rice, secretary-manager of the organization, has been literally deluged with letters. They are from various parts of the Pacific northwest, including the cities and towns in Washington, Idaho, Oregon, Montana, Utah, California, Colorado, the Dakotas and the provinces of British Columbia and Alberta. The writers desire the names of the women with the view of entering into correspondence.

One of them, giving his address as Pullman, Wash., is hankering for a wife who is experienced at packing apples. The name of the writer is withheld by Mr. Rice, who has given out the following excerpt from the letter:

"If you will take the time to read the inclosed clipping from a newspaper headed 'Oregon Girls Seek Mates in Spokane,' and then send some of these addresses to me, you will be doing both parties a favor."

Mr. Rice declares that not a name will be given out to anyone, also that those who desire to learn the identity of the young women will either have to come to the apple show or arrange with an agent to buy the boxes of fruit, if for sale, entered in the competitions by the growers at Eagle Point, as well as attend to the correspondence part themselves.

SORE BECAUSE HE HAS TO DISCOUNT WARRANT

GRANTS PASS, Or., Nov. 1.—Fred Wichman, erstwhile manager and general factotum of the Grants Pass cannery, has a grievance against the city of Grants Pass that he is striving to have the council remedy. Some time ago he was arrested under the nuisance ordinance and an attempt was made to find him guilty of selling hard cider. Wichman refused to hire a lawyer and went in and managed his own case. He called for a jury and put up six good, round, hard dollars. This is where the trouble comes in. He won his case and wanted his jury money back, and the city offers him a warrant for \$6, which to get the east on he will have to discount 15 cents and he does not wish to lose that 15 cents hence his holler.

NEW TARIFF REDUCES PHILIPPINE EXPORTS

WASHINGTON, Nov. 1.—Imports into the United States from the Philippine islands in September, the first full month under the new tariff, amounted to \$821,036, against \$1,631,976 in September, 1908. All of the imports of last September entered free of duty excepting goods worth \$426, which comprised products of other countries imported into the Philippine islands and sent thence to the United States.

Of the September, 1908, imports, those free of duty were valued at \$962,467, and the dutiable imports \$679,509. No sugar produced in the Philippines was imported during last September, though in September, 1908 the quantity was 35,168,000 pounds.

The August imports statement showed 9,956,000 pounds of sugar coming in from the Philippine islands free of duty under the new tariff as against 24,640,000 pounds dutiable in August of the preceding year. Imports of cigars, cigarettes and cheroots for September amounted to \$12,253, of which all but \$6 worth entered free of duty, while the total imports of this class in September, 1908, amounted to \$6 in value.

GRAY PREVAILING COLOR FOR MEN THIS SEASON

LONDON, Nov. 1.—Gray is to be the winter color for men's clothes—not a silver gray, such as was popular during the summer, but a steel gray. So affirm the experts, who from London and the provinces are now meeting at the sixteenth annual exhibition of tailor-made garments.

The tendency is for a quiet, distinctive form and clear-cut lines. Men resist strenuously any drastic changes in style. The experts were in earnest consultation yesterday over the rounding of the lapel edges of a morning coat. A matter of serious debate, too, was the binding of another lapel with ribbon instead of braid.

A little point the well-dressed man must look to this winter in a coat which bears the hall mark of being 'the latest thing' the lapels are to be smoothly rounded.

MORE MODESTY URGED IN STYLES OF WOMEN

CHICAGO, Nov. 1.—Reform of woman's dress in the interest of morals was advocated by Harry A. Smoot, general superintendent of the Juvenile Protective association, in his report presented at the annual meeting of the association yesterday.

Declaring that prevailing styles accentuated sex and were responsible for the downfall of many young girls and boys, Mr. Smoot urged that the association use its influence with the sources of fashion, as well as with the girls themselves, to introduce more modest styles.

"One walking up and down our streets, especially in the downtown district, cannot help but be impressed with the belief that the extreme styles in dress which the young girls are prone to wear must surely be contributing causes to delinquency," said Mr. Smoot. "Frequently every article of dress is so designed and so arranged as to accentuate the wearer's sex."

SAM LANGFORD ISSUES DEFI TO JACK JOHNSON

NEW YORK, Nov. 1.—Sam Langford the Boston pugilist, is hit on the trail of Jack Johnson, and today, before the negro champion could start for Chicago, he issued this sweeping defi:

"I want Johnson to fight me before he fights Jeffries. He can have \$1000 in cash from me the moment he steps into the ring. I will fight him six, ten, twenty-five, forty-five or a hundred rounds for \$5000 a side—winner to take the entire purse, or 75 per cent. I will accept any reasonable offer and I will win."

CHICAGO IS DESTINED TO BE ADAMLESS EDEN

CHICAGO, Nov. 1.—According to the Chicago health bulletin, issued tonight, Chicago would soon be an Adamless Eden were it not for the new masculine blood which is coming in. Figures compiled for five years show an astounding excess in the male death rate over the female death rate.

The percentage of excess of male deaths per 10,000 population is as high as 65 per cent in the case of alcoholism. In prevalent diseases like pneumonia and tuberculosis the male excess is about 50 per cent.
