CALIFORNIA FRUIT CROP REVIEWED

California Fruit Distributors Issue Bulletin to the Trade, Reviewing Conditions.

The California Fruit Distributors have issued the following review of the 1909 fruit season to the trade: We take this opportunity of giving you a brief review of the season's shipments according to varieties, and in order that you may make a comparison as to the size of the crop we will also give the shipments of the preceding year.

Cherries.
The first carload of cherries for the season was shipped May 5th. The season's shipments amounted to 259 cars. The demand for cherries in the auction markets is very large, and practically all of this fruit is shipped to the larger cities for sale there, not much of this fruit being available for f. o. b. shipment.

Apples.
The apricot crop as we told you early in the season was very light. In spite of this however, we had as much fruit as was necessary for eastern shipment, which this season amounted to 208 cars. This was exceeded in 1908 when the total shipment reached 231 cars.

Plums.
The shipment of this variety reached a total of 1526 cars. For 1908 the total was 1763. Most of our plums were sent to the auction markets, but there is a strong and growing demand throughout the west and we believe that this territory in time will become a heavy consumer of this most desirable fruit. We are propagating a great many of the large and fancy varieties and in the course of a few years will have a large output of most magnificent fruit of this description.

Peaches.
The peach shipment for the season reached a total of 2599 cars, exceeding that of last season by 620 cars. California has a large amount of peaches available for eastern shipment, which can be drawn upon in time of need almost beyond limit. A car shortage which took place about the middle of the season affected the output materially.

Pears.
The shipment of this fruit reached a total of 2635 cars, the total for 1908 being 2701 cars. The crop of this variety was not nearly as large as that for 1908, but a larger percentage was shipped. The fruit was of good quality and gave very general satisfaction.

Grapes.
The grape shipment for 1909 reached a total of 5875 cars, considerably exceeding that of 1908, when the total was 3812. The quality of the fruit was generally very good, but owing to a variety of causes the returns were very disappointing, and very many of our growers have little or nothing to show for their shipments.

Apples.
The eastern apple shipment for the season amounted to 2158 cars. In 1908 there were 2201 cars shipped.

A careful perusal of the foregoing figures will give you a comprehensive idea as to the scope of the fruit business in California today. We have a constantly increasing acreage, and expect to be able to keep up with the demand. We hope to make California fruit so popular with your trade that we can ship to you in increased quantities every year. The growers of this state are waking up to the fact that more care and attention must be given to the grading and packing of our fruit, and steps have already been taken in the principal fruit growing centers to standardize the pack, and to eliminate from our shipments all poor or defective fruit so that every specimen shall be as nearly perfect as it is possible to get it. It will probably take some time to arrive at a state of absolute perfection in this respect, but an effort will surely be made, and we hope for such complete success that the name "California" stamped upon a box or a crate shall be ample guarantee of the good quality of its contents.

"EAST IS OLD, WEST IS YOUNG," SAYS ZUEBLIN
NEW YORK, Jan. 6.—"A celebration of the Bohemian Club of San Francisco would make Broadway's New Year's eve look like a funeral,"

said Professor Charles Zueblin, formerly of the University of Chicago, in the first of a series of ten lectures on "The Dynamic West," delivered last night to club women.

Professor Zueblin is impressed with nothing in New York City except its cleanliness. In all else, he says, the west excels. He told his audience that the east was too bound down by conventions.

"The east is old and the west is young," said the professor. "Western universities, newspapers, manners, railroads, brains—all are superior. There are five newspapers published in five western cities which exercise more in fluence than all the papers published on the Atlantic."

PRESIDENT OF YALE FAVORS THE OLD GAME

NEW HAVEN, Conn., Jan. 6.—President Hadley of Yale, upholds football in a statement published here. He says:

"Football at Yale during the present season has worked very well. We had a number of sprained ankles, but only two or three cases of more serious injury. I doubt whether this is a worse record than that of baseball. "At any rate it is a small price to pay for a game which diverts energies of one kind of boys from rowdiness and another kind from drinking. "If we want to eliminate mass play, we may do so merely by abolishing all gridiron lines and making one comprehensive rule that the ball changes hands on every down unless the opponents have had a fair and equal chance to get possession of it. This would abolish mass play, root and branch."

Medford, Oregon: This certifies that we have sold Hall's Texas Wonder for the cure of all kidney, bladder and rheumatic troubles for ten years, and have never had a complaint. It gives quick and permanent relief. 60 days' treatment in each bottle. Medford Pharmacy.
