The General Electric Radiant Toaster

produces crisp, delicious toast, on the dining room table. It makes toast by radiant heat-the correct way. The center of the bread becomes heated before the outside is browned over, thus allowing the necessary chemical changes to take place, without which toast is soggy in the middle and hard on the outside.

The General Electric Radiant Toaster lightens breakfast tasks and quickly pays for itself by saving time and bread. Come and see a demonstration of this electrical convenience.
