ROOSEVELT SAW NATIVES KILL A LION WITH SPEARS

LONDANI, British East Africa, Dec. 7.—Col. Roosevelt, his son Kermit, Edmund Heller and Leslie A. Tarlton arrived here today from Guas Inghisu Plateau. All are in splendid health. Col. Roosevelt expressed himself as delighted at again meeting R. J. Cunningham and others of the American party who awaited him here. Col. Roosevelt is greatly elated over the success of the hunt on the plateau. Among the thrilling sights witnessed was lion killing with spears by Maui warriors.

This evening the party proceeded to Njoro, where they will be the guests of Lord Delamere on his ranch until December 10, when they will go to Nairobi.

GOTHAM GETS LARGEST BLOCK

Flowers, Fountains, Trees, for \$8.-
000,000 Office Building Over-
looking Battery in New
York City.

NEW YORK, Dec. 7.—New York's largest skyscraper will cast its shadow over the battery.

Towering thirty-one stories above the ground, it will contain 11,000,000 cubic feet with a rentable area of 550,000 square feet. In it will be ten miles of plumbing, twenty miles of steam pipe, sixty-five miles of conduits and wiring and 3,000 electric fixtures.

From the curb to the roof it will measure 416 feet. In building it will be used 14,000 tons of structural steel, 7,500,000 common bricks, 900,000 face bricks, 45,000 barrels of cement, 535,000 square feet of floor arches, 266,000 cubic feet of slender fill, 125,000 square feet of girder covering, 450,000 square feet of partition tile, 120,000 square feet of column covering, 210,000 square feet of wall furring, 5,500 cubic yards of caissons, 17,000 cubic yards of earth excavation, 2,150 cubic feet of granite, 20,000 cubic feet of Indiana limestone, 3,000 tons of ornamental terra cotta, 65,000 square feet of wainscot, 85,000 square yards of plaster, 400,000 lineal feet of surface sleepers, 800,000 feet of comb grain yellow pine flooring, 2,300 windows, 60,000 square feet of glass, 5,000 doors, 280,000 pounds of window weights, 36,000 feet of copper chain, 450,000 feet of ground, 80,000 feet of picture mould, 80,000 feet of base.

Cinders required for floor arches and between sleepers of the floors will fill 500,000 cubic feet—approximately 25,000,000 pounds. It represents the consumption of 125,000 tons of coal, sufficient to develop 55,000,000 horse power hours of energy.

There will be 2,100 horse power boilers, 2,000 horse power in engines, 1,200 kilowatts in generator capacity, 65,000 square feet of radiator surface, 190,000 candle power in electric lights.

Old buildings on the site are being torn down. The structure will be an addition to the twenty-five Whitehall building. The completed skyscraper will front 307.2½ feet on Battery street, covering 51,515 square feet, or twenty-one city lots. It will cost \$8,000,000.

The United States Realty and Improvement Company announced yesterday that it had purchased the stock of the Battery Place Realty Company, which will build the skyscraper at once. The architects are Clinton & Russell.

On the Washington street front will be a park, with gardens, lawns, fountains, trees, over which the offices will look. The park will be 100 feet wide and 200 feet deep.

SPECIAL AGENT LOOKS FOR LAND OFFICE BOOKS

JUNEAU, Alaska, Dec. 7.—William K. West, a special agent of the general land office today secured from the local court, a search warrant alleging that certain books in the United States land office here have been secreted. The warrants have been placed in the hands of the United States marshal. The books are said to have a bearing on the coal land cases now under investigation at Spokane.

RUIZ WILL NOT HAVE TO GO BACK TO MEXICO

SAN ANTONIO, Texas, Dec. 7.—Inez Ruiz, who has been held here for two months awaiting extradition to Mexico on a charge of murder was released here today, the governor holding that the evidence against him was not sufficient to warrant holding. Ruiz was one of the leaders of the Garza revolt in 1892, and served ten years in a Mexican prison for his offense.

SNOWS BLOCK WORK IN WOODS

Nearly All Mills in Washington Closed Owing to Heavy Fall of Snow Over That State.

WOODLAND, Wash., Dec. 7.—The recent cold snap and snowstorm has resulted in the closing down of nearly all the mills and logging camps of Lewis River, some of which will not re-open until after the holidays. It is rumored that one of the largest mills on the river will not operate again under the old management, and the losses of the past year on account of breaks in the booms at the mouth of Lewis river may deter some of the loggers from again putting logs into Lewis river. The immense timber holdings that are on the river will have to adopt other means of getting their timber out.

AMERICAN WIFE OF YOUNG ZELAYA

WASHINGTON, Dec. 7.—In the executive mansion at the capital of Nicaragua is a young Washington woman, formerly Miss Marguerite Baker, daughter of W. W. Baker of the postoffice department. She is the wife of C. Alfonso Zelaya, son of the president of Nicaragua.

About two years ago Miss Baker, then not much more than a schoolgirl, met Alfonso Zelaya, who was at school in Washington. It was a case of love at first sight, and they were married soon afterward. Recently, through some misunderstanding with her parents-in-law, the bride had to go to work. She got a position as musician in a moving picture show in Washington. Her husband also was engaged. Their joint earnings barely supplied their wants. After a while an invitation from President Zelaya they went to Nicaragua, and there the year now.

The parents of the young wife have not heard from her since September 1, and they do not know whether she is dead or alive.

COLD WOMEN BEG DRINKS AND GIVER IS ARRESTED

MIDDLETOWN, Conn., Dec. 7.—The town of Old Saybrook, which voted to go dry for the first time within a score of years, is excited at the arrest of H. C. Chapman, proprietor of Ye Olde Saybrooke Inn. The arrest was caused by two women detectives, Mrs. Verna S. McCormack of New Haven and Mrs. Maria McCormack of Boston.

HOME CURE FOR ECZEMA

Oil of Wintergreen, Thymol, Glycerine, Etc., Used as a Simple Wash.

It really seems strange that so many people suffer year in and year out with eczema, when it is now of longer a secret than oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderful soothing, calm, cool, sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits.—Medford Pharmacy company, druggists.

ROMAN ROAD ACROSS COUNTRY

Starting From Ashland Main Road North Will Be Covered With Crushed Stone.

(Tidings.) Growing out of the action of the county court a short time ago, perhaps when it ordered the unmentionable condition of the main county thoroughfare out of Ashland northward toward Talent, improved with crushed rock, has come an agitation for the continuance of the improvement northward through the county until the main highway across Jackson county shall be, if not a Roman road, different from anything Oregonians have been accustomed to be satisfied with in the past.

The project for the crushed rock improvement of the road leading into Ashland from the north is held in abeyance temporarily and perhaps until spring, owing to the unexpected antics of the weather man, who with his freak actions has played havoc with many an out of door plan this fall. The county court had arranged for securing a large amount of crushed rock from the Warren Company's plant below Eagle Mills, used in the recent paving operations in Ashland. It was to be gotten out after certain work in Medford was completed, and Roadmaster True had his plans set to go at the work of placing the rock when all plans of the Warren Company were knocked into a cocked hat by the weather man. It is reported that they have suspended work on their paving contract at Medford until spring, which it is expected carries with it a suspension of the much needed road improvement project for a like period, unless the county crusher outfit should be called into requisition after the unfavorable weather condition now prevailing are past.

Meantime the road into Ashland from the north is as fierce as ever, and, in fact, all but impassible, having been greatly aggravated by the heavy hauling of last summer and fall by the paving company's outfits to and from the rock crushing plant. Jackson county has made more progress in road building in the last few years than ever before in her history, notably in the administration of County Judge Dunn, whose improvement policy is being largely followed under the present regime, but there is room for great improvements yet. Everybody believes in good roads. Why not have them as far as the main county thoroughfare is concerned, at least? The county commissioners are soon to fix the apportionment of taxes for the coming year and make up the budget of probable expenses. A good round levy for road purposes will meet with less objection on the part of the taxpayers and the public than any other feature of the budget.

At the Moore—Sam Wolf, Salt Lake; Julius Beaman, J. H. Grippin, Portland; D. C. Brophy, Carl Beeson, Ashland; E. E. Clarke and wife, Milwaukie; J. W. Palz, Redding; E. Martin, J.
