## CANNOT COME NEAR LIMIT

Congress Fixed Limit on Free Imports, but Philippines Do Not Approach It in Any Particular.

(United Press Leased Wire) WASHINGTON, Nov. 20.—The discussion which congress devoted to the question of free cigars and free sugar imported from the Philippines before it was decided to limit the amount of these commodities which may be imported free of duty might very well have been devoted to other subjects. The same result would have been obtained and congress would have gained a reputation for generosity if it had decided to let the islands send over all the cigars and sugar they could. So far there is no indication that there is any chance of exceeding the limit imposed.

The bureau of insular affairs of the war department has been informed that during the month of September, 7,355 cigars were shipped from the Philippines to the United States and 35,000 tons of sugar. These figures are accepted as a fair monthly average. At this rate of exportation there will be many less than the 150,000,000 cigars allowed free entry. Similarly, it is not expected that there will be 200,000 tons of sugar. Much of the sugar which cleared for the United States during the month of September was held back pending the action of congress so that it is likely that there will be a smaller amount shipped during the forthcoming months of the fiscal year.

## JACK DOES NOT CHEW AS HE DID

Government Cuts Down Order for Chewing Tobacco for Use on Vessels of Navy.

WASHINGTON, Nov. 20.—The traditional man-of-war-man who made it a practice to roll his quid to the other side of his cheek and spit on hands before taking to the guns is decidedly a thing of the past, according to the reports of the navy department.

The quid of chewing tobacco is no longer an essential characteristic of the man behind the guns. He is coming to the conclusion that he doesn't care for chewing tobacco, or that it is not a nice habit, or that he hasn't time to chew and be about his business, too. Last year the navy department contracted for 220,000 pounds of chewing tobacco for the use of the men on the fleet. This year the contracts will call for about 70,000, less than one-third of that amount.

There was a time when chewing tobacco was as important a feature of the ship's commissary as the allowance of grog was to Captain Kidd's crew and Captain Marray's sailors. But the modern sailor has changed his habits. He is a dancier sort of person by far, a cleaner cut, more orderly being, who has not lost altogether his social perspective. Nowadays the sailor prefers a cigarette to the quid of tobacco, but on the whole he is less inclined to both nicotine and grog than he has ever been before.

The Struggle Discourages Many a Citizen of Medford

Around all day with an aching back; no pleasure to acknowledge the benefit derived from the use of Doan's Kidney Pills. I suffered from a severe case of kidney complaint.
