

BOXING CONTEST PLEASING EVENT

Class of Entertainment Deserved a Much Larger Attendance—Clean Sport Prevailed Throughout the Contest.

The boxing contest Wednesday night was not as well attended as the show deserved; however, the management came out nearly even. Kid Parker was given the highball Wednesday afternoon, and it is reported queered the show at Ashland and other points along the line, and kept a good-sized bunch of sports from attending. Also the word had gone out that the show wouldn't amount to much, and a good many people who would otherwise have attended, stayed at home. From the standpoint of the fan who wants gore, and then still more gore, and the sight of a man practically helpless, beaten down and out, the bout wasn't a success; but as an exhibition of clean fighting, clever boxing and the absence of all the things which tend to discredit the boxing game, it was all right.

The preliminary was a farce, as Doan outpointed, outfought and out-generated Sullivan, and beside had the advantage of weight. Sullivan is a game youngster, but wasn't in it with his heavier opponent at any stage of the game.

In the principal event Roy Wallace of Denver went against Earl Ralston of Medford. Kid Parker was scheduled to go against Wallace, but did not appear for the reasons above given, and Ralston went on to fill out the bill. Ralston has never fought out of the amateur ranks, and the showing he made against his more seasoned opponent not only surprised the local sports, but Wallace himself. He had the advantage in weight, but was not trained for an eight-round go, and that he a little more than held his own against a man like Wallace shows his ability as a boxer. Wallace says he hurt his right when he brought Ralston to his knees with an uppercut, and claims that after that could not use the hand effectively. However, his cleverness and experience, together with a good lot of sand, carried him through the final four rounds.

"Ralston is a good, clever boy," said Wallace, "and has a wallop that hurts some. When he brought that one over on my ear in the second, in spite of the fact that we were using pillows on our hands, I sure knew that something had landed. After that I wasn't taking a whole lot of that kind."

The Medford fans are more than pleased with Ralston's showing and are ready to back him against men in his class. He was really the goods Wednesday night, and if he had had proper training would have made even a better showing.

Wallace is clever and a good, clean fighter, and a pretty decent sort of champion all around.

No decision was rendered, as it was simply a boxing contest.

CAR CONDUCTOR KILLS TWO OF HIS PASSENGERS

(United Press Leased Wire.) MEMPHIS, Tenn., Nov. 26.—An argument over a streetcar transfer was responsible today for the loss of two lives, when Miss Lilly Baker and William Moore, both passengers, were killed.

The car was crowded when Conductor J. T. Lowrey and Moore started the argument over a transfer. Becoming angered, Lowrey drew a revolver and fired at Moore. His aim was unsteady, however, the bullet striking Miss Baker, killing her instantly. Although a crowd attempted to overpower the conductor, he backed into a corner and, leveling his revolver at the passengers, held them at bay.

Lowrey then fired at Moore again, the bullet striking a vital spot, and Moore fell dead in his tracks.

In the panic following the dual shooting a number of passengers were injured.

Lowrey escaped in the attending excitement.

M'COLLOCH MAKES SENSATIONAL CHARGE

(United Press Leased Wire.) INDIANAPOLIS, Ind., Nov. 26.—Vice-President McCulloch of the United Mineworkers, this afternoon made the following sensational charge:

"There was just one reason for resealing the Cherry mine by the authorities. The mine owners wanted to burn the bodies beyond recognition so they wouldn't have to pay charges."

ENTRYMAN CALLS AFFIDAVIT LIE

Hearing Continued in Alaska Coal Cases—Gives Jolt to Government Testimony.

(United Press Leased Wire.) SEATTLE, Wash., Nov. 26.—Entryman Charles J. Smith of the Cunningham coal group today flatly contradicted the affidavit procured by Special Agent L. R. Glavis, from Clarence Cunningham, agent for Smith and others, that the entrymen at one time were in agreement with him to give him a one-eighth interest in all the coal claims in the group. This statement by Cunningham appears first in the private notebook or journal procured from Cunningham by Glavis, but ordered returned by an officer in the land office at Washington. While it was in possession of the government officials a copy was made of it, and this is in evidence, though the attorneys for the claimants today attacked its contents as being but a copy, and for that reason not the best evidence.

The entry regarding the agreement says: "After patents are secured each subscriber agrees to deed his interest to a company for stock therein, but one-eighth of the stock of each subscriber shall be deeded."

An affidavit which Cunningham afterward gave Glavis says: "I have kept a record of the expenditures made in the development of these claims, and the statements which I have made in the journal which I have kept are true and correct statements of fact."

FIREMEN KILLED BY EXPLOSION ON SHIP

(United Press Leased Wire.) GALVESTON, Tex., Nov. 26.—G. Bachus and Niketzen, firemen on board the steamer Manlon, were killed by an explosion of a steam pipe off Rio Janiero, according to the report made by the officers of the vessel when it arrived here today. The Manlon plies between Liverpool, South America and Galveston. At the time of the accident all members of the crew were in bed, but quick action prevented further fatality.

DRAWING JURY TO TRY ORIS HAMILTON CASE

(United Press Leased Wire.) OLYMPIA, Wash., Nov. 26.—The Hamilton case is still in both the Thurston county superior court and the state supreme court. The superior court is still at work securing a jury, and this task will probably occupy the entire day. An application was made to the supreme court for a writ of prohibition, which, if granted, will put a stop to the proceedings now under way in the superior court. If the writ is denied, however, the jury now being drawn will try the case.

TRUST AND CHURCH

(Continued from page 1.) from the Philippines was to be limited to a quantity named by the sugar trust and this corporation on its part agreed to take the word of Aldrich and Taft for the performance of the contract. The consideration for the bargain was the influence of the trust used to secure the nomination and election of Taft. It is further charged that the secret contract between Taft, Aldrich and the sugar trust was made without the knowledge of Roosevelt and was consummated several months before the republican convention met in Chicago.

Hitchcock Also In. "In addition to Luke Wright and Aldrich, Frank Hitchcock was a party to these negotiations. It is understood that every effort will be made to head off any investigation started into the tactics of the sugar trust. The Aldrich influence in the senate will be powerful to this end.

"In the house of representatives Speaker Cannon and his ways and means committee are relied upon for the same purpose. There are two plans for heading off the investigation of the sugar trust. The first plan is to send a resolution to committee, which will be its graveyard. The second plan is to turn the investigation over to a committee packed in favor of the trust. "A packed committee could drag the matter along and incubate the records with enough dead wood to overwhelm what facts might otherwise be revealed."

ENROLLMENT IN SCHOOLS GROWS

Superintendent Smith Makes Third Monthly Report to School Board—Children Have Been Sick.

Superintendent U. G. Smith of the Medford public schools has tendered his monthly report to the school board for the third month of school as follows:

"To the Honorable Board of Education: I herewith submit to you the following report of the Medford city schools at the close of the third month of school. The total enrollment of pupils is 951, an increase of 111 since the first month. The whole number of days' attendance last month was 14,031; the average attendance was 803, and the per cent of attendance was .957-10.

"There was considerable absence among the children of the primary grades, on account of sickness. The attendance in other grades and departments has been good. We are pleased to say that gratifying progress is being made in the work in all departments of the schools. There is a deepening interest among the pupils and the spirit manifested by them toward their work and each other is most gratifying.

"Results of examinations recently held show an improvement in the character of the work being done, in the interest of the pupils in their work and their grasp of principles involved, and in their power to express themselves intelligently.

The manual training and domestic science and art departments are appealing deeply to the interest of the pupils who are receiving instruction in them. That all are finding great pleasure in this work is manifest by the zeal with which they enter into the work and the painstaking efforts on the part of pupils to excel in the quality of their product. The work in the domestic science and art department has been entirely along the lines of sewing to date, but the culinary department is now ready, and work in cooking will begin December first.

The instruction in the principles of agriculture which is being taken up in connection with physical geography in the first year class in the high school, is appealing to the interest of the students, boys and girls alike. The same is true, also, of the results of this line of work which is being done in the last half of the eighth grade. The interest of the pupils in this work is such as to warrant us in concluding that the introduction of a course in agriculture into our grammar grades and the high school will not only meet with a popular desire, but it will add greatly to the efficiency of our system of schools.

TWENTY-NINE WARRIORS DEAD

(Continued from page 1.)

lungs fatally hurt on football field at Massalon.

Ray Graham, Watertown, Ia.; temple bone forced into brain in rush play at high school game.

Walter Graber, Decatur, Ill.; internal injuries in game between club teams.

Grocery Quality and Prices

The higher the quality the lower the prices! We mean that on really super-excellent groceries our prices are considerably lower than what you'll find in other stores. In fact, the majority of the groceries we carry are not to be found in any other store in town at any price—they're too fine to find ready sale in ordinary stores. That's why we make a specialty of them, at even lower prices than worthless stuffs are offered for elsewhere. Dependable groceries—cut prices: A combination thirty people will not ignore.

WE PAY
