

BELIEVES END OF WAR IN SIGHT

Spokane Authorities Claim That They Have Situation Under Control — Prisoners Still Refuse Food.

(United Press Leased Wire.) SPOKANE, Wash., Nov. 13.—It is reported today that the military authorities at Fort Wright, where a hundred Industrial Workers of the World are imprisoned in the guard-house, are insisting that the prisoners be given food. A majority of the men confined there are still on hunger strike and many are too weak to rise from their cots.

The police authorities believe they have the situation under control, but the industrialists declare they are only waiting for recruits to arrive from the northwestern states to continue the demonstration.

Fifty men arrived today from Billings and Great Falls, Mont., and nearly a hundred from Seattle. Twenty-five more men are expected from Portland today.

The employment agencies in Spokane have announced that they will not hire members of the Industrial Workers of the World, as their clients refuse to accept them, claiming that they are agitators and cause dissatisfaction among other employees.

The city has not yet felt the effects of the boycott declared by the miners of Idaho, but it is feared if the fight continues much longer it will curtail the shipment of supplies by Spokane wholesalers into the Coeur d'Alene mining districts.

PROHIBITION MOB WRECKS "SOFT DRINK" PLACES

(United Press Leased Wire.) HORNBECK, La., Nov. 13.—A prohibition mob, avenging the murder of Marshal McGee, who was shot because of his activity in prosecuting "blind tigers," last night wrecked every "soft-drink" establishment here. The prohibitionists claim that the soft-drink establishments were running "blind tigers."

STORM WRECKS WEST INDIES

Terrific Damage Is Wrought by Hurricane Sweeping Over Islands in the Vicinity of Cuba.

(United Press Leased Wire.) NEW YORK, Nov. 13.—Enormous damage has been wrought by the hurricane and storm visiting the West Indies Wednesday and Thursday, according to reports received here today.

It is feared that there will be a large death list when all details have been received. Already some deaths and heavy damages have been reported at Port de Paix and Gonives.

With telegraph and cable communication disrupted it is impossible to ascertain the true situation. Santo Domingo caught the brunt of the gale and the property loss is sure to be enormous. To add to the horror of the situation, earth disturbances are reported from Hayti.

The storm which swept Jamaica is now moving in the direction of the Bahamas and Bermuda. No less than 48 inches of rain fell at Kingston while the storm was in progress. The property damage there is estimated at \$500,000. It is feared that the heavy rainfall has played havoc with the banana crop. If this proves to be true, it will cause great suffering in Jamaica this winter, as the natives largely depend on the money received for this crop to carry them through the season. This will prove an unusually hard blow at this time, as the natives have hardly recovered from the losses they sustained in the earthquake of 1907, which laid Kingston in ruins and destroyed 1700 lives.

Railroads have been wrecked and all traffic is at a standstill. Many vessels were driven ashore during the storm and it is feared that a number of craft, unable to weather the gale, went down.

WANTED—A small cottage, furnished or unfurnished, or part of a house with a kitchen. Address 16 South Orange st. 204

MUCH ACTIVITY IDAHO ROADS

Business Men of Boise Excited Regarding Building of Railroads in Different Directions in State.

(United Press Leased Wire.) BOISE, Idaho, Nov. 13.—Business men of Boise are greatly interested in the railroad activity in Southwestern Idaho and Eastern Oregon. It is rumored that the Pittsburg & Gilmore company, at present engaged in construction work out of Arnsstead, Mont., into Salmon City, will build through Boise and on to Coos Bay through Central Oregon, and of a Boise-Butte line, another proposed railroad south from here, into Nevada, and thence to San Francisco.

There is some talk of the Oregon Short line turning its main line into Boise. Boise is on a branch line of the Oregon Short Line and there is great activity favoring the turning of the main line from Payette near the Oregon boundary, so that it will run through this city.

MINER RESCUED AFTER BEING BURIED ALIVE

(United Press Leased Wire.) REDDING, Cal., Nov. 13.—Charles Hartman, a miner, who was thought to have been killed in a cave-in in a mine near Shasta yesterday, was rescued late last night and today is recovering from the injuries he sustained when hundreds of tons of rock and gravel fell from above and entombed him in the shaft.

The huge mass of earth fell with slight warning. A few small stones fell first and struck him, injuring him slightly. The warning was sufficient and Hartman jumped behind a big timber an instant before the earth thundered down upon him.

After several hours of digging miners who were attempting to recover his body were astounded to hear Hartman cry out for help, and when the shaft was partially cleared Hartman crawled out of his living tomb, practically unharmed.

Blank Shells Make Noise

But they don't hit the mark. We deliberately bring down the business

with the price we are making on everything you are needing for the season. Think of it—Ladies' Suits and Cloaks, \$15.00 to \$25.00—goods you have been paying \$5.00 to \$10.00 more for on every garment.
