**GARFIELD SAYS LAW IS GOOD**

**Replies to Recent Statement of Archbold in Regard to Sherman Anti-Trust Law.**

CLEVELAND, O., Nov. 27.—Former Secretary of the Interior J. R. Garfield today answered the statement of John D. Archbold that the St. Louis decision against the Standard Oil company had proved that the Sherman anti-trust law was unsatisfactory and would probably result in its repeal. Garfield said: "The statement has been made recently that the St. Louis decision was barren of victory, merely proving that the anti-trust law was unsatisfactory. Such an interpretation is unjustified. It is true that Colonel Roosevelt pointed out an unsatisfactory condition of the law and urged a change, but he only did so on the condition the government have control over the industrial corporations similar to that over regular railway and other common carriers. "The court sustained our contention that the law seeks to prohibit companies from unfair competition and the restraint of trade."

**WALL STREET GETS SCARE**

**Money and Politics Frightens Street Into Another Bad Break—Stocks Declined in Harmony.**

(United Press Leased Wire.) NEW YORK, Nov. 27.—Money and politics frightened Wall street into another bad break today. Amalgamated Copper led because it was the most vulnerable issue, but all the stocks declined in harmony, showing that the cause of the break was general and not confined to any one set of securities. In early trading when Amalgamated was weak the traders got a notion that the copper merger had been abandoned, but this is not true. Whether the merger is a bullish or bearish argument on stocks is a separate question, but the merger itself is progressing favorably. What caused the trouble was a report that Morgan and a few other favored ones had received from Washington advance drafts of the president's message.
