THREE LEG MAN

Did you ever hear about the man who had only two legs?

He said he didn't know as he actually needed three legs, but if he actually he felt sure he could get along faster.

It's a good deal the same with an electric sign.

An electric sign isn't an actual necessity to your store, but it would help you to "get along faster."

There isn't any doubt about it.

It's as sure as the sun will rise tomorrow morning.

Doesn't it stand to reason that an electric sign in front of your store would flash out its message to your people more brilliantly, strikingly and impressively than any other form of sign?

Isn't it a hard fact that no other sign is fit for night work?

Can't you see yourself, that an electric sign would attract folks all along the street and impress your name and exact location in their minds?

Don't you realize that an electric sign would offer you the best night advertising you could secure?

An electric sign is better than a daytime sign, for the simple and logical reason that, in the daytime, everything is visible, while, after dark,

clerk, returned Wednesday from her Christmas vacation which she spent at Portland.

In Memory of His Old Time Friend, S. H. Glass

(By J. G. Martin.) Mr. S. H. Glass, who fell dead so suddenly with heart disease on the morning of December 22, 1909, at his pretty farm home one mile west of Antioch school house was 75 years old and one of the best known residents and prosperous farmers north of the county and a highly esteemed citizen of the county and the place where he lived for the past 20 years.

He was always active in the improvement and development of his neighborhood and a faithful and consistent christian until death; a clean, practical farmer, a devoted husband and father. He leaves a most estimable wife, Mrs. Susan Glass, three sons and three daughters, all married except the second son, Elbert, to mourn their irreparable loss. He was laid quietly to rest in Antioch cemetery by a host of relatives and sorrowing friends.

Ordered Out the White Flag Today and Soon After Shower Begins—Temperature Low.

The weather man switched the cut last night and instead of the white flag indicating clear weather, which has been flying for several days, the blue one, meaning storm, is now flying.

The temperature in the mornings for the past week has been hovering about the 30 degree mark, but this morning the thermometer had risen and cloudy skies foretold falling weather. It is a mere matter of guess at the weather here under existing conditions, and aching corns or grandfather's rheumatism are just as much of a criterion as any other information to be had.

However, next year Medford will have a government station and the people of the valley will be kept posted by the Mail Tribune on weather conditions and probabilities.

LIGHTED STORES

It's the lighted store that carries the weight with the people.

We will go further than this and say: "It is the electrically lighted store that carries the weight with the people."

A dingy, gloomily lighted store does not attract people.

It excites suspicion.

It belittles your wares.

It dulls your clerks.

It gives customers the mopes.

It makes sales harder.

Install electric lighting in your store and draw the people to your store and they money into your cash register.

It's very cheer invites them.

It shows off your goods to the best advantage.

It shows them just as they are, true to color, tint, material and texture.

Don't try to worry along with passe forms of lighting. Keep in step with progress. Meet our representative and talk things over with him.

30 NEW HANDS HAVE LOST LIVES

Men Put at Work to Replace Strikers Are Careless and One Dies Each Day in Accidental Manner.

MINNEAPOLIS, Minn., Dec. 30.—Since the beginning of the switchmen's strike that has demoralized freight traffic in the northwest for nearly a month, thirty men have lost their lives in the various railroad yards affected, according to a report made to the governor today.

The fatalities for the most part are said to have been among inexperienced switchmen, who were working as strike-breakers. The accidental death rate averaged almost one each day since the beginning of the strike.

There is little change in the strike situation here today. The railroad officials declare that so far as they are concerned, the strike is over. Strike leaders, however, are emphatic in their declarations that they will fight to the end.
