#### A BUSINESS PROPOSITION.

If Medford's civic affairs have been well managed during the past year, and it is the concensus of opinion they have, then the present administration should be re-elected.

In the First ward Councilman Merrick has served his constituents well. He has given freely of his time in the public interest. He deserves re-election if anyone ever did.

No recorder the city ever had has given better satisfaction than R. W. Telfer. The business of the office has doubled and trebled, yet Mr. Telfer handles it at once tactfully and efficiently. It is no small task and requires no little ability to conduct this trying office as satisfactorily as Mr. Telfer has, and he is a far too valuable man to think of losing.

It is a matter of regret that there should be an opposition ticket in the field, but it is impossible to please everyone, which accounts for the activity of those seeking office.
