SOILS ARE NOT WEARING OUT

Crop Yields Are Increasing Rather Than Decreasing, According to the Government Bulletin.

Soils of the United States are not wearing out and the crop yields are increasing rather than decreasing. Such are the statements made in a bulletin from the bureau of soils of the United States department of agriculture. It is written by Professor Milton Whitney, chief of the bureau, who says:

"A careful study of the data which have been presented appears to justify two conclusions: First, that the productivity of the newer agricultural soils of the United States and of the older agricultural soils of Europe, taken as a whole and for the nation, are not declining, as is popularly supposed. Individual farming deteriorates and soils wear out, as they have always done, but as a whole it seems probable that we are producing more crops an acre than formerly.

"This is undoubtedly due to many factors—to better and more intelligent cultivation and more and better systems of rotation of crops, and in later years to the intelligent use of fertilizers through measures of control in the hands of every individual farmer. In addition we must recognize the increase in farm animals and stock, the improvement in seed by selection and breeding, and increased intensity in population, which is forcing attention to more intensive methods. Second, that so far as our information goes, there is apparently no significant difference at the present time between the composition of the old agricultural soils of Europe and the newer agricultural soils of the United States, with respect to potash, phosphoric acid, lime and magnesia."

BUNGALOW SKATING RINK SECURES DE NOVA AGAIN

The management of the Bungalow skating rink wishes to announce that DeNova, the famous roller skater, will give another exhibition of trick and fancy skating on Monday evening, introducing new and novel features, such as handspins, chair jumping, heel and toe spins and many others. The novelty of these acts will be further enhanced by beautiful electrical effects.

Mr. DeNova is the undisputed champion roller skater of the Pacific coast, having made a record at the Idora Park rink, Oakland, Cal., of one mile in 2 minutes and 36 seconds. He also made the Marathon distance of 26 miles, 385 yards, in 1 hour 28 minutes, 30 seconds. He keeps in constant training at the Bungalow rink and is on the floor from 2 p. m. to 5 p. m. during the afternoon and from 7:30 p. m. to 10 p. m. each evening.

What Would You Do?

In a case of burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar.
