LA FEAN BILL IS SLIGHTLY REVISED

New Text Leaves Out a Few Objectionable Features, But is Still Menace to Growers.

Following is the text of the revised La Fean box bill, as it will be presented to congress. Some of the objectionable features of the first bill were eliminated but not all of them. If this bill is passed every box of apples shipped from the northwest, if the present size box is maintained must be marked "short box."

"That for the purposes interstate and foreign commerce and commerce within the District of Columbia or the territories of the United States, the term 'closed package for apples' basket in which the apples cannot readily be seen or inspected.

"That the standard closed packages for apples which shall be shipped or delivered for shipment in interstate or foreign commerce or sold or offered for sale within the District of Columbia or the territories of the United States are as follows:

"The standard box package for apples is a box having a capacity of not less than two thousand three hundred and forty-two cubic inches, when measured level full without distension of its parts.

"The standard barrel package for apples is a barrel of the following dimensions when measured without distension of its parts: Length of stave, twenty-eight and one-half inches; diameter of head, seventeen and one-eighth inches; distance between heads, twenty-six inches; circumference of bilge, sixty-four inches outside measurement.

"That the standard grades for apples which shall be shipped or delivered for shipment in interstate or foreign commerce, or which shall be sold or offered for sale within the District of Columbia, or the territories of the United States, are as follows:

"Apples of one variety, which are well grown specimens, hand-picked, of good color for the variety, normal shape, practically free from insect and fungus injury, bruises and other defects, except such as are necessarily caused in the operation of packing, or apples of one variety, which are not more than ten per centum below the foregoing specifications, are standard grade 'U. S. Size A.' If the minimum size of the apples is two and one-half inches in transverse diameter; or are standard grade 'U. S. Size B,' if the minimum size of the apples is two and one-fourth inches in transverse diameter; or are standard grade 'U. S. Size C,' if the minimum size of the apples is two inches in transverse diameter.

"That apples in closed packages shall be deemed to be misbranded within the meaning of the act, approved June 30, 1906, entitled 'An Act for preventing the manufacture, sale, or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs, medicines and liquors, and for regulating traffic therein, and for other purposes' (34 Stat. 768), in the following cases:

"If the package bears any statement, design or device indicating that the package is a standard closed package for apples, as herein defined, and the capacity of the package of apples, as herein defined, and the capacity of the package is less than the capacity prescribed by section 2 of this act for standard closed box packages, or standard closed basket packages, or standard closed barrel packages for apples, as the case may be.

"If the capacity of the package is less than the capacity prescribed by section 2 of this act for standard closed basket packages, or standard closed barrel packages for apples, unless the package shall be plainly marked on end and side, in the case of boxes, with the words 'Short Box,' or with the number of cubic inches the box actually contains; or, in the case of baskets, with the words 'Short Basket,' or with words or figures showing the fractional relation which the actual capacity of the basket bears to the capacity prescribed by section 2 of this act for standard closed basket packages for apples; The marking required by this paragraph shall be in black letters of size not less than seventy-two

HILL CAMP NOW 25 MILES OF FT. KLAMATH

Surveying Crew Moving South—Have With Them Three Months' Load of Supplies.

A communication received from Odell, in the northern part of the county, states that the Hill surveying crew is moving south and is now engaged in establishing a camp at Cow Creek, on the reservation. This point is about 25 miles north of Fort Klamath. The party has taken along about three months' supplies from the main camp at Odell, which is believed to be sufficient to enable the crew to continue far enough south so that future supplies can be secured from this end.

Owners of money have to be alert for safe investments for it. They read business opportunity ads. point Times Block Gothic.

"If the package bears any statement, design, or device indicating that the apples contained therein are standard grade 'U. S. Size A,' 'U. S. Size B,' or 'U. S. Size C,' as the case may be, and the package does not conform to the requirements prescribed by section 3 of this act, for apples of the particular grade.

"If the package bears any statement, design, or device indicating that the apples contained therein are standard grade 'U. S. Size A,' 'U. S. Size B,' or 'U. S. Size C,' as the case may be, and the package fails to bear also a statement of the name of the variety, the name of the locality where grown, and the name of the packer or the person by whose authority the apples were packed and the package marked.

"That this act shall be in force and effect from and after the first day of July, one thousand nine hundred and ten."
