Services during the next and following weeks: All Wednesdays, 7:30 p. m.; all Thursdays, 3:30 p. m.; all Fridays, 3:30 p. m.; Good Friday, three hours' service from 12 to 3 o'clock. Services on Easter day will be announced later.

The cornerstone of the new church will be laid Tuesday, March 1.

CAR OF BUICKS DUE TOMORROW

Word Received That Shipment from Factory Will Reach Medford on Wednesday—First Carload of the Year.

A carload of new Buick cars of the latest models is due to arrive in Medford Wednesday, Colonel Frank L. Tou Velle, manager of the Medford Buick company, having received a notice from the railroad company to this effect.

"The new Buicks are cars designed especially to fill the needs and wants of the people of the Rogue River valley," said Colonel Tou Velle. "They combine durability, lightness, speed and power. No cars of their price in the world equals them. The new Buick five-passenger car contains more power than most cars that sell for double its money, and it can successfully climb on the high gear any hill in the Rogue River valley. The seven-passenger car is a wonder for the price. All who have seen these cars or witness the demonstrations are loud in their praises.

"The famous White Strunk, improved and strengthened over last year's model, is too well known to need comment. It is without doubt the most satisfactory car ever operated in Southern Oregon. Every owner in the valley sings its praise. It is so simple that any novice can run it and is the favorite car throughout America for light work. It does not get out of order, and runs like clockwork.

"Buicks have been in constant use both for livery and private use for the past five years and have averaged more miles at least cost to the owners than any other cars. They are not a one-year car, but are long-lived and good for four or five years, no matter what the use."

SUBSTANTIAL PEOPLE INDORSE FER-DON'S MEDICAL EXPERTS AND THEIR CURES

Bankers, Merchants, Congressmen and Above All, Others Given Up to Die, Whom They Saved From Death

Stories Told Here Were Related by Those Whom Fer-Don's Doctors Cured After Others Had Given Them Up.

Medford is just now entertaining some of the greatest medical experts that ever earned the gratitude of the sick by restoring them to perfect health. The great Fer-Don and his staff of European medical experts and bloodless surgeons are now here and located at the Moore Hotel, and have already begun a record of cures that promises to equal at least those they worked in San Francisco, Los Angeles and Oakland the last three years in California.

Following this brief summary of the church year is the order of Lenten services. Ash Wednesday, February 9, holy communion at 10 a. m.; evening prayer and address, 7:30 p. m.; offerings at both services for missions. Thursday at 3:30 p. m. Friday at 3:30 p. m. Services during the next and following weeks: All Wednesdays, 7:30 p. m.; all Thursdays, 3:30 p. m.; all Fridays, 3:30 p. m.; Good Friday, three hours' service from 12 to 3 o'clock. Services on Easter day will be announced later. The cornerstone of the new church will be laid Tuesday, March 1.

EAT NOTHING FOR DAYS

Sick and Discouraged. Was Carried From the Hospital to Fer-Don's Wonderful Story From the Lips of Mr. Mike Kasovitch.

"Down sick in bed, burning with a raging fever which seemed to scorch my very entrails and body each day, tearing away my strength and vitality; so sick that for 15 days I was unable to eat a morsel of food; lying there in the hospital in a helpless condition with a death dealing disease which baffled physicians which were attending me, friends gave me up to die, and at the last moment when I was taken from the hospital and carried up to see the great Fer-Don's medical experts and how they restored me back to health," is the simple story of Mike Kasovitch, who lives at Quincy, California.

"Fer-Don's experts are all right," exclaimed Mr. Kasovitch as he was getting ready to go out for a walk. "They certainly saved my life. I owe them a great debt of gratitude. I was almost in when brought before these master experts. For days and days I was in the hospital suffering untold misery, taking different kinds of medicine night and day—and just think, I couldn't eat a bite of food for fifteen days. Some of my friends read in the Oroville daily papers about Fer-Don's medical experts and the wonderful cures they have made and I made up my mind then and D. route—told that he had been carrying around a monster tape worm there to go and see these experts. My nurse told me I took my life into my hands if I attempted to leave the

hospital, as I was in a dangerous condition and was not able to be moved. I said I might as well take the chance so my friends immediately made the arrangements to take me to Fer-Don's experts. I was then carried to the Union Hotel and there given a room. Fer-Don's expert examined me carefully and found my fever was 104. Fer-Don's doctors watched my case closely, and after two days' treatment my temperature was normal, I was able to sit up and eat my meals. I have been taking treatment of Fer-Don's experts for five days now, and I am cured. I eat regularly and my fever is gone. I owe my recovery to Fer-Don's medical experts."

Fer-Don's medical experts request the readers of this paper to write to Mrs. F. Tintel, living on Sunnyside street, Medford, California, and let her tell you how these skilled cured her little daughter of blindness.

TITLE OF MONSTER PARASITE. Oroville Man Relates Experience.

Possibly the most remarkable feature of the peculiar power of Fer-Don's experts over disease which is arousing much interest in Oroville, is the fact that these doctors drive out from the human system all parasites of every description. The latest proof given was when Mr. M. H. Eicher, living in Oroville—an old resident well known by all citizens and one of Uncle Sam's mail carriers on an R. F. for several years and had tried many physicians, but all had failed to re-

wonderful treatment had accomplished for me. I can recommend Fer-Don's medical experts to everybody, as they cured me when all other doctors failed, and I am not the only one Fer-Don's experts have cured in Oroville. There are hundreds of prominent people here who owe their recovery to the skill of Fer-Don's medical experts. They cured and I know they can cure everybody who goes to see them."

OROVILLE CRIPPLE

WALKED THREE MILES

Jack Uher, Paralyzed for Years; Two Treatments by Fer-Don's Medical Experts worked wonders.

OROVILLE CRIPPLE

"I just want to thank Fer-Don and his experts," exclaimed Mr. Jack Uher of Oroville last Saturday as he walked up the stairs of the Union hotel building leading to the offices of Fer-Don's medical experts. A large crowd was waiting in the reception room, each person waiting his or her turn to see Fer-Don's doctors. Just then Fer-Don himself came out and met Mr. Uher and told him to take a seat for a few minutes. "But," said Mr. Uher, "I just came up to tell you how I am getting along. The crowd gathered

around me. I wouldn't have believed it. But it is a fact. I am getting better every day. See, I can also whistle." And Mr. Uher began whistling a tune. "When I was first paralyzed it took away my speech also. And I am so glad I am getting well. I can feel new life coming back. I can feel the blood coursing through my paralyzed side."

The crowd having heard Mr. Uher's story and seen with their own eyes, calli

became convinced that Fer-Don's medical experts deserved great credit in the case of Mr. Jack Uher of Oroville.

RELIEVED OROVILLE

MAN OF A TUMOR

Mr. C. B. Eagan, Living at 15 Mitchell Avenue, Undergoes Bloodless Operation—No Knife Was Used, No Blood, No Pain Experienced—Fer-Don's Medical Experts Did It.

The people of Oroville perhaps saw for the first time the wonderful method of bloodless surgery demonstrated in public before the very eyes of excited thousands who attended the great Fer-Don's public demonstrations. A great deal of talk had been going around that Fer-Don's bloodless surgeons were going to remove a tumor in full view of the public, and in fact the whole city turned out to see for themselves. As Fer-Don stated, no knife was to be used, no blood to be seen, and no pain. It almost seemed impossible to do such a thing.

Different Strata of Humanity.

Consequently a large crowd of people turned out. It was a good natured, motley crowd, mixed here and there with different strata of humanity. You could see the merchant and his wife, banker and hard working men standing side by side, all eager to see. One professional man was heard to say, "I have read and heard of Professor Lorenz, the great Austrian bloodless surgeon, but I never saw the work, and don't believe any tumor can be removed without using a knife." Mr. C. B. Eagan, who lives at 15 Mitchell avenue, took a seat in front of the public, submitting himself to Fer-Don's medical experts. A tumor in the right side of Mr. Eagan's head was exposed in full view of the audience, and then appeared Fer-Don's bloodless surgeons and, without using any knife, they removed the tumor in less than five minutes. Not one drop of blood was shed. The tumor was passed out into the audience for public inspection. The large crowd stood dumbfounded for a moment. Then you could hear remarks—"Isn't it wonderful!" "Fer-Don's medical experts are marvelous."

After the operation Mr. Eagan was surrounded by many excited people, all eager to ask him questions. One woman said, "Didn't it hurt you, Mr. Eagan?" "I should say not," replied Mr. Eagan. "In fact no more pain than getting a shave at the barber shop. I am glad I am cured now, and I can highly praise the work of Fer-Don and his medical experts."

FER-DON IN MEDFORD.

Since Fer-Don has arrived in Medford and established offices at the Moore Hotel for his medical experts, there has been a steady swarm of people flocking at their headquarters. So much has been said and talked about Fer-Don and the wonderful cures his experts have accomplished the last three years in California, everybody is anxious to see them. It was rumored that yesterday over a hundred people called at the offices at Hotel Moore, Medford.

A charge of one dollar is made for examination. Office hours, 10 to 12 a. m.; 2 to 4 and 7 to 8 p. m.

Miss Tintel of Elmhurst, California. Cured of Blindness by Fer-Don's Medical Experts.

Here him of the horrible monster. He said, "I suffered all kinds of mental agony, my appetite was irregular, dull feeling, tired at times bloating of the stomach, dizzy feeling—and no one knows how I felt and what a great change came over me when I went to see Fer-Don's medical experts. Fer-Don's doctors knew what ailed me as soon as they saw me. They gave me just one dose of a peculiar looking and tasting medicine, and told me to go home and when I got rid of the tape worm to bring it back to their office. Well, I followed their advice and went to my house, and I was not home over two hours before I was relieved of the monster tape worm. I was so glad that I then hurried back to tell Fer-Don's medical experts what had happened and to show them what their

close to near what he had to say. "You see, Fer-Don," he said, "I am the man who came to your doctors when you first came here. I was all crippled up with paralysis, I could hardly walk; my arm and hand, also my left side, were as cold as if in the clasp of death—no feeling or sensation was apparent. For years I had been unable to get around or work. Well, I have just received two treatments from your experts, and I am so much benefited that I walked three miles this morning—and just look what I can do." And as Mr. Uher said this he raised his paralyzed arm above his head. "See!" he exclaimed. "I can raise my arm, something I couldn't do before I saw Fer-Don's experts. If anybody had ever told me that Fer-Don's medical experts could have done me as much
